The history of the South China Sea is a catalyst of international cooperation and conflict. Security in the Indo-Asia-Pacific is largely governed by command of these strategic waters. More than half of global shipping transits the South China Sea, which also holds significant reserves of oil, gas and minerals, as well as some of the largest fisheries in the world. Drawing on a team of field-leading researchers, Jenner and Thuy provide an empirical study of the global ocean's most contested sea space. The volume's four parts offer an insightful analysis of the significance of the South China Sea to the international order; sub-national agents of influence on relations between states; the disputes over sovereignty through the analytical prism of international law; and the conflictful region's prospects. The primary source-based conclusion elucidates the agency of history and strategy in the South China Sea.

The first evaluation and critique of Hegel's theory of tragedy and comedy, this book also develops an original theory of both genres.

Echoes Down the Corridor

101 Exercises for the College Classroom

For some fifty years now, Arthur Miller has been not only America's premier playwright, but also one of our foremost public intellectuals and cultural critics. Echoes Down the Corridor gathers together a dazzling array of more than forty previously uncollected essays and works of reportage. Here is Arthur Miller, the brilliant social and political commentator-but here, too, Miller the private man behind the internationally renowned public figure. Witty and wise, rich in artistry and insight, Echoes Down the Corridor reaffirms Arthur Miller's standing as one of the greatest writers of our time.

In Robert Ward's *The Crucible: Creating an American Musical Nationalism*, Robert Paul Kolt explores the life of the American composer Robert Ward through an examination of his most popular and enduring work, *The Crucible*. Focusing on the musical-linguistic relationships within the opera, Kolt demonstrates Ward's unique synthesis of text and music, one that lends itself to the perception of American musical nationalism. This book contains the most thorough and in-depth biography of Ward yet in print. Based on interviews with the composer, Kolt presents new information about Ward's life and career, focusing on his opera and examining the formation and construction of *The Crucible's* libretto and score, in turn offering new insights into the process of composing an opera. Kolt observes how the libretto's linguistic aspects helped Ward formulate the opera's melodic and rhythmic musical material. A detailed and unique analysis of the opera, particularly the musical and linguistic techniques Ward employed, demonstrates how these techniques lend themselves to the opera's reception as a work of American musical nationalism. The book also provides yet unpublished information on Arthur Miller's play, examining how it came to be written and soon after became the basis for Ward's work. Several appendixes provide a fuller picture, including a deleted scene from Miller's play and Ward's version of the scene, a chronological overview of the Salem Witchcraft Trials, and illustrations and photo reproductions from Ward's manuscript.

In this examination of combat leadership at all levels, Hamburger details the actions of the American 23rd Infantry Regiment and the French Bataillon de Coree at the pivotal battles of Twin Tunnels and Chipyeongni in 1951.

Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities. Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects. Beyond the challenges of generating the proper information on these impacts, there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring. The main complexities lie in understanding the interactions of social-ecological systems at different scales and how they varied through time in response to policy and other processes. This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input, which focuses on FSC certification of natural tropical forests. More specifically, the evaluation program aims at building the evidence base of the empirical biophysical, social, economic, and policy effects that FSC certification of natural forest has had in Brazil as well as in other tropical countries. The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices in Brazil. As such, the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties, from institutions and organizations, to communities and individuals.

One of the most important works of twentieth-century American literature, Zora Neale Hurston's beloved 1937 classic, Their Eyes Were Watching God, is an enduring Southern love story sparkling with wit, beauty, and heartfelt wisdom. Told in the captivating voice of a woman who refuses to live in sorrow, bitterness, fear, or foolish romantic dreams, it is the story of fair-skinned, fiercely independent Janie Crawford, and her evolving selfhood through three marriages and a life marked by poverty, trials, and purpose. A true literary wonder, Hurston's masterwork remains as relevant and affecting today as when it was first published -- perhaps the most widely read and highly regarded novel in the entire canon of African American literature.

