The God Code Gregg Braden

An extraordinary journey bridging science, spirituality, and miracles explores the role of technology in spirituality, offering new evidence that demonstrates that each individual holds the power to speak directly to the force that links all of creation. Entanglement, the new novel based on the teachings of New York Times best-selling author Gregg Braden, explores the exciting world of quantum physics through the experiences of twin brothers. Charlie and Jack Franklin have always experienced life differently than your average brothers. As children, each was able to sense when the other was in danger, when the other was sad, or when the

Access Free The God Code Gregg Braden

other was happy. However, as adults, these two brothers took different paths: Jack stayed in their hometown to practice his art and Charlie joined the army, only to be deployed to Afghanistan. After a frightening vision jolts Jack into consciousness, he begins his quest to get in touch with Charlie. Along the way, he encounters his high-school physics teacher, who helps him understand the connection the brothers have and the larger universal oneness of which we are all a part.

The book that inspired the major History Channel special God Code shows there is more to the Bible than meets the eye—messages from God hidden for ages, now revealed by modern computer technology. In God Code, antiquities expert Timothy P. Smith reveals his decades-long quest

to understand the complex messages he discovered in an ancient Hebrew manuscript of the Bible. This painstaking search involves adventure and mystery, but instead of consulting ancient maps to find buried treasure, Smith relied on the data calculation power of modern technology. His quest shows how Scripture is more amazing than we ever dreamed—and that it may even reveal the future of generations living today. God Code reveals:

- An encrypted code in Genesis, in the oldest known Hebrew text of the Old Testament, that predicted the birth and resurrection of Jesus.
- Scientific evidence that this encrypted code was authored by the divine hand of God.
- Signs that there are more encrypted codes in this same Hebrew text that will lead to additional messages from God to

humanity. • Hidden clues that may lead to the location of long-missing sacred artifacts, such as the Ark of the Covenant. • Insights on why Smith was chosen to uncover this encrypted code. • A dire warning that God wants us to hear—and heed. In the companion History Channel series, the author travels across continents in search of artifacts missing since Bible times—clues to their location revealed in God Code. Distinguished rabbi, marriage and family therapist, kabbalist, and popular lecturer, Abner Weiss is extraordinarily qualified to write this book. In *Connecting to God*, he elucidates the teachings of Kabbalah, showing how the Ten Sefirot of the Tree of Life are the transformers of divine energy in our bodies and the

building blocks of creation—Weiss calls them “our spiritual genome.” He has created a psychological system and diagnostic method from kabbalistic texts, and he uses these clinically tested interventions in his therapeutic practice. Here he tells twenty-eight stories of people he has helped liberate from their dysfunctional behavior, empowering them to achieve spiritual growth. With Rabbi Weiss as our guide, we can use this kabbalistic approach to psychology to inform our lives with its insights, rebalance what is out of kilter, and heal the emotional wounds we have suffered. Connecting to God is a wise, wonderful, and transformational book.

Believing that we all suffer from at least some emotional wounds as a result of our past experiences, Dr. Robert Bleck set out to devise a recovery therapy to aid his clients in "coming to terms" with those past hurts. The result has come to be known as Source Completion Therapy (SCT). "To live a healthy and enriched life, our past emotional wounds—like bodily infections—must be cleansed and allowed to

heal. Source Completion Therapy is designed to do just that." Dr. Bleck, Chapter 1 Incorporating all the effective, significant psychological theories widely in use today, SCT takes us on a journey of personal exploration and emotional healing built on the theory that we can only break free of the disabling effects of our hurts if we (first) become fully aware of their true origins, (next) re-experience the trauma, and (finally) complete the healing process by confronting the source of the pain. The text is completed by an easy-to-use self-hypnosis script

designed to bring on the state of relaxation necessary for reliving and re-experiencing the events that created our symptoms. Options for giving the pain back to its source (completing) are also offered.

New discoveries in biology and the neurosciences are revealing how the structure of language—the words we think and speak—can actually change the way the neurons in our brains and hearts connect. But our ancestors understood this connection intuitively, thousands of years ago. They created specific word-patterns to provide comfort, healing,

strength, and inner power in difficult times, and they encoded these powerful words in prayers, chants, mantras, hymns, and sacred writings to preserve them for future generations. Now beloved teacher and thought leader Gregg Braden cracks the code and puts these powerful words in your hands. Perfect as a pocket guide, a reference for spiritual study, or a gift to someone you love, this elegant, compact book contains Wisdom Codes that cut to the core of life's greatest tests, most challenging demands, and hardest lessons. You'll find chapters devoted to healing from loss and grief,

