*Get swept up in this heart-pounding first installment of New York Times bestselling author Sharon Sala's Secrets and Lies trilogy as past secrets refuse to stay buried. Dallas Phillips refuses to believe her father committed suicide, even though things were tough on his farm and he was deeply in debt. When she hears he'd told a neighbor about an upcoming windfall, she grows suspicious, and her suspicion only deepens when she realizes someone is lurking in the nearby mountains after dark. For help, she turns to Trey Jakes, local police chief—and her former lover. As they begin to investigate, another mystery comes to light. Trey's mother is beginning to remember events from thirty years ago, something shadowy that happened in the mountains, and Dallas's father was there, too. Is what happened that night connected to his "suicide"? As they search for the truth, Trey and Dallas struggle to fight their attraction, but they may not be able to fend off another force—a killer who's more than willing to kill again to make sure old secrets stay buried. *R.H. Sin's second volume continues the passion and vigor of his previous publication. His stanzas inspire strength through the pure emotional energy and the vulnerability of his poems. Relationships, love, pain, and fortitude are powerfully rendered in his poetry, and his message of perseverance in the face of emotional turmoil cuts to the heart of modern-day life. R.H. Sin's poems are often only a few lines long, and yet the emotional punch of his language gives these words an enduring power beyond the short page. He doesn't back away from the pains and struggles of life and love, and yet his determined, unapologetic voice provides a measure of comfort and a message of perseverance that is at once realistic and indomitable. This blend of determination and painful vulnerability gives his poetry a distinctive, engaging flavor.*

'And in that instant, he knows in his heart that today is a momentous day; come what may, he and Alice will meet again, and life will never be the same.' Alice is stuck in an internship she loathes she is forever trying to change. Ben, also in his early twenties, is still trying to find his place in the world. By chance they meet one day in a London park. Day 1 Ben spots Alice sitting on a bench compelled to speak to her. To his surprise, their connection is instant. But before numbers are exchanged, Alice is whisked off by her demanding boss. 20 minutes later Alone in her office toilets, herself in the mirror and desperately searches for the beauty Ben could see in her. Meanwhile, having misunderstood a parting remark, Ben is already planning a trip to Glasgow where he believes not realising that they actually live barely ten miles apart. Over the next 31 days, Alice and Ben will discover that even if they never manage to find each other again, they have sparked a change that will last a lifetime. In 31 Days of Wonder, Tom Winter shows us the magic of chance encounters and how one brief moment on a Thursday afternoon can change the rest of your life.

*This book describes the thematic and structural traits of a recent and popular development within the realm of anime: series adapted from visual novels. Visual novels are interactive fiction games in which players creatively control decisions and plot turning points. Endings alter according to the player's choices, providing a motivation to replay the game and opt for alternative decisions each time. Pictorial sumptuousness, plot depth and subtle characterization are vital aspects of the medium. Anime based on visual novels capitalizes on the parent games' attributes, yielding thought-provoking yarns and complex personalities.*

*span, SPAN { background-color:inherit; text-decoration:inherit; white-space:pre-wrap }This book places Indonesia at the forefront of the global debate about the impact of 'disruptive' digital technologies. Digital technology is fast becoming the core of life, work, culture and identity. Yet, while the number of Indonesians using the Internet has followed the upward global trend, some groups – the poor, the elderly, women, the less well-educated, people living in remote communities – are disadvantaged. This interdisciplinary collection of essays by leading researchers and scholars, as well as e-governance and e-commerce insiders, examines the impact of digitalisation on the media industry, governance, commerce, informal sector employment, education, cybercrime, terrorism, religion, artistic and cultural expression, and much more. It presents groundbreaking analysis of the impact of digitalisation in one of the world's most diverse, geographically vast nations. In weighing arguments about the opportunities and challenges presented by digitalisation, it puts the very idea of a technological 'revolution' into critical perspective.*

