Princess. Captive. Gladiator. Always a Warrior. Fallon is the daughter of a proud Celtic king and the younger sister of the legendary fighter Sorcha. When Fallon was just a child, Sorcha was killed by the armies of Julius Caesar. On the eve of her seventeenth birthday, Fallon is excited to follow in her sister's footsteps and earn her place in her father's war band. She never gets the chance. Fallon is captured and sold to an elite training school for female gladiators—owned by none other than Julius Caesar himself. In a cruel twist of fate, the man who destroyed Fallon's family might be her only hope of survival. Now, Fallon must overcome vicious rivalries, deadly fights in and out of the arena, and perhaps the most dangerous threat of all: her irresistible feelings for Cai, a young Roman soldier and her sworn enemy. A richly imagined fantasy for fans of Sarah J. Maas and Cinda Williams Chima, *The Valiant* recounts Fallon's gripping journey from fierce Celtic princess to legendary gladiator and darling of the Roman empire.

One of the *Believer's* Best Books of the Year: One woman's journey through that awkward period between being born and dying. A modern odyssey about trying to find one's home in the world, this collection of wickedly funny and offbeat vignettes touches upon quantum physics; the Donner Party; arctic exploration; Greek mythology; Rocky I, II, V, IV, VI, and III respectively; and literary immortality. *Dating Tips for the Unemployed*—melds novel, autobiography, and all manner of asides as [the author] flails at art, love, and friendship with the wry intelligence of someone just wise enough to realize they have no idea what they're doing. A flat-out joy to read! (O, *The Oprah Magazine*). "In engaging episodes, Iris-the-character neurotically navigates dating in New York City, smokes pot on Greek islands with hapless lovers, drinks too much, deals with disapproving family, and eats a lot of cannoli. Syles's surreal, lyrical voice elevates these everyday scenarios into the realm of the fantastic and absurd. Included in the book are hilariously stylized advertisements full of false promises, such as "Health Secrets of the Roman Empire" and "Have Your Portrait Painted By An Elephant!" all for a price. Syles is sharp, melancholy, and wickedly funny. She is unafraid to reveal and revel in her character's flaws because it is what makes them so achingly, relatably human." "Interview "Something like a cocktail of Dorothy Parker, James Joyce, and Philip Roth iced, sweetened, and blended." "The Nervous Breakdown"—Whimsy, satire, and rollicking social commentary . . . Language Adaptation examines the process by which a speech community is forced to adopt an active role in making its language suitable for changing functional requirements. This wide-ranging collection of essays looks at this phenomenon from a variety of historical and synchronic perspectives, and brings together the work of a number of leading scholars in the field. Several different languages are examined at different stages of their history, including Hebrew, Arabic, Chinese, Japanese, Kiswahili, German and Hindi. This well-informed book is a significant contribution to the existing literature on language planning, and is the first to use one theoretical concept to deal with the relationship between natural and deliberate language change. It shows that language adaptation is a particular aspect of language change, and thus establishes a link between the social and the historical study of language. It will appeal to graduate students and professionals in linguistics and the social sciences, as well as to practitioners of language planning.

In this sequel to *A Thousand Pieces of You* by New York Times bestselling author Claudia Gray, Marguerite races through various dimensions to save the boy she loves. Ever since she used the Firebird, her parents' invention, to cross through to alternate dimensions, Marguerite has caught the attention of enemies who will do anything to force her into helping them dominate the multiverse—even hurt the people she loves. She resists until her boyfriend, Paul, is attacked, and his consciousness is scattered across multiple dimensions. The hunt for each splinter of Paul's soul sends Marguerite racing through a war-torn San Francisco, the criminal underworld of New York City, and a glittering Paris where another Marguerite hides a shocking secret. Each dimension brings Marguerite one step closer to rescuing Paul. But with every trial she faces, she begins to question the one constant she's found between the worlds: their love for each other.

