

Start Late Finish Rich Canadian Edition Canadian Edition

Do you overspend? Undersave? Keep secrets about money from a spouse or family member? Are you anxious about dealing with your finances? If so, you are not alone. Let's face it—just about all of us have complicated, if not downright dysfunctional, relationships with money. As Drs. Brad and Ted Klontz, a father and son team of pioneers in the emerging field of financial psychology explain, our disordered relationships with money aren't our fault. They don't stem from a lack of knowledge or a failure of will. Instead, they are a product of subconscious beliefs and thought patterns, rooted in our childhoods, that are so deeply ingrained in us, they shape the way we deal with money our entire adult lives. But we are not powerless. By looking deep into ourselves and our pasts, we can learn to recognize these negative and self-defeating patterns of thinking, and replace them with better, healthier ones. Drawing on their decades of experience helping patients resolve their troubling issues with money, the Klontzes describe the twelve most common "money disorders" - like financial infidelity, money avoidance, compulsive shopping, financial enabling, and more — and explain how we can learn to identify them, understand their root causes, and ultimately overcome them. So whether you want to learn how to make better financial decisions, have more open communication with your spouse or kids about the family finances, or simply be better equipped to deal with the challenges of these tough economic times, this book will help you repair your dysfunctional relationship with money and live a healthier financial life.

Internationally bestselling financial advisor David Bach's Automatic Millionaire promotes a revolutionary system for making even the most undisciplined money managers rich. The Automatic Millionaire shows how to change their financial practices and even their lives, the simple and automatic way. The book begins with a powerful story about an average Canadian couple — he's a low-level manager, she's a saleswoman, their joint income never exceeds \$55,000 a year, yet who somehow manage to own two homes debt-free, put two kids through college, and retire at fifty-five with more than \$1 million in savings. The secret that the book delivers is that the key to getting rich is "automating" the way to wealth by "paying yourself first," using automatic funded retirement accounts and money market accounts to secure the future. This concise guide that's a fixture on bestseller lists, The Automatic Millionaire introduces readers to a system that is powerful and simple — an automatically effective, life-changing system that delivers results automatically.

To be a missionary to Canadian Indians in the late 1800s meant you had to be brave and relentless. It meant nearly freezing when sleeping outside in 50-below-zero weather. It meant canoeing up to 100 miles to reach remote Indian villages. It meant eating wild cat and other stranger things, or eating nothing for days at a time. But it also meant you were privileged to present the good news of the Gospel to those who were often misunderstood and mistreated. The adventures in this book are rivaled only by the incredible conversions of those who saw the Creator in nature and then worshipped Him too. You will be inspired by the results of one man who went where the Lord led, with little regard for himself.

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a while, but you sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow apart asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you want versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be made. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Wealth is the grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your own wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Say the things they say? Fear. Anger. Mental instability. Revenge. Sometimes there is no clear motive at all. The absence of why is where speculation is born. Speculation can kill a man. On October 9, 1970, it killed two of them. "If you want to be a dogman, you better be prepared for anything."-Sgt. W.J. O. Regitnig (Reg. #17364)

Will Ferguson's first book in three years, following on the back-to-back successes of How to Be a Canadian (over 110,000 copies sold) and Happiness™ (Winner of the Leacock Medal for Humour). Will Ferguson has spent the past three years criss-crossing Canada and back again. In a helicopter above the barrenlands of the sub-Arctic, in a canoe with his four-year-old son, aboard seaplanes and along the Underground Railroad, Will's travels have taken him from Cape Spear on the coast of Newfoundland to the sun-dappled streets of Olde Victoria. In his last book, Will told us how to be Canadian; now in this book, he will tell us what it means to be Canadian. And what Will finds out along the way is that Canada in its development and in its current state is really a series of outposts — not only geographically but culturally. Will's journey takes him to far-flung isolated communities as well as deep into Canada's urban centres. From the "million-acre farm" that is P.E.I. to the tobacco belt of southern Ontario, from the architectural mess that is Montreal to the glorious jumble that is St. John's, from a renegade republic in northwestern New Brunswick to a tundra buggy in the polar bear migration paths of Hudson Bay, Will explodes the myths of who we are. Funny, poignant and insightful, Beauty Tips from Moose Jaw is a provocative tribute to our quirky and fascinating country. Excerpt from Beauty Tips from Moose Jaw In one particular seedy St. John's pub, I was adopted by a work crew from Portugal Cove who took an immediate, almost antagonistic liking to me. "You're from Alberta, you say? I have a cousin in Fort McMurray, maybe you know him." (Everybody in Newfoundland has a cousin in Fort McMurray.) The crew from Portugal Cove tormented me with screech and second-hand smoke as they regaled me with tales of how their families were so poor "back when" that all they could afford to eat were lobsters. This was not the first time I had heard this. Apparently half the population of Newfoundland has subsisted on lobster at some point or other.

Deborah Price left the financial services industry when she discovered that the best financial advice or plan couldn't help clients solve their core money issues. She went on to pioneer the field of money coaching because people's financial struggles are "more psychological and emotional than they are practical." Each chapter in The Heart of Money – on topics including breaking through taboos, learning the language of financial intimacy, assessing money patterns, understanding money "types," and facing setbacks and crises – is packed with strategies and exercises, as well as real-life coaching excerpts from Price's clients. Couples learn to get past secrecy, shame, fear, and ignorance to become a team working toward shared goals. Though money can't buy love, money issues can chip away at it. Price demonstrates how to co-create the kind of financial foundation that strengthens, rather than threatens, intimacy.
