Second-class petty officers Dalton Taylor and Chris Ingram have been best friends since coxswain's school. Now they're stationed together in the Harbor Patrol Unit of NAS Adams. They're content as friends, but secretly, they both ache for more. Neither makes a move, though; while Dalton is out and proud, Chris is closeted--even from his best friend. Then another coxswain's negligence nearly drowns Dalton. After a taste of how easily they could lose each other, neither man can keep his feelings hidden anymore, and it turns out love and sex come easy when you're falling for your best friend. Things aren't just heating up between the friends-turned-lovers, though. The Navy is investigating the accident, and the Harbor Patrol chief isn't going to let his star coxswain go down for dereliction of duty, even if saving him means throwing Dalton under the bus. As the threats and gaslighting pile up, Chris and Dalton need each other more than ever--as shipmates, friends, and lovers. But if their chief prevails, the only way they can save their careers is to let each other go.

This is a full-length, science-fiction, alien abduction romance that was previously released as part of a two-book collection introducing the first books in two series. Each book is now being released separately. This revised edition of The Scorpion's Mate has some small changes from the original. Claire has never really fit in with everyone around her, but she's carved out a life for herself using her own unique style and artistic ability to support herself on the Internet. The last thing she expects is to be abducted by aliens and dropped into a research facility, where a genetically-engineered alien soldier chooses her as his life-mate. Thrax's pheromones are compelling, and his status as a fellow unwilling test subject makes them allies, but Claire isn't certain she can trust someone who is convinced she belongs to him, when all she wants to do is find a way to return home to Earth-a place that her devoted alien can never follow, because there's no way the scorpion-like alien would ever be able to pass for human. Still, she'll accept help where she can find it, so she doesn't hesitate to escape with Thrax from the facility, though their time running from their pursuers in the warrens beneath the research facility will forever change Claire, and could make it impossible for her to return to Earth. But will there be anywhere else in the galaxy they can go where their love will be accepted?Author's Note: 18+ only, this book contains scenes of graphic intimacy and violence that are not intended for younger readers. Also, please note that the hero in this book is not human-looking and possesses an appearance and attributes that may not be comfortable for some readers to read about.

But the sadistic experiments performed on her by the prison's scientist make the heat intolerable for her. When the opportunity to go to the frozen city of E'Lek presents itself, Kira believes she'll finally be at peace. Duke is confused by the strange human female. Like him, she's cold, made for the icy lands of the Northern Valos. Her resemblance with the Creators and questionable friendship with a human hated by his people raises their collective suspicions. Yet, only she could save their lost tribes condemned to an eternal slumber. As his heartstone warms for her, Duke is determined to prove to the rest of the tribe that beneath her frozen exterior hides a compassionate female. His female.

As the sole child of their grievously wounded leader, she seeks aid from the only other native species on the planet. Scaly, grumpy, but oh so cuddly... As a third daughter on the farming colony of Meterion, Susan's future prospects aren't too promising. A pretty face, top-notch skills, and hard work mean nothing if your dowry doesn't include fertile lands.

Her only way out is to settle for an arranged marriage through the PMA - the Prime Mating Agency. She just never expected to be paired to a grumpy, massive lizardman, and above all not to grow so fond of his scales and quirky ways. With everything going on, the last thing Olix needs is a mate, especially a squishy, scaleless, off-worlder with strange ways, and an obsession with farming. He is a Hunter, not a dirt digger.
