A NYTBR Editor's Choice "This is a book of radical empathy, crossing many borders - not just borders that separate nations, but also borders of form, borders of meaning, and borders of possibility. It is powerful and humane and deserves to find a wide, wandering readership." — Mohsin Hamid, author of Exit West
In this extraordinary book, an acclaimed young war reporter chronicles a dangerous journey on the smuggler's road to Europe, accompanying his friend, an Afghan refugee, in search of a better future. In 2016, a young Afghan driver and translator named Omar makes the heart-wrenching choice to flee his war-torn country, saying goodbye to Laila, the love of his life, without knowing when they might be reunited again. He is one of millions of refugees who leave their homes that year. Matthieu Aikins, a journalist living in Kabul, decides to follow his friend. In order to do so, he must leave his own passport and identity behind to go underground on the refugee

trail with Omar. Their odyssey across land and sea from Afghanistan to Europe brings them face to face with the people at heart of the migration crisis: smugglers, cops, activists, and the men, women and children fleeing war in search of a better life. As setbacks and dangers mount for the two friends, Matthieu is also drawn into the escape plans of Omar's entire family, including Maryam, the matriarch who has fought ferociously for her children's survival. Harrowing yet hopeful, this exceptional work brings into sharp focus one of the most contentious issues of our times. The Naked Don't Fear the Water is a tale of love and friendship across borders, and an inquiry into our shared journey in a divided world.

A groundbreaking look at the NSA surveillance scandal, from the reporter who broke the story, Glenn Greenwald, star of Citizenfour, the Academy Award-winning documentary on Edward Snowden In May 2013, Glenn Greenwald set out for Hong Kong to meet an anonymous source who claimed to have astonishing evidence of pervasive government spying and insisted on communicating only through heavily encrypted

channels. That source turned out to be the 29-year-old NSA contractor and whistleblower Edward Snowden, and his revelations about the agency's widespread, systemic overreach proved to be some of the most explosive and consequential news in recent history, triggering a fierce debate over national security and information privacy. As the arguments rage on and the government considers various proposals for reform, it is clear that we have yet to see the full impact of Snowden's disclosures. Now for the first time, Greenwald fits all the pieces together, recounting his high-intensity ten-day trip to Hong Kong, examining the broader implications of the surveillance detailed in his reporting for The Guardian, and revealing fresh information on the NSA's unprecedented abuse of power with never-before-seen documents entrusted to him by Snowden himself. Going beyond NSA specifics, Greenwald also takes on the establishment media, excoriating their habitual avoidance of adversarial reporting on the government and their failure to serve the interests of the people. Finally, he asks what it means both for individuals and for a nation's political health when a

government pries so invasively into the private lives of its citizens—and considers what safeguards and forms of oversight are necessary to protect democracy in the digital age. Coming at a landmark moment in American history, No Place to Hide is a fearless, incisive, and essential contribution to our understanding of the U.S. surveillance state.

Start with No

Water, Agriculture, Governance and Livelihoods

Today's War on the Founders and America's Liberal Ideal

Start with No offers a contrarian, counterintuitive system for negotiating any kind of deal in any kind of situation—the purchase of a new house, a multimillion-dollar business deal, or where to take the kids for dinner. Think a win-win solution is the best way to make the deal? Think again. For years now, win-win has been the paradigm for business negotiation. But today, win-win is just the seductive mantra used by the toughest negotiators to get the other side to compromise unnecessarily, early, and often. Win-win

negotiations play to your emotions and take advantage of your instinct and desire to make the deal. Start with No introduces a system of decision-based negotiation that teaches you how to understand and control these emotions. It teaches you how to ignore the siren call of the final result, which you can't really control, and how to focus instead on the activities and behavior that you can and must control in order to successfully negotiate with the pros. The best negotiators: * aren't interested in "yes"—they prefer "no" * never, ever rush to close, but always let the other side feel comfortable and secure * are never needy; they take advantage of the other party's neediness * create a "blank slate" to ensure they ask questions and listen to the answers, to make sure they have no assumptions and expectations * always have a mission and purpose that guides their decisions * don't send so much as an e-mail without an agenda for what they want to accomplish * know the four "budgets" for themselves and for the other side: time, energy, money, and emotion * never waste time with people who don't really make the decision Start with No is full of dozens of business as well as personal stories illustrating each point of the system. It will change your life as a negotiator. If you

put to good use the principles and practices revealed here, you will become an immeasurably better negotiator.

