

## The Fly On The Ceiling A Math Myth Step Into Reading Step 4

Growing up in the slums of East End London, Charlie Trumper dreams of someday running his grandfather’s fruit and vegetable barrow. That day comes suddenly when his grandfather dies leaving him the floundering business. With the help of Becky Salmon, an enterprising young woman, Charlie sets out to make a name for himself as “The Honest Trader”. But the brutal onset of World War I takes Charlie far from home and into the path of a dangerous enemy whose legacy of evil follows Charlie and his family for generations. Encompassing three continents and spanning over sixty years, As the Crow Flies brings to life a magnificent tale of one man’s rise from rags to riches set against the backdrop of a changing century.

At the **CAREER BOOK TO READ IN 2018** the larger-than-life journey of a 18-year-old college freshman who set out from his dorm room to track down Bill Gates, Lady Gaga, and dozens more of the world’s most successful people to uncover how they broke through and launched their careers. The Third Door takes readers on an unprecedented adventure—from hacking Warren Buffett’s shareholders meeting to chasing Larry King through a grocery store to celebrating in a nightclub with Lady Gaga—as Alex Banayan travels from icon to icon, decoding their success. After remarkable one-on-one interviews with Bill Gates, Maya Angelou, Steve Wozniak, Jane Goodall, Larry King, Jessica Alba, Pitbull, Tim Ferriss, Quincy Jones, and many more, Alex discovered the one key they have in common: they all took the Third Door. Life, business, success... It’s just like a nightclub. There are always three ways in. There’s the First Door: the main entrance, where ninety-nine percent of people wait in line, hoping to get in. The Second Door: the VIP entrance, where the billionaires and celebrities slip through. But what no one tells you is that there is always, always... the Third Door. It’s the entrance where you have to jump out of line, run down the alley, bang on the door a hundred times, climb over the dumpster, crack open the window, sneak through the kitchen—there’s always a way in. Whether it’s how Bill Gates sold his first piece of software or how Steven Spielberg became the youngest studio director in Hollywood history, they all took the Third Door.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their culture. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children’s imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn’t stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Presents step-by-step instructions for folding twenty different kinds of paper airplanes and provides illustrated papers for 112 planes.

A story about how the very messy French philosopher, René Descartes, invented an ingenious way to keep track of his possessions.

NATIONAL BESTSELLER + From the author of the New York Times bestseller Choke and the cult classic Fight Club, a cunningly plotted novel about the ultimate verbal weapon, one that reinvents the apocalyptic thriller for our times. “A harrowing and hilarious glimpse into the future of civilization.” —Minneapolis Star-Tribune Ever heard of a culling song? It’s a lullaby sung in Africa to give a painless death to the old or infirm. The lyrics of a culling song kill, whether spoken or even just thought. You can find one on page 27 of Poems and Rhythms from Around the World, an anthology that sits on the shelves of libraries across the country, waiting to be picked up by unsuspecting readers. Reporter Carl Streator discovers the song’s lethal nature while researching Sudden Infant Death Syndrome, and before he knows it, he’s reciting the poem to anyone who bothers him. As the body count rises, Streator glimpses the potential catastrophe if someone truly mailed it out about the song. The only answer is to find and destroy every copy of the book in the country. Accompanied by a shady real-estate agent, her Wiccan assistant, and the assistant’s truly annoying ecoterrorist boyfriend, Streator begins a desperate cross-country quest to put the culling song to rest.

Two highly respected outdoor journalists, Kirk Deeter of Field & Stream and Charlie Meyers of the Denver Post, have cracked open their notebooks and shared straight-shot advice on the sport of fly fishing, based on a range of new and old experiences—from interviews with the late Lee Wulff to travels with maverick guides in Tierra del Fuego. The mission of The Little Red Book of Fly Fishing is to demystify and un-complicate the tricks and tips that make a great trout fisher. The complicated physics lessons here. Rather, conceived in the “take dead aim” spirit of Harvey Penick’s classic instructional on golf, The Little Red Book of Fly Fishing offers a simple, digestible primer on the basic elements of fly fishing: the cast, presentation, reading water, and selecting flies. In the end, this collection of 240 tips is one of the most insightful, plainly spoken, and entertaining works on this sport—one that will serve both novices and experts alike in helping them reflect home in their approaches to fly fishing.

