

The American Pageant 12th Edition Online

This book is a classic. Literature: Structure, Sound, and Sense has been consistently updated through its revised editions and remains the model for introductory literature texts. It is compact and easy to hold--not bloated and indiscriminate in its selections. Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

"To change the way students see the world: this is my goal in teaching economics and in writing this book. Three facts about students are my guiding principles. First, they want to learn, but they are over-whelmed by the volume of claims on their time and energy. So, they must see the relevance to their lives and future careers of what they are being asked to learn. Second, students want to get it, and get it quickly. So, they must be presented with clear and succinct explanations. And third, students want to make sense of today's world and be better prepared for life after school. So, they must be shown how to apply the timeless principles of economics and its models to illuminate and provide a guide to understanding today's events and issues, and the future challenges they are likely to encounter. The organization of this text arises directly from these guiding principles"--

For this twelfth edition of The American Pageant, we have worked together closely to incorporate the most recent scholarship about American history, and to preserve the readability that has long been the Pageant's hallmark. We are often told that the Pageant is the sole American history text that has a distinctive personality -- defined by clarity, concreteness, a consistent chronological narrative, strong emphasis on major themes, avoidance of clutter, access to a variety of interpretive perspectives, and a colorful writing style leavened, as appropriate, with wit. - Preface.

A cultural history of the last forty years, The Age of American Unreason focuses on the convergence of social forces--usually treated as separate entities--that has created a perfect storm of anti-rationalism. These include the upsurge of religious fundamentalism, with more political power today than ever before; the failure of public education to create an informed citizenry; and the triumph of video over print culture. Sparing neither the right nor the left, Jacoby asserts that Americans today have embraced a universe of "junk thought" that makes almost no effort to separate fact from opinion.

Out of Many is a coherent narrative of American history that offers insight into how diverse communities and different regions have shaped America's past. The text reveals the ethnic, geographical and economic diversity of the United States by examining the individual, the community and the state and placing a special focus on the country's regions, particularly the West. The updated edition features new and expanded coverage of a wide variety of topics in addition to MyHistoryLab tools that connect the text to interactive online learning tools to bring U.S. history to life.

An ordinary man finds that his life has been made extraordinary by the catastrophic intrusion of history when, in 1968 his adored daughter plants a bomb that kills a stranger, hurling her father out of the longed-for American pastoral and into the indigenous American berserk.

2021 Reprint of the 1925 Edition. The Man Nobody Knows is the second book by the American author and advertising executive Bruce Fairchild Barton. In it, Barton presents Jesus as "The Founder of Modern Business," in an effort to make the Christian story accessible to businessmen of the time. When published in 1925, the book topped the nonfiction bestseller list, and was one of the best-selling non-fiction books of the 20th century. Since its publication, The Man Nobody Knows has divided readers. Some welcome the portrayal of Jesus as a strong character, whom no one dared oppose, and praise the use of familiar stereotypes to stimulate interest in religion, whilst others ridicule the suggestion that Jesus was a salesman. Critics have suggested that The Man Nobody Knows is a prime example of the materialism and "glorified Rotarianism" of the Protestant churches in the 1920s.

Alphabetically arranged and followed by an index of terms at the end, this handy reference of literary terms is bound to be of invaluable assistance to any student of English literature.
