This book provides a lively account of the gilets jaunes, the yellow vest movement that has shaken France since 2018. Charles Devellennes assesses what lessons can be drawn from their activities and the impact for the contemporary relationship between state and citizen. Informed by a dialogue with past political theorists – from Hobbes, Spinoza and Rousseau to Rawls, Nozick and Diderot – and reflecting on the challenges posed by the yellow vest movement, the author rethinks the concept of the social contract for contemporary societies around the world. It proposes a new relationship between the state and the individual, and establishes the necessity of rethinking the modern democratic nature of our representative polities in order to provide a genuine process for the healing of social ills.

#1. Rewritten from first person narrative into third person.

An erotic journey of self-discovery where obsession and a

yearning for control collide. After a chance encounter

brings a businessman face to face with an erotic set of paintings that were never intended to be sold, they

rekindle a flame for the alternative lifestyle he was forced

to give up. When he meets the shy artist, he hatches a

wicked plan that will not only allow him access to more of

her paintings, but to dominate and educate her in the ways

of becoming his submissive. Faced with an offer that will

permit her to explore her sexual desires-their passionate

journey begins. In spite of Dylan's trust issues and

wanting only a physical relationship with distinct

boundaries, their chemistry is powerful. Soon, he realizes

that he can't resist Isabel's spirited nature, her eagerness

and lack of fear to learn from him, and most of all-her

immense talent. But Isabel has a hidden dominant streak

that only Dylan brings out, and despite being drawn to one

another, their unexpected struggle for control and their dark pasts that are looming in the shadows, threatens to strip them of the fragile bond they so desperately cling to. Warning: Contains erotic elements, BDSM themes, and situations that may trigger past memories of abuse.

Intended for mature readers, aged 18+.

The Mongol armies that established the largest land empire in history, stretching across Asia and into eastern Europe, are imperfectly understood. Often they are viewed as screaming throngs of horsemen who swept over opponents by sheer force of numbers rather than as disciplined regiments that carried out planned and practised manoeuvres. In this pioneering book, Timothy May demonstrates that the Mongol military developed from a tribal levy into a disciplined and

complex military organization. He describes the make-up of the Mongol army from its inception to the demise of the Mongol empire, and he shows how it was the strength, quality and versatility of Mongol military organization that made them the pre-eminent warriors of their time.

Can a dominant, damaged alien possibly fix the human whose mind got shattered? Sage: I find out their secret, so I am stripped naked and thrown in a cell with a gigantic alien who is too damaged to speak. He defiles me repeatedly, body and mind, while we are both put through experiments. Nothing is what it seems, and eventually I no longer know what is real and what is not. I don't even know who I am anymore. Algiers: I was crazed and broken when they forced me to pair bond with a human. Now she carries

my child. I am the rightful ruler of this besieged planet. If the humans knew who I was, Alaxia would fall to them. I will leave this place, take my human plaything with me, and wage war on those who would dare imprison me. But will it be too late for Sage? Publisher's Note: Even though this is book two in the Unbreakable series, it can be read and enjoyed as a standalone. This is an extremely dark romance with graphic scenes, mind control and other dark elements. It is meant for mature audiences. The heroine's character is intentionally inconsistent. If alpha aliens in a post-apocalyptic world with total power exchange offend you, please do not purchase.
