Light Before Day

Sportswriter

The Still

Offers a look at the career of the sportswriter from his start in Nashville to his syndication in 100 newspapers, and examines his personal relationship with such athletes at Babe Ruth, Jack Dempsey, and Bobby Jones

This volume of poetry takes its title from Rembrandt's painting, a dark emblem of femininity, violence, and the viewer's troubled gaze. The collection shatters the notion of a still life, and presents the painting in pieces. With invention and

irreverence, the poems escape their gilded frames and overturn traditional representations of gender, class, and luxury. Details from this gallery of lives in shards hide more than they reveal, like fragmented memories, waiting until they are reassembled into a whole.

Winner of the 2016 CCCC Advancement of Knowledge Award and the 2016 CCCC Research Impact Award In Still Life with Rhetoric, Laurie Gries forges connections among new materialism, actor network theory, and rhetoric to explore how images become rhetorically active in a digitally networked, global environment. Rather than study how

an already-materialized “visual text” functions within a specific context, Gries investigates how images often circulate and transform across media, genre, and location at viral rates. A four-part case study of Shepard Fairey’s now iconic Obama Hope image elucidates how images reassemble collective life as they actualize in different versions, enter into various relations, and spark a firework of activity across the globe. While intent on tracking the rhetorical life of a single, multiple image, *Still Life with Rhetoric* is most concerned with studying rhetoric in motion. To account for an image’s widespread circulation and emergent activities, Gries

introduces iconographic tracking—a digital research method for tracing an image’s divergent rhetorical becomings. Yet Gries also articulates a dynamic set of theoretical principles for studying rhetoric as a distributed, generative, and unforeseeable event that is applicable beyond the study of visual rhetoric. With an eye toward futurity—the strands of time beyond a thing’s initial moment of production and delivery—Still Life with Rhetoric intends to be taken up by those interested in visual rhetoric, research methods, and theory. First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

Condoleezza Rice: An American
Life

The last ten years have witnessed an enormous growth in American interest in Asia and Asian/American history. In particular, a set of key Asian historical moments have recently become the subject of intense American cultural scrutiny, namely China's Cultural Revolution and its aftermath; the Korean American war and its legacy; the era

accounts for this cultural and
literary preoccupation, exploring the
corresponding historical-political
situations that have both
circumscribed and enabled greater
cultural and political contact
between Asia and America.
Luanne Rice is a rarity among

storyteller. Her unique ability to

Condoleezza Rice's life began in Birmingham, Alabama in the 1950s, a place and time where black people lived in a segregated parallel universe away from their white neighbors. She grew up during the violent and shocking 1960s, when bloodshed became a part of daily life in the South.
