This concise intellectual history of the law offers an accessible introduction to the ideas and contexts of law from ancient Babylon to eighteenth-century Europe. Robert W. Shaffern examines a rich array of sources to illuminate ideas about law and justice in Western civilization. He identifies four main sources for traditional jurisprudence—the civilizations of the Fertile Crescent and classical Athens, the legal legacy of ancient Rome, the legal traditions of the Middle Ages, and developments in early modern Europe. By focusing on the recurring issues and historical contexts of the law, the author shows the extensive influence earlier sources had on the later development of Western law. For instance, the ancient code of Hammurabi pledged to obtain justice for the "widow and the orphan," a phrase that appeared again in later laws. Also, the tragedies of Aeschylus insisted that private individuals pursue vengeance, but government judiciaries upheld justice, an idea that the early modern European monarchies advanced when they promulgated new codes of criminal law. Additionally, Roman, medieval, and modern jurists all believed that natural law theory served

as a rational criterion for legislators and judges. Throughout the span of centuries covered in the text, governments used law to regulate or monopolize the employment of violence. Designed to introduce undergraduates to the significant developments and ideas about the law and justice, this book will be invaluable for courses on the history of law and jurisprudence.

An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doroutine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

This book examines the economics of the travel and tourism industries and their customer markets - tourists. It clearly identifies the special factors within tourism which distinguish its analysis, in economic terms, from other activities.

This title was first published in 2000: The focus of this analysis is that of moral standards in public service, with special attention to the role(s) of officials. It presents discussion of some of the issues that seem to the contributors to be of pressing importance and that seem to have relevance for public service in the new millennium. It concentrates in particular on public officials, and the constraints imposed on them by the political environment in liberal democracies.

It explores in more depth the essential elements of marketing in the international context, illustrating developments in the area with detailed examples of particular strategies and techniques; it covers such topics as strategic alliances, entrepreneurship, advertising, branding, culture and multinational portfolios. The editors provide an overview, commentary and discussion questions to draw out the key issues from the articles and relate them to the central framework. Due to ongoing advancements in technology, new legislation, and other innovations, the field of finance is rapidly changing. Developments in financial markets and investments necessitate that students be exposed to these topics as well as to financial management, the traditional focus of the introductory finance course. Introduction to Finance develops the three components of finance in an interactive framework that is consistent with the responsibilities of all financial professionals, managers, intermediaries, and investors in today's economy. To show the interrelationships between the areas of finance, the text

Ethical Issues in Accounting offers a comprehensive and accessible introduction for students and teachers of business

*studies and accountancy as well as the practicing accountant. The book covers the ethical implications of several aspects of accounting: * ethics and taxation * creative accounting * ethics in accounting regulation * ethical dilemmas in the public sector * whistleblowing * various aspects of social accounting, including environmental accounting. The fitness of the accounting profession as guardians of accounting and auditing ethics is also discussed in detail.*

This world-wide best-selling book highlights the most recent trends and developments in global marketing--with an emphasis on the importance of teamwork between marketing and all the other functions of the business. It introduces new perspectives in successful strategic market planning, and presents additional company examples of creative, market-focused, and customer-driven action. Coverage includes a focus on marketing in the 21st Century that introduces the new ideas, tools and practices companies will need to successfully operate in the New Millenium. Chapter topics discuss building customer satisfaction, market-oriented strategic planning, analyzing consumer markets and buyer behavior, dealing with the

competition, designing pricing strategies and programs, and managing the sales force. For marketing managers who want to increase their understanding of the major issues of strategic, tactical, and administrative marketing--along with the opportunities and needs of the marketplace in the years ahead. The idea of viewing individuals' knowledge and abilities as an asset--as human capital--can be traced back to the work of Adam Smith in the 18th century. But human capital is intangible, and hence hard to define and measure. Increasingly, however, policymakers are calling for ways to understand and quantify human capital, in order to better understand what drives economic growth and the functioning of labour markets, to assess the long-term sustainability of a country's development path, and to measure the output and productivity performance of the educational sector. Devising a robust methodology for the monetary valuation of the stock of human capital is especially important as studies suggest that human capital is by far the most important component of the total capital stock in most advanced economies. This Guide on Measuring Human Capital discusses conceptual, methodological and implementation issues

and challenges. The recommendations are a first attempt to come up with a way to estimate and record the role of human capital in a way that is aligned with the principles of the national accounts and that is comparable across economies.

