

Superworm

The wriggly, squiggly superhero is now available on CD with a whole host of fabulous friends! Join Superworm, Stick Man, The Highway Rat, Tabby McTat and The Ugly Five in these five fantastic stories and songs by the superstar children's book pairing, Julia Donaldson and Axel Scheffler, in a gorgeous box set. This CD box-set is perfect for entertaining children on long car journeys, or for simply sharing stories at any time of the day. Five favourite stories from the superstar creators of *The Gruffalo* and *Zog* Each CD includes the full story, a listening game and song, all acted superbly by the incomparable Oscar-nominated Imelda Staunton. The set includes Superworm, Stick Man, The Highway Rat, The Ugly Five and Tabby McTat. Superworm is going to be an on-screen adventure starring Matt Smith and Olivia Coleman. Christmas 2021 Celebrating 10 years of Superworm in 2022

All of the animals are afraid of the Selfish Crocodile - he never lets them into his river, and he's always so snappy! And so when the Selfish Crocodile finds himself in terrible pain, no-one wants to help him - after all, what if he gobbles them up? But, to everyone's surprise, there is one animal in the forest who is willing to help . . . A brilliant tale of friendship, *The Selfish Crocodile* has become a picture book classic.

Mass Production of Beneficial Organisms: Invertebrates and Entomopathogens is an essential reference and teaching tool for researchers in developed and developing countries working to produce "natural enemies" in biological control and integrated pest management programs. As we become aware of the negative impact of pesticides in human health and on the environment, interest is rapidly increasing in developing biological pest control alternatives. Tremendous advances have been made in beneficial organism technology, such as insect predators and parasitoids, mite predators, entomopathogenic nematodes, fungi, bacteria, and viruses. However, developing techniques to mass produce these biological control agents is not enough if the cost of commercialization is prohibitive. Advancing mass production to the level of economic feasibility is critical, so these new technologies can compete in the open market. This book educates academic and industry researchers, and enables further development of mass production so new technologies can compete in the open market. It is also an excellent resource for those researching beneficial arthropod mass production and technologies for other uses, including for study and application in biotechnology and biomedical research. Focuses on techniques for mass production of beneficial organisms and methods of evaluation and quality assessment. Organizes and presents the most advanced and current knowledge on methods to mass produce beneficial organisms in response to the increased global demand for alternatives to chemical pesticides for biological control producers. Includes a team of highly respected editors and authors with broad expertise in these areas.

With its stylish new package, updated information on the health and environmental benefits of insect eating, and breed-your-own instructions, this new edition of *The Eat-a-Bug Cookbook* is the go-to resource for anyone interested in becoming an entomological epicure. Before Andrew Zimmern and Anthony Bourdain began seeking out exotic and outright bizarre foods, *The Eat-a-Bug Cookbook* established insect cuisine as the new food frontier and has sold consistently over the last decade. Today, insect eating is more

than just a fringe movement and this revised edition of The Eat-a-Bug Cookbook is a complete primer for everyone who wants to source, cook, and broaden their culinary horizons with edible insects.

The first in a new fantasy series for readers aged 8-12, about a girl with fox ears who has never fitted in. With adventure and magic in every teacup, this is perfect for fans of The Strangeworlds Travel Agency and Starfell. Yesterday Crumb is no ordinary girl. She was born with fox ears that have cursed her to a lonely life working in the circus and her origins are a complete mystery. But she is about to escape into the adventure of a lifetime when she learns that she's a strangeling who's lost her magic. Taken in by Miss Dumpling the flamboyant Tea Witch, Yesterday is introduced to a magical, walking teashop filled with fantastical customers, a flying teapot turtle called Pascal and powerful spells in every teacup! Yesterday starts to rediscover her magic and to feel a sense of belonging. But a mysterious figure of darkness is working hard to ensure her new life comes crashing down - and it all starts with a deadly shard of ice in Yesterday's heart... But there's nothing that can't be solved with a pot of tea, a slice of cake and a BIG dash of magic!

From the author of True Blue Santa and The Greatest Mother's Day of All, comes a delightful Australian book for Easter. Easter is fast approaching and the Easter Bunny decides that this year he is going to need some help from some of his friends, including Emu, Kangaroo, Koala and Cockatoo. But who will he choose to help him, particularly since all of the animals are so talented and suitable for the job?

Describes functional structures built by such animals as the beaver, termite, and tailorbird.

He's the supermarket superhero with eyes everywhere—always on the lookout for danger. When the veggie aisle is thrown into turmoil by an evil pea, Supertato heroically springs into action! But this very, very evil pea won't go back to the frozen section without a fight. Will justice prevail, or has Supertato finally met his match?

Join five little Easter Bunnies as they set off on an exciting lift-the-flap Easter egg hunt. With five delicious eggs to find and count, it's a perfect springtime adventure! Can you help the bunnies climb trees, peek into nests and look under leaves to find their eggs? You'll have to lift the flaps to search for the tasty prizes - and there might be some surprises along the way too! Based on the popular childhood rhyme 'Five Little Speckled Frogs', this joyful, interactive book is packed with adorable bunnies, lambs, chicks and ducklings. Get ready for non-stop Easter fun in this beautifully illustrated read-aloud, full of the joys of spring. From creators of the bestselling We're Going on an Egg Hunt and Hop Little Bunnies.

This book takes a middle ground between the topical and historical approaches to Western ethics. The chapters are topically arranged, but preserve the flow of history in two ways. First, each chapter explains the historical development of the topic under consideration. Second, most chapters focus on a specific famous philosopher who championed a particular tradition, such as Aristotle, Locke, or Kant, and the chapters are chronologically ordered based on when these key philosophers lived.