In the past 20 years, a wave of right-wing populist movements has swept over Europe, changing the face of European politics. The Netherlands has been one of the more iconic countries to partake in this shift. Known internationally as an emblem of progressivism and tolerance, the country soon became a frontrunner in the revival of nationalist and anti-immigrant sentiment. This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right. The emergence of Dutch populism, this book shows, formed an integral part of a broader

conservative tendency, identified as the Dutch New Right. In the US and the UK, the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s. The Dutch swing to the right, this book argues, formed a belated iteration of the New Right backlash that occurred overseas. This text will be essential reading for students and scholars in the fields of European Studies and Political Science, and Dutch politics and society more specifically.

INTERNATIONAL BESTSELLER In *Silverview*, John le Carré turns his focus to the world that occupied his writing for the past sixty years—the secret world itself. Julian Lawndesley has renounced his high-flying job in the City for a simpler life running a bookshop in a small English seaside town. But only a couple of months into his new career, Julian's evening is disrupted by a visitor. Edward, a Polish émigré living in Silverview, the big house on the edge of town, seems to know a lot about Julian's family and is rather too interested in the inner workings of his modest new enterprise. When a letter turns up at the door of a spy chief in London warning him of a dangerous leak, the investigations lead him to this quiet town by the sea . . . *Silverview* is the mesmerizing story of an encounter between innocence and experience and between public duty and private morals. In this last complete masterwork from the greatest chronicler of our age, John le Carré asks what you owe to your country when you no longer recognize it.

This book is the philosophical fruit of Nikolai Berdyaev's first-hand experience of, and reflections on, the crisis of European civilization in the aftermath of the Great War and the Russian Revolution. Berdyaev tells us that the modern age, with its failed Humanism, is being replaced by a new epoch: "the new middle ages," an epoch of darkness, an epoch of the universal night of history. Berdyaev asserts that this night is a good thing: in this darkness, which is a return to the mysterious life of the spirit, the destruction inflicted by the previous period of "light" will be healed: "Night is not less wonderful than day; it is equally the work of God; it is lit by the splendor of the stars and it reveals to us things that the day does not know. Night is closer than day to the mystery of all beginning" (pp. 70-71, present volume).

A round the world journey of a mother, photographer and journalist, documenting the ways in which the world welcomes its children.

India's fault lines run wide and deep. Some of them go back centuries, others are of comparatively recent origin. The myriad villains these fault lines have spawned include rapists, murderers, terrorists, prophets of religious hatred, corrupt politicians, upholders of abhorrent caste traditions, opponents of free speech and dissent, apologists for regressive cultural practices, and external adversaries who try to destabilize our borders. All of them are responsible for impeding the country's progress, destroying the lives of numberless innocents, usually the poorest and most vulnerable of our people, and besmirching the democratic, plural, free and secular nature of our society. Set against these enemies of our nation's promise are the heroic ones—the poor, illiterate woman who was gang-raped but helped change the nation's attitude towards women through her determined fight for justice; the young soldier whose courage and sacrifice in the high Himalayas was an inspiration to his comrades fighting the Kargil War; the wife whose husband was beheaded by Maoist terrorists, yet sought not revenge but succour for the poor and underprivileged; and the son of the village blacksmith who was lynched by a mob of religious fundamentalists appealing for an end to discord and sectarian violence. These stories, and dozens of others like them, map our country's fault lines. In this book, Barkha Dutt recounts the ones that have left an indelible mark on her. Taken together, they provide a vivid, devastating and unforgettable portrait of our unquiet land.

**The book provides readers with a comprehensive overview of the state of the art in the field of gait and balance rehabilitation. It describes technologies and devices together with the requirements and factors to be considered during their application in clinical settings. The book covers physiological and pathophysiological basis of locomotion and posture control, describes integrated approaches for the treatment of neurological diseases and spinal cord injury, as well as important principles for designing appropriate clinical studies. It presents computer and robotic technologies currently used in rehabilitation, such as exoskeleton devices, functional electrical stimulation, virtual reality and many more, highlighting the main advantages and challenges both from the clinical and engineering perspective. Written in an easy-to-understand style, the book is intended for people with different background and expertise, including medical and engineering students, clinicians and physiotherapists, as well as technical developers of rehabilitation systems and their corresponding human-compute interfaces. It aims at fostering an increased awareness of available technologies for balance and gait rehabilitation, as well**

as a better communication and collaboration between their users and developers.

