author of American Lion
and Franklin and Winston
brings vividly to life an
extraordinary man and his
remarkable times. Thomas
Jefferson: The Art of
Power gives us Jefferson
the politician and
president, a great and
complex human being
forever engaged in the
wars of his era.
Philosophers think;
politicians maneuver.
Jefferson's genius was
that he was both and could
do both, often
simultaneously. Such is
the art of power. Thomas
Jefferson hated

confrontation, and yet his understanding of power and of human nature enabled him to move men and to marshal ideas, to learn from his mistakes, and to prevail. Passionate about many things—women, his family, books, science, architecture, gardens, friends, Monticello, and Paris—Jefferson loved America most, and he strove over and over again, despite fierce opposition, to realize his vision: the creation, survival, and success of popular government in America. Jon Meacham lets

us see Jefferson's world as Jefferson himself saw it, and to appreciate how Jefferson found the means to endure and win in the face of rife partisan division, economic uncertainty, and external threat. Drawing on archives in the United States, England, and France, as well as unpublished Jefferson presidential papers, Meacham presents Jefferson as the most successful political leader of the early republic, and perhaps in all of American history. The father of the

ideal of individual
liberty, of the Louisiana
Purchase, of the Lewis and
Clark expedition, and of
the settling of the West,
Jefferson recognized that
the genius of humanity—and
the genius of the new
nation—lay in the
possibility of progress,
of discovering the
undiscovered and seeking
the unknown. From the
writing of the Declaration
of Independence to elegant
dinners in Paris and in
the President's House;
from political
maneuverings in the
boardinghouses and

Powerful Meetings Business Analysis Essential Library
legislative halls of Philadelphia and New York to the infant capital on the Potomac; from his complicated life at Monticello, his breathtaking house and plantation in Virginia, to the creation of the University of Virginia, Jefferson was central to the age. Here too is the personal Jefferson, a man of appetite, sensuality, and passion. The Jefferson story resonates today not least because he led his nation through ferocious partisanship and cultural warfare amid economic

change and external threats, and also because he embodies an eternal drama, the struggle of the leadership of a nation to achieve greatness in a difficult and confounding world. Praise for Thomas Jefferson: The Art of Power "This is probably the best single-volume biography of Jefferson ever written."—Gordon S. Wood "A big, grand, absorbing exploration of not just Jefferson and his role in history but also Jefferson the man, humanized as never before."—Entertainment

events, connecting art to students' lives. In addition to excellent art history coverage, THE POWER OF ART features a diverse mix of artists and spotlights current trends in artistic mediums and themes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

We live in an era of aesthetics. Art has become both pervasive and powerful – it is displayed not only in museums and galleries but also on the

walls of corporations and it is increasingly fused with design. But what makes art so powerful, and in what does its power consist? According to a widespread view, the power of art – its beauty – lies in the eye of the beholder. What counts as art appears to be a function of individual acts of evaluation supported by powerful institutions. On this account, the power of art stems from a force that is not itself aesthetic, such as the art market and the financial power of

speculators. Art expresses, in a disguised form, the power of something else – like money – that lies behind it. In one word, art has lost its autonomy. In this short book, Markus Gabriel rejects this view. He argues that art is essentially uncontrollable. It is in the nature of the work of art to be autonomous to such a degree that the art world will never manage to overpower it. Ever since the cave paintings of Lascaux, art has taken hold of the human mind and

Powerful Meetings Business
Analysis Essential Library
implemented itself in our
very being. Thanks to the
emergence of art we became
human beings, that is,
beings who lead their
lives in light of an image
of the human being and its
position in the world and
in relation to other
species. Due to its
structural, ontological
power, art itself is and
remains radically
autonomous. Yet, this
power is highly ambiguous,
as we cannot control its
unfolding. In this book, a
leading proponent of New
Realism applies this
philosophical perspective

Download File PDF The Art And Power Of Facilitation Running Powerful Meetings Business Analysis Essential Library

to art to create a new aesthetic realism.

describes how these studies have been used to build attendance, enhance exhibits, and develop new programs such as the Center for Creative Connections, the online Arts Network, and the Late Nights event series, all at the Dallas Museum of Art. Furthermore, the book describes how this research, which goes far beyond traditional demographic data and analyses, has transformed the Museum, unleashing a profound change in institutional thinking and paving the way for sustained innovation. Also included are interviews with community leaders who offer their perspectives and insights on the Dallas Museum of Art's remarkable revitalization. Few nations have experienced a more violent and unstable political history than France. From 1789 to 1958, the

Download File PDF The Art And Power Of Facilitation Running

Powerful Meetings Business Analysis Essential Library
leaders of four republics, two absolute monarchies, two constitutional monarchies, two imperiums, and a fascist regime all struggled and ultimately failed to rule France.

