*The most fatal virus known to science, rabies—a disease that spreads avidly from animals to humans—kills nearly one hundred percent of its victims once the infection takes root in the brain. In this critically acclaimed exploration, journalist Bill Wasik and veterinarian Monica Murphy chart four thousand years of the history, science, and cultural mythology of rabies. From Greek myths to zombie flicks, from the laboratory heroics of Louis Pasteur to the contemporary search for a lifesaving treatment, Rabid is a fresh and often wildly entertaining look at one of humankind's oldest and most fearsome foes. "A searing narrative." —The New York Times "In this keen and exceptionally well-written book, rife with surprises, narrative suspense and a steady flow of expansive insights, 'the world's most diabolical virus' conquers the unsuspecting reader's imaginative nervous system. . . . A smart, unsettling, and strangely stirring piece of work." —San Francisco Chronicle "Fascinating. . . . Wasik and Murphy chronicle more than two millennia of myths and discoveries about rabies and the animals that transmit it, including dogs, bats and raccoons." —The Wall Street Journal*

*'That sense of the meaninglessness of existence that runs through much of twentieth-century writing - from Conrad and Kafka, to Beckett and beyond - starts in Dostoyevsky's work' Malcolm Bradbury Alienated from society and paralysed by a sense of his own insignificance, the anonymous narrator of Dostoyevsky's Notes from Underground tells the story of his tortured life. With bitter irony, he describes his refusal to become a worker in the 'anthill' and his gradual withdrawal from society. The seemingly ordinary world of St Petersburg takes on a nightmarish quality in The Double when a government clerk encounters a man who looks exactly like him - his double perhaps, or possibly the darker side of his own personality. Like Notes from Underground, this is a masterly tragi-comic study of human consciousness. Translated by Ronald Wilks with an Introduction by Robert Louis Jackson Translated by Michael Hofmann. 'They come, you hear the scratch of their claws just below you in the ground, and already you are lost.' Strange beasts, night terrors, absurd bureaucrats and sinister places abound in this collection of stories by Franz Kafka. Some are less than a page long, others more substantial; all were unpublished in his lifetime. These matchless short works range from the gleeful miniature horror 'Little Fable' to the off-kilter humour of 'Investigations of a Dog', and from the elaborate waking nightmare of 'Building the Great Wall of China' to the creeping unease of 'The Burrow', where a nameless creature's labyrinthine hiding place turns into a trap of fear and paranoia.*

**HarperCollins is proud to present its incredible range of best-loved, essential classics.**

**This collection brings together some of Kafka's best known shorter fiction in a new translation by Ian Johnston.**

**"Jackals and Arabs" (German: "Schakale und Araber") is a short story by Franz Kafka, written and published in 1917. The story was first published by Martin Buber in the German monthly "Der Jude". It appeared again in the collection "Ein Landarzt" ("A Country Doctor") in 1919.**

**Franz Kafka, the author has very nicely narrated the story of Gregou Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including 'The Judgement', and much of his novels 'Amerika', 'The Castle', 'The Hunger Artist'. Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature. Ironically, the story ends on an optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. The Metamorphosis is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.**

**A Dramatization of the Kafka Story**

**The Metamorphosis, in the Penal Colony and Other Stori**

**The Classical Haida Myhtellers and Their World**

**The Essential Kafka**

**Franz Kafka has given his name to a world of nightmare, but in Kafka's world, it is never completely clear just what the nightmare is. Kafka deals in dark and quirkily humorous terms with the insoluble dilemmas of a world which offers no reassurance, and no reliable guidance to resolving our existential and emotional uncertainties and anxieties.**

**A brilliant new translation of Kafka's best-known work, published for the 125th anniversary of his birth This collection of new translations brings together the small proportion of Kafka's works that he thought worthy of publication. It includes Metamorphosis, his most famous work, an exploration of horrific transformation and alienation; Meditation, a collection of his earlier studies; The Judgement, written in a single night of frenzied creativity; The Stoker, the first chapter of a novel set in America and a fascinating occasional piece, The Aeroplanes at Brescia, Kafka's eyewitness account of an air display in 1909. Together, these stories reveal the breadth of Kafka's literary vision and the extraordinary imaginative depth of his thought. This CliffsNotes guide includes everything you've come to expect from the trusted experts at CliffsNotes, including analysis of the most widely read literary works.**

**I have only one request," Kafka wrote to his publisher Kurt Wolff in 1913. "'The Stoker,' 'The Metamorphosis,' and 'The Judgment' belong together, both inwardly and outwardly. There is an obvious connection among the three, and, even more important, a secret one, for which reason I would be reluctant to forego the chance of having them published together in a book, which might be called The Sons."**

**This new translation includes Kafka's most famous story, The Metamorphosis, together with two other stories, The Judgement and In the Penal Colony, and Meditation and the autobiographical Letter to his Father. The edition includes a detailed introduction, notes, and other helpful items.**

**'In recent decades, interest in hunger artists has greatly diminished.' Kafka published two collections of short stories in his lifetime, A Country Doctor: Little Tales (1919) and A Hunger Artist: Four Stories (1924). Both collections are included in their entirety in this edition, which also contains other, uncollected stories and a selection of posthumously published works that have become part of the Kafka canon. Enigmatic, satirical, often bleakly humorous, these stories approach human experience at a tangent: a singing mouse, an ape, an inquisitive dog, and a paranoid burrowing creature are among the protagonists, as well as the professional starvation artist. A patient seems to be dying from a metaphysical wound; the war-horse of Alexander the Great steps aside from history and adopts a quiet profession**

