From the pindan red beaches of the Kimberley ' s west coast to the karri forests of southern Western Australia, Harry Fisher has cemented his reputation with a pair of tongs (actually, we ' ve never seen him use tongs...) around the campfire. Combining his passion for the Aussie bush and

great food, he ' s made it his mission to prove that camp cooking doesn ' t have to be dull cooking. Harry ' s campfire cooking and distinct approach to recipe creation are encapsulated by his personal brand – Fire to Fork. His meals are simple enough for any enthusiastic bush cook to prepare, but his focus on fewer but higher quality ingredients, and techniques he ' s learned from his mother, a chef, sets him apart in the camp cooking world. Fire to Fork has amassed millions of views on YouTube and tens of thousands of followers across the globe. As a result, Harry is the most popular authority on bush cooking, not just in Australia, but everywhere good food and campfires are combined. His first cookbook, Fire To Fork – Adventure Cooking combines everything he knows about cooking over

an open flame with over 60 of his favourite bush recipes, desserts and cocktails. If you like campfires, unreal camping and great food, this book will transform how and what you eat when travelling.

After more than a century of study, the hydrogen atom still presents challenges and opportunities to theoretical as well as to experimental physicists. The discovery of the Lamb shift in the late nineteen forties, followed by the development of QED and the introduction of powerful new experimental techniques in the nineteen sixties and seventies, have preserved for hydrogen its central place in atomic physics. Part I of this book, a reprint of the work published in 1957, covers the period from the earliest days up to the late nineteen fifties. Part II, a collection of progress

Big-Leaf Mahogany is the most important commercial timber species of the tropics. Current debate concerning whether to protect it as an endangered species has been hampered by the lack of complete, definitive scientific documentation. This book reports on vital research on the ecology of big-leaf mahogany, including genetic variations, regeneration, natural distribution patterns and the silvicultural and trade implications for the tree.

***Brenda Is A Sheep is a massively***

***mischievous and heart-warming story about being accepted, from Morag Hood - the award-winning creator of The Steves, I Am Bat, Aalfred and Aalbert, and author of Sophie Johnson: Unicorn Expert. Brenda says she is a sheep, but why does she look so different from her fluffy friends? All the sheep adore Brenda. With her sharp pointy teeth and cool grey fur, she's the snazziest sheep around. But Brenda is also very hungry, and doesn't much like the taste of grass***

***. . . she soon begins plotting the most delicious feast of all. But will the sheep notice that Brenda isn't quite the same as them? A hilarious twist on the classic wolf-in-sheep's-clothing fable.***

### The Gritty Little Lamb

This is the story of an eleven year old girl, Mandi Hendrick, who lives in the Australian outback. By accident she calls a magical little man out of a whirlwind. He says he is a Rot Roo and that he can only be seen by children under twelve. Their adventures are exciting as they explore the outback, the city of Melbourne and a ranch in California. The Rot Roo insists on following her wherever she goes. He is very mischievous and constantly plays tricks on others. He teaches Mandi not only self reliance but about the animals of their country and together they learn about