*"Adventure is worth while in itself."—Amelia Earhart, 1932 A fearless pioneer and a record-breaking pilot, Amelia Earhart engaged the nation and the world when she became the first woman to fly solo across the Atlantic. Today people remember her most for her disappearance on the last leg of her round-the-world flight in 1937. But more than a record breaker or a ghost lost over the Pacific, Earhart was ambitious, driven, and strong at a time when all three of these traits were considered unfeminine. Earhart's words and her example encouraged women to step beyond the narrow confines of their traditional roles. The Quotable Amelia Earhart brings together statements from a variety of sources and covers a wide range of topics, including Earhart's flights and her opinions on politics, work, religion, and gender equality. This definitive resource provides a concise, documented collection of Earhart's quotations so that her words, as well as her achievements, may inspire a new generation.*

**WINNER OF THE 2015 BRAM STOKER AWARD FOR SUPERIOR ACHIEVEMENT IN A NOVEL** A chilling thriller that brilliantly blends psychological suspense and supernatural horror, reminiscent of Stephen King's *The Shining*, Shirley Jackson's *The Haunting of Hill House*, and William Peter Blatty's *The Exorcist*. The lives of the Barretts, a normal suburban New England family, are torn apart when fourteen-year-old Marjorie begins to display signs of acute schizophrenia. To her parents' despair, the doctors are unable to stop Marjorie's descent into madness. As their stable home devolves into a house of horrors, they reluctantly turn to a local Catholic priest for help. Father Wanderly suggests an exorcism; he believes the vulnerable teenager is the victim of demonic possession. He also contacts a production company that is eager to document the Barretts' plight. With John, Marjorie's father, out of work for more than a year and the medical bills looming, the family agrees to be filmed, and soon find themselves the unwitting stars of *The Possession*, a hit reality television show. When events in the Barrett household explode in tragedy, the show and the shocking incidents it captures become the stuff of urban legend. Fifteen years later, a bestselling writer interviews Marjorie's younger sister, Merry. As she recalls those long ago events that took place when she was just eight years old, long-buried secrets and painful memories that clash with what was broadcast on television begin to surface—and a mind-bending tale of psychological horror is unleashed, raising vexing questions about memory and reality, science and religion, and the very nature of evil.

A new world of creative possibilities is opened by Blender, the most popular and powerful open source 3D and animation tool. Blender is not just free software; it is also an important professional tool used in animated shorts, television commercials, and shows, as well as in production for films like *Spiderman 2*. Lance Flavell's *Beginning Blender* will give you the skills to start shaping new worlds and virtual characters, and perhaps lead you down a new professional path. *Beginning Blender* covers the Blender 2.5 release in-depth. The book starts with the creation of simple figures using basic modeling and sculpting. It then teaches you how to bridge from modeling to animation, and from scene setup to texture creation and rendering, lighting, rigging, and ultimately, full animation. You will create and mix your own movie scenes, and you will even learn the basics of games logic and how to deal with games physics. Whether you are new to modeling, animation, and game design, or whether you are simply new to Blender, this book will show you everything you need to know to get your 3D projects underway.

As science integrates the in-depth knowledge of the physical world accumulated over the past three centuries, it will be channeled into a new and exciting line of inquiry that acknowledges the expanded reality of consciousness as a creative force in the universe and the spiritual creative power embodied in our own minds. This book summarizes the work of an inquisitive, but open-minded, scientist. What I present here is a theory that looks promising, not scientific proof. It should not be surprising, however, if some of my ideas coincide with theories propounded by others who claim a more intimate relationship with the Almighty. After all, if I am on the right track, and if they are, it would be surprising if we were not, ultimately, in agreement. All I ask is that you seriously consider the logic of my theory, especially if it challenges you to question what you were taught - in Sunday school, in catechism or, dare I say, in physics class. I offer this book, not as a theological treatise, but as a short, readable exposition of a worldview that can bring sense and purpose to individual lives, and tolerance and peace to a planet whose future is in serious jeopardy - in large part because of the irrational dogmatism of both religion and science. If we are literally all one being (God) in many individual forms. Why, then, would we continue to harm one another?