Exploring the Language of Drama introduces students to the stylistic analysis of drama. Written in an engaging and accessible style, the contributors use techniques of language analysis, particularly from discourse analysis, cognitive linguistics and pragmatics, to explore the language of plays. The contributors demonstrate the validity of analysing the text of a play, as opposed to focusing on performance. Divided into four broad, yet interconnecting groups, the chapters: open up some of the basic mechanisms of conversation and show how they are used in dramatic dialogue look at how discourse analysis and pragmatic theories can be used to help us understand characterization in dialogue consider some of the cognitive patterns underlying dramatic discourse focus on the notion of speech as action there is also a chapter on how to analyse an extract from a play and write up an assignment A personal journey through some of the darkest moments of the cold war and the early days of television news Marvin Kalb, the award-winning journalist who has written extensively about the world he reported on during his long career, now turns his eye on the young man who became that journalist. Chosen by legendary broadcaster Edward R. Murrow to become one of what came to be known as the Murrow Boys, Kalb in this newest volume of his memoirs takes readers back to his first days as a journalist, and what also were the first days of broadcast news. Kalb captures the excitement of being present at the creation of a whole new way of bringing news immediately to the public. And what news. Cold War

tensions were high between Eisenhower's America and Khrushchev's Soviet Union. Kalb is at the center, occupying a unique spot as a student of Russia tasked with explaining Moscow to Washington and the American public. He joins a cast of legendary figures along the way, from Murrow himself to Eric Severeid, Howard K. Smith, Richard Hottelet, Charles Kuralt, and Daniel Schorr among many others. He finds himself assigned as Moscow correspondent of CBS News just as the U2 incident—the downing of a US spy plane over Russian territory—is unfolding. As readers of his first volume, *The Year I Was Peter the Great*, will recall, being the right person, in the right place, at the right time found Kalb face to face with Khrushchev. Assignment Russia sees Kalb once again an eyewitness to history—and a writer and analyst who has helped shape the first draft of that history. This multi-volume work began as a biography of Martha Wadsworth Coigney, who was a pioneering thought leader and advocate of internationalism in the American theatre during the cold war. It was expanded to include the contributions of her mentors and friends Rosamond Gilder, Maurice McClelland, Roger L. Stevens, and Ellen Stewart. Coigney served as director of the International Theatre Institute (ITI) of the United States for thirty-two years and President of ITI International from 1987-1995. The International Theatre Institute is an independent NGO devoted to the UNESCO mission of peace through mutual understanding. After World War II the organization sustained cultural exchange between artists on either side of the Iron Curtain, across religious divides and war zones.

A darkly satirical novel of love, revenge, and 1950s haute couture—now a major motion picture starring Kate Winslet, Judy Davis, Liam Hemsworth, and Hugo Weaving After twenty years spent mastering the art of dressmaking at couture houses in Paris, Tilly Dunnage returns to the small Australian town she was banished from as a child. She plans only to check on her ailing mother and leave. But Tilly decides to stay, and though she is still an outcast, her lush, exquisite dresses prove irresistible to the prim women of Dungatar. Through her fashion business, her friendship with Sergeant Farrat—the town's only policeman, who harbors an unusual passion for fabrics—and a budding romance with Teddy, the local football star whose family is almost as reviled as hers, she finds a measure of grudging acceptance. But as her dresses begin to arouse competition and envy in town, causing old resentments to surface, it becomes clear that Tilly's mind is set on a darker design: exacting revenge on those who wronged her, in the most spectacular fashion. Chronicles the life and works of Arthur Miller.

In post-WWII Russia, one boy dares to save an entire race of outlawed dogs -- the German shepherd! World War II has just ended when thirteen-year-old Mikhail finds a dying man and his German shepherd, Zasha, in the woods. It's dangerous -- some say traitorous -- to own a German dog after Germany attacked Russia, so Mikhail must keep Zasha a secret to keep her alive. But Mikhail's rival, Katia, is determined to find the dog she is sure he's hiding. At the same time, a soldier named Dimitri is breeding a new Russian dog at a nearby farm. So many dogs were lost in combat, to starvation, and in the slaughter of German dogs that the country is in dire need of every kind of dog. Dimitri, too, has suspicions of Zasha's existence, and would like nothing more than to add her to his breeding program. He'll have to compete with the armed dog thieves who are also on her trail. Mikhail's inspiring journey to save his best friend, the last German shepherd in Russia, forces him to face some of life's hardest lessons about war, hate, forgiveness, hope, love, and man's best friend.

