

The Four Dimensions Of Extraordinary Leadership The Power Of Leading From Your Heart Soul Mind And Strength

A book from the stand-up mathematician that makes math fun again! Math is boring, says the mathematician and comedian Matt Parker. Part of the problem may be the way the subject is taught, but it's also true that we all, to a greater or lesser extent, find math difficult and counterintuitive. This counterintuitiveness is actually part of the point, argues Parker: the extraordinary thing about math is that it allows us to access logic and ideas beyond what our brains can instinctively do—through its logical tools we are able to reach beyond our innate abilities and grasp more and more abstract concepts. In the absorbing and exhilarating Things to Make and Do in the Fourth Dimension, Parker sets out to convince his readers to revisit the very math that put them off the subject as fourteen-year-olds. Starting with the foundations of math familiar from school (numbers, geometry, and algebra), he reveals how it is possible to climb all the way up to the topology and to four-dimensional shapes, and from there to infinity—and slightly beyond. Both playful and sophisticated, Things to Make and Do in the Fourth Dimension is filled with captivating games and puzzles, a buffet of optional hands-on activities that entices us to take pleasure in math that is normally only available to those studying at a university level. Things to Make and Do in the Fourth Dimension invites us to re-learn much of what we missed in school and, this time, to be utterly enthralled by it.

You have the capacity to become an extraordinary leader—if you are willing to embrace a deeper definition of leadership and take action to apply it. In The 4 Dimensions of Extraordinary Leadership, Jenni Catron, executive church leader and author of Clout, reveals the secrets to standout leadership found in the Great Commandment: “Love the Lord your God with all your heart and with all your soul and with all your mind and with all your strength.” Weaving a winsome narrative filled with inspiring real-life stories, hard-won wisdom, and practical applications, Catron unpacks four essential aspects of growing more influential: your heart for relational leadership, your soul for spiritual leadership, your mind for managerial leadership, and your strength for visionary leadership. Leadership isn’t easy, but it is possible to move from ordinary to extraordinary. Jenni Catron shows the way.

“Great teams are comprised of ordinary people that are empowered and inspired. They are empowered to solve hard problems in ways their customers love yet work for their business. They are inspired with ideas and techniques for quickly evaluating those ideas to discover solutions that work: they are valuable, usable, feasible and viable. This book is about the idea and reality of “achieving extraordinary results from ordinary people”. Empowered is the companion to Inspired. It addresses the other half of the problem of building tech products?how to get the absolute best work from your product teams. However, the book's message applies much more broadly than just to product teams. Inspired was aimed at product managers. Empowered is aimed at all levels of technology-powered organizations: founders and CEO's, leaders of product, technology and design, and the countless product managers, product designers and engineers that comprise the teams. This book will not just inspire companies to empower their employees but will teach them how. This book will help readers achieve the benefits of truly empowered teams”--

*A New York Times bestseller! A visit to Washington, DC's National Portrait Gallery forever alters Parker Curry's young life when she views First Lady Michelle Obama's portrait. When Parker Curry came face-to-face with Amy SHERALD's transcendent portrait of First Lady Michelle Obama at the National Portrait Gallery, she didn't just see the First Lady of the United States. She saw a queen—one with dynamic self-assurance, regality, beauty, and truth who captured this young girl's imagination. When a nearby museum-goer snapped a photo of a mesmerized Parker, it became an internet sensation. Inspired by this visit, Parker, and her mother, Jessica Curry, tell the story of a young girl and her family, whose trip to a museum becomes an extraordinary moment, in a moving picture book. Parker Looks Up follows Parker, along with her baby sister and her mother, and her best friend Gia and Gia's mother, as they walk the halls of a museum, seeing paintings of everyone and everything from George Washington Carver to Frida Kahlo, exotic flowers to graceful ballerinas. Then, Parker walks by SHERALD's portrait of Michelle Obama...and almost passes it. But she stops...and looks up! Parker saw the possibility and promise, the hopes and dreams of herself in this powerful painting of Michelle Obama. An everyday moment became an extraordinary one...that continues to resonate its power, inspiration, and indelible impact. Because, as Jessica Curry said, “anything is possible regardless of race, class, or gender.” **FOREWORD BY ARTIST AMY SHERALD***

