

The Jd Jungle Law School Survival Guide

Where have all the parents gone? What happened to those who, like my grandmother, treated parenting as the most important human responsibility and the planet's oldest profession? My grandmother, if she were living, would not recognize today's parents. Something is amiss. We reside in a country that places higher demands on passing a driver's education course than it does on procreation and raising children. We offer classes like Lamaze to prepare parents for the birth of a child but have no such courses to equip parents for being able to raise a child. The way we view parenting and subsequently raise children is absurd. So, I wrote this book because I believe my grandmother would have wanted me to say something. I wrote this book because I'm concerned that if we wait much longer to outline a process to help our future citizens, we won't be able to repair or recondition the fabric of our nation. I wrote this book because I believe all children need and deserve great parents.

Law school was never Anna Dorn's dream. It was a profession pushed on her by her parents, teachers, society... whatever. It's not the worst thing that can happen to a person; as Dorn says, law school was pretty "cushy" and mostly entailed wearing leggings every day to her classes at Berkeley and playing beer pong with her friends at night. The hardest part was imagining what it would be like to actually be a lawyer one day. But then she'd think of Glenn Close on Damages and Reese Witherspoon in Legally Blonde, and hoped for the best. After graduation, however, Dorn realized that there was nothing sexy about being a lawyer. Between the unflattering suits, sucking up to old men, and spending her days sequestered in a soul-sucking cubicle, Dorn quickly learned that being a lawyer wasn't everything Hollywood made it out to be. Oh, and she sucked at it. Not because she wasn't smart enough, but because she couldn't get herself to care enough to play by the rules. Bad Lawyer is more than just a memoir of Dorn's experiences as a less-than-stellar lawyer; it's about the less-than-stellar legal reality that exists for all of us in this country, hidden just out of sight. It's about prosecutors lying and filing inane briefs that lack any semblance of logic or reason; it's about defense attorneys sworn to secrecy-until the drinks come out and the stories start flying; and it's about judges who drink in their chambers, sexually harass the younger clerks, and shop on eBay instead of listening to homicide testimony. More than anything, this book aims to counteract the fetishization of the law as a universe based entirely on logic and reason. Exposing everything from law school to law in the media, and drawing on Dorn's personal experiences as well as her journalistic research, Bad Lawyer ultimately provides us with a fresh perspective on our justice system and the people in it, and gives young lawyers advice going forward into the 21st century.

Aba - Lsac Official Guide to Aba-approved Law Schools 2007

The "shocking" and "suspense-packed" bestseller about one teacher's stand against student violence, and the basis for the Academy Award-nominated film (The New York Times Book Review). After serving his country in World War II, Richard Dadier decides to become an English teacher--and for the sin of wanting to make a difference, he's hired at North Manual Trades High School. A tough vocational school in the East Bronx, Manual Trades is home to angry, unruly teenagers exiled from New York City's regular public schools. On his first day, Dadier endures relentless mockery and ridicule and makes an enemy of the student body by rescuing a female colleague from a vicious attack. His fellow educators are bitter, disillusioned, and too afraid of their pupils to risk turning their backs on them in the classroom. But Dadier refuses to give up without a fight. Over the course of the semester, he tries again and again to break through the wall of hatred and scorn and win his students' respect. The more he learns about their difficult circumstances, the more convinced he becomes that a good teacher can make a difference in their lives. His idealism will be put to the ultimate test, however, when a long-simmering power struggle with his most intimidating student explodes into a violent schoolroom showdown. The basis for the blockbuster film starring Glenn Ford and Sidney Poitier, Evan Hunter's The Blackboard Jungle is a brutal, unflinching look at the dark side of American education and an early masterpiece from the author who went on to write the gritty 87th Precinct series as Ed McBain. Drawn from Hunter's own experiences as a New York City schoolteacher, it is a "nightmarish but authentic" drama that packs a knockout punch (Time).

A searing novel of social realism, Upton Sinclair's The Jungle follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.
