Before co-founding BH3 Management, a real estate company that has invested more than \$1.5 billion in commercial debt and equity, Daniel Lebensohn was a Jewish kid from a 1970s Long Island interested in going on joy rides with his friends, getting into cars and chasing girls. After seeing his father's business savvy with rental properties, Lebensohn developed a new mission: to embrace a winning real estate mindset and become a world-class investor. From there, his dreams of writing the next Great American Novel gave way to legal and financial ambitions as he transformed from a rebellious teenager to real estate success story. After bouncing back from an investment startup during the dot-com bust and learning from one of the tri-state area's most prominent real estate dynasties, Lebensohn began using deal making as a creative outlet by artfully syndicating his own real estate deals and investing in distressed debt with his lifelong friends. Still, despite his success, a deeper artistic streak tugged at him. After relocating to Florida, Lebensohn and his business partners found the deal of a lifetime: an undeveloped island in the bay of Miami that their firm had carte blanche to build. Bursting with ideas, he befriended muralists and commissioned local architects to

his ultimate creative statement to life-until a multi-year lawsuit halted construction of the entire city and threatened to destroy everything he and his partners had worked for. Authentic yet practical, *The Art of the Real* is a treasure trove of hard-earned wisdom about competing in the most cutthroat markets in the world without losing a soul or your childhood best friends. A real estate memoir like no other, *Lebensohn* takes readers on a fast-paced ride which proves that when it comes to business, nurturing lifelong relationships offers the greatest possible returns on sweat equity. Ever since its original publication in Germany in 1938, Max Schweidler's *Die Instandsetzung von Kupferstichen, Zeichnungen, Buchern usw.* has been recognized as a seminal modern text on the conservation and restoration of works on paper. This edition, based on the authoritative revised German edition of 1950, makes Schweidler's work available in English for the first time, in a meticulously edited and annotated scholarly edition. An extensively illustrated appendix presents case studies of eleven Old Master prints that were treated using the techniques Schweidler discusses. "Following an overdose of painkillers, Daniel Fletcher is resuscitated in a Los Angeles emergency room and detained for psychiatric evaluation. Through a series of tests, the psychiatrist must ascertain whether the patient intended to kill himself, or whether he can walk free. What the psychiatrist doesn't know is that 'Daniel Fletcher' is actually John Dolan Vincent, a brilliant forger who continually changes his identity to save himself from a lifetime of incarceration. John has done such assessments before - many, many times." "While he creates an elaborate bluff for the evaluator, John reveals the true

Should artists' estates be maintained in perpetuity or permitted to sunset? How do younger artists engage with estate planning today? How do we ensure the legacies of jewelers, architects, and artists working with ephemeral

Artists' Estates offers a fascinating journey into the complex and competitive art world through the distinctive lens of those who deal with the paintings, prints, and sculpture that artists leave behind after their deaths. Bringing together interviews conducted by Magda Salvesen, the widow of the second-generation Abstract Expressionist painter Jon Schueler, this unique book provides a window into the goals and desires, the conflicts and frustrations, and the emotional and financial strains that confront widows, companions, sons, and daughters as the heirs to artists' estates. The judiciously arranged and edited interviews also address the benefits and liabilities of foundations and trusts through the insights of lawyers, gallery dealers, and foundation directors. Readers will explore well-known estates, including those of Roy Lichtenstein, Mark Rothko, Adolph Gottlieb, Milton Avery, Romare Bearden, and David Smith, as well as the equally intriguing legacies of lesser-known artists

"Artistic authorship is fundamental to how we both interpret and value artworks. The figure of the solitary, creative genius underpins the symbolic and monetary values we ascribe to artworks; yet artistic authorship, like ownership, is often contested and unstable. This interdisciplinary collection of essays, written from legal, art historical, and art market perspectives, critically examines the construction and iteration of the artist-author both during the lifetime of the artist and beyond--when artistic authorship is stewarded by others, including artists' estates, foundations and museums. Drawing on current cases and legal disputes, this important anthology addresses enduring issues that have become central to the contemporary art world, such as the collision between artists' rights and the rights of owners of artworks, the problems of authentication and who has the final authority to determine authenticity, and the role of artists' estates as legacy guardians"--Page 4 of cover.

This book takes an interdisciplinary, transnational and cross-cultural approach to reflect on, critically examine and challenge the surprisingly robust practice of making art after death in an artist's name, through the lenses of scholars from the fields of art history, economics and law, as well as practicing artists. Works of art conceived as multiples, such as sculptures, etchings, prints, photographs and conceptual art, can be—and often are—remade from original models and plans long after the artist has passed. Recent sales have suggested a growing market embrace of posthumous works, contemporaneous with questioning on the part of art history. Legal norms seem

Get Free The Artist Estate A Handbook For Artists Executors And Heirs

unready for this surge in posthumous production and are beset by conflict across jurisdictions. Non-Western approaches to posthumous art, from Chinese emulations of non-living artists to Native American performances, take into account rituals of generational passage at odds with contemporary, market-driven approaches. The book will be of interest to scholars working in art history, the art market, art law, art management, museum studies and economics.

How to manage an artist's estate in the 21st century, with case studies from the estates of de Kooning, Judd, Mapplethorpe and more Andy Warhol memorably said that "death can really make you look like a star," but death in itself is not a

guarantee of the relevance of an artist. What is of crucial importance is the proper management structure for the posthumous preservation and development of an artist's estate. The Artist Estate, a handbook written by Loretta Würtenberger, presents the possible legal frameworks and appropriate financing models available in this situation, as well as the proper handling of interest from the market, museums and academia. Würtenberger's business, Fine Art Partners, has advised artists and artists' estates for many years. Based on numerous international examples, the author explains the different alternatives for maintaining an artist's estate and makes recommendations on how best to handle work, archives and ephemera following the death of an artist. Estates discussed here include Zentrum Paul Klee, Max Beckmann Estate, Henry Moore Foundation, Easton Foundation (Louise Bourgeois), Roy Lichtenstein and the Willem de Kooning Estate, Dedalus Foundation (Robert Motherwell), Robert Rauschenberg Foundation, Judd Foundation, Eva Hesse Estate, Robert Mapplethorpe Foundation, Martin Kippenberger Estate and Estate of Philippe Vandenberg.