A gripping tale that reveals what occupies the minds of the world's best business leaders As CEO, most everything that Rich O'Connor did had something to do with at least one of the four disciplines on his famed "yellow sheet." Some of the firm's executives joked that he was obsessed with it. Interestingly, only a handful of people knew what was on that sheet, and so it remained something of a mystery. Which was okay with Rich, because no one really needed to understand it, other than him. He certainly never suspected that it would become the blueprint of an employee's plan to destroy the firm. In this stunning follow-up to his best-selling book, The Five Temptations of a CEO, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a

leader's crucial role in building a healthy organization - an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as Rich O'Connor, fictional CEO of technology consulting company Telegraph Partners, faces a leadership challenge so great that it threatens to topple his company, his career and everything he holds true about what makes a leader truly exceptional. In the story's telling, Lencioni deftly helps his readers understand the disarming simplicity and power of creating a healthy organization and reveals four key disciplines that they can follow to achieve it. In *The Four Obsessions of an Extraordinary Executive*, Lencioni delivers an utterly gripping tale with a powerful and memorable message for all who strive to be remarkable leaders.

How did Alan Mulally--an outsider to the auto industry--lead such a spectacular turnaround at Ford? How did Morgan Stanley CEO John Mack keep his company from imploding even as Lehman Brothers collapsed? What is it that enables such extraordinary leaders to galvanize their talents and energy, as well as the talents and energy of those who work for them, to achieve superior performance no matter what challenges they face? Rajeev Peshawaria has spent more than twenty years working alongside top executives at Fortune 500 companies and training them in leadership, including as Global Director of Leadership Development programs at American Express, as Chief Learning Officer at both Morgan Stanley and Coca-Cola, and as one of the founding members of the renowned Goldman Sachs leadership development program known as Pine Street. He knows precisely what makes the difference between those who are simply bosses and those who are superior leaders, and between those who continue to rise to the top levels and those who get stuck along the way. In this lively and remarkably empowering book, Peshawaria offers readers the opportunity to experience the highest level of leadership training available in the world. Introducing the three core principles he has observed are the foundation of the best leadership--that great leaders clearly define their purpose and values; that nobody can motivate another person because everyone comes pre-motivated; and that a leader's job is not to directly produce results but to create the conditions that will harness the energy of others--he details his unique and proven program for achieving leadership excellence. Sharing a wealth of illuminating stories, from those of Mulally's achievement at Ford and Mack's at Morgan Stanley, to how Harvey Golub and Ken Chenault successfully restored American Express to long-term sustainable growth, how Neville Isdell turned the Coca-Cola Company around, and the continuing prowess of Jeff Bezos in growing Amazon.com, he first reveals how extraordinary leaders marshal and sustain the level of energy in themselves that is required and how they enlist a core group of proficient co-leaders. He then outlines how to harness the energy and talents of those at all levels of an organization, igniting their motivation by following his RED guidelines for addressing their core needs concerning their Role, their work Environment, and their career Development. Finally, he introduces his unique Brains, Bones, and Nerves framework for: developing a clear strategy for competitive advantage (the Brains); crafting an optimal organizational structure (the Bones); and fostering a highly cooperative and motivated company culture (the Nerves). Filled with specific tips about the vital questions to ask and simple but powerful steps to follow, *Too Many Bosses, Too Few Leaders* is a manager's essential tool kit for long-term superior performance.

Fifteen years ago, psychologist and educator Howard Gardner introduced the idea of multiple intelligences, challenging the presumption that intelligence consists of verbal or analytic abilities only -- those intelligences that schools tend to measure. He argued for a broader understanding of the intelligent mind, one that embraces creation in the arts and music, spatial reasoning, and the ability to understand ourselves and others. Today, Gardner's ideas have become widely accepted -- indeed, they have changed how we think about intelligence, genius, creativity, and even leadership, and he is widely regarded as one of the most important voices writing on these subjects. Now, in *Extraordinary Minds*, a book as riveting as it is new, Gardner poses an important question: Is there a set of traits shared by all truly great achievers -- those we deem extraordinary -- no matter their field or the time period within which they did their important work? In an attempt to answer this question, Gardner first examines how most of us mature into more or less competent adults. He then examines closely four persons who lived unquestionably extraordinary lives -- Mozart, Freud, Woolf, and Gandhi -- using each as an exemplar of a different kind of extraordinariness: Mozart as the master of a discipline, Freud as the innovative founder of a new discipline, Woolf as the great introspector, and Gandhi as the influencer. What can we learn about ourselves from the experiences of the extraordinary? Interestingly, Gardner finds that an excess of raw power is not the most impressive characteristic shared by superachievers; rather, these extraordinary individuals all have had a special talent for identifying their own strengths and weaknesses, for accurately analyzing the events of their own lives, and for converting into future successes those inevitable setbacks that mark every life. Gardner provides answers to a number of provocative questions, among them: How do we explain extraordinary times -- Athens in the fifth century B.C., the T'ang Dynasty in the eighth century, Islamic Society in the late Middle Ages, and New York at the middle of the century? What is the relation among genius, creativity, fame, success, and moral extraordinariness? Does extraordinariness make for a happier, more fulfilling life, or does it simply create a special onus?

