In this State Standards-aligned Literature Kit™, we divide the novel by chapters or sections and feature reading comprehension and vocabulary questions. In every chapter, we include Before You Read and After You Read questions. The Before You Read activities prepare students for reading by setting a purpose for reading. They stimulate background knowledge and experience, and guide students to make connections between what they know and what they will learn. The After You Read activities check students’ comprehension and extend their learning. Students are asked to give thoughtful consideration of the text through creative and evaluative short-answer questions and journal prompts. Also included are writing tasks, graphic organizers, comprehension quiz, test prep, word search, and crossword to further develop students’ critical thinking and writing skills, and analysis of the text. About the Novel: A classic coming of age story of fourteen year old, Sara, who lives in a small town in West Virginia. This Newbery Medal winner story centers on Sara and her troubled relationship with her remote father, her perfect older sister, and Joe Melby, a boy from school. All of these problems are quickly placed on the backburner when Charlie, her mentally disabled brother, wanders out of the house in the middle of the night and goes missing. While resolving this serious crisis, Sara discovers a great deal of herself, and when she and Joe find Charlie safe and sound, she comes to grips with the knowledge that she is comfortable with who she is and who she is becoming. All of our content is aligned to your State Standards and are written to Bloom’s Taxonomy.

The Teacher’s Book includes step-by-step guidance for presenting and teaching all the material in the Student’s Book along with suggestions for alternative approaches and extension activities. It provides complete answer keys with recording scripts for both the Student’s Book and Workbook. The keys include sample and model answers for Writing tasks. There are photocopiable Progress Tests to assess students every two units.

Pool your collective wisdom in support of your English learners! Bestselling authors Andrea Honigfeld and Maria G. Dove have returned with this new resource that compliments and expands on their previous titles on co-teaching and collaboration by addressing collaborative planning in greater depth. Co-planning is positioned as the first step toward integrative language and content instruction as regular and purposeful collaboration ensures that ELs/MLs have access to core content. Key features include: - Practical, step-by-step guidance to starting and sustaining collaborative planning for integrated language, literacy, and social-emotional development - An array of checklists, templates, and protocols for immediate implementation - Snapshots from the field provide real-life examples of co-planning in action - Beautiful full-color design with original sketch notes to bring concepts to life - QR codes that link to author interviews elaborating on key ideas

From cloud to puddle, and puddle to stream, the Little Raindrop is making its way on the remarkable journey that is Earth’s water cycle. In this inviting story–illustrated with pastels for a soft, full color–readers are taught about science and nature through a character driven narrative that leads a little raindrop on a big adventure. With an easy to follow plot that teaches precipitation, water flow, and evaporation, The Little Raindrop offers a sweet story full of learning and discovery. Featuring a heartwarming adventure from author Joanna Gray, and beautiful pastel illustrations by Dubravka Kolanovic, The Little Raindrop takes readers on a fun and educational ride through the water cycle. This is a wonderful introduction for children ages 3 to 6 about the water cycle. They will instantly connect with the cute, smiling little raindrop as it starts its journey in the clouds. The author gives wonderful, age-appropriate explanations and details about the raindrop’s journey from air to pond to stream to ocean and back into the air again, making this a wonderful first introduction to science for preschoolers. Parents will appreciate the educational value of the book, as will early educational teachers. This is the type of picture book Scholastic Book Clubs and Fairs are wanting and so it should definitely have a great reception in the school and library market, as well as the general trade. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers–picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