The Nile provides freshwater not only for domestic and industrial use, but also for irrigated agriculture, hydropower dams and the vast fisheries resource of the lakes of Central Africa. The Nile River Basin covers the whole Nile Basin and is based on the results of three major research projects supported by the Challenge Program on Water and Food (CPWF). It provides unique and up-to-date insights on agriculture, water resources, governance, poverty, productivity, upstream-downstream linkages, innovations, future plans and their implications. Specifically, the book elaborates the history and the major current and future challenges and opportunities of the Nile river basin. It analyzes the basin characteristics using statistical data and modern tools such as remote sensing and geographic information systems. Population distribution, poverty and vulnerability linked to production system and water access are assessed at the international basin scale, and the hydrology of the region is also analysed. This text provides in-depth scientific model adaptation results for hydrology, sediments, benefit sharing, and payment for environmental services based on

detailed scientific and experimental work of the Blue Nile Basin. Production systems as they relate to crops, livestock, fisheries and wetlands are analyzed for the whole Blue and White Nile basin including their constraints. Policy, institutional and technological interventions that increase productivity of agriculture and use of water are also assessed. Water demand modeling, scenario analysis, and tradeoffs that inform future plans and opportunities are included to provide a unique, comprehensive coverage of the subject.

A strident argument about the dangers of compromise in art, politics, and everyday life On Compromise is an argument against contemporary liberal society's tendency to view compromise as an unalloyed good—politically, ethically, and artistically. In a series of clear, convincing essays, Rachel Greenwald Smith discusses the dangers of thinking about compromise as an end rather than as a means. To illustrate her points, she recounts her stint in a band as a bass player, fighting with her bandmates about "what the song wants," and then moves outward to Bikini Kill and the Riot Grrrl movement, the Iowa Writers' Workshop, Poetry magazine, the resurgence of fascism, and other wide-ranging topics. Smith's

arguments are complex and yet have a simplicity to them, as she writes in a concise, cogent style that is eminently readable. By weaving examples drawn from literature, music, and other art forms with political theory and first-person anecdotes, she shows the problems of compromise in action. And even as Smith demonstrates the many ways that late capitalism demands individual compromise, she also holds out hope for the possibility of lasting change through collective action. Closing with a piercing discussion of the uncompromising nature of the COVID-19 pandemic and how global protests against racism and police brutality after the murder of George Floyd point to a new future, On Compromise is a necessary and vital book for our time.

The Shattering: America in the 1960s

This Independence Day edition of The World is Flat 3.0 includes an an exclusive preview of That Used to Be Us: How America Fell Behind in the World It Invented and How We Can Come Back, by Thomas L. Friedman and Michael Mandelbaum, on sale

September 5th, 2011. A New Edition of the Phenomenal #1 Bestseller "One mark of a great book is that it makes you see things in a new way, and Mr. Friedman certainly succeeds in that goal," the Nobel laureate Joseph E. Stiglitz wrote in The New York Times reviewing *The World Is Flat* in 2005. In this new edition, Thomas L. Friedman includes fresh stories and insights to help us understand the flattening of the world. Weaving new information into his overall thesis, and answering the questions he has been most frequently asked by parents across the country, this third edition also includes two new chapters--on how to be a political activist and social entrepreneur in a flat world; and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures. *The World Is Flat 3.0* is an essential update on globalization, its opportunities for individual empowerment, its achievements at lifting millions out of poverty, and its drawbacks--environmental, social, and political, powerfully illuminated by the Pulitzer Prize--winning author of *The Lexus and the Olive Tree*.