Humankind

*What if Wendy first traveled to Neverland...with Captain Hook? Sixteen-year-old Wendy Darling's life is not what she imagined it would be. The doldrums of an empty house after her brothers have gone to school, the dull parties where everyone thinks she talks too much, and the fact that her parents have decided to send her away to Ireland as a governess—it all makes her wish things could be different. Wendy's only real escape is in writing down tales of Never Land. After nearly meeting her hero, Peter Pan, four years earlier, she still holds on to the childhood hope that his magical home truly exists. She also holds on to his shadow. So when an opportunity to travel to Never Land via pirate ship presents itself, Wendy makes a deal with the devil. But Never Land isn't quite the place she imagined it would be. Unexpected dangers and strange foes pop up at every turn, and a little pixie named Tinker Bell seems less than willing to help. But when Captain Hook reveals some rather permanent and evil plans for Never Land, it's up to the two of them to save Peter Pan—and his world.*

*Pairs of rhyming words are used in simple sentences to help beginning readers understand the use of words and phrases.*

*From the National Book Award-winning author of The Absolutely True Diary of a Part-Time Indian, the tale of a troubled boy's trip through history. Half Native American and half Irish, fifteen-year-old “Zits” has spent much of his short life alternately abused and ignored as an orphan and ward of the foster care system. Ever since his mother died, he’s felt alienated from everyone, but, thanks to the alcoholic father whom he’s never met, especially disconnected from other Indians. After he runs away from his latest foster home, he makes a new friend. Handsome, charismatic, and eloquent, Justice soon persuades Zits to unleash his pain and anger on the uncaring world. But picking up a gun leads Zits on an unexpected time-traveling journey through several violent moments in American history, experiencing life as an FBI agent during the civil rights movement, a mute Indian boy during the Battle of Little Bighorn, a nineteenth-century Indian tracker, and a modern-day airplane pilot. When Zits finally returns to his own body, “he begins to understand what it means to be the hero, the villain and the victim. . . . Mr. Alexie succeeds yet again with his ability to pierce to the heart of matters, leaving this reader with tears in her eyes” (The New York Times Book Review). Sherman Alexie’s acclaimed novels have turned a spotlight on the unique experiences of modern-day Native Americans, and here, the New York Times–bestselling author of The Lone Ranger and Tonto Fistfight in Heaven and The Absolutely True Diary of a Part-Time Indian takes a bold new turn, combining magical realism with his singular humor and insight. This ebook features an illustrated biography of Sherman Alexie including rare photos from the author’s personal collection.*

