*A Newbery Medal Winner For over thirty-five years, Ellen Raskin’s Newbery Medal-winning The Westing Game has been an enduring favorite. This highly inventive mystery involves sixteen people who are invited to the reading of Samuel W. Westing’s will. They could become millionaires-it all depends on how they play the tricky and dangerous Westing game, a game involving blizzards, burglaries, and bombings Ellen Raskin has created a remarkable cast of characters in a puzzle-knotted, word-twisting plot filled with humor, intrigue, and suspense. Winner of the Newbery Medal Winner of the Boston Globe/Horn Book Award An ALA Notable Book A School Library Journal One Hundred Books That Shaped the Century "A supersharp mystery...confoundingly clever, and very funny." --Booklist, starred review "Great fun for those who enjoy illusion, word play, or sleight of hand." --The New York Times Book Review "A fascinating medley of word games, disguises, multiple aliases, and subterfuges--a demanding but rewarding book." --The Horn Book*

*The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both individuals and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In Democratizing Innovation, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all.The trend toward democratized innovation can be seen in software and information products—most notably in the free and open-source software movement—but also in physical products. Von Hippel’s many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among "lead users," who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor industry is one example—that have learned to assist user-innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.*

*This science activity book, for grades 8-12, can be used to teach students the thinking skills they will need to undertake scientific exploration on their own. The skills they develop will improve their science abilities and enhance their overall academic performance. This book is divided into two sections: (1) "Dynamo Demos", teacher-led demonstration and discussion activities that teach students scientific process skills; and (2) "Creative Challenges" in which students use a combination of solution-generation and trial-and-error to design and develop their own experiments to solve a specific problem. *Differentiated Instruction for Culturally and Linguistically Diverse (CLD) Students*

Sure to get students engaged and thinking critically about CLD students, this text examines theory and research-based methods that are specific to and effective with CLD students and which promote linguistic and academic achievement. This text concentrates on ways in which the differential needs of CLD students can be mutually accommodated within various classroom settings. Focusing on answering the provocative question: ‘In what ways do the needs of CLD students differ from those of students whose culture and language correspond to the dominant culture/language in American society?,' students will gain an understanding of the complex realities that CLD students face as well as the differential language and transition needs of these students. The specific challenges and processes of the sociocultural, academic, cognitive, and linguistic dimensions of the CLD student biography are explored in the text.

In a prose that is so beautiful it is poetry, we see the world of growing up and going somewhere through the dust and heat of Fresno’s industrial side and beyond: It is a boy’s coming of age in the barrio, parochial school, attending church, public summer school, and

trying to fall out of love so he can join in a Little League baseball team. His is a clarity that rings constantly through the warmth and wry reality of these sometimes humorous, sometimes tragic, always human remembrances.

For fans of Radium Girls and history and WWII buffs, The Girls Who Stepped Out of Line takes you inside the lives and experiences of 15 unknown women heroes from the Greatest Generation, the women who served, fought, struggled, and made things happen during WWII—in and out of uniform, for theirs is a legacy destined to embolden generations of women to come. The Girls Who Stepped Out of Line are the heroes of the Greatest Generation that you hardly ever hear about. These women who did extraordinary things didn’t expect thanks and shied away from medals and recognition. Despite their amazing accomplishments, they’ve gone mostly unheralded and unrewarded. No longer. These are the women of World War II who served, fought, struggled, and made things happen—in and out of uniform. Young Hilda Eisen was captured twice by the Nazis and twice escaped, going on to fight with the Resistance in Poland. Determined to survive, she and her husband later emigrated to the U.S. where they became entrepreneurs and successful business leaders. Ola Mildred Rexroat was the only Native American woman pilot to serve with the Women’s Airforce Service Pilots (WASP) in World War II. She persisted against all odds—to earn her silver wings and fly, helping train other pilots and gunners. Ida and Louise Cook were British sisters and opera buffs who smuggled Jews out of Germany, often wearing their jewelry and furs, to help with their finances. They served as sponsors for refugees, and established temporary housing for immigrant families in London. Alice Marble was a grand-slam winning tennis star who found her own path to serve during the war—she was an editor with Wonder Woman comics, played tennis exhibitions for the troops, and undertook a dangerous undercover mission to expose Nazi theft. After the war she was instrumental in desegregating women’s professional tennis. Others also stepped out of line—as cartographers, spies, combat nurses, and troop commanders. Retired U.S. Army Major General Mari K. Eder wrote this book because she knew their stories needed to be told—and the sooner the better. For theirs is a legacy destined to embolden generations of women to come.