Confronting Nazi evil is the subject of the latest installment in the mega-bestselling Killing series. As the true horrors of the Third Reich began to be exposed immediately after World War II, the Nazi war criminals who committed genocide went on the run. A few were swiftly caught, including the notorious SS leader, Heinrich Himmler. Others, however, evaded capture through a sophisticated Nazi organization designed to hide them. Among those war criminals were Josef Mengele, the "Angel of Death" who

performed hideous medical experiments at Auschwitz; Martin Bormann, Hitler ' s brutal personal secretary; Klaus Barbie, the cruel "Butcher of Lyon"; and perhaps the most awful Nazi of all: Adolf Eichmann. Killing the SS is the epic saga of the espionage and daring waged by self-styled "Nazi hunters." This determined and disparate group included a French husband and wife team, an American lawyer who served in the army on D-Day, a German prosecutor who had signed an oath to the Nazi Party, Israeli Mossad agents, and a death camp survivor. Over decades, these men and women scoured the world, tracking down the SS fugitives and bringing them to justice, which often meant death. Written in the fast-paced style of the Killing series, Killing the SS will educate and stun the reader. The final chapter is truly shocking.

“ Essential reading ” —Booklist (starred) “ Kevin O ' Leary tells this complex and alarming story brilliantly. ” —Robert Kuttner “ O ' Leary could not be more timely... ” —Norman Ornstein “ This beautifully written book is a must-read... ” —Erwin Chemerinsky An eye-opening cultural history of the political revolution that has destroyed the Republican Party and unleashed an illiberal crusade against the ideals of the Founding Fathers. The story of America is the struggle between our liberal ideal and illiberal resistance. Donald Trump catalyzed a reactionary revolution by tapping into the dark, shadowy side of American democracy that embraces exclusion and inequality. Throughout American history these alarming impulses have come to the forefront of our culture—during the Civil War, the era of the Robber Barons, and the Civil Rights Movement—but have now

come to fruition in the presidency of Donald Trump. Arguing that the contemporary Republican Party is waging a counterrevolution against the core beliefs of the nation, journalist and scholar Kevin C. O'Leary cracks open American history to reveal the essence of America's liberal heritage by critiquing the reactionary illiberal currents that periodically threaten American democracy. American politics is no longer an ongoing debate between liberals and conservatives because the new Republican Party embraces the feudal values of the Old World. While there are millions of conservatives in the population, the elected leadership of the GOP is deeply reactionary. Today's marriage of white-identity Southerners and their northern allies to moneyed libertarians is no run-of-the-mill political partnership. Instead, it is extraordinarily dangerous. Clearly, conservatives have lost their party. And without conservatives debating liberals in an intellectual, respectful manner to address the nation's problems, Madisonian democracy breaks down. A stimulating reinterpretation of the American experience, Madison's Sorrow exposes the intellectual and moral deficiencies of the illiberal right while offering a robust defense of the liberal tradition.

This revised edition of the number-one bestseller and winner of the 1989 National Book Award includes the Pulitzer Prize-winning author's new, updated epilogue. One of the most thought-provoking books ever written about the Middle East, *From Beirut to Jerusalem* remains vital to our understanding of this complex and volatile region of the world. Three-time Pulitzer Prize winner Thomas L. Friedman drew upon his ten years of experience reporting from Lebanon and Israel to write this now-classic work of journalism. In a new afterword, he updates his journey with a fresh discussion of the Arab Awakenings and how they are transforming the area, and a new look at relations between Israelis and Palestinians, and Israelis and Israelis. Rich with anecdote, history, analysis, and autobiography, *From Beirut to Jerusalem* will continue to shape how we see the Middle East for many years to come. "If you're only going to read one book on the Middle East, this is it."--Seymour M. Hersh

