If Ireland's relations with the Western world have been the object of numerous scientific publications, its links with the East have been neglected by research. The aim of this book is to redress that imbalance by proposing studies of various aspects of Ireland's interactions with the East. It is a multidisciplinary publication, dealing with some of the historical political, religious, cultural, demographic and sociological connections between Ireland - both North and South - and the East. The chapters, which offer novel perspectives for the field of Irish studies, are organised in a chronological sequence, from the mid-19th century to the present. They focus on three main areas: the links between Ireland and the Asian continent, notably India, China and Turkey, its interactions with the Jewish people and the state of Israel, and its relations with Eastern European countries, in particular Poland and Lithuania.

Issues for 18 published in 3 pts.: pt.I. Stamps of the British empire.--pt.II. Stamps of foreign countries.--pt.III. Envelopes and wrappers, post cards and letter cards: in 2 pt.: pt.I. British empire (with Egypt, Iraq and Nepal)--pt.II. Foreign countries (varies slightly)

Making money from art, rare books, coins and banknotes, forestry, gold and precious metals, stamps, wine and other alternative assets

Stanley Gibbons commonwealth stamp catalogue

**How to invest money in secure, high-return assets** Alternative assets offer a proven means of diversifying your financial portfolio away from the volatility of the markets. In the past, investors have looked to property, hedge funds or private equity to accomplish this - but the safety and high returns they sought there have perished in the wake of the 2007-2009 financial crisis. As an antidote to this, experienced investment writer Peter Temple here introduces those tangible, and often portable, assets whose returns are impressive but whose value is not so subject to unsustainable bubbles or precipitous collapse. Including everything from fine wine and rare books to stamps, art and diamonds, these alternative assets can serve as a store of value in the good years as well as in troubled times. Often with restricted supply they offer real security of value. And, though their value is concentrated in capital growth, their liquidity is often impressive; and their aesthetic appeal enduring. A detailed overview of each sector is presented, including: - the size and shape of the market, and its key historical and modern trends - collecting areas and portfolio strategies for investors of all sizes - the degree of volatility or cyclicality in the market, as well as its liquidity - the long-term returns that can reasonably be expected based on the past - whether or not there are tax advantages available - how best to buy and sell, and through whom. The book also provides extensive directory resources for where to go for more information - and where to start investing - with each tangible investment area. This comprehensive and authoritative book shows investors and their advisors how they can use tangible assets as a means of diversifying a portfolio and securing wealth for the long term. It is an essential handbook for anyone interested in making rare, valuable and often beautiful possessions a part of their investment strategy.

This long-awaited new edition of the King George VI stamp catalogue will be invaluable to the collector of this extraordinarily popular area of collecting. It is now up-to-date in line with the Commonwealth & Empire Stamps 2010 and contains definitive information about the stamps of this popular reign. Completely redesigned into the popular new Stanley Gibbons format with increased page size and attractive design - transforming the ease of use and accessibility of the information. Includes stamps issued both Great Britain and Commonwealth countries during King George VIth's reign. Full colour throughout, all design stamps now illustrated with well over 760 images.

Stanley Gibbons Stamps of the World

The Scott Catalogue of postage stamps, published by Scott Publishing Co, is updated annually with hundreds of thousands of changes and lists all the stamps of the entire world . From its humble beginning as a 24-page bound pamphlet, the multi-volume set now list more than 700,000 stamps from 600 different postal entities. Because of the size of each Volume, the 2021 edition has each volume split into a part A and B. So when purchasing you are obtaining the volume set of part A and B. Scott Publishing publishes a total of eight large volumes that include six volumes containing all the countries of the world, the United States Specialized Catalog, and the 1840-1940 Classic Specialized Catalogue (covering the world for the first 100 years that stamps were issued). The numbering system used by Scott to identify stamps is dominant among stamp collectors in the United States, Mexico, Canada and through out the world. It is a must for any researcher or stamp collector