**A #1 New York Times Bestseller "This book will change lives." --Elizabeth Gilbert, author of Eat, Pray, Love Now in paperback with a new prologue, the indispensable handbook for becoming the creative force of your own life by the host of the award-winning MarieTV and The Marie Forleo Podcast. While most self-help books offer quick fixes, Everything is Figureoutable will retrain your brain to think more creatively and positively in the face of setbacks. In the words of Cheryl Strayed, it's "a must-read for anyone who wants to face their fears, fulfill their dreams, and find a better way forward." If you're having trouble solving a problem or reaching a dream, the problem isn't you. It's that you haven't yet installed the one belief that changes everything. Marie's mom once told her, "Nothing in life is that complicated. You can do whatever you set your mind to if you roll up your sleeves. Everything is figureoutable." Whether you want to leave a dead end job, break an addiction, learn to dance, heal a relationship, or grow a business, Everything is Figureoutable will show you how. In this revised and updated edition, you'll learn: • The habit that makes it 42% more likely you'll achieve your goals. • How to overcome a lack of time and money. • How to deal with criticism and imposter syndrome. It's more than just a fun phrase to say. It's a philosophy of relentless optimism. A mindset. A mantra. A conviction. Most important, it's about to make you unstoppable.**

**Why does our popular culture seem so consistently hostile to the values that most Americans hold dear? Why does the entertainment industry attack religion, glorify brutality, undermine the family, and deride patriotism? In this explosive book, one of the nation's best known film critics examines how Hollywood has broken faith with its public, creating movies, television, and popular music that exacerbate every serious social problem we face, from teenage pregnancies to violence in the streets. Michael Medved powerfully argues that the entertainment business follows its own dark obsessions, rather than giving the public what it wants: In fact, the audience for feature films and network television has demonstrated its profound disillusionment in recent years, with disastrous consequences for many entertainment companies. Meanwhile, overwhelming numbers of our fellow citizens complain about the wretched quality of our popular culture--describing the offerings of the mass media as the worst ever. Medved asserts that Hollywood ignores--and assaults--the values of ordinary American families, pursuing a self-destructive and alienated ideological agenda that is harmful to the nation at large and to the industry's own interests. In hard-hitting chapters on "The Attack on Religion," "The Addiction to Violence," "Promoting Promiscuity," "The Infatuation with Foul Language," "Kids Know Best," "Motivations for Madness," and other subjects, Medved outlines the underlying themes that turn up again and again in our popular culture. He also offers conclusive evidence of the frightening real-world impact of these messages on our society and our children. Finally, Medved shows where and how Hollywood took a disastrous wrong turn toward its current crisis, and he outlines promising efforts both in and outside the industry to restore a measure of sanity and restraint to our media of mass entertainment. *The notion of citizenship has gradually evolved from being simply a legal status or practice to a deep sentiment. Belonging, or feeling at home, has become a requirement. This groundbreaking book analyzes how 'feeling rules' are developed and applied to migrants, who are increasingly expected to express feelings of attachment, belonging, connectedness and loyalty to their new country. More than this, however, it demonstrates how this culturalization of citizenship is a global trend with local variations, which develop in relation to each other. The authors pay particular attention to the intersection between sexuality, race and ethnicity, spurred on by their awareness of the dialectical construction of homosexuality, held up as representative of liberal Western values by both those in the West and by African leaders, who use such claims as proof that homosexuality is un-African.*

*Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.*

*The "Other"—source of fear and fascination; emblem of difference demonized and romanticized. Theories of alterity and cultural diversity abound in the contemporary academic landscape. Victor Segalen's early attempt to theorize the exotic is a crucial reference point for all discussions of alterity, diversity, and ethnicity. Written over the course of fourteen years between 1904 and 1918, at the height of the age of imperialism, *Essay on Exoticism* encompasses Segalen's attempts to define "true Exoticism." This*

