The Animé Art of Hayao Miyazaki

1997-2008

In the first two decades of his career, filmmaker Hayao Miyazaki laid the groundwork for his legendary movies. Starting Point is a collection of essays, interviews, and memoirs that go back to the roots of Miyazaki's childhood, the formulation of his theories of animation, and the founding of Studio Ghibli. Before directing such acclaimed films as Spirited Away, Miyazaki was just another salaried animator, but with a vision of his own. Follow him as he takes his first steps on the road to success, experience his frustrations with the manga and animation industries that often suffocate creativity, and realize the importance of bringing the childhood dreams of the world to life. Starting Point: 1979-1996 is not just a chronicle of the life of a man whose own dreams have come true, it is a tribute to the power of the moving image. -- VIZ Media

"Leni Riefenstahl's Olympia (1938) is one of the most controversial films ever made. Capitalising on the success of Triumph of the Will (1935), her propaganda film for the Nazi Party, Riefenstahl secured Hitler's approval for her grandiose plans to film the 1936 Berlin Olympics. The result was a work as notorious for its politics as celebrated for its aesthetic power. This revised edition includes new material on Riefenstahl's film-making career before Olympia and her close relationship with Hitler. Taylor Downing also discusses newly-available evidence on the background to the film's production that conclusively proves that the film was directly commissioned by Hitler and funded through Goebbels's Ministry of Propaganda and not, as Riefenstahl later claimed,

commissioned independently from the Nazi state by the Olympic authorities. In writing this edition, Taylor Downing has been given access to a magnificent new restoration of the original version of the film by the International Olympic Committee."--Bloomsbury publishing.

Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre-straddling, self-reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio's achievements provides a critical overview of both the company and its films: in-depth examinations of particular titles that best represent the company's overall work, including television series such as Nadia: The Secret of Blue Water and Neon Genesis Evangelion, and feature films such as Royal Space Force: The Wings of Honneamise and Gunbuster vs. Diebuster. Each chapter highlights the contribution made by a specific production to the company's progress.