Although a myriad of reasons explain the emergence and collapse of each political system before 1958, one underlines all - the French failed to master the art of power. As a master of power, Charles de Gaulle appears to have broken France's bloody cycle of the rise and fall of regimes. He did so largely through the system he created in 1958 and the policies that he asserted as president until he resigned in 1969. De Gaulle's legacy is the Fifth Republic, which has flourished for over five decades and will continue to do so for the foreseeable future. This book asks: What is the art of power? What is the

art of French power? How did Charles de Gaulle understand and assert power in his lifetime? How well or poorly have his successors wielded the art of French power in asserting national interests as they defined them?

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America’s foremost deal-maker. “I like thinking big. I always have. To me it’s very simple: If you’re going to be thinking anyway, you might as well think big.”—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump

Download File PDF The Art And Power Of Facilitation Running Powerful Meetings Business Analysis Essential Library

has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal “Trump makes one believe for a moment in the American dream again.”—The New York Times “Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet.”—Chicago Tribune “Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the

De Gaulle's Legacy

**With a scene-setting
historical introduction,
this newly translated and
illustrated edition of a
classic work is an
essential addition to any
home library. Written in**

1512, The Prince is the masterpiece by Florentine political philosopher, poet, and playwright Niccolò Machiavelli.

Although Machiavelli's book has been frequently misunderstood as a manual for unprincipled manipulators and tyrants, careful reading reveals that it actually identifies freedom as an essential characteristic of a good society. In fact, much of Machiavelli's republican thought can be identified in the American constitution, and many of

his ideas—such as the belief that life is subject to change and that the winners will be those flexible enough to adapt—remain as applicable today as they were half a millennium ago.

The Restoration era of the British monarchy covers the reigns of Charles II (1660-85) and James II (1685-8). This publication focuses on the art and culture of the Restoration court at this time, including the development of an

'English baroque' and the use of court ritual and art (especially decorative art) by both monarchs. 0This sumptuously illustrated book showcases the replacement crown jewels made for the coronation of Charles II in 1661, his collection of Italian Old Master paintings, drawings by Leonardo da Vinci and the spectacular furnishings of the palaces of Whitehall and St James's. 00Exhibition: Queen's Gallery, Buckingham Palace, London, United Kingdom

(08.12.2017-13.05.2018).

This volume examines the ways that sovereign rulers have employed well-defined symbols, attributes, and stereotypes to convey their power to their subjects and rivals, as well as to leave a legacy for subsequent generations to admire. Legendary rulers from antiquity such as Alexander the Great, Julius Caesar, and Constantine have been looked to as models for their display of imperial

power by the rulers of later eras. From medieval sovereigns such as Charlemagne and France's Louis IX to the tsars of Russia and the great European royal dynasties of the Hapsburgs, the Bourbons, and the Tudors, the rulers of each period have appropriated and often embellished the emblems of power employed by their predecessors. Even the second-tier lords who ruled parts of France and Italy during the Renaissance, such as the

dukes of Burgundy, the Gonzaga of Mantua, and the Medici of Florence became adept at manipulating this imagery. The final chapter is reserved for Napoleon I, perhaps the ultimate master of symbolic display, who assumed the attributes of Roman emperors to project an image of eternal and immutable authority. The author examines not only regal paraphernalia such as crowns, scepters, thrones, and orbs, but also the

**painted portraits,
sculptures, tapestries,
carved ivories, jewelry,
coins, armor, and,

cultural heritage of
Western civilization.**

**In this richly illustrated
book, Neal B. Keating
explores Iroquois visual
expression through more
than five thousand years,
from its emergence in
ancient North America**

into the early twenty-first century. Drawing on extensive archival research and fieldwork with Iroquois artists and communities, Keating foregrounds the voices and visions of Iroquois peoples, revealing how they have continuously used visual expression to adapt creatively to shifting political and economic environments. Iroquois, or Haudenosaunee, peoples have long been the subjects of Western study. From the