*In the Penal Colony is a short story by Franz Kafka written in German in October 1914, revised in November 1918, and first published in October 1919. The story is set in an unnamed penal colony. Internal clues and the setting on an island suggest Octave Mirbeau's The Torture Garden as an influence. As in some of Kafka's other writings, the narrator in this story seems detached from, or perhaps numbed by, events that one would normally expect to be registered with horror. "In the Penal Colony" describes the last use of an elaborate torture and execution device that carves the sentence of the condemned prisoner on his skin before letting him die, all in the course of twelve hours. As the plot unfolds, the reader learns more and more about the machine, including its origin and original justification. The story focuses on the Explorer, who is encountering the brutal machine for the first time. Everything about the machine and its purpose is told to him by the Officer. The Soldier and the Condemned (who is unaware that he has been sentenced to die) placidly watch from nearby. The Officer tells of the religious epiphany the executed experience in their last six hours in the machine. Eventually, it becomes clear that the use of the machine and its associated process of justice - the accused is always instantly found guilty, and the law he has broken is inscribed on his body as he slowly dies over a period of 12 hours - has fallen out of favor with the current Commandant. The Officer is nostalgic regarding the torture machine and the values that were initially associated with it. As the last proponent of the machine, he strongly believes in its form of justice and the infallibility of the previous Commandant, who designed and built the device. In fact, the Officer carries its blueprints with him and is the only person who can properly decipher them; no one else is allowed to handle these documents.*

August 8-12, 1994, Brighton, England From Animals to Animats 3 brings together research intended to advance the front tier of an exciting new approach to understanding intelligence. The contributors represent a broad range of interests from artificial intelligence and robotics to ethology and the neurosciences. Unifying these approaches is the notion of "animat" -- an artificial animal, either simulated by a computer or embodied in a robot, which must survive and adapt in progressively more challenging environments. The 58 contributions focus particularly on well-defined models, computer simulations, and built robots in order to help characterize and compare various principles and architectures capable of inducing adaptive behavior in real or artificial animals. Topics include: - Individual and collective behavior. - Neural correlates of behavior. - Perception and motor control. - Motivation and emotion. - Action selection and behavioral sequences. - Ontogeny, learning, and evolution. - Internal world models and cognitive processes. - Applied adaptive behavior. - Autonomous robots. - Hierarchical and parallel organizations. - Emergent structures and behaviors. - Problem solving and planning. - Goal-directed behavior. - Neural networks and evolutionary computation. - Characterization of environments. The Metamorphosis is a novella by Franz Kafka, first published in 1915. It has been cited as one of the seminal works of fiction of the 20th century and is studied in colleges and universities across the Western world. The story begins with a traveling salesman, Gregor Samsa, waking to find himself transformed (metamorphosed) into a large, monstrous insect-like creature. The cause of Samsa's transformation is never revealed, and Kafka never did give an explanation. The rest of Kafka's novella deals with Gregor's attempts to adjust to his new condition as he deals with being burdensome to his parents and sister, who are repulsed by the horrible, verminous creature Gregor has become. "In the Penal Colony" is a short story by Franz Kafka written in German in October 1914, and first published in October 1919. The story is set in an unnamed penal colony. Internal clues and the setting on an island suggest Octave Mirbeau's The Torture Garden as an influence. As the plot unfolds, the reader learns more and more about the machine, including its origin and original justification. Franz Kafka (1883 – 1924) was a German-language writer of novels and short stories, regarded by critics as one of the most influential authors of the 20th century. Kafka strongly influenced genres such as existentialism. Most of his works, such as The Metamorphosis, The Trial, and The Castle, are filled with the themes and archetypes of alienation, physical and psychological brutality, parent-child conflict, characters on a terrifying quest, labyrinths of bureaucracy, and mystical transformations.

For the 125th anniversary of Kafka's birth comes an astonishing new translation of his best-known stories, in a spectacular graphic package.

Franz Kafka (3 July 1883 - 3 June 1924) was one of the greatest writers of the 20th century, but almost nobody was aware of his writing until after his death. Kafka's unpublished work to come out after his death, but his wishes were ignored, to the world's benefit. Kafka's work is so profound and unique that the term "Kafkaesque" entered the English language, a reference to surreal distortions and amazing complexities.

The best-known novellas and stories of one of the seminal writers of the twentieth century. Included are "The Judgment," "A Country Doctor," and "A Hunger Artist." Foreword by Anne Rice.

A seminal collection of Haida myths and legends; now in a gorgeous new package. The linguist and ethnographer John Swanton took dictation from the last great Haida storytellers, poets and historians from the fall of 1900 through the summer of 1901. Together they created a great treasury of Haida oral literature in written form. For many years with these century-old manuscripts, linguist and poet Robert Bringhurst brings both rigorous scholarship and a literary voice to the English translation of this careful work. He sets the stories in a rich context that reaches out to dozens of native oral literatures and to myth-telling traditions around the globe. Attractively reprinted, this collection of First Nations oral literature is an important cultural record for future generations of Haida, scholars and other interested readers. It won the Edward Sapir Award by the Society for Linguistic Anthropology, and it was chosen as the Literary Editor's Book of the Year by the Times of London. Bringhurst brings these works to life in English language and sets them in a context just as rich as the stories themselves one that reaches out to dozens of Native American oral literatures, and to myth-telling traditions around the world.

Translated by PEN translation award-winner Joachim Neugroschel, The Metamorphosis, In the Penal Colony, and Other Stories has garnered critical acclaim and is widely regarded as the preeminent English-language anthology of Kafka's stories.
