Designed to dominate the surrounding area, to house powerful garrisons, offer sumptuous quarters for local nobility, and to discourage and repel enemy attacks, castles dominated England and Wales for more than half a millennium. Though some were built before 1066, the Norman Conquest left a lasting legacy in the form of fortifications ranging from small earthworks now barely discernible, to

mighty and dominating stone fortresses. This book examines why castles were so essential to medieval warfare, their importance in domestic politics, and the day-to-day lives of those who lived and worked within them. It also shows how the development of new technologies affected their construction and design, and why they eventually fell into disrepair in the late Middle Ages. Beautifully illustrated with stunning photographs, this is the perfect guide for any castle enthusiast seeking to discover more about medieval fortifications and their inhabitants.

Lise Hull takes the reader on a cultural and historical tour of Britain's medieval castles, with a special emphasis on how these structures evolved to serve their inhabitants' changing military and political needs.

***military history from the point of view of economics—with dramatically insightful results. For example, when looked at as a question of sheer cost, the building of castles in the High Middle Ages seems almost inevitable: though stunningly expensive, a strong castle was far cheaper to maintain than a standing army. The authors also reexamine the strategic bombing of Germany in World War II and provide new insights into France's decision to develop nuclear weapons. Drawing on these examples and more, Brauer and Van Tuyl suggest lessons for today's military, from counterterrorist strategy and military manpower planning to the use of private military companies in Afghanistan and Iraq. Fruits of the most recent research into the "long" thirteenth century. Following the creation of the Duchy of Normandy, the Normans were soon introduced to the castle and they built them in large numbers. In the mid-11th century, other Norman adventurers began carving out dominions for themselves in Southern Italy: some crossed to Sicily in 1061 and by 1091 had conquered the whole island. As in Normandy, they were keen to assimilate new ideas, including architectural styles, resulting in some striking buildings.