Indonesia's quasi-military dictatorship has sought since 1965 to mould Indonesian society into a male-oriented, capitalist, Javanese-dominated national framework. Cinema, television and radio are the most closely-controlled mass media in Indonesia, and films for mass consumption have played an important role in the government's vast socio-political project. Krishna Sen describes the background and present-day Indonesian film industry and explores how the country's society and history are represented in its film culture. In a critique of four films, she concludes that Indonesian cinema privileges the military against the civilian, the middle class against the popular classes, and men against women.

With careful documentation from cinema literature, this is a radical, in-depth perspective on film - its implications, its vulnerability to manipulation and its artistic and propagandistic power.

*Passover & Sukkot, Forever explains the adoption of Constantine's Counsel of Nicene in 325 CE, of Pagan Christmas and Easter in the Christian faith, and why those holidays, celebrated in all Christian faith denominations should not be celebrated. The work discusses why Passover should be recognized and will be ongoing forever and the Festival of Sukkot is the celebration and honoring of the birth of our Lord. Written to show that Easter and Christmas are never mentioned in the Bible, yet our churches today are celebrating Christmas as Christ's birthday, when it can be shown that Christ was born at an earlier time of the year. In fact, Christmas was not even introduced to America until the middle of the 19th Century.*

*Amelia Earhart's account of her ill-fated last flight around the world, begun in 1937, remains one of the most moving and absorbing adventure stories of all time. Last Flight compiles the letters, diary entries and charts that she sent to her husband, G.P. Putnam at each stage of her trip. In her own words, these dispatches offer a window into her experience on this ground-breaking journey and illustrate her cheerful, charming nature. Her story continues to intrigue and inspire people to this day.*

"The former chief political correspondent for The New York Times Magazine brilliantly revisits the Gary Hart affair and looks at how it changed forever the intersection of American media and politics. In 1987, Gary Hart--articulate, dashing, refreshingly progressive--seemed a shoo-in for the Democratic nomination for president and led George H.W. Bush comfortably in the polls. And then: rumors of marital infidelity, an indelible photo of Hart and a model snapped near a fatefully named yacht (Monkey Business), and it all came crashing down in a blaze of flashbulbs, the birth of 24-hour news cycles, tabloid speculation, and late-night farce. Matt Bai shows how the Hart affair marked a crucial turning point in the ethos of political media--and, by extension, politics itself--when candidates' 'character' began to draw more fixation than their political experience. Bai offers a poignant, highly original, and news-making reappraisal of Hart's fall from grace (and overlooked political legacy) as he makes the compelling case that this was the moment when the paradigm shifted--private lives became public, news became entertainment, and politics became the stuff of Page Six"--

The object of the present work is mainly to serve as a text book for students of History of Religions or Historical Phenomenology of Religion at the University level. This book intended also for the use of those who wish to become acquainted in a systematic and critical manner with the main themes of the History of Religions, and of other persons who are either concerned in the education of youth or whose work it may be to present scientifically accurate conclusions with regard to the various subjects of the History of Religions. There exist excellent text books which treat of particular religions or which contain chapters on individual religions without studying them comparatively or phenomenologically. There are very few text books that attempt to present the main themes of the History of Religions in such a way as to explain the signification of the religious phenomena that are found in various religions by means of the historical-comparative method.

From award-winning vlogger and entrepreneur Connor Franta comes this collectible hardcover edition—complete with a brand-new bonus chapter—of his New York Times bestselling memoir, *A Work in Progress*, which was selected by *Forbes* as a Top 5 Breakthrough Book of 2015 and won the Goodreads Choice Award for Best Memoir. In this intimate memoir of life beyond the camera, YouTube star Connor Franta shares the lessons he has learned on his journey from small-town boy to Internet sensation—so far. Here, Connor offers a look at his Midwestern upbringing as one of four children in the home and one of five in the classroom; his struggles with identity, body image, and sexuality in his teen years; and his decision to finally pursue his creative and artistic passions in his early twenties, setting up his thrilling career as a YouTube personality, philanthropist, entrepreneur, and tastemaker. Exploring his past with insight and humor, his present with humility, and his future with hope, Connor reveals his private struggles while providing heartfelt words of wisdom for young adults. His words will resonate with anyone coming of age in the digital era, but at the core this is a timeless message for people of all ages: don't be afraid to be yourself and to go after what you truly want. This full-color collection includes photography and exclusive childhood clippings and is a must-have for anyone inspired by his journey.