*concept, he hoped, would not only replace nineteenth-century notions of exoticism that he considered tawdry and romantic, but also redirect his contemporaries' propensity to reduce the exotic to the "colonial." His critique envisions a mechanism that appreciates cultural difference—which it posits as an aesthetic and ontological value—rather than assimilating it: "Exoticism's power is nothing other than the ability to conceive otherwise," he writes. Segalen's pioneering work on otherness anticipates and informs much of the current postcolonial critique of colonial discourse. As such *Essay on Exoticism* is essential reading for both cultural theorists or those with an interest in the politics of difference and diversity.*

**In this major new work, which Zygmunt Bauman calls a "'tour de force" of breathtaking erudition and clarity', Jock Young charts the movement of the social fabric in the last third of the twentieth century from an inclusive society of stability and homogeneity to an exclusive society of change and division. Jock Young, one of the foremost criminologists of our time, explores exclusion on three levels: economic exclusion from the labour market; social exclusion between people in civil society; and the ever-expanding exclusionary activities of the criminal justice system. Taking account of the massive dramatic structural and cultural changes that have beset our society and relating these to the quantum leap in crime and incivilities, Jock Young develops a major new theory based on a new citizenship and a reflexive modernity.**

Best known as the divisive but iconic frontman of The Mission and a poster boy for the-then fledgling gothic scene of the 80s, Wayne Hussey has been making music since he was inspired to pick up a guitar by his childhood hero, Marc Bolan. As he began making his name in music with The Invisible Girls, Dead Or Alive and The Sisters Of Mercy, Wayne was at first seduced and then ultimately corrupted, swapping the repression of his religious upbringing for its polar opposite: a lifestyle of total hedonism. From his early days raised as a Mormon to being schooled in gender bending by Pete Burns, from his move to Liverpool in the late Seventies to his remaining fanaticism with Liverpool FC, Salad Daze is an all-encompassing account of Wayne's personal and musical journey up until the formation of The Mission. Salad Daze is an unflinchingly honest portrayal of the peaks and pitfalls of a life in the music industry, told with plenty of Wayne's wit and charm qualities that helped him survive his own unrestrained ambitions to still be making music today.

In the wake of Donald Trump's election and the Pittsburgh synagogue massacre, (((Semitism))) is a powerful book that examines how we can fight anti-Semitism in America A San Francisco Chronicle Reader Recommendation The Washington Post: "Timely...[A] passionate call to arms." Jewish Book Council: "Could not be more important or timely." Bernard-Henri Lévy: "It would be wonderful if anti-Semitism was a European specialty and stopped at the border with the United States. Alas, this is not the case. Jonathan Weisman's new book (((Semitism))) shows why..." Michael Eric Dyson: "With eloquence and poignancy Weisman shows how hatred can slowly and quietly chew away at the moral fabric of society. We now live in an age where more than ever bigotry and oppression no longer need to hide in fear of reproach. The floodgates have opened. This is much more than a personal response to

the bigotry he experienced because of his Jewishness; Weisman has written a manifesto that outlines the dangers of marginalizing and demonizing all minority groups. This powerful book is for all of us." Anti-Semitism has always been present in American culture, but with the rise of the Alt Right and an uptick of threats to Jewish communities since Trump took office, including the the Pittsburgh synagogue massacre, New York Times editor Jonathan Weisman has produced a book that could not be more important or timely. When Weisman was attacked on Twitter by a wave of neo-Nazis and anti-Semites, witnessing tropes such as the Jew as a leftist anarchist; as a rapacious, Wall Street profiteer; and as a money-bags financier orchestrating war for Israel, he stopped to wonder: How has the Jewish experience changed, especially under a leader like Donald Trump? In (((Semitism))), Weisman explores the disconnect between his own sense of Jewish identity and the expectations of his detractors and supporters. He delves into the rise of the Alt Right, their roots in older anti-Semitic organizations, the odd ancientness of their grievances—cloaked as they are in contemporary, techy hipsterism—and their aims—to spread hate in a palatable way through a political structure that has so suddenly become tolerant of their views. He concludes with what we should do next, realizing that vicious as it is, anti-Semitism must be seen through the lens of more pressing threats. He proposes a unification of American Judaism around the defense of self and of others even more vulnerable: the undocumented immigrants, refugees, Muslim Americans, and black activists who have been directly targeted, not just by the tolerated Alt Right, but by the Trump White House itself.