Through real-life single and multiple case studies, Learning to Lead Together addresses how principals and their staffs struggle with the challenge of shared leadership, how they encourage teacher growth and development, and how shared leadership can lead to higher levels of student learning. The cases show how shared leadership, a powerful adaptive change, is socially constructed across contexts and evolves as teachers and principals learn how to work together. The book also illustrates how principal preparation and professional development programs that utilize problem-based learning and provide opportunities

'The Macro Economy Today' is noted for three great strengths: readability, policy orientation, and pedagogy. Schiller's accessible writing style engages students and brings some of the excitement of domestic and global economic news into the classroom.

*The second edition of the Criminal Law Sourcebook has been significantly expanded in order to provide law students with a comprehensive selection of key materials drawn from law reports, statutes, Law Commission Consultation Papers and Reports, and Home Office publications. The materials reflect the range of topics taught on the vast majority of undergraduate and CPE criminal law modules, and provide a platform from which the reader can embark upon a more critical evaluation of both theory and doctrine. Extensive extracts are included from a number of recent landmark rulings, including decisions by the House of Lords in *B v DPP* (defence of mistake), *R v Smith* (objective test for the defence of provocation), *R v Hinks* (whether the*

Recent statutory initiatives that have been incorporated include the Protection from Harassment Act 1997, the Criminal Justice (Terrorism and Conspiracy) Act 1998, and the Sexual Offences (Amendment) Act 2000. The impact of the Human Rights Act 1998, in so far as it relates to substantive criminal law, is also covered. Substantial extracts are provided from all relevant Law Commission and Home Office law reform publications. In addition to the draft Criminal Code Bill, materials have been selected dealing with reform of sexual offences, consent, conspiracy to defraud, deception offences, offences against the person, accessory liability and involuntary manslaughter.

An annual report is a powerful and revealing document about a company's financial standing, and can offer the savvy reader substantial insight about where the company may be headed in the future. But to the untrained eye, it may seem like walls of accounting technicalities provided to fill up space between the glossy photos and the upbeat "Message from the CEO." *Annual Reports 101* gets past the PR machine to show the meaning behind the math. This straightforward guide reveals how to read the primary financial documents in the report, and then extract more information--from the numbers themselves and from the often fluffy text--than some companies want the public to know. The book shows how to watch out for "red flags," decipher footnotes and see past common practices that, while legal, may not give the most accurate picture. Readers of annual reports include potential investors and business partners, financial advisers, company employees, lenders and many others whose stake in the success of a public company is crucial to their own.

International Police Cooperation combines the efforts of leading practitioners and academics in criminology to address the challenges of such persistent international problems as organized crime and illegal immigration. Employing an innovative cross-cultural and comparative methodology, editors Daniel J. Koenig and Dilip K. Das and their eminent contributors present invaluable information for students of criminology and sociology which will fill a long-felt gap in the literature on policing.

'That which puzzled and fascinated me whenever I met Lasgush was this sensation of the impossible. It was impossible to get on with him as you did with others. The moment you were at him, or rather, the moment you knocked at his door, suddenly all became another thing. There was another logic, another code, other words, wrapped up in another meaning. .when you went to

Lasgush's, it was more than going abroad. You believed you dropped somewhere beyond our time, beyond the everyday way of looking at things. One more step and it looked as if you would cross the borders of life and would find yourself in Dante's nothingness. .He was unpredictable, corrosive like acid, creepy, startling. His laugh was like as if beyond our life, mirthless, and his sadness had no grief. As for his anger, it was such as well, luxurious, cold, whereas his contempt was radiating from afar, as if adorned with silver.' (Kadare, In My Studio. pp 207, 208, 209. My translation) -All this Saussurean lava of meaning has its own matchless 'crater' from where it erupts and reaches us time and again, endlessly. Lasgush's Word has its own individual suspension, chiselled by the hand of a true master. It is breathlessly succinct and, in all probability, on a par with the best ever created. Lasgush says that his Word is: 'Mystery that burns in a thread of lightning.' (My Fiery Tongue)

Wild's Managerial Accounting presents the managerial accounting course content using a corporate approach. It features the same student-friendly writing style and learning tools that have enjoyed consistent success with students and instructors using other texts in

the Wild series. Also consistent with this series is Managerial Accounting's focus on the "Three C's": □ Clear presentation of accounting concepts, □ Concise coverage to help students focus on important material, and □ Cutting edge technology to engage students and improve their chances for success. The author provides a balance of small and large business examples, integration of new computerized learning tools, superior end-of-chapter materials, and highly engaging pedagogical learning structures. Technology tools such as Connect Accounting provide students with further advantages as they learn and apply key accounting concepts and methods.