What would it mean to discover that everything from the DNA of life, to the future of our world, is based upon a simple Reality Code—one that we can change

and upgrade by choice? New revelations in physics and biology suggest that we're about to find out! A growing body of scientific evidence suggests that our universe works like a Consciousness Computer. Rather than the number codes of typical software, our Consciousness Computer uses a language that we all have, yet are only beginning to understand. Life's reality code is based in the language of human emotion and focused belief. Knowing that belief is our reality-maker, the way we think of ourselves and our world is now more important than ever! For us to change the

beliefs that have led to war, disease, and the failed careers and relationships of our past we need a reason to see things differently. Our ancestors used miracles to change what they believed. Today we use science. The Spontaneous Healing of Belief offers us both: the miracles that open the door to a powerful new way of seeing the world, and the science that tells us why the miracles are possible, revealing: why we are not limited by the "laws" of physics and biology as we know them today. Once we become aware of the paradigm-shattering discoveries and true-life miracles, we must

think of ourselves differently. And that difference is where the spontaneous healing of belief begins.

more. Gregg is an optimist, as well as a realist. His lifetime of work with indigenous cultures, combined with his scholarship in science and ancient traditions, gives him reason to believe in our ability to transform in a healthy way. To get to that point, however, we must be honest with ourselves. When the facts are clear, our choices become obvious and something beautiful happens. And it's the power of this simple truth that is the basis for Resilience from the Heart. Join Gregg on this intimate journey as he unlocks the mystery of the world's extremes . . . to reveal the power to thrive in life! In this compelling exploration of life, Gregg Braden merges the modern discoveries of nature's patterns (fractals) with the ancient view of a cyclic

universe. The result is a powerful model of time—fractal time—and a realistic window into what we can expect for the mysterious year 2012 . . . and beyond. Applying fractal time to the history of the world and life, he proposes that everything from the war and peace between nations to the patterns of human relationships mirror the returning cycles of our past. As each cycle repeats, it carries a more powerful, amplified version of itself. The key: If you know where to look in the past, you know what to expect when the same conditions return in the present and future. Could our deepest hurts reveal the key to a powerful form of prayer that was lost 17 centuries ago? What can we learn today from the great secret of our most cherished traditions? "There are beautiful and wild forces within us." With these words, the mystic St. Francis described what ancient traditions believed was the most powerful force in the universe – the power of prayer. For more than 20 years, Gregg Braden has searched for evidence of a forgotten form of prayer that was lost to the West following the biblical edits of the early Christian Church. In the 1990s, he found and documented this form of prayer still being used in the remote monasteries of central Tibet. He also found it practiced in sacred rites throughout the high deserts of the

In this richly illustrated volume, a leading neurobiologist presents fascinating stories of plant migration that reveal unexpected connections between nature and culture. When we talk about migrations, we should study

plants to understand that these phenomena are unstoppable. In the many different ways plants move, we can see the incessant action and drive to spread life that has led plants to colonize every possible environment on earth. The history of this relentless expansion is unknown to most people, but we can begin our exploration with these surprising tales, engagingly told by Stefano Mancuso. Generation after generation, using spores, seeds, or any other means available, plants move in the world to conquer new spaces. They release huge quantities of spores that can be transported thousands of

miles. The number and variety of tools through which seeds spread is astonishing: we have seeds dispersed by wind, by rolling on the ground, by animals, by water, or by a simple fall from the plant, which can happen thanks to propulsive mechanisms, the swaying of the mother plant, the drying of the fruit, and much more. In this accessible, absorbing overview, Mancuso considers how plants convince animals to transport them around the world, and how some plants need particular animals to spread; how they have been able to grow in places so inaccessible and inhospitable as to remain isolated; how

Access Free The God Code Gregg Braden

they resisted the atomic bomb and the Chernobyl disaster; how they are able to bring life to sterile islands; how they can travel through the ages, as they sail around the world.

In this revelatory book, now available for the first time in paperback, five-time New York Times best-selling author and 2018 Templeton Award nominee Gregg Braden explains that we no longer need to ask these questions as "What if?" Recent discoveries ranging from human evolution and genetics to the new science of neuro-cardiology (the bridge between the brain and the heart) have overturned 150 years of thinking when it comes to the way we think of ourselves, our origin, and our capabilities. In this reader-friendly journey of discovery, Braden begins with the fact that

- Everything in the garden can be communicated with, enhancing understanding.
- The garden can be changed by doing work.
- When you change your garden, some part of you or your life will change in response.