seventeenth to the nineteenth century, European and Euro-American writers classified Iroquois works not as art but as culturally lower forms of expression. During the twentieth century, Western critics commonly rejected contemporary Native art both as art and as an “inauthentic” expression of Indianness. Keating exposes the false assumptions underlying these perceptions. Approaching his subject from the perspective of

an anthropologist, he focuses on the social relations and processes that are indexed by Iroquois visual culture through time, and he shows how Iroquois images are deployed in colonized contexts. As he traces the history of Iroquois art practice, Keating seeks a middle road between ethnohistorical approaches and the activist perspectives of contemporary artists. He is one of the first scholars in Iroquois studies to

emphasize painting, a popular art form among present-day Iroquois. He conceptualizes painting broadly, to include writing, incising, drawing, tattoo, body painting, photography, videography, and digital media. Featuring more than 100 color and black-and-white reproductions, this volume embraces a wide array of artworks in diverse media, prompting new appreciation—and deeper understanding—of Iroquois art and its historical and

contemporary significance.

Winner of the 2017 Andre Norton Award for Outstanding Young Adult Science Fiction or Fantasy Book! “Funny, haunting, beautiful, relentless, and powerful, The Art of Starving is a classic in the making.”—Book Riot Matt hasn’t eaten in days. His stomach stabs and twists inside, pleading for a meal, but Matt won’t give in. The hunger clears his mind, keeps him sharp—and he needs to be

as sharp as possible if he's going to find out just how Tariq and his band of high school bullies drove his sister, Maya, away. Matt's hardworking mom keeps the kitchen crammed with food, but Matt can resist the siren call of casseroles and cookies because he has discovered something: the less he eats the more he seems to have . . . powers. The ability to see things he shouldn't be able to see. The knack of tuning in to thoughts right out of people's

heads. Maybe even the authority to bend time and space. So what is lunch, really, compared to the secrets of the universe? Matt decides to infiltrate Tariq's life, then use his powers to uncover what happened to Maya. All he needs to do is keep the hunger and longing at bay. No problem. But Matt doesn't realize there are many kinds of hunger...and he isn't in control of all of them. A darkly funny, moving story of body image, addiction, friendship, and

Picasso and the Pre-Raphaelites. She also shows us how women artists – from Berthe Morisot to Beyoncé, Judy Chicago to Kara Walker – have offered us new ways of thinking about women's identity, sexuality, race and power. Women in the Picture gives us new ways of seeing the art of the past and the familiar images of today so that we might free women from these restrictive roles and embrace the breadth of women's vision.

** 'Great art has dreadful manners...' Simon Schama observes at the start of his epic exploration of the power, and whole point, of art. 'The hushed reverence*

of the gallery can fool you into believing masterpieces are polite things, visions that soothe, charm and beguile, but actually they are thugs. Merciless and wily, the greatest paintings grab you in a headlock, rough up your composure and then proceed in short order to re-arrange your sense of reality...' * With the same disarming force, Power of Art jolts us far from the comfort zone of the hushed art gallery, as Schama closes in on intense make-or-break turning points in the lives of eight great artists who, under extreme stress, created something unprecedented, altering the

Paris, and the carnage and pathos of civil-war Spain. *
Most compelling of all,
Power of Art traces the
extraordinary evolution of
eight world-class works of
art. Created in a bolt of
illumination, such works
'tell us something about how
the world is, how it is to
be inside our skins, that no
more prosaic source of
wisdom can deliver. And when
they do that they answer,
irrefutably and
majestically, the nagging
question of every reluctant
art-conscript... "OK, OK,
but what's art really for?"
The Royal Armory in Madrid,
assembled at a time when the
Spanish Crown was at the

Powerful Meetings Business
Analysis Essential Library

height of its international
power, is the oldest and one
of the finest and largest
armories in the world,
imbued with great
historical, artistic, and
symbolic significance. Armor
drawn from the unsurpassed
holdings of the Spanish
Royal Armory is shown in
this exhibition alongside
portraits of rulers dressed
in the same armor, painted
by such masters as Peter
Paul Rubens, Anthony van
Dyck, Diego Velázquez, and
Alonso Sánchez Coello.
Several large and
magnificent tapestries from
the royal collection also
depict the armor in use.
Together, some 75 works

illustrate the use of
luxurious armor in
projecting an image of royal
power in Imperial Spain. The
exhibition includes several
full suits of armor,
helmets, shields, and
equestrian armor--worn in
battle but more often in
Renaissance parades,
pageants, and jousting
tournaments. The works of
art on view date from the
reigns of the Holy Roman
Emperors Maximilian I of
Austria (1508-1519) and
Emperor Charles V
(1519-1558), to those of his
successors, King Philip II
(1556-1598), King Philip III
(1598-1621), and King Philip
IV (1621-1665). This is the

Powerful Meetings Business Analysis Essential Library
first time that the armor has been exhibited together with the portraits in which it is depicted.

