Horror films provide a guide to many of the sociological fears of the Cold War era. In an age when warning audiences of impending death was the order of the day for popular nonfiction, horror films provided an area where this fear could be lived out to its ghastly conclusion. Because enemies and potential situations of fear lurked everywhere, within the home, the government, the family, and the very self, horror films could speak to the invasive fears of the cold war era. I Was a Cold War Monster examines cold war anxieties as they were reflected in British and American films from the fifties through the early sixties. This study examines how cold war horror films combined anxiety over social change with the erotic in such films as Psycho, The Tingler, The Horror of Dracula, and House of Wax.

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The “dean of Cold War historians” (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, The Cold War stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of On Grand Strategy.

Giving an overview of the origins and history of the Cold War, this work considers whether the Cold War is truly over, and what the effects have been on Europe, and the former Soviet Union, as well as US foreign policy.

Living as a Christian in today's fast-paced world involves endless lifestyle decisions. These eight Bible studies, along with thought-provoking insights from best-selling author, John White, will provide a biblical basis for living with Christian priorities.

Living with Purpose in a Fast-Paced World

A Study Guide for Ray Bradbury's "The Golden Kite, The Silver Wind"

This breakthrough book provides a detailed reconstruction of Stalin’s leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader; his relationships with his own generals and with other great world leaders; his foreign policy; and his role in instigating the Cold War. While frankly exploring the full extent of Stalin’s brutalities and their impact on the Soviet people, Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long-term detente with the capitalist world. By means of an integrated military, political, and diplomatic narrative, the author draws a sustained and compelling personal portrait of the Soviet leader. The resulting picture is fascinating and contradictory, and it will inevitably change the way we understand Stalin and his place in history. Roberts depicts a despot who helped save the world for democracy, a personal charmer who disciplined mercilessly, a utopian ideologue who could be a practical realist, and a warlord who undertook the role of architect of post-war peace.

The author examines the culture of the United States in the post- World War II era with its air raid drills, spy trials, anti-Communist activity, and TV quiz show scandals.

A concisely written documentary history of the Rosenberg case that interprets the news media’s unexplored role in reporting the case.

"Yiddish-speaking groups of Communists played a visible role in many countries, most notably in the Soviet Union, United States, Poland, France, Canada, Argentina and Uruguay. The sacrificial role of the Red Army, and the Soviet Union as a whole, reinforced the Left movement in the post-Holocaust Jewish world. Apart from card-careering devotees, such groups attracted numerous sympathisers, including the artist Marc Chagall and the writer Sholem Asch. But the suppression of Yiddish culture in the Soviet Union radically changed the climate in Jewish leftwing circles. Former Communists and sympathisers turned away, while the attention of Yiddish commentators in the West turned to the conditions for Jewish cultural and religious life in the Soviet Union and Poland, Jewish emigration and the situation in the Middle East. Ideological confrontations between Communist Yiddish literati in the Soviet Union, United States, Canada, Poland, France and Israel are in the centre of Gennady Estraiikh's pioneering study Yiddish in the Cold War. This ground-breaking book recreates the intellectual environments of the Moscow literary journal Sovetish Heymland (the author was its managing editor in 1988-91), the New York newspaper Morgn-Frayhayt and the Warsaw newspaper Folks-Shtime."

The new editions of Access to History combine all the strengths of this well-loved series with features that allow all students access to the content and study skills needed to achieve exam success. This title starts by examining the crucial events of 1944-7, which led to the break down of the Second World War alliance between the 'Big Three' and the onset of the Cold War. It shows how the Cold War shaped post-war Europe through the creation of two great military and economic blocs. Key events such as the Berlin bockade of 1948-9, the Hungarian revolt of 1956, the second Berlin crisis of 1958-61 and collapse of Communism from 1989-91. In this new edition additional material on détente has been added. Throughout the book key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam style questions and tips for each examination board provide the opportunity to develop exam skills.

This accessible, user-friendly and bang-up-to-dateintroduction to International Politics blends key facts and terms withstrong analytical commentary, examining the debates and issues of greatestrelevance to the study of the subject.Focusing on the period since 1900, thebook provides detailed coverage of key events from the origins of the FirstWorld War to the post-Cold War international order. Written in a clear andjargon-free style, particular features include:•The shift from Great Powersto Superpowers in the first half of the twentieth century•The Cold War andpost-Cold War order•A fresh approach to understanding the relevancy oftheory•State and non-state actors•The challenge of globalization•Order,justice and security in International PoliticsThis clear and authoritativeaccount of International Politics benefits from an exhaustive list of boxes,tables and figures, as well as extensive cross-referencing throughout. Thisbook is an essential guide to understanding the challenges that face worldpeace and security in the twenty-first century.

