McGuire offers a simple  
but profound answer: If  
you teach students how  
to learn and give them  
simple, straightforward  
strategies to use, they  
can significantly  
increase their learning  
and performance. For  
over a decade Sandra

fifteen years, ideas that are being adopted by an increasing number of faculty with

considerable effect. The methods she proposes do not require restructuring courses or an inordinate amount of time to teach.

They can often be accomplished in a single session, transforming students from memorizers and

strategies that students  
need to understand and  
implement. First, she  
demonstrates how

Then, she addresses the importance of dealing with emotion, attitudes, and motivation by suggesting ways to change students' mindsets about ability and by providing a range of strategies to boost motivation and learning; finally, she offers guidance to faculty on partnering with campus learning centers. She
