The Pathology of the Eye: Histology. 1904-1905. 2vol. xiii, [2], 388, viii, [2,389]-770 p. 547 illus

Specially designed for PGs and practitioners in ophthalmology, this book presents an exhaustive exposition of infectious diseases affecting the eyes. These diseases not only are very common, but can be vision threatening as well. A sound understanding of the microbial flora relating to the eye is required to effectively diagnose and manage these diseases. This book systematically covers a wide spectrum of infectious diseases of the various parts of the eye. The book discusses each disease in terms of and middot Causative organisms and middot Clinical presentation and middot Diagnostic investigations and middot Management.