Reinforce knowledge and develop exam skills with revision of key historical content, exam-focussed activities and guidance from experts as part of the Access to History Series. · Take control of revision with helpful revision tools and techniques, and content broken into easy-to-revise chunks. · Revise key historical content and practise exam technique in context with related exam-focussed activities. · Build exam skills with Exam Focus at the end of each chapter, containing exam questions with sample answers and examiner commentary, to show you what is required in the exam.

A Family's Story of Courage and Survival on Both Sides of the Berlin Wall

International Perspectives on Textbooks and Memory Practices

Volume Two 1950-1960

The End of the Cold War

Contested Cultures and Diaspora in Southeast Asia and Hong Kong

A Study Guide for Arthur C. Clarke's "If I Forget Thee, Oh Earth?"

Origins and Prevention

This book explores contested notions of "Chineseness" in Southeast Asia and Hong Kong during the Cold War, showing how competing ideas about "Chineseness" were an important ideological factor at play in the region. After providing an overview of the scholarship on "Chineseness" and "diaspora", the book sheds light on specific case studies, through the lens of the "Chinese cultural Cold War", from Hong Kong, Singapore, Malaya, Thailand, Indonesia and Vietnam. It provides detailed examples of competition for control of definitions of "Chineseness" by political or politically oriented forces of diverse kinds, and shows how such competition was played out in bookstores, cinemas, music halls, classrooms, and even sports clubs and places of worship across the region in the 1950s, 1960s and 1970s. The book also demonstrates how the legacies of these Cold War contestations continue to influence debates about Chinese influence - and "Chineseness" - in Southeast Asia and the wider region today.

Gale Researcher Guide for: Organization of American States is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

"Shaw analyses key films of the period, including High Treason, which put a British McCarthyism on celluloid; the fascinatingly ambiguous science fiction thriller The Quatermass Experiment; the court-room drama based on the trial of Hungary's Cardinal Mindszenty, The Prisoner; the dystopic The Damned, made by one of Hollywood's blacklisted directors, Joseph Losey; and the CIA-funded, animated version of George Orwell's classic novel Animal Farm. The result is a deeply probing study of how Cold War issues were refracted through British films, compared with their imported American and East European counterparts, and how the British public received this 'war propaganda'."--BOOK JACKET.

A study guide for Walter M. Miller Jr.'s "A Canticle For Leibowitz", excerpted from Gale's acclaimed Novels for Students series. Dawn of the Cold War

A Study Guide for Ray Bradbury's "Dandelion Wine"

Chineseness and the Cold War

2020 L.A. Times Book Prize Finalist, History A provocative examination of how the U.S. military has shaped our entire world, from today's costly, endless wars to the prominence of violence in everyday American life. The United States has been fighting wars constantly since invading Afghanistan in 2001. This nonstop warfare is far less exceptional than it might seem: the United States has been at war or has invaded other countries almost every year since independence. In The United States of War, David Vine traces this pattern of bloody conflict from Columbus's 1494 arrival in Guantnamo Bay through the 250-year expansion of a global US empire. Drawing on historical and firsthand anthropological research in fourteen countries and territories, The United States of War demonstrates how US leaders across generations have locked the United States in a self-perpetuating system of permanent war by constructing the world's largest-ever collection of foreign military bases--a global matrix that has made offensive interventionist wars more likely. Beyond exposing the profit-making desires, political interests, racism, and toxic masculinity underlying the country's relationship to war and empire, The United States of War shows how the long history of U.S. military expansion shapes our daily lives, from today's multi-trillion-dollar wars to the pervasiveness of violence and militarism in everyday U.S. life. The book concludes by confronting the catastrophic toll of American wars--which have left millions dead, wounded, and displaced--while offering proposals for how we can end the fighting.

This is the first study to discuss in detail the implementation phase of policy decisions. Dr. Martel examines several related foreign policy decisions that contributed significantly to the coming of the Cold War: President Truman's order to cut back lend-lease to the USSR after the defeat of Germany, the termination of lend-lease to the USSR after

Many different social scientists have been challenged by the origins of wars, their immediate causes and the mechanisms leading to the breakdown of peaceful relations. Many have speculated whether conflicts were avoidable and whether alternative policies might have prevented conflict. The Ashgate Research Companion to War provides contributions from a number of theorists and historians with a focus on long term, systemic conflicts. The problématique is introduced by the Editors highlighting the need for interdisciplinary approaches to the study of war as a global phenomenon. The following 29 essays provide a comprehensive study guide in four sections: Part I explicates differing theories as to the origins of war under the general concept of 'polemology'. Part II analyzes significant conflicts from the Peloponnesian wars to World War II. Part III examines the ramifications of Cold War and post-Cold War conflict. Part IV looks at long cycles of systemic conflict, and speculates, in part, whether another global war is theoretically possible, and if so, whether it can be averted. This comprehensive volume brings us a much needed analysis of wars throughout the ages, their origins, their consequences, and their relationship to the present. A valuable understanding that is ideal for social scientists from a variety of backgrounds.

Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction “[A] brilliant book...by far the best study yet” (Paul Kennedy, The Wall Street Journal) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain’s empire collapsing and Stalin’s on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil’s “thoroughly researched and well-written account” (USA TODAY) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today. Focusing on the critical years 1947 to 1949, Benn Steil’s gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin’s determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil’s account will forever change how we see the Marshall Plan. “Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War” (The New York Times Book Review), The Marshall Plan is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it “is a gripping, complex, and critically important story that is told with clarity and precision” (The Christian Science Monitor).

Forty Autumns

Study Guide and Map Exercise Workbook

A Study Guide for Ray Bradbury's Fahrenheit 451

A Study Guide for James Hurst's "The Scarlet Ibis"

Lifestyle Priorities

A study guide for Walter M. Miller Jr.'s "A Canticle For Leibowitz"

"This book covers the U.S. Army's occupation of Berlin from 1945 to 1949. This time includes the end of WWII up to the end of the Berlin Airlift. Talks about the set up of occupation by four-power rule."--Provided by publisher

In this illuminating and deeply moving memoir, a former American military intelligence officer goes beyond traditional Cold War espionage tales to tell the true story of her family—of five women separated by the Iron Curtain for more than forty years, and their miraculous reunion after the fall of the Berlin Wall. Forty Autumns makes visceral the pain and longing of one family forced to live apart in a world divided by two. At twenty, Hanna escaped from East to West Germany. But the price of freedom—leaving behind her parents, eight siblings, and family home—was heartbreaking. Uprooted, Hanna eventually moved to America, where she settled down with her husband and had children of her own. Growing up near Washington, D.C., Hanna's daughter, Nina Willner became the first female Army Intelligence Officer to lead sensitive intelligence operations in East Berlin at the height of the Cold War. Though only a few miles separated American Nina and her German relatives—grandmother Oma, Aunt Heidi, and cousin, Cordula, a member of the East German Olympic training team—a bitter political war kept them apart. In Forty Autumns, Nina recounts her family's story—five ordinary lives buffeted by circumstances beyond their control. She takes us deep into the tumultuous and terrifying world of East Germany under Communist rule, revealing both the cruel reality her relatives endured and her own experiences as an intelligence officer, running secret operations behind the Berlin Wall that put her life at risk. A personal look at a tenuous era that divided a city and a nation, and continues to haunt us, Forty Autumns is an intimate and beautifully written story of courage, resilience, and love—of five women whose spirits could not be broken, and who fought to preserve what matters most: family. Forty Autumns is illustrated with dozens of black-and-white and color photographs.

Mike Dowling offers a study guide on Russia and communism as part of the Electronic Passport online resource. Topics include information on the former Soviet Union, Russian leaders, the arms race, the Cold War, and more, as well as links to related sites. Dowling notes that the guide has been designed for use by gifted 6th grade students.

Table of contents includes: World War I 1914-1919, Germany 1918-1939, Russia/Soviet Union 1917-1941, China 1927-1949, USA 1919-1941, The Cold War 1945-1991, Arab Israel conflict 1948-1996, Conflict in Indochina 1954-1979, Conflict in the Pacific 1937-1951, Conflict in Europe 1935-1945, Personalities in the 20th Century, Exam Questions.

J.D. Salinger's The Catcher in the Rye (1951) is a twentieth-century classic. Despite being one of the most frequently banned books in America, generations of readers have identified with the narrator, Holden Caulfield, an angry young man who articulates the confusion, cynicism and vulnerability of adolescence with humour and sincerity. This guide to Salinger's provocative novel offers: an accessible introduction to the text and contexts of The Catcher in the Rye a critical history, surveying the many interpretations of the text from publication to the present a selection of new critical essays on the The Catcher in the Rye, by Sally Robinson, Renee R. Curry, Denis

Jonnes, Livia Hekanaho and Clive Baldwin, providing a range of perspectives on the novel and extending the coverage of key critical approaches identified in the survey section cross-references between sections of the guide, in order to suggest links between texts, contexts and criticism suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of The Catcher in the Rye and seeking not only a guide to the novel, but a way through the wealth of contextual and critical material that surrounds Salinger's text.

A Study Guide for Arthur C. Clarke's "If I Forget Thee, Oh Earth?," excerpted from Gale's acclaimed Short Stories for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Short Stories for Students for all of your research needs.