*You just can't keep a good girl down . . . unless you use the proper methods. Piper McCloud can fly. Just like that. Easy as pie. Sure, she hasn't mastered reverse propulsion and her turns are kind of sloppy, but she's real good at loop-the-loops. Problem is, the good folk of Lowland County are afraid of Piper. And her ma's at her wit's end. So it seems only fitting that she leave her parents' farm to attend a top-secret, maximum-security school for kids with exceptional abilities. School is great at first with a bunch of new friends whose skills range from super-strength to super-genius. (Plus all the homemade apple pie she can eat!) But Piper is special, even among the special. And there are consequences. Consequences too dire to talk about. Too crazy to consider. And too dangerous to ignore. At turns exhilarating and terrifying, Victoria Forester's debut novel has been praised by Stephenie Meyer, author of the Twilight saga, as "the oddest/sweetest mix of Little House on the Prairie and X-Men...Prepare to have your heart warmed." The Girl Who Could Fly is an unforgettable story of defiance and courage about an irrepressible heroine who can, who will, who must . . . fly. This title has Common Core connections. Praise for Victoria Forester and The Girl Who Could Fly: "It's the oddest/sweetest mix of Little House on the Prairie and X-Men. I was smiling the whole time (except for the part where I cried). I gave it to my mom, and I'm reading it to my kids—it's absolutely multigenerational. Prepare to have your heart warmed." Stephenie Meyer, author of the Twilight saga "In this terrific debut novel, readers meet Piper McCloud, the late-in-life daughter of farmers...The story soars, just like Piper, with enough loop-de-loops to keep kids uncertain about what will come next....Best of all are the book's strong, lightly wrapped messages about friendship and authenticity and the difference between doing well and doing good."--Booklist, Starred Review "Forester's disparate settings (down-home farm and futuristic ice-bunker institute) are unified by the rock-solid point of view and unpretentious diction... any child who has felt different will take strength from Piper's fight to be herself against the tide of family, church, and society."--The Horn Book Review The Girl Who Could Fly is a 2009 Bank Street - Best Children's Book of the Year.*

A Novel

Through the Glass Ceiling to the Stars

A story about how the very messy French philosopher, René Descartes, invented an ingenious way to keep track of his possessions.

A story about how the very messy French philosopher, René Descartes, invented an ingenious way to keep track of his possessions, including Amelia Earhart, who fought to compete against men in the high-stakes national air races of the 1920s and 1930s—and won. In the years between World War I and World War II, airplane racing was one of the most popular sports in America. Thousands of fans flocked to multiday events, and the pilots who competed in these races were hailed as heroes. Well, the male pilots were hailed. Women who flew planes were often ridiculed by the press, and initially they weren’t invited to race. Yet a group of women were determined to take to the sky—no matter what. With guts and grit, they overcame incredible odds both on the ground and in the air to pursue their dreams of flying and racing planes. Fly Girls follows the stories of five remarkable women: Florence Klingensmith, a high-ee school dropout from North Dakota; Ruth Elder, an Alabama housewife; Amelia Earhart, the most famous, but not necessarily the most skilled; Ruth Nichols, a daughter of Wall Street wealth who longed to live a life of her own; and Louise Thaden, who got her start selling coal in Wichita. Together, they fought for the chance to race against the men—and in 1936 one of them would triumph in the toughest raceof all. Complete with photographs and a glossary, Fly Girls celebrates a little-known slice of history wherein tenacious, trail-blazing women braved all obstacles to achieve greatness.

AN INSTANT NEW YORK TIMES BESTSELLER The “lively” (The New Yorker), “convincing” (Forbes), and “riveting pick-me-up we all need right now.” (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It’s a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we are told, are by nature selfish and governed primarily by self-interest. But what if it isn’t true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn’t merely optimistic—it’s realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity’s kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. “The Sapiens of 2020.” —The Guardian “Humankind made me see humanity from a fresh perspective.” —Yuval Noah Harari, author of the #1 bestseller Sapiens Longlisted for the 2021 Andrew Carnegie Medal for Excellence in Nonfiction One of the Washington Post’s 50 Notable Nonfiction Works in 2020

Winner of the National Outdoor Book Award for Natural History and a New York Times Editors Choice Pick “After reading Super Fly, you will never take a fly for granted again. Thank you, Jonathan Balcombe, for reminding us of the infinite marvels of everyday creatures.” —Sy Montgomery, Author of How to Be a Good Creature From an expert in animal consciousness, a book that will turn the fly on the wall into the elephant in the room. For most of us, the only thing we know about flies is that they’re annoying, and our usual reaction is to try to kill them. In Super Fly, the myth-busting biologist Jonathan Balcombe shows the order Diptera in all of its diversity, illustrating the essential role that flies play in every ecosystem in the world as pollinators, waste-disposers, predators, and food source; and how flies continue to reshape our understanding of evolution. Along the way, he reintroduces us to familiar foes like the fruit fly and mosquito, and gives us the chance to meet their lesser-known cousins like the Petroleum Fly (the only animal in the world that breeds in crude oil) and the Chocolate Midge (the sole pollinator of the Cacao tree). No matter your outlook on our tiny buzzing neighbors, Super Fly will change the way you look at flies forever. Jonathan Balcombe is the author of four books on animal sentience, including the New York Times bestselling What A Fish Knows, which was nominated for the PEN/E.O. Wilson Award for Science Writing. He has worked for years as a researcher and educator with the Humane society to show us the consciousness of other creatures, and here he takes us to the farthest reaches of the animal kingdom.