Offering a challenge to traditional political theory, this work provides the interpretations of Machiavelli's oeuvre and of Nietzsche's relationship to politics.

This volume presents over 200 selected original artworks from the collection of Betsy Beinecke Shirley, one of the great collectors of American children's literature. Shirley gathered an authoritative collection of books, original illustrations, manuscripts, as well as drawings and

paintings from such children's classics as 'Treasure Island' and 'Eloise.' The artwork in Shirley's collection guides the reader on a tour through the stages of childhood reading, this volume begins with ABC's and nursery books. It continues through adventure stories, magazines, and more, then concludes with a miscellany section of odds and ends. The images demonstrate how children's books evolved, from the nation's first days of independence to modern times. Artists whose works are represented include many of the favorites, among them Ludwig Bemelmans, Maurice

Power, feminist art has been

conspicuously absent from

standard academic narratives. . . .

Now, no critic or historian,

conservative or not, can argue that feminist art is

insignificant".--Elizabeth Hess, Village Voice. 270 illustrations, 118 in full color.

Visual art has a ubiquitous political cast today. But which politics? Daniel Herwitz seeks clarity on the various things meant by politics, and how we can evaluate their presumptions or aspirations in contemporary art. Drawing on the work of William Kentridge, drenched in violence, race, and power, and the artworld immolations of Banksy, Herwitz's examples range from the NEA 4 and the question of offense-as-dissent, to the community driven work of George Gittoes, the identity

politics of contemporary American art and (for contrast with the power of visual media) literature written in dialogue with truth commissions. He is interested in understanding art practices today in the light of two opposing inheritances: the avant-gardes and their politicization of the experimental art object, and 18th-century aesthetics, preaching the autonomy of the art object, which he interprets as the cultural compliment to modern liberalism. His historically-informed approach reveals how crucial this pair of legacies is to reading the tensions in voice and character of art today. Driven by questions about the capacity of the visual medium to speak politically or acquire political

Download File PDF The Art And Power Of Facilitation Running Powerful Meetings Business Analysis Essential Library

agency, this book is for anyone working in aesthetics or the art world concerned with the fate of cultural politics in a world spinning out of control, yet within reach of emancipation.

Ashley Davis Bush published *Transcending Loss* (Berkley) in 1997. Since then she has grown her *Transcending Loss* brand by becoming a sought-after speaker for professional conferences and by reaching out directly to the bereaved through online communities where she has established tens of thousands of followers. In her new book *Hope & Healing for Transcending Loss*, Davis Bush offers daily readings--bite-sized lifelines and

making meaning, and living into a new self.

Power skills are something every manager must have. Power means more than formal authority - it is the art of building alliances, networks, influence and control. Power will enable you to achieve all your goals: it will guarantee your success. Power: The Art of Making Things Happen is the first book to show you how. Free from theory, Power focuses on the practical skills any manager can learn and use to their advantage. Divided into six accessible areas, you'll find everything you need to take command of the most important skill around.

The Art and Science of Being Still

Symbols of Power in Art

Where and how an artwork is presented can enhance it or detract from it, or even alter its meaning.

Depending on the display, painting and sculpture can denote a religious, political, decorative, or educational significance, as well as aesthetic and commercial value. Just how powerful the effect of placement can be is demonstrated in this book by in-depth case studies and comparisons of art installations around the world and from

antiquity to the present, all richly illustrated. Author Victoria Newhouse continues the investigation she began in her last book, Towards a New Museum, of the critical relationship between container and contents. Not limited to museums, Newhouse branches out to explore noteworthy displays of art in commercial galleries and in private homes and gardens, as well as in a number of unusual venues. She concludes with some guidelines for display that apply as much to the hanging of a picture in a private interior as to the installation of a museum show.