The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. *Human Dimension and Interior Space* is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With *Human Dimension and Interior Space*, these standards are now accessible to all designers of interior environments.

Seven Ways to Welcome Like Jesus

The Art of Reframing

You are a four-dimensional human. Each of us exists in three-dimensional, physical space. But, as a constellation of everyday digital phenomena rewires our lives, we are increasingly coaxed from the containment of our predigital selves into a wonderful and eerie fourth dimension, a world of ceaseless communication, instant information, and global connection. Our portals to this new world have been wedged open, and the silhouette of a figure is slowly taking shape. But what does it feel like to be four-dimensional? How do digital technologies influence the rhythms of our thoughts, the style and tilt of our consciousness? What new sensitivities and sensibilities are emerging with our exposure to the delights, sorrows, and anxieties of a networked world? And how do we live in public with these recoded private lives? Laurence Scott—hailed as a “New Generation Thinker” by the Arts and Humanities Research Council and the BBC—shows how this four-dimensional life is dramatically changing us by redefining our social lives and extending the limits of our presence in the world. Blending tech-philosophy with insights on everything from *Seinfeld* to the fall of Gaddafi, Scott stands with a rising generation of social critics hoping to understand our new reality. His virtuosic debut is a revelatory and original exploration of life in the digital age.

How to offer Christian hospitality without becoming exhausted and overburdened. Generous hospitality is a significant way in which God works through our lives to bring life to others, yet many of us feel ill-equipped and overwhelmed at the prospect, especially if we don't have big houses and we are not wonderful cooks! Carolyn Lacey encourages us to focus on the goal of hospitality, which is to reflect God's welcoming heart, and shows us how we can all do that, regardless of our bank balance or living situation. She explores seven ways in which we can reflect God's character in the way we welcome others into our homes and into our lives, and so point people ultimately to Christ. This practical and realistic book explores how to make generous hospitality

part of everyday life without becoming exhausted and overburdened.

This book describes a powerful three-part method for giving your heart the energy to heal your heart's wounds and becoming who you truly are. The authors show how the dimensions of the heart contain the keys to developing qualities such as tolerance, cooperation, empathy, sincerity, idealism, optimism, initiative, drive, courage, inner peace and the ability to embrace change. Recognizing the greatness within yourself and others, learning a simple heartbeat-based meditation, and performing exercises for life will produce the changes you desire in yourself. Description for Energize Your Heart In this remarkable book, Puran & Susanna Bair describe a powerful, authentic method for giving your heart the energy to heal your heart's wounds, recognize the greatness within yourself and others, and to be who you truly are. Explains the four dimensions of effective leadership for leaders in the public sphere There is a wealth of advice available for corporate leaders, but little in the way of leadership guidance for those in government agencies. Leading Forward fills that gap by providing a development framework and assessment tool based on the four dimensions of effective leadership—empowerment, fairness, leaders, and supervisors. These four dimensions are critical competencies that leaders must develop in order to succeed now and in the future. Based on years of working with agency leaders at all levels of government and the latest assessment data from the Office of Personnel Management, this practical resource includes a review of the current core leadership competencies and a detailed look at the gaps between actual and expected execution. Offers unique and uncommon leadership guidance for those in the public sector Includes examples, exercises, techniques, and case studies, as well as interviews with past and current leaders Ideal for government agency executives and students in leadership and professional development programs Leading effectively in a government agency is different than leading in the private sphere. Leading Forward offers a practical and effective framework for developing great leaders for the public good.

Don't create change. Capture it. Get ready to forget everything you know about "working your plan." In this counterintuitive book, innovative university president Roger Parrott turns leadership on its head and shows you how unexpected opportunities--the ones you may be missing--are the key to your success. With an Opportunity Leadership mindset, you'll see God-directed results like never before. In plain language, Dr. Parrott guides you in developing six traits to focus your leadership outlook on untapped opportunities. Not only that, he provides a step-by-step plan for you to create six organization-wide tendencies that enable your team to respond to opportunities with expediency, adeptness, and energy.