The Fly on the Ceiling

*This novel—in-verse—at once literary and emotionally gripping—follows the unfolding friendship between two very different teenage girls who share a hospital room and an illness. Chess, the narrator, is sick, but with what exactly, she isn't sure. And to make matters worse, she must share a hospital room with Shannon, her polar opposite. Where Chess is polite, Shannon is rude. Where Chess tolerates pain silently, Shannon screams bloody murder. Where Chess seems to be getting slowly better, Shannon seems to be getting worse. How these teenagers become friends, helping each other come to terms with their illness, makes for a dramatic and deeply moving read. "An emotional and innovative novel.... There is so much pathos and humor in these two hospital beds." —E. Lockhart, author of We Were Liars "A story told with the utmost economy of language—intense, compelling, and satisfying." —Susan Patron, author of the Newbery Medal winner The Higher Power of Lucky "Riveting, humanizing and real." —Kirkus Reviews, Starred "A raw, unsentimental perspective on the fight to keep an illness from overpowering one's identity." —Publishers Weekly From the Hardcover edition.*

*Walter lives near the top floor of a tall apartment building where, one night, his habit of jumping on his bed leads to a tumultuous fall through floor after floor, collecting occupants all the way down, in a fully reillustrated 25th anniversary edition of the beloved classic.*

*From the bestselling author of Charlie and the Chocolate Factory and The BFG! Mr. and Mrs. Twit are the smelliest, nastiest, ugliest people in the world. They hate everything—except playing mean jokes on each other, catching innocent birds to put in their Bird Pies, and making their caged monkeys, the Muggle-Wumps, stand on their heads all day. But the Muggle-Wumps have had enough. They don't just want out, they want revenge.*

*Despite their differences, Porky the messy pig and Bess the fussy cat are best friends and support each other in all their endeavors, from poetry writing to cake baking.*

A Hopeful History

Fight

The Twits

Fans around the world adore the bestselling No. 1 Ladies' Detective Agency series and its proprietor, Precious Ramotse, Botswana’s premier lady detective. In this charming series, Mma Ramotse—with help from her loyal associate, Grace Makutsi—navigates her cases and her personal life with wisdom, good humor, and the occasional cup of tea. Precious Ramotse is the eminently sensible and cunning proprietor of the only ladies’ detective agency in Botswana. In Tears of the Giraffe she tracks a wayward wife, uncovers an unscrupulous maid, and searches for an American man who disappeared into the plains many years ago. In the midst of resolving uncertainties, pondering her impending marriage to a good, kind man, Mr. J. L. B. Matekoni, and the promotion of her talented secretary (a graduate of the Botswana Secretarial College, with a mark of 97 per cent), she also finds her family suddenly and unexpectedly increased by two. American history mixes with legend in four classic ghost tales for Step 4 early readers: a Cape Cod ghost horse that leads ships away from danger; a portrait that protests being moved within Virginia’s Shirley Plantation museum; a Colorado miner who continued to look for love even after his bones were dumped down an outhouse hole; and a one-handed California sea captain whose ghost is still said to prow! Stinson Beach. Step 4 Readers use challenging vocabulary and short paragraphs to tell exciting stories. For newly independent readers who read simple sentences with confidence.

