wholesaling real estate.

Tom began building his real estate fortune with the purchase of his first property at age 19. Despite having no credit or money of his own, a deal presented itself and Tom was able to see the incredible potential profits in real estate. This was his wake-up call. He realized deals are born every day in nearly every city, big or small. The circumstances that create opportunities for buyers are not unique, but rather commonplace. Deals arise from divorce, disasters, death, bankruptcy, bad decisions, inheritances, and retirement. These are the roots of all deals and they happen everywhere in the world. Tom was lucky to learn at an early age that real estate investing is a business where everyone is equal, rich or poor. The person who has the deal in his hands-the contract-is the person who will make the money. Today, Tom owns and manages over 150,000 square feet of property rentals, houses, commercial centers, offices, industrial and flex properties. In this book, you will learn Tom's methods and see links to the top videos on his YouTube channel, FlipAnythingUSA, where he elaborates on exactly how to make money as a real estate investor. You will also learn how Tom developed tools to find the best deals in any community and how to out-negotiate the competition. This

knowledge comes from years of experience and hundreds of wins and losses. All of Tom's lessons are explained here in a very conversational and easy-to-understand manner. This is your chance to learn from a friend. The book is based on real stories: the opportunities, decisions, success and-yes, even failures-that have made Tom McKay one of the shrewdest and savviest investors in the country. Tom takes you from the beginning, where he started out with nothing, looking for a deal first and the money second. Because as Tom would explain, when you have the deal you hold all the cards. Even if you are broke, as long as you have a contract to buy a property at a great price, the rest is simple. Getting a deal on what someone has and what someone wants is where the easiest money is found. If you adopt Tom's method and attitude, you can follow in his footsteps, making millions on land, commercial and industrial buildings, apartments and houses. Regardless of whether you are a teenager, a senior citizen, or anywhere in between, it's not too late to change your life. You can make thousands-sometimes even tens or hundreds of thousands of dollars. Tom knows age and income are not a factor with his methods. Taking action is what is important. So, now is the time to wake up and smell the real estate! You'll be glad you did.

A top behavioral geneticist makes the case that DNA inherited from our parents at the moment of conception can predict our psychological strengths and weaknesses. In *Blueprint*, behavioral geneticist Robert Plomin describes how the DNA revolution has made DNA personal by giving us the power to predict our psychological strengths and weaknesses from birth. A century of genetic research shows that DNA differences inherited from our parents are the consistent life-long sources of our psychological individuality—the blueprint that makes us who we are. This, says Plomin, is a game changer. Plomin has been working on these issues for almost fifty years, conducting longitudinal studies of twins and adoptees. He reports that genetics explains more of the psychological differences among people than all other factors combined. Genetics accounts for fifty percent of psychological differences—not just mental health and school achievement but all psychological traits, from personality to intellectual abilities. Nature, not nurture is what makes us who we are. Plomin explores the implications of this, drawing some provocative conclusions—among them that parenting styles don't really affect children's outcomes once genetics is taken into effect. Neither tiger mothers nor attachment parenting affects children's ability to get into

THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION. Is there anything worse than a high-pressure salesperson pushing you to say "yes" (then sign on the dotted line) before you're ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are sick of being marketed and sold to. Most of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but

Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.