Join the global movement that's making corporations more people-centric to achieve great results. The world is facing a global leadership crisis. Seventy-seven percent of leaders think they do a good job of engaging their people, yet 88 percent of employees say their leaders don't engage enough. There is also a high level of suffering in the workplace: 35 percent of employees would forgo a pay raise to see their leaders fired. This is an enormous waste of human talent--despite the fact that \$46 billion is spent each year on leadership development. Based on extensive research, including assessments of more than 35,000 leaders and interviews with 250 C-level executives, The Mind of the Leader concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning, purpose, connection, and genuine happiness in their work. But more than a description of the problem, The Mind of the Leader offers a radical, yet practical, solution. To solve the leadership crisis, organizations need to put people at the center of their strategy. They need to develop managers and executives who lead with three core mental qualities: mindfulness, selflessness, and compassion. Using real-world inspirational examples from Marriott, Accenture, McKinsey & Company, LinkedIn, and many more, The Mind of the Leader shows how this new kind of leadership turns conventional leadership thinking upside down. It represents a radical redefinition of what it takes to be an effective leader--and a practical, hard-nosed solution to every organization's engagement and execution problems.

The proven model that offers powerful and elegant strategies for leaders *How Great Leaders Think: the Art of Reframing* uses compelling, contemporary examples to show how more complex thinking is the key to better leadership. Leaders who understand what's going on around them see what they need to do to achieve the results they want. Bolman and Deal's influential four-frame model of leadership and organizations—developed in their bestselling book, *Reframing Organizations: Artistry Choice and Leadership*—offers leaders an accessible guide for understanding four major aspects of organizational life: structure, people, politics, and culture. Tapping into the complexity enables leaders to decode the messy world in which they live, see more options, tell better stories, and find strategies that are more effective. Case examples of leaders like Jeff Bezos at Amazon, Howard Schultz at Starbucks, Tony Hsieh at Zappos, Ursula Burns at Xerox, and the late Steve Jobs at Apple provide concrete lessons that readers can put to use in their own leadership. The book's lessons include: How to use structural tools to organize teams and organizations for better results How to build motivation and morale by aligning organizations and people How to map the terrain and build a power base to navigate the political dynamics in organizations How to develop a leadership story that shapes culture, provides direction, and inspires commitment to excellence

The Extraordinary Power of a Focused Life is designed to help leaders develop a focused life for finishing well. A focused life involves four focal points (purpose, role, methodology, legacy) that leaders need to discover and apply with greater clarity and intentionality over time. The structure of this workbook addresses four critical questions that we must work through in order to finish well in life and leadership: 1. PERSPECTIVE: Where have I come from? 2. DESTINY: Where am I going? 3. STRATEGY: How do I get there? 4. LEGACY: What do I leave behind me that matters? Each chapter uses the IDEA approach to transformational learning and begins with an Introduction (I) followed by Discovery (D), Explanation (E) and Application (A) sections. The goal of *The Extraordinary Power of a Focused Life* is not to inform you, but to TRANSFORM YOU! Transformation takes place best within the context of the life giving dynamic of Spirit and Truth (John 4:24) that ultimately leads to becoming more loving (I Timothy 1:5). This dynamic seems to take place along a growth continuum that involves spiritual (CHARACTER), ministry/leadership (COMPETENCIES), and strategic (CALLING) formations for finishing well. I strongly suggest that as you work through this workbook you do it with an accountability partner, mentor, or coach. What you are starting here is not a quick and easy fix or formula for instant insight and success. It is a process (NOT A PROGRAM) that may involve a lot of time, effort, and dying to self to get through. Take your time and prayerfully and carefully read, study, discuss, apply, and evaluate your progress. Remember that finishing well is a journey, a process, or lifestyle. Over the years you will become more and more transformed by God as he reveals his purposes to you and prepares you to finish well in life and leadership. NOTICE: This workbook has a doc.file application so that you can work through the focused life process on your computer. For more information access www.theconvergencegroup.org and go to resource section and access *Focused Life Application 2.0*.

To improve your own leadership influence, study the lives of great leaders—you'll find 21 of them in Pat Williams' newest book. Member of the Basketball Hall of Fame, senior vice president of the Orlando Magic, and author of 90 books, Pat Williams has devoted much of his life to the study of leadership—and shares the stories and principles of individuals from George Washington to Nelson Mandela, Billy Graham to Walt Disney, and Margaret Thatcher to Steve Jobs. Organized around Pat's "Seven Sides of Leadership"—Vision, Communication, People Skills, Character, Competence, Boldness, Serving Heart—21 Great Leaders will provide challenge, encouragement, and affirmation for your own leadership journey.