From the moment of their arrival, about three hundred thousand years ago—nothing when compared to the history of life on our planet—humans have succeeded in changing the conditions of the planet so drastically as to make it a dangerous place for their own survival. The causes of this reckless behavior are in part inherent in their predatory nature, but they also depend on our total incomprehension of the

rules that govern a community of living beings. We behave like children who wreak havoc, unaware of the significance of the things they are playing with. In The Nation of Plants, the most important, widespread, and powerful nation on Earth finally gets to speak. the plants. A short charter based on the general principles that regulate the common life of plants, it establishes norms applicable to all living beings. Compared to our constitutions, which place humans at the center of the entire juridical reality, in conformity with an anthropocentrism that reduces to things all that is not human, plants offer us a revolution. Four hundred years after science overthrew faith, science is itself proving to be a false god, leaving in its wake a

Among the most empowering of the forgotten elements are references to a science with the power to bring everlasting healing to our bodies and initiate an unprecedented era of peace and cooperation between governments and nations. In his groundbreaking new book, *The Isaiah Effect*, Gregg Braden turns to the

Isaiah Scroll, perhaps the most important of the Dead Sea Scrolls discovered in 1946, to offer insight into a powerful form of ancient prayer. In *The Isaiah Effect*, Braden, author of *Awakening to Zero Point* and *Walking Between the Worlds*, combines research in quantum physics with the works of the prophet Isaiah and the ancient Essenes. He demonstrates how prophecies of global catastrophe and suffering may only represent future possibilities, rather than forecast impending doom,

and that we have the power to influence those possibilities. In addition to describing multiple futures, the Isaiah texts take us one step further, clearly describing the science of how we choose our futures. Tracing key words of Isaiah's text back to their original language, we discover how he taught a mode of prayer that was lost to the West during Biblical editing in the fourth century. Braden offers detailed accounts of how elements of this mode of prayer have been applied in a variety of

situations, ranging from healing life-threatening conditions to entire villages using collective prayer to prevail during the 1998 fires in southern Peru. In each instance, the correlation between the offering of the prayer and a shift of the events in question was beyond coincidence--the prayers had measurable effects! As modern science continues to validate a relationship between our outer and inner worlds, it becomes more likely that a forgotten bridge links the world of our prayers with

equilibrium in today's age of anxiety can seem like a near-impossible—even frivolous—task. Panache Desai offers a refreshing, surprisingly unusual approach to meet the challenges of the modern moment and heal the fractured self it produces. For Desai, the soul-whole, unbroken, at peace, and one with the life source—isn't a destination. It already exists within each of us, just waiting to be revealed. It is not something we have to work to develop—it is our

birthright. And when we are in union with our soul, we experience a personal evolution that not only illuminates our individual cosmic purpose but helps us to engage the sense of purpose and presence necessary to remake the world itself. You Are Enough offers a straightforward, non-judgmental, and approachable process of revealing the soul, of coming into alignment and harmony with our true selves. Combining personal narrative, clear and inspiring philosophy, and

prescriptive practices, it reveals that the way through is the way in—that the way through fear, self-doubt, and anxiety is accepting and embracing dissonance and emotional and psychological blockages, so that we can approach our lives and the world from a perspective that understands our fears are not who we are.

Desai's goal is simple: to guide readers through radical self-acceptance toward a life of ultimate peace and fulfillment. Beautifully designed, this enlightening volume by a

Opportunities for just such experiences are available to you, and this book will be your guide through this process. Dr. Wayne W. Dyer has researched intention as a force in the universe that allows the act of creation to take place. This beautiful gift edition of Wayne's international bestseller explores intention—not as something we do—but as an energy we're a part of. We're all intended here through the invisible power of intention—a magnificent field of energy we can

access to begin co-creating our lives! Part I deals with the principles of intention, offering true stories and examples showing how to make the connection. Wayne identifies the attributes of the all-creating universal mind of intention as kind, loving, beautiful, expanding, endlessly abundant, and receptive, emphasizing the importance of emulating this source of creativity. In Part II, he offers an intention guide with specific ways to apply the co-creating principles in

"Intention is a force in the universe, and everything and everyone is connected to this invisible force."

The Isaiah Effect

The Crisis:Best-selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families, cultures, and nations-seemingly disparate issues such as war, terrorism, abortion, genocide, poverty, economic collapse, climate change, and nuclear threats-are actually related. They all stem from a worldview based upon the false assumptions of an incomplete science.

The History:The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization. Our reluctance to accept new

discoveries about our relationship to the earth, one another, and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today. The Facts: The scientific method allows for, and expects, new information to be revealed and assimilated into our existing beliefs. It's the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest, current, and meaningful. To continue teaching science that is not supported by the new discoveries-ones based upon accepted scientific methods-is not, in fact, scientific.