Its a fact: life happens. Its easy to feel that your life is beyond your control or that your dreams are out of reach. Occasionally, bad decisions or bad luck can put you in a place where you wish you could just start over and that

Download File PDF The Art And Power Of Facilitation Running Powerful Meetings Business Analysis Essential Library

first step is often the hardest to make. The Art of Starting Over allows you to look at your life from a variety of angles and to discover whats missing. Using the life lesson and exercises within, you can learn how to plan and take the steps you need to create the life you desire. Whether youre starting over by choice or from circumstances beyond your control, this guide can take you down a path that can make the journey back to your ideal new life more enjoyable and productive. But first, you have to understand what makes you happy. Whats important to you may not be important to someone else and vice versa. That is why you cant rely on what others say to determine what is right for you. Only you can know what your perfect life looks like. Be unapologetic and proud of the ideas you have for your life. You

Download File PDF The Art And Power Of Facilitation Running Powerful Meetings Business Analysis Essential Library

can achieve it. All you need is the guidance, accountability, and motivation. Life is not about keeping up with the Joneses or impressing others; its about discovering what makes you happy, whats important to you and why.

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the

Download File PDF The Art And Power Of Facilitation Running Powerful Meetings Business Analysis Essential Library

two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling

Download File PDF The Art And Power Of Facilitation Running

author of *The 48 Laws of Power*, *Mastery*, and *The 33 Strategies Of War*.

*From a New York Times bestselling author, a fresh and detail-rich argument that the best way to lead is to be fair Can you succeed without being a terrible person? We often think not: recognizing that, as the old saying has it, "nice guys finish last." But does that mean you have to go to the other extreme and be a bully or Machiavellian to get anything done? In *The Art of Fairness*, bestselling author David Bodanis uses thrilling case studies to show there's a better path, leading neatly in between. He reveals how it was fairness, applied with skill, that led the Empire State Building to be constructed in barely a year—and how the same techniques brought a quiet English debutante to become an*

acclaimed jungle guerrilla fighter. In ten vivid profiles featuring pilots, presidents, and even the producer of Game of Thrones, we see that the path to greatness doesn't require crushing displays of power or tyrannical ego. Simple fair decency can prevail. With surprising insights from across history—including the downfall of the very man who popularized the phrase “nice guys finish last”—The Art of Fairness charts a refreshing and sustainable new approach to cultivating integrity and influence.

A new book by Boris Groys acknowledges the problem and potential of art's complex relationship to power. Art has its own power in the world, and is as much a force in the power play of global politics today as it once was in the arena of cold war

politics. Art, argues the distinguished theoretician Boris Groys, is hardly a powerless commodity subject to the art market's fiat of inclusion and exclusion. In Art Power, Groys examines modern and contemporary art according to its ideological function. Art, Groys writes, is produced and brought before the public in two ways—as a commodity and as a tool of political propaganda. In the contemporary art scene, very little attention is paid to the latter function. Arguing for the inclusion of politically motivated art in contemporary art discourse, Groys considers art produced under totalitarianism, Socialism, and post-Communism. He also considers today's mainstream Western art—which he finds behaving more and more according the norms of ideological propaganda: produced and

exhibited for the masses at international exhibitions, biennials, and festivals. Contemporary art, Groys argues, demonstrates its power by appropriating the iconoclastic gestures directed against itself—by positioning itself simultaneously as an image and as a critique of the image. In Art Power, Groys examines this fundamental appropriation that produces the paradoxical object of the modern artwork.

A Thirty-Day Guide to Creating More Power, Peace, and Pleasure in Your Personal Life

Takedown

Why should you read this

book? Being Still is not another psychological theory or way to cope with depression. Quite the opposite, as a mental health and healing method it runs counter to the psychologies and therapies now being used in treating stress and depression. Whether you are just down and in a stressed out place in your life or you are dealing with deep and chronic depression, this book has been written for you. In this book

there is healing
information that you may
never have considered.
For instance, it
explains why you will
never think, talk,
therapy, meditate or
meditate away
depression. It will
demonstrate the mental
dynamics that prove that
the more you think and
talk about those
intrusive thoughts the
worse they will get. It
explains how and why
thinking and talking
about them only
magnifies the problems.