A masterpiece of reporting on the Supreme Court's most divisive case, *Roe v. Wade*, and the unknown lives at its heart. Despite her famous pseudonym, no one knows the truth about "Jane Roe," Norma McCorvey (1947–2017), whose unwanted pregnancy in 1970 opened a great fracture in American life. Journalist Joshua Prager spent years with Norma, discovered her personal papers, a previously unseen trove, and witnessed her final moments. With an explosive revelation at the core of the case, he tells her full story for the first time. Prager also traces Roe's fifty-year trajectory through three compelling figures: feminist lawyer Linda Coffee, who filed the original Texas lawsuit yet now lives in obscurity; Curtis Boyd, a former fundamentalist Christian, today a leading provider of third-trimester abortions; and Mildred Jefferson, the first Black female Harvard Medical School graduate, who became a pro-life leader with great secrets. Essential to our understanding of this key debate, the right to choose or the right to life, *The Family Roe* will change

the way you think about our enduring American divide.
Trauma, Truth, and the Trials of American Democracy
Killing the SS

The Hunt for the Worst War Criminals in History
The World Is Flat 3.0

A Kirkus Reviews Best Nonfiction Book of the Year From the National Book Award winner, a masterful history of the decade whose conflicts shattered America's postwar order and divide us still. On July 4, 1961, the rising middle-class families of a Chicago neighborhood gathered before their flag-bedecked houses, a confident vision of the American Dream. That vision was shattered over the following decade, its inequities at home and arrogance abroad challenged by powerful civil rights and antiwar movements. Assassinations, social violence, and the blowback of a "silent majority" shredded the American fabric. Covering the late 1950s through the early 1970s, *The Shattering* focuses on the period's fierce conflicts over race, sex, and war. The civil rights movement develops from the grassroots activism of Montgomery and the sit-ins, through the violence of Birmingham and the Edmund Pettus Bridge, to the frustrations of King's Chicago campaign, a rising Black nationalism, and the Nixon-era politics of busing and the Supreme Court. The Vietnam war unfolds as Cold War policy, high-stakes politics buffeted by powerful popular movements, and searing in-country

experience. Americans' challenges to government regulation of sexuality yield landmark decisions on privacy rights, gay rights, contraception, and abortion. Kevin Boyle captures the inspiring and brutal events of this passionate time with a remarkable empathy that restores the humanity of those making this history. Often they are everyday people like Elizabeth Eckford, enduring a hostile crowd outside her newly integrated high school in Little Rock, or Estelle Griswold, welcoming her arrest for dispensing birth control information in a Connecticut town. Political leaders also emerge in revealing detail: we track Richard Nixon's inheritances from Eisenhower and his debt to George Wallace, who forged a message of racism mixed with blue-collar grievance that Nixon imported into Republicanism. *The Shattering* illuminates currents that still run through our politics. It is a history for our times.

"The Black Agenda mobilizes top Black experts from across the country to share transformative perspectives on how to deploy anti-racist ideas and policies into everything from climate policy to criminal justice to healthcare. This book will challenge what you think is possible by igniting long overdue conversations around how to enact lasting and meaningful change rooted in racial justice." —Ibram X. From ongoing reports of police brutality to the disproportionate impact COVID-19 has had on Black Americans, 2020 brought a renewed awareness to the deep-rootedness of racism and white supremacy in every facet of American life. Edited by Anna Gifty

Opoku-Agyeman, *The Black Agenda* is the first book of its kind—a bold and urgent move towards social justice through a profound collection of essays featuring Black scholars and experts across economics, education, health, climate, and technology. It speaks to the question "What's next for America?" on the subjects of policy-making, mental health, artificial intelligence, climate movement, the future of work, the LGBTQ community, the criminal legal system, and much more. Essayists including Dr. Sandy Darity, Dr. Hedwig Lee, Mary Heglar, and Janelle Jones present groundbreaking ideas ranging from Black maternal and infant health to reparations to AI bias to inclusive economic policy, with the potential to uplift and heal not only Black America, but the entire country.