*The epic made simple. The miracle in the mundane. One day, while browsing an antique store in Helena, Montana, photographer Tyler Knott Gregson stumbled upon a vintage Remington typewriter for sale. Standing up and using a page from a broken book he was buying for \$2, he typed a poem without thinking, without planning, and without the ability to revise anything. He fell in love. Three years and almost one thousand poems later, Tyler is now known as the creator of the Typewriter Series: a striking collection of poems typed onto found scraps of paper or created via blackout method. Chasers of the Light features some of his most insightful and beautifully worded pieces of work—poems that illuminate grand gestures and small glimpses, poems that celebrate the beauty of a life spent chasing the light.*

*The marine environment is almost ideal for the preservation of artefacts and, until relatively recently, it also provided complete protection from destruction by man. However, the aqualung has made most shallow underwater sites accessible, leading to widespread plundering. Current deep-sea bed technology now threatens deep water sites. There is a need for immediate international action to preserve the man-made environment, alongside the natural one. The enunciation of legal rules to protect the underwater cultural heritage is a complex issue, involving a matrix of interests and laws, both international and national.*

*The grotesque – the exaggerated, the deformed, the monstrous – has been a well-considered subject for students of comparative literature and art. In a major addition to the literature of art, cultural criticism and feminist studies, Mary Russo re-examines the grotesque in the light of gender, exploring the works of Angela Carter David Cronenberg Bahktin Kristeva Freud Zizek. Mary Russo looks at the portrayal of the grotesque in Western culture and by combining the iconographic and the historical, locates the role of the woman's body in the discourse of the grotesque.*

From wicked queens, beautiful princesses, elves, monsters, and goblins to giants, glass slippers, poisoned apples, magic keys, and mirrors, the characters and images of fairy tales have cast a spell over readers and audiences, both adults and children, for centuries. These fantastic stories have travelled across cultural borders, and been passed on from generation to generation, ever-changing, renewed with each re-telling. Few forms of literature have greater power to enchant us and rekindle our imagination than a fairy tale. But what is a fairy tale? Where do they come from and what do they mean? What do they try and communicate to us about morality, sexuality, and society? The range of fairy tales stretches across great distances and time; their history is entangled with folklore and myth, and their inspiration draws on ideas about nature and the supernatural, imagination and fantasy, psychoanalysis, and feminism. Marina Warner has loved fairy tales over a long writing life, and she explores here a multitude of tales through the ages, their different manifestations on the page, the stage, and the screen. From the phenomenal rise of Victorian and Edwardian literature to contemporary children's stories, Warner unfolds a glittering array of examples, from classics such as Red Riding Hood, Cinderella, and The Sleeping Beauty, the Grimm Brothers' Hansel and Gretel, and Hans Andersen's The Little Mermaid, to modern-day realizations including Walt Disney's Snow White and gothic interpretations such as Pan's Labyrinth. In ten succinct chapters, Marina Warner digs into a rich hoard of fairy tales in their brilliant and fantastical variations, in order to define a genre and evaluate a literary form that keeps shifting through time and history. Her book makes a persuasive case for fairy tale as a crucial repository of human understanding and culture.

The third edition of this leading text provides a comprehensive guide to literary study. Emphasis has been placed on contextualizing literature and this updated version takes these changes into account by incorporating more material on historical and cultural contexts as well as in-depth discussions on novels, drama and poetry.

This collection of essays by one of the best known contemporary Muslim scholars writing in English covers many facets of Islamic life and thought. The author has brought together studies dealing with the practical as well as intellectual aspects of Islam in both their historical and contemporary reality. The contemporary significance of themes such as religion and secularism, the meaning of freedom, and the tradition of Islamic science and philosophy is given particular attention.
