Rudyard Kipling's tale of a young boy lost in the jungles of India introduces young children to the magic of the original classic tale. The Jungle Book: Mowgli's Adventures adapts Rudyard Kipling's timeless tale of a young boy lost in the jungles of India for young children. This delightfully written and illustrated book focuses on the magic of the jungle and the one-of-a-kind characters and fantastical situations that Mowgli finds himself in. The Jungle Book: Mowgli's Adventures tells the simple story of Mowgli, who is raised by Mother and Father Wolf and taught the ways of the jungle by Baloo the bear. While this is a faithful introduction to the classic, it doesn't attempt to cover all the action from the original story and its adaptations-the story focuses on the parts children will understand and enjoy. The Jungle Book: Mowgli's Adventures is a magical introduction children will recall when they are older and ready for the original work.

*The first in a series of classic tales reimagined in the modern day, **Stolen as a baby and taken in by a pack of street dogs, Mowgli grows up in the jungle of urban Mumbai. As he grows into a man, his life is threatened by the tiger Shere Khan. With the help of Bagheera the panther and Baloo the bear, Mowgli learns that he must become the master of his own fate. This stunning retelling brings Rudyard Kipling's tale to a new audience, and its publication coincides with the release of a new feature-length animation of the Jungle Book. Tarzan of the Apes** is a novel by American writer Edgar Rice Burroughs, the first in a series of books about the title character Tarzan. It was first published in the pulp magazine *The All-Story* in October 1912.[1] The story follows Tarzan's adventures, from his childhood being raised by apes in the jungle, to his eventual encounters with other humans and Western society. So popular was the character that Burroughs continued the series into the 1940s with two dozen sequels.[2] For the novel's centennial anniversary, Library of America published a hardcover edition based on the original book with an introduction by Thomas Mallon in April 2012 (ISBN 978-1-59853-164-0). Scholars have noted several important themes in the novel: the impact of heredity on behavior; racial superiority; civilization, especially as Tarzan struggles with his identity as a human; sexuality; and escapism.*

*It was seven o'clock of a very warm evening in the Seonee hills when Father Wolf woke up fromhis day's rest, scratched himself, yawned, and spread out his paws one after the other to get rid ofthe sleepy feeling in their tips. Mother Wolf lay with her big gray nose dropped across her fountumbling, squealing cubs, and the moon shone into the mouth of the cave where they all lived."Aughr!" said Father Wolf. "It is time to hunt again." He was going to spring down hill when a littleshadow with a bushy tail crossed the threshold and whined: "Good luck go with you, O Chief of thewolves. And good luck and strong white teeth go with noble children that they may never forget thehungry in this world."It was the jackal-Tabaqui, the Dish-licker-and the wolves of India despise Tabaqui because heruns about making mischief, and telling tales, and eating rags and pieces of leather from the villagerubbish-heaps. But they are afraid of him too, because Tabaqui, more than anyone else in the jungle, is apt to go mad, and then he forgets that he was ever afraid of anyone, and runs through the forestbiting everything in his way. Even the tiger runs and hides when little Tabaqui goes mad, formadness is the most disgraceful thing that can overtake a wild creature. We call it hydrophobia, butthey call it dewanee-the madness-and run."Enter, then, and look," said Father Wolf stiffly, "but there is no food here."
"For a wolf, no," said Tabaqui, "but for so mean a person as myself a dry bone is a good feast.You are we, the Gidur-log [the jackal people], to pick and choose?"
He scuttled to the back of thecave, where he found the bone of a buck with some meat on it, and sat cracking the end merrily."All thanks for this good meal," he said, licking his lips. "How beautiful are the noble children!How large are their eyes! And so young too! Indeed, indeed, I might have remembered that thechildren of kings are men from the beginning."
"Now, Tabaqui knew as well as anyone else that there is nothing so unlucky as to complimentchildren to their faces. It pleased him to see Mother and Father Wolf look uncomfortable.Tabaqui sat still, rejoicing in the mischief that he had made, and then he said spitefully: "Shere Khan, the Big One, has shifted his hunting grounds. He will hunt among these hills for thenext moon, so he has told me."

The Jungle Book and Other Classics collects three timeless adventure classics by Rudyard Kipling: The Jungle Book features tales of Mowgli, the man-cub, a young boy taught the Law of the Pack by jungle animals who have raised him as one of their own. This book also includes "Rikki-Tikki-Tavi," Kipling's classic tale of a courageous mongoose who protects the human family that raised him from the sinister cobra Nagiana. The Second Jungle Book features more tales of Mowgli, his jungle family, and the conflicts he experiences as he outgrows the world of his native habitat. Kim is Kipling's tale of orphan Kimball O'Hara, who his living a vagabond life on the streets of India when he is put to work by the British secret service as an agent involved in the intrigues of the Great Game, a political conflict between Great Britain and Russia.