The DC Super Hero Girls go on an out-of-this-world adventure in this action-packed book for young readers! Get your cape on with the DC Super Hero Girls(TM)—the unprecedented new Super Hero universe especially for girls! Readers of all ages can fly high with the all-new adventures of Wonder Woman(TM), Supergirl(TM), Batgirl(TM), and some of the world’s most iconic female super heroes as high schoolers! Wonder Woman, Batgirl, and Bumblebee have to stop Killer Moth from bug-napping beautiful space butterflies that only visit Earth once every hundred years.

Can the heroes net the villain before he escapes with these amazing creatures? Find out in this action-packed leveled reader! Step 3 Readers feature engaging characters in easy-to-follow plots about popular topic with text that is clear through context cues or illustrations.

#1 NEW YORK TIMES BESTSELLER Discover the life-changing memoir that has inspired millions of readers through the Academy Award®-winning actor’s unflinching honesty, unconventional wisdom, and lessons learned the hard way about living with greater satisfaction. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE GUARDIAN “McConaughy’s book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of The Subtle Art of Not Giving a F\*ck I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life’s challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it’s medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot’s license, going to church without having to be born again, and laughing through the tears. It’s a love letter. To life. It’s also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

The Wild Quest to Uncover How the World’s Most Successful People Launched Their Careers

Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Let little ones wing their way to sleep with this uplifting bedtime book! Shine the beam of a flashlight (not included) through 7 transparent page “windows” to cast silhouette pictures on the wall as you read lyrical rhymes about a kite’s journey up, up, and away:pat birds, planes, clouds, and more.

In A Ceiling Made of Eggshells, Newbery Honor-winning author Gail Carson Levine tells a moving and ambitious story set during the expulsion of Jews from Spain, about a young Jewish girl full of heart who must play her own role in her people’ s epic history—no matter the sacrifice. Surrounded by her large family, Loma is happy living in the juder i a of Alcalá de Henares, Spain, and wants nothing more than to someday have a family of her own. Still, when her intimidating grandfather, her Belo, decides to bring her along on his travels, she ’ s excited to join him. Belo has the ear of King Ferdinand and Queen Isabella, and Loma relishes her adventures with him, adventures that are beyond the scope of most girls of the time. She soon learns just how dangerous the world is for the Jews of Spain, and how her grandfather ’ s influence keeps their people safe. But the older Loma gets, the more she longs to realize her own dreams—if Belo will ever allow her to leave his side.

The splitting of the atom, performed in a shabby Cambridge lab in April 1932, was a triumph of ingenuity over adversity. John Cockcroft and Ernest Walton, under the stern gaze of the brilliantly eccentric Lord Rutherford, cobbled together handmade or recycled components - while American rivals had state-of-the-art equipment - to make one of the great scientific breakthroughs of all time. In Brian Cathcart’s hands, this remarkable tale of success on a shoe string - packed with larger-than-life characters, struggles against the odds, personal tragedy, love and bloody-minded determination - makes for one of the most inspiring stories of scientific doing-er over told.