Comprehensive, innovative, and practical, this text offers educators a powerful approach to teaching writing. Rather than have students perform repetitive exercises, it focuses on engaging students in grappling with words and experiences to make meaning. Such topics as the paradigm shift from product to process; an overview of the writing process; teaching prewriting and how to shape writing; examining genres; collaborative learning; classroom management strategies; grammar within the writing process; proofreading, editing, and publishing; cognitive developmental theory; developmental writing and spelling; brain theory; research; assessment and grading; the reading/writing connection; and writing across the curriculum are covered. Grades K-12.

“In Robert Weintraub’s exhaustive biography, The Divine Miss Marble, he transports the reader into Marble’s vibrant world. It’s a dreamy, indomitable life worth reading about as today’s tennis tries to return to form.”—The Washington Post “An intriguing book about a fascinating woman . . . Highly recommended.”—Library Journal (starred review) “Delightful and engrossing, this is a must for tennis fans.”—Publishers Weekly The story of 1930s tennis icon Alice Marble, and her life of sports, celebrity, and incredible mystery Who was Alice Marble? In her public life, she was the biggest tennis star of the pre-war era, a household name like Joe DiMaggio and Joe Louis. She was famous for overcoming serious illness to win the biggest tournaments, including Wimbledon. She was also a fashion designer and trendsetter, a contributor to a pioneering new comic called Wonder Woman—and friend to the biggest names in Hollywood and society, like Carole Lombard and Clark Gable, William Randolph Hearst and Marion Davies, and members of families named Bloomingdale, Loew, and du Pont. She helped integrate tennis with her support of Althea Gibson, and even coached two young women who became stars in their own right: Billie Jean King and Sally Ride. Yet her private life provoked constant speculation while she was alive, and her own memoirs added layers of legend upon stories. According to Alice, she married a man who was killed in the skies over Europe during World War II. But who was the man she loved, and had he even existed? She was widely known for her patriotism during World War II. Had she really nearly given her life for her country as a spy, shot during a wild car chase fleeing foreign espionage agents? In The Divine Miss Marble, bestselling author Robert Weintraub traveled the country to uncover her fascinating story. And the more he learned about her, the more her mysteries and contradictions deepened. Alice was a powerful woman who knew her worth, demanding equal pay to men decades earlier than other female athletes; yet she was held in sway by a domineering, highly successful coach with whom she had a volatile relationship. She was renowned for her California style, and had a brilliant mind and the guts to overcome a lifetime of physical trauma. For the first time here, we come closer than ever before to the truths of this unforgettable life, and somehow it’s a story even more extraordinary than everything we already know about the divine Alice Marble.

A gentle story that teaches how small acts of kindness can help children feel included and allow them to flourish, from esteemed author and speaker Trudy Ludwig and acclaimed illustrator Patrice Barton. A simple act of kindness can transform an invisible boy into a friend... Meet Brian, the invisible boy. Nobody in class ever seems to notice him or think to include him in their group, game, or birthday party . . . until, that is, a new kid comes to class. When Justin, the new boy, arrives, Brian is the first to make him feel welcome. And when Brian and Justin team up to work on a class project together, Brian finds a way to shine. Any parent, teacher, or counselor looking for material that sensitively addresses the needs of quieter children will find The Invisible Boy a valuable and important resource. Includes a discussion guide and resources for further reading.

From Colleen Hoover, the #1 New York Times bestselling author of It Ends With Us, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.
