*Frankenstein was Mary Shelley's immensely powerful contribution to the ghost stories which she, Percy Shelley, and Byron devised one wet summer in Switzerland. Its protagonist is a young student of natural philosophy, who learns the secret of imparting life to a creature constructed from relics of the dead, with horrific consequences. Frankenstein confronts some of the most feared innovations of evolutionism: topics such as degeneracy, hereditary disease, and mankind's status as a species of animal. The text used here is from the 1818 edition, which is a mocking expose' of leaders and achievers who leave desolation in their wake, showing humanity its*

In the novel, Frankenstein's creation is identified by words such as "creature", "monster", "daemon", "wretch", "abortion", "fiend" and "it". Speaking to Victor Frankenstein, the monster says "I ought to be thy Adam, but I am rather the fallen angel" (which ties to Lucifer in Paradise Lost, which the monster reads, and which relates to the disobedience of Prometheus in the book's subtitle).