A searing novel of social realism, *Up Sinclair's The Jungle* follows the fortunes of Jurgis Rüdikus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

The discussions provide a broad spectrum of opinions that illustrate both similarities and differences in techniques and artistic approaches. Topics include rhythm, pacing, structure, storytelling and collaboration. Interviewees include Margaret Sixel (Mad Max: Fury Road), Tom Cross (Whiplash, La La Land), Pietro Scalia (The Martian, JFK), Stephen Mirione (The Revenant), Ann Coates (Lawrence of Arabia, Murder on the Orient Express), Joe Walker (12 Years a Slave, Sicario), Kelley Dixon (Breaking Bad, The Walking Dead), and many more. With the release of Avatar in December 2009, James Cameron cements his reputation as king of sci-fi and blockbuster filmmaking. It's a distinction he's long been building, through a directing career that includes such cinematic landmarks as The Terminator, Aliens, The Abyss, and the highest grossing movie of all time, Titanic. The Futurist is the first in-depth look at every aspect of this audacious creative genius—culminating in an exclusive behind-the-scenes glimpse of the making of Avatar, the movie that promises to utterly transform the way motion pictures are created and perceived. As decisive a break with the past as the transition from silent to talkies, Avatar pushes 3-D, live action, and photo-realistic CGI to a new level. It rips through the emotional barrier of the screen to transport the audience to a fabulous new virtual world. With cooperation from the often reclusive Cameron, author Rebecca Keegan has crafted a singularly revealing portrait of the director's life and work. We meet the young truck driver who sees Star Wars and sets out to learn how to make even better movies himself—starting by taking apart the first 35mm camera he rented to see how it works. We observe the neophyte director deciding over lunch with Arnold Schwarzenegger that the ex-body builder turned actor is wrong in every way for the Terminator role as written, but perfect regardless. After the success of The Terminator, Cameron refines his special-effects wizardry with a big-time Hollywood budget in the creation of the relentlessly exciting Aliens. He builds an immense underwater set for The Abyss in the massive containment vessel of an abandoned nuclear power plant—where he pushes his scuba-breathing cast to and sometimes past their physical and emotional breaking points (including a white rat that Cameron saved from drowning by performing CPR). And the set of Titanic, the director struggles to stay in charge when someone maliciously spikes craft services' mussel chowder with a massive dose of PCP, rendering most of the cast and crew temporarily psychotic. Now, after his movies have earned over \$5 billion at the box office, James Cameron is astounding the world with the most expensive, innovative, and ambitious movie of his career. For decades the moviemaker has been ready to tell the Avatar story but was forced to hold off his ambitions until technology caught up with his vision. Going beyond the technical ingenuity and narrative power that Cameron has long demonstrated, Avatar shatters old cinematic paradigms and ushers in a new era of storytelling. The Futurist is the story of the man who finally brought movies into the twenty-first century.

Narrative research has become a catchword in the social sciences today, promising new fields of inquiry and creative solutions to persistent problems. This book brings together ideas about narrative from a variety of contexts across the social sciences and synthesizes understandings of the field. Rather than focusing on theory, it examines how narrative research is conducted and applied. It operates as a practical introductory guide, basic enough for first-time researchers, but also as a window onto the more complex questions and difficulties that all researchers in this area face. The authors guide readers through current debates about how to obtain and analyse narrative data, about the nature of narrative, the place of the researcher, the limits of researcher interpretations, and the significance of narrative work in applied and in broader political contexts.

*A New York Times Notable Book of 2019 A unique exploration of the life and work of Rudyard Kipling in *Gilded Age America*, from a celebrated scholar of American literature At the turn of the twentieth century, Rudyard Kipling towered over not just English literature but the entire literary world. At the height of his fame in 1907, he was awarded the Nobel Prize for Literature, becoming its youngest winner. His influence on major figures—including Freud and William James—was pervasive and profound. But in recent decades Kipling's reputation has suffered a strange eclipse. Though his body of work still looms large, and his monumental poem "If"—is quoted and referenced by politicians, athletes, and ordinary readers alike, his unabashed imperialist views have come under increased scrutiny. In *If*, scholar Christopher Benjey brings this fascinating and complex writer to life and, for the first time, gives full attention to Kipling's intense engagement with the United States—a rarely discussed but critical piece of evidence in our understanding of this man and his enduring legacy. Benjey traces the writer's deep involvement with America over one crucial decade, from 1889 to 1899, when he lived for four years in Brattleboro, Vermont, and sought deliberately to turn himself into a specifically American writer. It was his most prodigious and creative period, as well as his happiest, during which he wrote *The Jungle Book* and *Captains Courageous*. Had a family dispute not forced his departure, Kipling almost certainly would have stayed. Leaving was the hardest thing he ever had to do. Kipling said, "There are only two places in the world where I want to live, "he lamented, "Bombay and Brattleboro. And I can't live in either." In this fresh examination of Kipling, Benjey hangs a provocative "what if" over Kipling's American years and maps the imprint Kipling left on his adopted country as well as the imprint the country laid on him. If proves there is relevance and magnificence to be found in Kipling's work.*