But this is precisely what we see happening in traditional textbooks, classrooms, and mainstream media today. The Opportunity: Explore for yourself the discoveries that change 150 years of scientific beliefs, yet are still not reflected in mainstream thinking, including:

- Evidence of advanced, near-ice age civilizations
- The origin of, and reasons for, war in our ancient past, and why it may become obsolete in our time
- The false assumptions of human evolution and of the Darwinian theory "Let the strongest live and the weakest die" and how this plays out in corporations, societies, warfare, and civilization

today Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself. When the facts become clear, our choices become obvious.

At a time when Steve Jobs was only a teenager and Mark Zuckerberg wasn't even born, a group of visionary engineers and designers--some of them only high school students--in the late 1960s and 1970s created a computer system called PLATO, which was light-years ahead in experimenting with how people would learn, engage, communicate, and play through connected computers. Not only

did PLATO engineers make significant hardware breakthroughs with plasma displays and touch screens but PLATO programmers also came up with a long list of software innovations: chat rooms, instant messaging, message boards, screen savers, multiplayer games, online newspapers, interactive fiction, and emoticons. Together, the PLATO community pioneered what we now collectively engage in as cyberculture. They were among the first to identify and also realize the potential and scope of the social interconnectivity of computers, well before the creation of the internet. PLATO

was the foundational model for every online community that was to follow in its footsteps. The Friendly Orange Glow is the first history to recount in fascinating detail the remarkable accomplishments and inspiring personal stories of the PLATO community. The addictive nature of PLATO both ruined many a college career and launched pathbreaking multimillion-dollar software products. Its development, impact, and eventual disappearance provides an instructive case study of technological innovation and disruption, project management, and missed opportunities. Above all,

The Friendly Orange Glow at last reveals new perspectives on the origins of social computing and our internet-infatuated world. We solve our problems based upon the way we think of ourselves and the world. From peak energy and peak debt to failing economies and the realities of climate change, everyday life is showing us where we've outgrown the thinking of the past. It's also showing us where big changes in the world mean big changes in our lives. Through dramatic shifts in our jobs, our relationship to money, our health, and even our homes, it's clear that our lives are changing

in ways we've never seen, to a degree that we're not prepared for, and at speeds that we've never experienced. It's also clear that the thinking of the past is no longer enough to meet our needs today. A new, healthy, and sustainable world is emerging, and our ability to accept what it offers begins with our willingness to:

opposite. New discoveries have led to more unanswered questions, created deeper mysteries, and brought us to the brink of forbidden territory when it comes to explaining our origin and existence. These discoveries reveal the following facts: - Fact 1. Our origin--Modern humans appeared suddenly on earth approximately 200,000 years ago, with the advanced brain, nervous system, and capabilities that set them apart from all other known forms of life already developed, rather than having developed slowly and gradually over a long periods of time.- Fact 2. Missing physical

evidence--The relationships shown on the conventional tree of human evolution are speculative connections only. While they are believed to exist, a 150-year search has failed to produce the physical evidence that confirms the relationships shown on the evolutionary family tree.- Fact 3. New DNA evidence--The comparison of DNA between ancient Neanderthals, previously thought to be our ancestors, and early humans tells us that we did not descend from the Neanderthals.- Fact 4. A rare DNA fusion--Advanced genome analysis reveals that the DNA that sets us apart from other

primates, including in our advanced brain and nervous system, is the result of an ancient and precise fusion of genes occurring in a way that suggests something beyond evolution made our humanness possible.- Fact 5. Our extraordinary abilities--We are born with the capacity to self-heal, to self-regulate longevity, to activate an enhanced immune response, and to experience deep intuition, sympathy, empathy, and, ultimately, compassion--and to do each of these on demand.In this book, New York Times best-selling author and 2017 Templeton Award nominee Gregg Braden

THE DIVINE MATRIX Are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits? Could the spontaneous healing of disease, an instant connection with everyone and everything, and even time travel, be our true heritage in the universe? There is a place where all things begin, the place of pure energy that simply 'is.' In this quantum incubator for reality, everything is

possible. In 1944, Max Planck, the father of quantum theory, shocked the world by saying that this 'matrix' is where the birth of stars, the DNA of life, and everything between originates. Recent discoveries reveal dramatic evidence that Planck's matrix - The Divine Matrix - is real. It is this missing link in our understanding that provides the container for the universe, the bridge between our imagination and our reality, and the mirror in our world for what we create in our beliefs. To unleash the power of this matrix in our lives, we must understand how it works and

It is verified in today's science. In this paradigm-shattering book, Gregg shares what he's found. Through 20 keys of conscious creation, we're shown how to translate the