From one of the most respected names in business and leadership, a rare look at the specifics of how great leaders achieve "common purpose" and success within their organizations. What is common purpose? It is that rare, almost-palpable experience that happens when a leader coalesces a group, team or community into a creative, dynamic, brave and nearly invincible we. It happens the moment the organization's values, tools, objectives and hopes are internalized in a way that enables people to work tirelessly toward a goal. Common purpose is rarely achieved. But Kurtzman has observed that when a leader is able to bring it about, the results are outsized, measurable and inspiring. Based on Kurtzman's all-new interviews with more than 50 leaders, including Ron Sargent, Ilene Lang, Micky Arison, Simon Cooper, Joel Klein, Janet Field, Steve Wynn, Shivan Subramaniam, Michael Dell, Richard Boyatzis, Tom Kelley, Michael Milken, and Warren Bennis *Common Purpose* contains research on leadership Kurtzman has conducted during his years at *The New York Times*, the *Harvard Business Review*, *Booz & Company*, as well as with *PricewaterhouseCoopers*, *Mercer*, and *Korn/Ferry*. Based on all new interviews with some of the most dynamic, successful, and enduring leaders, *Common Purpose* sheds new light on the meaning of leadership, the crucial qualities of leaders, and most importantly, how to lead.

The New York Times bestselling authors of *Switch* and *Made to Stick* explore why certain brief experiences can jolt us and elevate us and change us—and how we can learn to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and forget the rest. Why “we feel most comfortable when things are certain, but we feel most alive

when they're not." And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world's youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck—but why would we leave our most meaningful, memorable moments to chance when we can create them? **The Power of Moments** shows us how to be the author of richer experiences.

You have clout. Have you discovered it yet? It is easy to believe that power, influence, and leadership are gifts given to a special few. But the Bible says otherwise. We all long for significance, even as we fear we will never be good enough. We listen for God, but hear only voices of doubt and practicality. Listen again. There is a call that only you can answer. Clout is power and influence. It is an undeniable trait that opens doors and moves mountains. You have it, and you can use it to change the world around you. With Scripture and stories from her own life, Jenni Catron maps out the pitfalls and clear paths on the way toward discovering and unleashing your very own clout. This is not a quest of power for power's sake. Influence is not a guarantee of fame or fortune. It is an opportunity to use your gifts to do the extraordinary. This is a journey toward dismantling what stands in the way of your influence and leadership, discovering your God-given clout, and using it to answer God's calling on your life. Learn about Jesus and others who sought to lead like him. Stop dreaming and start planning. Define your direction, set your goals, and confront the challenges that stand between you and the person God made you to be. Step into your sphere of influence with the humble confidence of Christ. Don't hide. We need you. Discover your clout here.

This is the missing piece for so many - the ones who sometimes question themselves and their ability to deliver upon their dreams. **Soul Modes** is not the average self-help guide because it provides a framework that equips every woman to get to know herself, find her tripwires, and let her days be so much easier.

Experiences. The curtain is about to rise, say Pine Gilmore, on the Experience Economy, a new economic era in which every business is a stage, and companies must design memorable events for which they charge admission. With The Experience Economy, Pine Gilmore explore how successful companies—using goods as props and services as the stage—create experiences that engage customers in an inherently personal way. Why does a cup of coffee cost more at a trendy cafe than it does at the corner diner or when brewed at home? It's the value that the experience holds for the individual that determines the worth of the offering and the work of the business. From online communities to airport parking, the authors draw from a rich and varied mix of examples that showcase businesses in the midst of creating engaging experiences for both consumers and corporate customers. The Experience Economy marks the debut of an insightful, highly original, and yet eminently practical approach for companies to script and stage compelling experiences. In doing so, all workers become actors, intentionally creating specific effects for their customers. And it's the experiences they stage that create memorable—and lasting—impressions that ultimately create transformations within individuals. Make no mistake, say Pine Gilmore: goods and services are no longer enough. Experiences are the foundation for future economic growth, and The Experience Economy is the playbook from which managers can begin to direct new performances.