"How to Write a Thesis can be read with profit by anyone who writes professionally, whether proposals, reports, monographs or a thesis. It is oriented to someone writing a PhD thesis, but has a lot to say about writing in general. It deals with the process of writing rather than detailed content, and is applicable regardless of discipline" SRA "This is

the book that all PhD supervisors and their students have been waiting for: the first comprehensive overview of the many different writing practices, and processes, involved in the production of a doctoral thesis. Crammed full of explanations, shortcuts and tips, this book demystifies academic writing in one fell swoop. Everyone who reads it will be massively enabled as a writer." Professor Lynne Pearce, Associate Dean for Postgraduate Teaching, University of Lancaster "Rowena Murray's down-to-earth approach both recognises and relieves some of the agony of writing a PhD. The advice in this book is both practical and motivational; sometimes it's 'PhD-saving' too. By using Rowena Murray's techniques of regular snacking, instead of occasional bingeing, I managed to rescue my PhD from near-death at a time of work overload." Christine Sinclair, Part-time PhD student and lecturer in Educational Development, University of Paisley This book evolved from fifteen years' experience of teaching thesis writing. The contents have been tried and tested with postgraduates and academics. Early chapters explore the ambiguities and subtleties of thesis writing in detail. Later chapters are more compact, listing steps in the writing process. All chapters provide examples to illustrate

techniques and activities to progress writing.

A gripping behind-the-scenes account of the dramatic legal fight to hold leaders personally responsible for aggressive war On July 17, 2018, starting an unjust war became a prosecutable international crime alongside genocide, crimes against humanity, and war crimes. Instead of collective state responsibility, our leaders are now personally subject to indictment for crimes of aggression, from invasions and preemptions to drone strikes and cyberattacks. The Crime of Aggression is Noah Weisbord's riveting insider's account of the high-stakes legal fight to enact this historic legislation and hold politicians accountable for the wars they start. Weisbord, a key drafter of the law for the International Criminal Court, takes readers behind the scenes of one of the most consequential legal dramas in modern international diplomacy. Drawing on in-depth interviews and his own invaluable insights, he sheds critical light on the motivations of the prosecutors, diplomats, and military strategists who championed the fledgling prohibition on unjust war—and those who tried to sink it. He

untangles the complex history behind the measure, tracing how the crime of aggression was born at the Nuremberg trials only to fall dormant during the Cold War, and he draws lessons from such pivotal events as the collapse of the League of Nations, the rise of the United Nations, September 11, and the war on terror. The power to try leaders for unjust war holds untold promise for the international order, but also great risk. In this incisive and vitally important book, Weisbord explains how judges in such cases can balance the imperatives of justice and peace, and how the fair prosecution of aggression can humanize modern statecraft.

This is the first major book on Albanian migration, the most significant East-West migration since the collapse of the Soviet bloc. Prevented from leaving their country for over 45 years, the citizens of the Republic of Albania emigrated en masse during the 1990s and the exodus continues. According to the 2001 census, one in five Albanians was a migrant living abroad, mainly in Greece and Italy but also, and increasingly, in a range of other European countries and in North America. The volume offers a comprehensive and integrated understanding of Albanian migration, addressing its temporal and spatial dynamics, its diversity of types and destinations, and the implications of the migration for Albanian society and economic development. Its contributors comprise key researchers on Albanian migration from around the world. The book reflects the wide diversity of disciplinary and interdisciplinary approaches deployed by researchers studying this phenomenon.

This explosive narrative reveals for the first time the shocking hidden years of Coco Chanel's life: her collaboration with the Nazis in Paris, her affair with a master spy, and her work for the German military intelligence service and Himmler's SS. Gabrielle "Coco" Chanel was the high priestess of couture who created the look of the modern woman. By the 1920s she had amassed a fortune and went on to create an empire. But her life from 1941 to 1954 has long been shrouded in rumor and mystery, never clarified by Chanel or her many biographers. Hal Vaughan exposes the truth of her wartime collaboration and her long affair with the playboy Baron Hans Günther von Dincklage—who ran a spy ring and reported directly to Goebbels. Vaughan pieces together how Chanel became a Nazi agent, how she escaped arrest after the war and joined her lover in exile in Switzerland, and how—despite suspicions about her past—she was able to return to Paris at age seventy and rebuild the iconic House of Chanel.
