Become an expert of 2- and 3-dimensional shapes with area, volume and surface area.

Our resource provides task and word problems surrounding real-life scenarios.

Measure angles with a protractor to determine whether they are acute, right or obtuse. Find the missing angle on a quadrilateral. Learn the different parts of a circle and how to calculate the radius,

diameter and circumference. Find the pair of lines that are parallel, perpendicular,

intersecting, and skew. Calculate the area of squares, rectangles, parallelograms,

triangles, circles, and trapezoids. Then, find the volume of cubes and rectangular prisms. Finally, measure the surface area of

spheres, cylinders, cubes, and rectangular prisms. The task sheets provide a leveled approach to learning, starting with grade 6 and increasing in difficulty to grade 8.

Aligned to your State Standards and meeting the concepts addressed by the NCTM standards, reproducible task sheets, drill sheets, review and answer key are

included.

This book contains a total of 54 printable worksheets containing drill questions to help improve fluency with perimeter , area and volume - intended as a revision aide for home learning. Starting with the perimeter of rectangles, the questions increase in difficulty to include area , perimeter , volume and surface area of a multitude of shapes. Answers are included.

This book examines the history of formative assessment in the US and explores its potential for changing the landscape of teaching and learning to meet the needs of twenty-first century learners. The author uses case studies to illuminate the complexity of teaching and the externally imposed and internally constructed contextual elements that affect assessment decision-making. In this book, Box argues effectively for a renewed vision for teacher professional development that centers around the needs of students in a knowledge economy. Finally, Box offers an overview of systemic changes that are needed in order for progressive teaching and relevant learning to take place.