A #1 NEW YORK TIMES BESTSELLER. In this searing memoir, Congressman Jamie Raskin tells the story of the forty-five days at the start of 2021 that permanently changed his life—and his family's—as he confronted the painful loss of his son to suicide, lived through the violent insurrection in our nation's Capitol, and led the impeachment effort to hold President Trump accountable for inciting the political violence. On December 31, 2020, Tommy Raskin, the only son of Maryland Congressman Jamie Raskin, tragically took his own life after a long struggle with depression. Seven days later on January 6, Congressman Raskin returned to Congress to help certify the 2020 Presidential election results, when violent insurrectionists led by right wing extremist groups stormed the U.S. Capitol hoping to hand four more years of

power to President Donald Trump. As our reeling nation mourned the deaths of numerous people and lamented the injuries of more than 140 police officers hurt in the attack, Congressman Raskin, a Constitutional law professor, was called upon to put aside his overwhelming grief—both personal and professional—and lead the impeachment effort against President Trump for inciting the violence. Together this nine-member team of House impeachment managers riveted a nation still in anguish, putting on an unprecedented Senate trial that produced the most bipartisan Presidential impeachment vote in American history. Now for the first time, Congressman Raskin discusses this unimaginable convergence of personal and public trauma, detailing how the painful loss of his son and the power of Tommy 's convictions fueled the Congressman 's work in the aftermath of modern democracy 's darkest day. Going inside Congress on January 6, he recounts the horror of that day, a day that he and other Democrats had spent months preparing for under the correct assumption that they would encounter an attempted electoral coup—not against a President but for one. And yet, on January 6, he faced the one thing he had failed to anticipate: mass political violence designed to block Biden 's election. With an inside account of leading the team prosecuting President Trump in the Senate, Congressman Raskin shares never before told stories of just how close we came to losing our democracy that fateful day and lays out the methodical prosecution that convinced Democrats and Republicans alike of Trump 's responsibility for inciting insurrectionary violence against our government.

Through it all, he reckons with the loss of his brilliant, remarkable son, a Harvard Law student whose values and memory continually inspired the Congressman to confront the dark impulses unleashed by Donald Trump. At turns, a moving story of a father coping with his pain and a revealing examination of holding President Trump accountable for the violence he fomented, this book is a vital reminder of the ongoing struggle for the soul of American democracy and the perseverance that our Constitution demands from us all.

small town in Mexico to the boardrooms of Big Pharma to main streets nationwide, an explosive and shocking account of addiction in the heartland of America. In 1929, in the blue-collar city of Portsmouth, Ohio, a company built a swimming pool the size of a football field; named Dreamland, it became the vital center of the community. Now, addiction has devastated Portsmouth, as it has hundreds of small rural towns and suburbs across America--addiction like no other the country has ever faced. How that happened is the riveting story of Dreamland. With a great reporter's narrative skill and the storytelling ability of a novelist, acclaimed journalist Sam Quinones weaves together two classic tales of capitalism run amok whose unintentional collision has been catastrophic. The unfettered prescribing of pain medications during the 1990s reached its peak in Purdue Pharma's campaign to market OxyContin, its new, expensive--extremely addictive--miracle painkiller. Meanwhile, a massive influx of black tar heroin--cheap, potent, and originating from one small county on Mexico's west coast, independent of any drug cartel--assaulted small town and mid-sized cities across the country, driven by a brilliant, almost unbeatable marketing and distribution system. Together these phenomena continue to lay waste to communities from Tennessee to Oregon, Indiana to New Mexico. Introducing a memorable cast of

characters--pharma pioneers, young Mexican entrepreneurs, narcotics investigators, survivors, and parents--Quinones shows how these tales fit together. Dreamland is a revelatory account of the corrosive threat facing America and its heartland.

Friedman speaks to America's urgent need for national renewal and explains how a green revolution can bring about both a sustainable environment and a sustainable America. Friedman explains how global warming, rapidly growing populations, and the expansion of the world's middle class through globalization have produced a dangerously unstable planet--one that is "hot, flat, and crowded." In this Release 2.0 edition, he also shows how the very habits that led us to ravage the natural world led to the meltdown of the financial markets and the Great Recession. The challenge of a sustainable way of life presents the United States with an opportunity not only to rebuild its economy, but to lead the world in radically innovating toward cleaner energy. And it could inspire Americans to something we haven't seen in a long time--nation-building in America--by summoning the intelligence,

creativity, and concern for the common good that are our greatest national resources. Hot, Flat, and Crowded is classic Thomas L. Friedman: fearless, incisive, forward-looking, and rich in surprising common sense about the challenge--and the promise--of the future.