*Anthony Lane on Con Air—"Advance word on Con Air said that it was all about an airplane with an unusually dangerous and potentially lethal load. Big deal. You should try the lunches they serve out of Newark. Compared with the chicken napalm I ate on my last flight, the men in Con Air are about as dangerous as balloons." Anthony Lane on The Bridges of Madison County—"I got my copy at the airport, behind a guy who was buying Playboy's Book of Lingerie, and I think he had the better deal. He certainly looked happy with his purchase, whereas I had to ask for a paper bag." Anthony Lane on Martha Stewart—"Super-skilled, free of fear, the last word in human efficiency, Martha Stewart is the woman who convinced a million Americans that they have the time, the means, the right, and—damn it—the duty to pipe a little squirt of soft cheese into the middle of a snow pea, and to continue piping until there are 'fifty to sixty' stuffed peas raring to go." For ten years, Anthony Lane has delighted New Yorker readers with his film reviews, book reviews, and profiles that range from Buster Keaton to Vladimir Nabokov to Ernest Shackleton. *Nobody's Perfect* is an unforgettable collection of Lane's trademark wit, satire, and insight that will satisfy both the long addicted and the not so familiar.*

NEW YORK TIMES BEST SELLER • Selma Blair has played many roles: Ingenue in *Cruel Intentions*. Preppy ice queen in *Legally Blonde*. Muse to Karl Lagerfeld. Advocate for the multiple sclerosis community. But before all of that, Selma was known best as ... a mean baby. In a memoir that is as wildly funny as it is emotionally shattering, Blair tells the captivating story of growing up and finding her truth. "Blair is a rebel, an artist, and it turns out: a writer." —Glennon Doyle, *Author of the #1 New York Times Bestseller Untamed and Founder of Together Rising*
The first story Selma Blair Beitner ever heard about herself is that she was a mean, mean baby. With her mouth pulled in a perpetual snarl and a head so furry it had to be rubbed to make way for her forehead, Selma spent years living up to her terrible reputation: biting her sisters, lying spontaneously, getting drunk from Passover wine at the age of seven, and behaving dramatically so that she would be the center of attention. Although Selma went on to become a celebrated Hollywood actress and model, she could never quite shake the periods of darkness that overtook her, the certainty that there was a great mystery at the heart of her life. She often felt like her arms might be on fire, a sensation not unlike electric shocks, and she secretly drank to escape. Over the course of this beautiful and, at times, devastating memoir, Selma lays bare her addiction to alcohol, her devotion to her brilliant and complicated mother, and the moments she flirted with death. There is brutal violence, passionate love, true friendship, the gift of motherhood, and, finally, the surprising salvation of a multiple sclerosis diagnosis. In a voice that is powerfully original, fiercely intelligent, and full of hard-won wisdom, Selma Blair's Mean Baby is a deeply human memoir and a true literary achievement.

A major theme in the book is abandonment followed by fostering, as in the life of Mowgli, echoing Kipling's own childhood. The theme is echoed in the triumph of protagonists including Rikki-Tikki-Tavi and The White Seal over their enemies, as well as Mowgli's. Another important theme is of law and freedom; the stories are not about animal behavior, still less about the Darwinian struggle for survival, but about human archetypes in animal form. They teach respect for authority, obedience, and knowing one's place in society with "the law of the jungle", but the stories also illustrate the freedom to move between different worlds, such as when Mowgli moves between the jungle and the village. Critics have also noted the essential wildness and lawless energies in the stories, reflecting the irresponsible side of human nature. The Jungle Book has remained popular, partly through its many adaptations for film and other media. Famous stories of The Jungle Book Rudyard Kipling: Mowgli's Brothers, Kaa's Hunting, Tiger! The Jungle Book (1894) is a collection of stories written by Rudyard Kipling.The tales in the book (and also those in The Second Jungle Book which followed in 1895, and which includes five further stories about Mowgli) are fables, using animals in an anthropomorphic manner to give moral lessons. The verses of The Law of the Jungle, for example, lay down rules for the safety of individuals, families and communities. Kipling put in them nearly everything he knew or "heard or dreamed about the Indian jungle."
