This handy title offers expert guidance for the clinical management of dementia and compassionate support of patients and families. Designed to enhance the physician-caregiver interaction and liberally illustrated with case examples, The Common Sense Guide espouses general principles of dementia care that apply across the stages and spectrum of this illness, including non-Alzheimer's types of dementia, in addition to Alzheimer's disease. Clinicians, family members, and other caregivers will find this volume useful from the moment that symptoms of dementia emerge. The authors place an emphasis on caring for the caregiver as well as the patient. Essential topics include how to find the right clinician, make the most of a doctor's visit, and avert a crisis - or manage one that can't be avoided. Sometimes difficult considerations, such as driving, financial management, legal matters, long-term placement, and end-of-life care, are faced head-on. Tried, true, and time-saving tips are explained in terms of what works - and what doesn't - with regard to clinical evaluation, medications, behavioral measures, and alternate therapies. Medical, nursing, and allied health care professionals will undoubtedly turn to this unique overview as a vital resource and mainstay of clinical dementia care, as well as a valuable recommendation for family caregivers.

The Ultimate Guide to Online Investing: A Stockbroker Tells You Everything You Need to Know

Introduction "Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma — which is living with the results of other people's thinking. Don't let the noise of others' opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary. "– Steve Jobs, Co-founder of Apple Have you ever really taken the time to think about what you actually want out of your own life? It's not an easy task and many people don't make the effort as they probably feel it's not that important. But, if you're in a place where you're questioning your lifestyle and what you do for a living, then this should be the first step you take to identify what you really want to spend the majority of your time doing. At ClickDo Ltd., a digital marketing & SEO agency in London, the authors do what they love every single day and with this book they want to provide you with inspiration to find something you can see yourself doing in the near future. With the creative support and vision of ClickDo senior web designer Kasun Sameera, this book has come to life. "In 20 years, you will be more disappointed by what you didn't do than by what you did. "– Mark Twain, American writer We've all gone through this same experience: we went to school, got a degree and worked – but did we do what we felt passionate about? Fernando started ClickDo Ltd. because he asked himself that exact question. His vision was to lead a free life where he could work from anywhere in the world. He identified his passion for SEO and digital marketing and set up ClickDo Ltd. with only a few clients in the early days. Kasun joined him and together they went on the journey of building many more online businesses like web hosting company SeekaHost. Manuela felt an emerging passion for writing while working as a teacher and found ClickDo while searching for WordPress Training to start her own blog. The Care Act 2014 is arguably the most significant piece of legislation for social workers who work with adults, since the NHS and Community Care Act 1990. The intention of this book is to present the information from the act, regulations and statutory guidance in a way that provides social workers with a good understanding of the legislation and how it applies to their role. Making extensive use of case examples that derive from the author's experience as a social worker, the book highlights the circumstances where professional judgment is required and explores issues that need interpretation such as significant impact on wellbeing. It covers the key stages of the 'care and support journey' – first contact, assessment of needs, prevention, consideration of eligibility, charging and financial assessment, care and support planning, and review. In addition, other chapters look at significant issues such as safeguarding and working with NHS colleagues. This book is intended to contribute to improving the 'legal literacy' of social workers, i.e. the connecting of legal rules with professional priorities and ethical practice. The approach used aims to help social workers to better understand the legal framework within which they make professional judgements, and to apply their expertise in interpreting the law for the benefit of people with care and support needs. The core aims are to provide the following: a solid foundation for social work students in developing a critical understanding of the Care Act and its application, the material to help experienced social workers with developing the critical reflection necessary to enhance their ability to make professional judgements a source of reference which social workers can use to evaluate their local systems, policies and procedures.
