Summary of The 48 Laws of Power The desire for power is a fundamental human behavior. When one feels that he has no power over others or events, he is likely to be depressed. Everyone wants power. Those who pretend to have no desire for power are either deceiving themselves or attempting to deceive others. Power is like a drug that makes you stronger each time you taste it. The more you get, the more you want. Even though it is a fundamental human behavior, the desire for power is considered impolite and selfish. It is widely held that those who seek power must seem to have no interest in it, and on the contrary they must pretend to care only about others. The one who can disguise his pursuit of power with his care for others ends up becoming the most powerful. This seems paradoxical but the fact remains that you cannot honestly and forthrightly pursue power. You invariably have to disguise both your means and your ends. The 48 Laws of Power by Robert Greene is a collection of "laws" based on historical and philosophical anecdotes. These laws are amoral as they themselves don't take into account any sense of right or wrong. Instead, the laws focus on how one can increase their influence over any situation, regardless of their moral consequences. This book explores the nuances of manipulating people around you for establishing power. The book focuses on how to gain power in any situation, regardless of whether it's morally right or wrong, and it uses specific anecdotes from history to illustrate the "rules of power". These laws may seem scandalously frank, but you can apply them without violating any of the strictures of public morality, which, according to Robert, is the way to get the best results. In his classic 16th-century treatise that justifies and praises manipulation and occasional brutality as the best tools for those who want to hold power, The Prince, Niccolo Machiavelli wrote, "It is much safer to be feared than loved." About five centuries later, Robert Greene wrote his book, The 48 Laws of Power, re-enforcing the Machiavellian interpretation of power and the means for achieving power. In his book, Robert Greene argues, "The need for power is so fundamental, so essentially human, that when you feel you have no power over people or events, you are likely to be depressed." Greene further describes the laws of power that will show readers how to gain power and influence. Both Machiavelli and Greene want us to believe that achieving and keeping power require coercion, dishonesty and manipulation. *If you're looking to acquire power, this book is for you. If you're looking to keep the power you have, this book is for you. If you want to understand when someone is using manipulation techniques against you to gain power, this book is for you. Whether you like it or not, people want power. It's built into our DNA and it's why some people work harder than others, take risks and, yes, manipulate other people to get it. Power comes in many forms and Greene has laid out in great detail how to get it. It's the dirty secret that no one talks about, yet deep down we know it's true. How to Use 48 Laws of Power is a Machiavellian treatise for the modern age. It boasts the unique distinction of being quoted by such management luminaries as Jay Z, UGK, Kanye West, and Drake. This book is amoral, hauntingly true, and indispensable. It should be on the bookshelf of anyone who aspires to any level of success in any organization or profession. It should not gather dust but should be read regularly, according to a plan - one law a day, for example, absorbed slowly and contemplated deeply. Author Robert Greene draws on a rich variety of sources including books so threatening that they were banned by the ancient Chinese. He cites the memoirs of Machiavelli, various con men, and many others who swept aside what ought to be in order to focus on what is. It might seem that anyone who follows all of these laws in their rich, narrative detail will turn out to be a very unpleasant person. That's probably not true. getAbstract suspects, in contrast, that the person who masters the laws of power will be extremely pleasant, with winning ways and a knack for likeability, yet awe-inspiring and in control - though not always obviously so. Doesn't that sound tempting? With this book, You will learn how to influence people and gain more control over every area of your life. You can read the Summary 48 Laws of Power on the back of the book.*

Summary of The 48 Laws of Power by Robert Greene

**The instant Wall Street Journal, USA Today, and international bestseller "While the history books are filled with tales of obsessive visionary geniuses who remade the world in their image with sheer, almost irrational force, I've found that history is also made by individuals who fought their egos at every turn, who eschewed the spotlight, and who put their higher goals above their desire for recognition." —from the prologue Many of us insist the main impediment to a full, successful life is the outside world. In fact, the most common enemy lies within: our ego. Early in our careers, it impedes learning and the cultivation of talent. With success, it can blind us to our faults and sow future problems. In failure, it magnifies each blow and makes recovery more difficult. At every stage, ego holds us back. Ego Is the Enemy draws on a vast array of stories and examples, from literature to philosophy to history. We meet fascinating figures such as George Marshall, Jackie Robinson, Katharine Graham, Bill Belichick, and Eleanor Roosevelt, who all reached the highest levels of power and success by conquering their own egos. Their strategies and tactics can be ours as well. In an era that glorifies social media, reality TV, and other forms of shameless self-promotion, the battle against ego must be fought on many fronts. Armed with the lessons in this book, as Holiday writes, "you will be less invested in the story you tell about your own specialness, and as a result, you will be liberated to accomplish the world-changing work you've set out to achieve."**
