development of comic book continuity through the case study of Superman, examining the character's own evolution across several media, including comics, radio, television, and film. Superman's relationship with continuity illustrates a key feature of the way in which people in western societies construct stories about themselves. The scope of the analysis extends from Superman's creation in the late 1930s to the recent films Man of Steel (2013) and Batman v. Superman: Dawn of Justice (2016), as well as the current