Jenni Catron, author of Clout and leader at Menlo Park Presbyterian Church, unpacks the four areas that every leader must develop in order to lead well. In The Four Dimensions of Extraordinary Leadership, Jenni Catron reveals that the secret to standout leadership is found in the Great Commandment: "Love the Lord your God with all your heart and with all your soul and with all your mind and with all your strength." This is the model for extraordinary leadership. Leadership requires everything: your heart for relational leadership, your soul for spiritual leadership, your mind for managerial leadership, and your strength for visionary leadership. Extraordinary leadership isn't easy, but it is possible to move from ordinary to extraordinary. Jenni Catron shows how.

Wall Street Journal bestseller Watch your most innovative ideas take flight by overcoming the forces that resist change The for anyone who wants to introduce a new idea or innovation into the world. Most marketers, innovators, executives, activists—the business of creating change, operate on a deep assumption. It is the belief that the best (and perhaps only) way to convince and embrace a new idea is to heighten the appeal of the idea itself. We instinctively believe that if we add enough value, people will say "yes." This reflex leads us down a path of adding features and benefits to our ideas or increasing the sizzle of our messaging to get others on board. We call this instinct the "Fuel-based mindset." The Fuel-based mindset explains so much of what we do: countless trivial features to software, to bolting a sixth blade onto a shaving razor. By focusing on Fuel, innovators neglect the equation—the psychological Frictions that oppose change. Frictions create drag on innovation. And though they are rarely overcome, overcoming these Frictions is essential for bringing new ideas into the world. The Human Element highlights the four Frictions against innovation. Readers will discover: Why their best ideas and initiatives often get rejected—despite their undeniable value—the forces of resistance that act against change How to transform the very Frictions that hold us back into catalysts for change business leaders, product managers, educators, and anyone else who seeks to bring new and exciting ideas to life, The Human Element is an indispensable resource to help people overcome the powerful forces of human nature that instinctively resist change.

What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership. They drew on research from academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, they interviewed over 160 leaders from many fields—including business, government and the arts—and from many countries. With this research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from a resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. business bestseller, How Remarkable Women Lead, Barsh described Centered Leadership's five capabilities and the research that supports them. Here, with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In Centered Leadership, Barsh and Lavoie will guide you through the Centered Leadership program. You'll find the interactive tools, exercises, and practices that help the men and women participants in Centered Leadership programs gain the skills, courage and confidence to lead. And, along the way, you'll read inspiring stories of remarkable men and women leaders who demonstrate the power of these skills in action. Those early on will learn how to use these skills to explore their passions and accelerate their professional development. Those forming families will use them to reconcile manage work and life to get the most out of both. And those who have already achieved success will use these practices to reach their next leadership horizon. No matter what stage you are currently at in your career, or what level of leadership you aspire to, this book will equip you with the tools to unlock your own Centered Leader and achieve more positive impact at work.

BUSINESS STRATEGY. "The 4 Disciplines of Execution" offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator's Dilemma"). Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it's likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.

People can learn how to lead. This was the position John H. Zenger and Joseph R. Folkman took when they wrote their now-classic leadership book The Extraordinary Leader—and it's a fact they reinforce in this new, completely updated edition of their bestseller. When it was first published, The Extraordinary Leader immediately attracted a wide audience of aspiring leaders drawn to its unique feature: the extensive use of scientific studies and hard data, which served to demystify the concept of leadership and get readers thinking about the subject in a pragmatic way. Now, Zenger and Folkman revisit the subject to address leaders' most pressing concerns today. The result is an up-to-date, essential leadership guide for the twenty-first century that includes: Late-breaking research on the psychology of leadership New information on leading in a global environment A breakthrough case study on measuring improved leadership behavior Studies revealing the importance of follow-through The Extraordinary Leader is a remarkable combination of expert insight and extensive research. The authors analyzed more than 200,000 assessments describing 20,000 managers—by far the most expansive research ever conducted for a leadership book. Zenger and Folkman have created the leadership book of the ages. The Extraordinary Leader explains how to build leadership skills that will take you and your organization to unimagined success.

This charming fable full of motivation and wisdom follows a billionaire and a monk who cross paths and teach each other what it means to be happy. What if you learn that everything you have been taught about happiness is false? What if you realize that happiness is not a goal and therefore it cannot be achieved? What if you discover that it is the ordinary path that leads to extraordinary treasure? This is a story about how two men from different walks of life learn that neither robes of honor nor the total renunciation of worldly life is required to enjoy the most fundamental human desire – happiness. Happiness is not a philosophical enigma but an attainable state of the mind and everyone can cherish the greatest joys through the simplest and smallest acts of daily life.