The Kaepernick Effect

Riveting and inspiring first-person stories of how “taking a knee” triggered a political awakening among athletes of all ages and levels, from the celebrated sportswriter “With profiles of courage that leap of the page, Zirin uncovers a whole national movement of citizen-athletes fighting for racial justice.” –Ibram X. Kendi, National Book Award-winning author of Stamped from the Beginning Hailed by Publishers Weekly in a starred review as “an enthralling look at the impact of peaceful protest by sports figures at the high school, college, and professional levels,” The Kaepernick Effect explores the story of how quarterback Colin Kaepernick’s simple act of “taking a knee” spread like wildfire throughout American society, becoming the preeminent public symbol of resistance to America’s persistent racial

inequality. In this powerful book, critically acclaimed sports journalist and author Dave Zirin chronicles “the Kaepernick effect” for the first time, through “a riveting collection of first-person stories” (The Nation) from high school athletes and coaches, college stars and high-powered athletic directors, and professional athletes across many different sports—from Megan Rapinoe to Michael Bennett. In each case, he uncovers the fascinating explanations and motivations behind what became a mass political movement in sports. “Necessary reading for all, especially those who want to make a difference in promoting social justice, equity, and inclusion, and end police brutality” (Library Journal, starred review), The Kaepernick Effect is for anyone seeking to get involved in the new movement for racial justice in America: “Take a knee, everyone, and start a revolution” (Kirkus Reviews).

NEW YORK TIMES BESTSELLER “In her book, Melinda tells the stories of the inspiring people she’s met through her work all over the world, digs into the data, and powerfully illustrates issues that need our attention—from child marriage to gender inequity in the workplace.” – President Barack Obama “The Moment of Lift is an urgent call to courage. It changed how I think about myself, my family, my work, and what’s possible in the world. Melinda weaves together vulnerable, brave storytelling and compelling data to make this one of those rare

books that you carry in your heart and mind long after the last page.”

– Brené Brown, Ph.D., author of the New York Times #1 bestseller Dare to Lead “Melinda Gates has spent many years working with women around the world. This book is an urgent manifesto for an equal society where women are valued and recognized in all spheres of life. Most of all, it is a call for unity, inclusion and connection. We need this message more than ever.”

– Malala Yousafzai “Melinda Gates's book is a lesson in listening. A powerful, poignant, and ultimately humble call to arms.”

– Tara Westover, author of the New York Times #1 bestseller Educated A debut from Melinda Gates, a timely and necessary call to action for women's empowerment. “How can we summon a moment of lift for human beings – and especially for women? Because when you lift up women, you lift up humanity.” For the last twenty years, Melinda Gates has been on a mission to find solutions for people with the most urgent needs, wherever they live. Throughout this journey, one thing has become increasingly clear to her: If you want to lift a society up, you need to stop keeping women down. In this moving and compelling book, Melinda shares lessons she's learned from the inspiring people she's met during her work and travels around the world. As she writes in the introduction, “That is why I had to write this book—to share the stories of people who have given focus and urgency to my life. I want all of us to see ways we can lift women up where we live.”

Melinda's unforgettable narrative is backed by startling data as she presents the issues that most need our attention—from child marriage to lack of access to contraceptives to gender inequity in the workplace. And, for the first time, she writes about her personal life and the road to equality in her own marriage. Throughout, she shows how there has never been more opportunity to change the world—and ourselves. Writing with emotion, candor, and grace, she introduces us to remarkable women and shows the power of connecting with one another. When we lift others up, they lift us up, too.

A celebrated foreign policy expert and key impeachment witness reveals how declining opportunity has set America on the grim path of modern Russia—and draws on her personal journey out of poverty, and her unique perspectives as an historian and policy maker, to show how we can return hope to our forgotten places.