The things taught here will help you to understand what is really going on in your head. You will also learn how and why simply stilling your thoughts is the way to overcome stress and depression. The reason for the success in healing for so many of those that practice this method can be summed up by quoting a Vietnam Veteran that had been dealing with depression and PTSD for over 40 years. After attending Mr.

our happiness and the
happiness of others.
Being peaceful and happy
is the most important**

thing in our lives and yet most of the time we suffer, we run after our cravings, we look to the past or the future for our happiness." Turning our conventional understanding of power on its head, world-renowned Zen master, spiritual leader, and national bestselling author Thich Nhat Hanh reveals how true power comes from within. What we seek, we already have. Whether we want it or not, power remains one of the central

issues in all of our lives. Every day, each of us exercises power in many ways, and our every act subtly affects the world we live in. This struggle for control and authority permeates every aspect of our private and public lives, preventing us from attaining true happiness. The me-first mentality in our culture seeps unnoticed into our decisions and choices. Our bottom-line approach to getting ahead may be most visible in the

business world, but the stress, fear, and anxiety it causes are being felt by people in all walks of life. With colorful anecdotes, precise language, and concrete practices, Thich Nhat Hanh illustrates how the current understanding of power leads us on a never-ending search for external markers like job title or salary. The Art of Power boldly challenges our assumptions and teaches each of us how to access

the true power that is within our grasp.

Arguing that the term "lady" should be re-examined and brought back into circulation, the author shows readers how to achieve civility and grace in an often uncivil world.

Farah Nayeri addresses the difficult questions plaguing the art world, from the bad habits of Old Masters, to the current grappling with identity politics. For centuries, art censorship has been a

**top-down
phenomenon--kings,
popes, and one-party
states decided what was
considered obscene,
blasphemous, or
politically deviant in
art. Today, censorship
can also happen from the
bottom-up, thanks to
calls to action from
organizers and social
media campaigns. Artists
and artworks are

Essays for Alison Brown

**Original Children's Book
Art in the Betsy
Beinecke Shirley
Collection**

"This volume celebrates the scholarship of Alison Brown, emeritus professor in the Department of History at Royal Holloway, University of London. A pre-eminent historian of the Renaissance, Professor Brown has, over a long and ongoing career, produced a stream of books and essays on the intellectual, cultural, and political history of Renaissance Florence and Italy. Her innovative and

wide-ranging studies have made her the most authoritative interpreter of Florence's evolution from fifteenth-century republic to sixteenth-century principate. At the centre of her re-evaluation of this complex and dramatic story are her many studies of the Medici and their own evolution over several generations from citizen bankers to skillful patrons, manipulators of factional networks, "masters of the shop," and quasi-princes. Her research has brought new perspectives not only to politics and the

nature of the Florentine state, but also to the period's intellectual and religious history--in particular the impact of the rediscovery of Lucretius--and the great ferment of political thought from the humanists to Savonarola, Machiavelli, and Guicciardini. Professor Brown's vibrant and original inquiries, grounded both in Florence's archival treasures and in the rich intellectual and artistic traditions of Renaissance Italy, deftly interweave politics, culture, and ideas to yield novel and

eye-opening interpretations. The essays in this book by Professor Brown's friends and colleagues find inspiration in the themes she has explored and in her dedication to the highest aims and most exacting standards of historical research. The contributions focus on a wide variety of topics, including politics and political thought, family life, art, philosophy, law, and humanism. In providing a portrait of Renaissance studies today as a dynamic field influenced in myriad ways by Professor Brown's

insights and methods, the volume is a tribute to the far-reaching influence of her scholarship."--

Judith Kapferer and her collaborators present an insightful volume that interrogates relations between the state and the arts in diverse national and cultural settings. The authors critique the taken-for-granted assumption about the place of the arts in liberal or social democratic states and the role of the arts in supporting or opposing the ideological work of government and non-

government institutions.

This innovative volume explores the challenges posed by the state to the arts and by the arts to the state, focusing on several transformations of the interrelations between state and commercial arts policies in the current era. These ongoing challenges include the control of repressive tolerance, complicity with and resistance to state power, and the commoditization of the arts, including their accommodation to market and state apparatuses. While

endeavouring to avoid the currently dominant pragmatic and didactic priorities of officialdom, the contributors tackle social and cultural policy and practice in the arts as well as connections between national states and dissenting art from a range of genres.

Together Apart, an exciting
new approach to how we
gather that will transform
the ways we spend our time
together—at home, at work,
in our communities, and
beyond. In The Art of
Gathering, Priya Parker
argues that the gatherings**

in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing on her expertise as a facilitator of high-powered gatherings

around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. The Art of Gathering will forever alter the way you look at your next meeting, industry