"The Crucible" is a 1952 play by the American playwright Arthur Miller. It is a dramatization of the Salem witch trials that took place in the Province of Massachusetts Bay during 1692 and 1693. Miller wrote the play as an allegory of McCarthyism, when the US government blacklisted accused communists. Miller himself was questioned by the House of Representatives' Committee on Un-American Activities in 1956 and convicted of "contempt of Congress" for refusing to identify others present at meetings he had attended. It was first performed at the Martin Beck Theater on Broadway on January 22, 1953. Miller felt that this production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play in a driving performance"). Nonetheless, the production won the 1953 "Best Play" Tony Award. A year later a new production succeeded and the play became a classic. It is a central work in the canon of American drama. Fuji Books' edition of "The Crucible" contains supplementary texts: * "Tragedy And The Common Man", an essay by Arthur Miller. * Excerpts from Nathaniel Hawthorne's magnum opus "The Scarlet Letter", a narrative of the Salem Witch trials. * A few selected quotes of Arthur Miller.

Geology coalesced as a discipline in the early part of the nineteenth century, with the coming together of many strands of investigation and thought. The theme of experimentation and/or instrument-aided observation is absent from most recent accounts of that time, which rely on an admixture of theory and field observations, informed by close examination of minerals. James Hutton emerged as the person who had it right with suggestion of a central heat source for Earth, while Abraham Gottlob Werner and his Neptunist supporters were derided as being blinded by overarching belief, as opposed to sober application of observed facts. However, despite several claims that Hutton had won the day, primary literature from both England and the Continent reveals that the question was by no means settled for decades after Hutton derided information derived from "looking into a little crucible." This Special Paper makes the case that it was just those parameters of heat, pressure, solution, and composition discovered in the laboratory that prevented resolution of the overriding questions about rock origin.

An overview of the play features a biographical sketch of the author, a list of characters, a summary of the plot, and critical and analytical essays about the work.

A Novel

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

The Crucible

From one of the great naval leaders of our time, a master class in decision-making under pressure through the stories of nine famous acts of leadership in battle, drawn from the history of the United States Navy, with outcomes both glorious and notorious At the heart of Admiral James Stavridis's training as a naval officer was the preparation to lead sailors in combat, to face the decisive moment in battle whenever it might arise. In To Risk it All, he offers up nine of the most useful and enthralling stories from the US Navy's nearly 250-year history, and draws from them a set of insights that we can all put to use when confronted with fateful choices. Conflict. Crisis. Risk. These words have a distinct meaning in a military context that we hope will never apply identically in our own lives. But at the same time, as Admiral Stavridis shows with great clarity, many lessons are universal. To Risk it All is filled with thrilling and heroic exploits, but it is anything but a shallow exercise in myth burnishing. Every leader in this book has real flaws, as all humans do, and the stories of failure, or at least the decisions that have been defined as such, are as crucial as the stories of success. In the end, when this master class is concluded, we will be better armed for hard decisions both expected and not.

Arthur Miller was one of the most important American playwrights and political and cultural figures of the 20th century. Both Death of a Salesman and The Crucible stand out as his major works: the former is always in performance somewhere in the world and the latter is Miller's most produced play. As major modern American dramas, they are the subject of a huge amount of criticism which can be daunting for students approaching the plays for the first time. This Reader's Guide introduces the major critical debates surrounding the plays and discusses their unique production histories, initial theatre reviews and later adaptations. The main trends of critical inquiry and scholars who have purported them are examined, as are the views of Miller himself, a prolific self-critic.

This book is written to support those who care for the well-being of their community. It is for anyone who wants to be part of creating an organization, neighborhood, city, or country that works for all, and who has the faith and the energy to create such a place. I am one of those people. Whenever I am in a neighborhood or small town and see empty storefronts, watch people floating aimlessly on the sidewalks during school or working hours, pass by housing projects, or read about crime, poverty, or a poor environment in the places where our children and our brothers and sisters live, I am distressed and anguished. It has become impossible for me to ignore the fact that the world we are creating does not come close to fulfilling its promise. Along with this distress comes the knowledge that each of us, myself included, is participating in creating this world. If it is true that we are creating this world, then each of us has the power to heal its woundedness. This is not about guilt, it is about accountability. Citizens, in their capacity to come together and choose to be accountable, are our best shot at making a difference. This book is for all who are willing to take a leadership role that affirms the conviction that without a willingness to be accountable for our part in creating a strong and connected community, our desire to reduce suffering and increase happiness in the world becomes infinitely more difficult to fulfill. It is also based on the belief that in some way the vitality and connectedness of our communities will determine the strength of our democracy. ---From 'Community'