Fly Into the Wind

The Glass Castle

Fly in Space

Winged Death

The World Record Paper Airplane Book

*USA TODAY BESTSELLER “Lt Colonel Dan Rooney is a true patriot who serves our country with courage and honor.”—George H.W. Bush, 41st President of the United States F-16 fighter pilot, American hero, Folds of Honor founder, PGA professional, and inspirational family man Dan Rooney delivers a motivational code for living to help ordinary people ascend to their highest level in life. Part spiritual guide and part call-to-action, Fly Into the Wind combines Lt Colonel Rooney’s fighter pilot stories with his discovery of faith and purpose in order to help each reader achieve a philosophy he calls CAUV, after the Air Force acronym that stands for “ceiling and visibility unrestricted.” CAUV describes the perfect conditions for flying a fighter jet, when steel-blue skies invite pilots to spread their wings like supersonic eagles. In today’s world of identity politics, fractured racial relations, and external turmoil, Rooney’s book will show how all of us are connected by God in more ways than we realize, and that the path to fulfillment begins with changing ourselves in order to better one another. From the outside, Lieutenant Colonel Dan “Noonan” Rooney was living the American Dream: he was an F-16 fighter pilot, PGA Professional, husband to his college sweetheart, and father of five daughters. His position in life should’ve been a blessing. But a near-tragic mishap while piloting his F-16 triggered an ominous life storm that altered his trajectory and filled him with self-doubt. Realizing that a jet takes off into the wind because it requires resistance over its wings to fly, Lt Colonel Rooney’s attitude toward the resistance he encountered in his life changed from resentment to humble introspection. Hyper-focused on the precise areas that are immediately under your control, CAUV is a disciplined approach to each day that will help you reshape, motivate, prioritize, and ultimately thrive. In Fly Into the Wind, Lt. Colonel Rooney breaks down CAUV into ten unique lines of effort (LOE), with each LOE building upon the previous one to provide a positive vector toward a new way of living. Along this enlightened path, readers will discover a renewed belief in themselves and the art of the possible. The time for self-discovery and ultimate achievement begins now.*

*“[Sava?] writes with both sensuality and coolness, as if determined to find a rational explanation for the irrationality of existence...” -- The New York Times “I fell in love with this book.” -- Katie Kitamura, author of A Separation A mesmerizing novel set in Paris and a changing Istanbul, about a young Turkish woman grappling with her past and her complicated relationship with a famous British writer. After her mother's death, Nunu moves from Istanbul to a small apartment in Paris. One day outside of a bookstore, she meets M., an older British writer whose novels about Istanbul Nunu has always admired. They find themselves walking the streets of Paris and talking late into the night. What follows is an unusual friendship of eccentric correspondence and long walks around the city. M. is working on a new novel set in Turkey and Nunu tells him about her family, hoping to impress and inspire him. She recounts the idyllic landscapes of her past, mythical family meals, and her elaborate childhood games. As she does so, she also begins to confront her mother's silence and anger, her father's death, and the growing unrest in Istanbul. Their intimacy deepens, so does Nunu's fear of revealing too much to M. and of giving too much of herself and her Istanbul away. Most of all, she fears that she will have to face her own guilt about her mother and the narratives she's told to protect herself from her memories. A wise and unguarded glimpse into a young woman's coming into her own, Walking on the Ceiling is about memory, the pleasure of invention, and those places, real and imagined, we can't escape.*

*The long-awaited memoir of a trailblazer and role model who is telling her story for the first time. Eileen Collins was an aviation pioneer her entire career, from her crowning achievements as the first woman to command an American space mission as well as the first to pilot the space shuttle to her early years as one of the Air Force's first female pilots. She was in the first class of women to earn pilot's wings at Vance Air Force Base and was their first female instructor pilot. She was only the second woman pilot admitted to the Air Force's elite Test Pilot Program at Edwards Air Force Base. NASA had such confidence in her skills as a leader and pilot that she was entrusted to command the first shuttle mission after the Columbia disaster, returning the US to spaceflight after a two-year hiatus. Since retiring from the Air Force and NASA, she has served on numerous corporate boards and is an inspirational speaker about space exploration and leadership. Eileen Collins is among the most recognized and admired women in the world, yet this is the first time she has told her story in a book. It is a story not only of achievement and overcoming obstacles but of profound personal transformation. The shy, quiet child of an alcoholic father and struggling single mother, who grew up in modest circumstances and was an unremarkable student, she had few prospects when she graduated from high school, but she changed her life to pursue her secret dream of becoming an astronaut. She shares her leadership and life lessons throughout the book with the aim of inspiring and passing on her legacy to a new generation.*

*A debut installment in a whimsical series dedicated to icky insects and animals celebrates the common house fly, sharing humorous scientific facts about everything from its ability to walk on ceilings to its taste for unappetizing foods.*
