Up until the late sixties in Ireland,
thousands of young children were sent to

Popular belief held that these schools were orphanages or detention centers, when in reality most of the children ended up at the schools because their parents were too poor to care for them. Mary Raftery's award-winning three-part TV series on the industrial schools, *States of Fear*, shocked Ireland when broadcast on RTE in 1999, prompting an unprecedented response in Ireland—hundreds of people phoned RTE, spoke on radio stations and wrote to newspapers to share their own memories of their local industrial schools. Pages of newsprint were devoted to the issues raised by the series, and on the 11th of May, the airdate of the final segment of the trilogy, the Taoiseach issued an historic apology on behalf of the state to the victims of child abuse within the system. Now, together with Dr. Eoin O'Sullivan, Raftery delves even further

into this horrifying chapter of Irish life, revealing for the first time new information from official Department of Education files not accessible during the making of the documentaries. It contains much new material, including startling research showing a level of awareness of child sexual abuse going back over sixty years, particularly within the Christian Brothers. The dissection of these official records, detailing sexual abuse, starvation, physical abuse, and neglect, together with extensive testimony from those who grew up in industrial schools convey both the extraordinary levels of cruelty and suffering experienced by these children, and their tremendous courage and resilience in surviving the often savage

"a terrifying novel filled with impossible decisions [and] a stark, brutal, and chilling vision of the end of days" (David Moody, author of Hater). SO MANY MOUTHS TO FEED It begins on an ordinary day: children around the world are dying. All children, everywhere—a global crisis beyond any parent's worst nightmare. Then, a miracle beyond imagining: three days later, they return. Shattered mothers and fathers see their sons and daughters happy and whole once more, playing and laughing as before—but only when they feed. They hunger for blood...and they can't get enough upon which to feast. Without it, they die again. How far would you go to keep someone you love alive? Sister Fidelma is summoned to the court of the King of Muman to solve two murders and ensure that the crimes do not ignite a war, but the nun soon

discovers that there are far more sinister forces at work than mere political intrigue, in a mystery set in seventh-century Ireland.

In this affecting and innovative global history—starting with the European children who fled the perils of World War II and ending with the Central American children who arrive every day at the U.S.this. southern border—Anita Casavantes Bradford traces the evolution of American policy toward unaccompanied children. At first a series of ad hoc Cold War-era initiatives, such policy grew into a more broadly conceived set of programs that claim universal humanitarian goals. But the cold reality is that decisions about which endangered minors are allowed entry to the United States have always been and continue to be driven primarily by a "geopolitics of compassion" that

imagines these children essentially as tools of political statecraft. Even after the creation of the Unaccompanied Refugee Minors program in 1980, the federal government has failed to see migrant children as individual rights-bearing subjects. The claims of these children, especially those who are poor, nonwhite, and non-Christian, continue to be evaluated not in terms of their unique circumstances but rather in terms of broader implications for migratory flows from their homelands. This book urgently demonstrates that U.S. policy must evolve in order to ameliorate the desperate needs of unaccompanied children.

The publication of the King James version of the Bible, translated between 1603 and

1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance. Tom Perrotta's thirty-ish parents of young children are

a varied and surprising bunch. There's Todd, the handsome stay-at-home dad dubbed "The Prom King" by the moms of the playground; Sarah, a lapsed feminist with a bisexual past, who seems to have stumbled into a traditional marriage; Richard, Sarah's husband, who has found himself more and more involved with a fantasy life on the internet than with the flesh and blood in his own house; and Mary Ann, who thinks she has it all figured out, down to scheduling a weekly roll in the hay with her husband, every Tuesday at 9pm. They all raise their kids in the kind of sleepy American suburb where nothing ever

This compelling work examines classic and contemporary Jewish and African American children's literature. Through close readings of selected titles published since 1945, Jodi Eichler-Levine analyzes what is at stake in portraying religious history for young people, particularly when the histories in question are traumatic ones. In the wake of the Holocaust and lynchings, of the Middle Passage and flight from Eastern Europe's pogroms, children's literature provides diverse and complicated responses to the challenge of representing difficult collective pasts. In reading the work of various

prominent authors, including Maurice Sendak, Julius Lester, Jane Yolen, Sydney Taylor, and Virginia Hamilton, Eichler-Levine changes our understanding of North American religions. She illuminates how narratives of both suffering and nostalgia graft future citizens into ideals of American liberal democracy, and into religious communities that can be understood according to recognizable notions of reading, domestic respectability, and national sacrifice. If children are the idealized recipients of the past, what does it mean to tell tales of suffering to children, and can we imagine modes of

Sister Fidelma returns in another spellbinding story of murder and intrigue in seventh-century Ireland--when the murder of a high cleric threatens to result in a bloody war between two of Ireland's kingdoms. In A.D. 644, the Venerable Dacan, a respected scholar of the Celtic Church, is murdered while on a visit to the Abbey of Ros Ailithir in the Irish Kingdom of Muman. Dacan, unfortunately, was the close confidant of the hot-headed young king of the

Sister Fidelma, an advocate of the Brehon courts, is summoned by the dying King of Muman to solve the brutal killing and also to prevent the incipient war between the two kingdoms. But, at the remote abbey, Fidelma soon discovers that there are far more sinister forces than mere political intrigue at work behind the mystery of Dacan's death. She must quickly unravel a most complicated mystery if she is to prevent the coming war--and preserve her own life as well. With a mix of historical detail and deft characterization, Peter Tremayne once again brings ancient Ireland to full, vivid life. Robin Perry's life is finally on track with her dream job and a promising

But things take a downhill turn when Gloria Reyes, an acquaintance of Ben's, asks her to admit her young son to a cancer study meant for adults and Robin, heartbroken, has to turn her down. But Gloria won't take no for an answer and begins an insidious crusade to force the issue. Amber Martin hates living with her crazy mother since her parents' divorce, but she can hardly live with her dad, who's too busy with "Miss Perfect" these days. When Amber runs into her mother's friend Gloria, she's glad to finally meet an adult who seems to be on her side. To read and better understand the story of the small, almost impish little orphaned boy in my book, one should first try walking in the shoes of this four and a half year old child. Quickly one will realise the bewilderment and confusion surrounding his small yet complicated world. As his childish years pass into boyhood and he recognises the difference between his relatively cold, loveless institutionalised way of life, and compares it with the 'outsiders' caring family structure, he can easily see the affection, love and normality he is missing in life. Notwithstanding the

Three men—a young Carabinieri captain and two privates from out of town—have burst into the doctor's apartment in the middle of the night, attacked him, and taken away his eighteen-month-old baby boy. Suffer the Little Children The Inside Story of Ireland's Industrial Schools Burns & Oates Decades of research have demonstrated that the parent-child dyad and the environment of the familyâ€™"which includes all primary caregiversâ€™"are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his

experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body

of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young

children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