This book tells the story of the rise and decline of the United Electrical, Radio, and Machine Workers of America (UE) from 1933 to 1990. Once the third-largest industrial union in the United States, the UE was the most powerful left-wing institution in U.S. history and arguably the most significant victim of the anti-communist purges that marked post-World War II America. This is an institutional study of the formation of the UE and the struggle for its control by left-wing and right-wing factions. Unlike most books on unions during the Cold War, this study carries the story up to the present, showing the long-term effects of the ideological battles.

After 1949, the British Empire in Hong Kong was more vulnerable than the lack of Chinese demand for return and the success of Hong Kong's economic transformations might have suggested. Its vulnerability stemmed as much from Britain's imperial decline and America's Cold War requirements as from a Chinese threat. It culminated in the little known '1957 Question', a year when the British position in Hong Kong appeared more uncertain than any time since 1949. This is the first scholarly study that places Hong Kong at the heart of the Anglo-American relationship in the wider context of the Cold War in Asia. Unlike existing works, which tend to treat British and US policies in isolation, this book explores their dynamic interactions - how the two allies perceived, responded to, and attempted to influence each other's policies and actions. It also provides a major reinterpretation of Hong Kong's involvement in the containment of China. Dr Mark argues that, concerned about possible Chinese retaliation, the British insisted and the Americans accepted that Hong Kong's role should be as discreet and non-confrontational in nature as possible. Above all, top decision-makers in Washington evaluated Hong Kong's significance not in its own right, but in the context of the Anglo-American relationship: Hong Kong was seen primarily as a bargaining chip to obtain British support for US policy elsewhere in Asia. By using a variety of British and US archival material as well as Chinese sources, Dr Mark examines how the British and US government discussed, debated, and disagreed over Hong Kong's role in the Cold War, and reveals the dynamics of the Anglo-American alliance and the dilemmas of small allies in a global conflict.

Rothwell, der har undervist i nyere historie ved University of Edinburgh siden 1970, skriver på grundlag af Foreign Office's arkiver i Public Record Office om Storbritanniens udenrigspolitik 1941-47, specielt forholdet til Sovjet og USA

This book is open access under a CC BY 4.0 license. This book explores how the socially disputed period of the Cold War is remembered in today's history classroom. Applying a diverse set of methodological strategies, the authors map the dividing lines in and between memory cultures across the globe, paying special attention to the impact the crisis-driven age of our present has on images of the past.

Authors analysing educational media point to ambivalence, vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies. Others focus on teachers and the history classroom, showing how unresolved political issues create tensions in history education. They render visible how teachers struggle to handle these challenges by pretending that what they do is 'just history'. The contributions to this book unveil how teachers, backgrounding the political inherent in all memory practices, often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach.

This book, first published in 1961, is an analysis of the great struggle of the twentieth century, the Cold War. It carefully examines the conflict's origins in the Russian Revolution of 1917, and follows the thread of antagonism between west and east all the way up to 1960. These were the key years of the Cold War, when it seemed that the prospect of nuclear confrontation was a real one, and this book offers a close reading of the main events of those years. This volume concentrates on the Cold War in the East, and Volume One focuses on the European theatre.

Cold War in the Working Class

The United States of War

The Press, the Rosenbergs, and the Cold War

The State, Propaganda and Consensus

"Here's a book that would've split the sides of Thucydides. Wiener's magical mystery tour of Cold War museums is simultaneously hilarious and the best thing ever written on public history and its contestation." --Mike Davis, author of City of Quartz "Jon Wiener, an astute observer of how history is perceived by the general public, shows us how official efforts to shape popular memory of the Cold War have failed. His journey across America to visit exhibits, monuments, and other historical sites, demonstrates how quickly the Cold War has faded from popular consciousness. A fascinating and entertaining book." --Eric Foner, author of Reconstruction: America's Unfinished Revolution, 1863-1877 "In How We Forgot the Cold War, Jon Wiener shows how conservatives tried--and failed--to commemorate the Cold War as a noble victory over the global forces of tyranny, a 'good war' akin to World War II. Displaying splendid skills as a reporter in addition to his discerning eye as a scholar, this historian's travelogue convincingly shows how the right sought to extend its preferred policy of 'rollback' to the arena of public memory. In a country where historical memory has become an obsession, Wiener's ability to document the ambiguities and absences in these commemorations is an unusual accomplishment." --Rick Perlstein, author of Nixonland: The Rise of a President and the Fracturing of America "In this terrific piece of scholarly journalism, Jon Wiener imaginatively combines scholarship on the Cold War, contemporary journalism, and his own observations of various sites commemorating the era to describe both what they contain and, just as importantly, what they do not. By interrogating the standard conservative brand of American triumphalism, Wiener offers an interpretation of the Cold War that emphasizes just how unnecessary the conflict was and how deleterious its aftereffects have really been." --Ellen Schrecker, author of Many Are The Crimes: McCarthyism in America
