Maira Kalman, the author of the bestsellers *The Principles of Uncertainty* and *The Elements of Style*, and Alex Kalman, the designer, curator, writer, and founder of Mmuseumm, combine their talents in this captivating family memoir, a creative blend of narrative and striking visuals that is a paean to an exceptional woman and a celebration of individuality, personal expression, and the art of living authentically.

the early 1950s, Jewish émigré Sara Berman arrived in the Bronx with her husband and two young daughters. When the children were grown, she and her husband returned to Israel, but Sara did not stay for long. In the late 1960s, at age sixty, she returned to her husband after thirty-eight years of marriage. One night, she packed a single suitcase and returned alone to New York City, moving into a studio apartment in Greenwich Village near her family. In her new home, Sara began discovering new things and establishing new rituals, from watching Jeopardy each night at 7:00 PM, eating pizza at the Museum of Modern Art's cafeteria every Wednesday. She also began discarding the unnecessary, according to the Kalmans: "in a burst of personal expression, she decided to wear only white." Sara kept her belongings in an extraordinarily clean and organized closet. Filled with elegant, minimalist, heavily starched, impeccably pressed and folded all-white clothing, including socks and undergarments, as well as carefully selected objects—from a potato grater to her signature perfume, Chanel No.19—the space was sublime. Upon her death in 2000, her family decided to preserve its pristine contents, hoping to find a way to exhibit it one day. In 2015, the Mmuseumm, a new type of museum located in a series of unexpected locations, founded and curated by Sara's grandson, Alex Kalman, recreated the space in a popular exhibit—Sara Berman's Closet—in Tribeca. The installation eventually moved to the Metropolitan Museum of Art, and in spring 2016

will become an outdoor monument to independence at the National Museum of American Jewish History on Independence Mall in Philadelphia. Inspired by the exhibit, this spectacular illustrated memoir, packed with family photographs, exc images, and Maira Kalman's distinctive paintings, is an ode to Sara's life, freedom and re-invention. Sara Berman's Closet is an indelible portrait of the human experience—overcoming hardship, taking risks, experiencing joy, enduring loss. It also a reminder of the significance of the seemingly insignificant moments in our lives—the moments we take for granted that may turn out to be the sweetest. a daughter and grandson's wry and touching observations conveyed in Maira's signature script, Sara Berman's Closest is a beautiful, loving tribute to one woman's indomitable spirit.

After being told that his father was an assassin for a criminal organization, four year-old Alex goes to Italy to find out more and becomes involved in a plan to kidnap thousands of English schoolchildren. Reprint.

How Alex Grey's visionary art is evolving the cultural body through icons of interconnectedness • Includes over 200 reproductions of Grey's artwork • Contains spectacular photos of Grey's collaboration with the cult band TOOL plus his worldwide live-painting performances • Offers Grey's reflections on how art evolves consciousness with a new symbology of the Networked Self • Winner of the 2013 Nautilus Silver Book Award in Photography and Art Revealing the interwoven energies of body and soul, love and spirit that illuminate the core of each being, Alex Grey's mystic paintings articulate the realms of consciousness encountered during visits to entheogenic heaven worlds. His painting Net of Being--inspired by a blazing vision of an infinite grid of Godheads during an ayahuasca journey--has reached millions as the cover and interior of the band TOOL's Grammy award-winning triple-platinum album, 10,000 Days. Net of Being is one of many images Grey has created that have resulted in a chain reaction of uses--from apparel and jewelry to tattoos and music videos--embedding these iconic works into our culture's living Net of Being. The book explores how the mystical experience expressed in Alex Grey's work opens a new understanding of our shared consciousness and unveils the deep influence art can have on cultural evolution. The narrative progresses through a successive expansion of identity--from the self, to self and

beloved, to self and community, world spirit, and cosmic consciousness, where bodies are transparent to galactic energies. Presenting over 200 images, including many never-before-reproduced paintings as well as masterworks such as St. Albert and the LSD Revelation Revolution and Godself, the book also documents performance art, live-painting on stage throughout the world, and the "social sculpture" called CoSM, Chapel of Sacred Mirrors, that Grey cofounded with his wife and creative collaborator, artist Allyson Grey. A man walks into a college classroom full of students and starts shouting. Nobody hits the deck. Nobody believes they're in danger. Everybody is smiling because Alex Raffi is here, he is the one shouting, and Creative Courage has begun. This is a room overflowing with art students. These people are already open to artistic concepts but are in need of confidence. Creative Courage helps them build that confidence. Alex takes them through doubt to self assurance. He reinforces that doubt is a part of creativity: it is acceptable, required, and essential. Creative people need more than just a ringmaster, though, so Alex provides them with a roadmap to bolster their creativity. He raises questions most of my students feel and ponder. He lets them know they're not alone, and that those questions in and of themselves are important. What resonates with me as an established artist and professor is how Alex challenges our need for

comfort within a sometimes uncomfortable creative life. Alex is there to remind us that whatever one's station or place, we all need the courage to be creative, not just in our artistic world but in our lives as well. - Tom Dowling Professor Orange Coast College Creative Courage is a book that has grown out of many lectures that I've given on individual creative capacity and how understanding and encouraging it can inspire others around you to lift you up creatively. It's a dismantling of common perceptions of our understanding of problem solving and offers new ways of thinking of our creative process. Not only was Alex Singer a great human being -- and though young, he was great -- he was also a gifted writer and artist. These letters, diary entries and drawings are quite simply riveting. Whether your interest is Israel, the development of a sensitive young mind, Judaism or God, you will never forget Alex: Building A Life. Read it and laugh and cry. In other words, read it and live a remarkable life that was cut short.

Fans and scholars have long regarded the 1980s as a significant turning point in the history of comics in the United States, but most critical discussions of the period still focus on books from prominent creators such as Frank Miller, Alan Moore, and Art Spiegelman, eclipsing the work of others who also played a key role in shaping comics as we know them today. The Other 1980s offers a more

complicated and multivalent picture of this robust era of ambitious comics publishing. The twenty essays in *The Other 1980s* illuminate many works hailed as innovative in their day that have nonetheless fallen from critical view, partly because they challenge the contours of conventional comics studies scholarship: open-ended serials that eschew the graphic-novel format beloved by literature departments; sprawling superhero narratives with no connection to corporate universes; offbeat and abandoned experiments by major publishers, including Marvel and DC; idiosyncratic and experimental independent comics; unusual genre exercises filtered through deeply personal sensibilities; and oft-neglected offshoots of the classic “underground” comics movement of the 1960s and 1970s. The collection also offers original examinations of the ways in which the fans and critics of the day engaged with creators and publishers, establishing the groundwork for much of the contemporary critical and academic discourse on comics. By uncovering creators and works long ignored by scholars, *The Other 1980s* revises standard histories of this major period and offers a more nuanced understanding of the context from which the iconic comics of the 1980s emerged.

*If you have tattoos, who owns the rights to the imagery inked on your body? What about the photos you just shared on Instagram? And what if you are an artist, responding to the surrounding landscape of preexisting cultural forms? Most people go about their days without thinking much about intellectual property, but it shapes all aspects of contemporary life. It is a constantly moving target, articulated through a web of laws that are different from country to country, sometimes contradictory, often contested. Some protections are necessary—not only to benefit creators and inventors but also to support activities that contribute to the culture at large—yet overly broad ownership rights stifle innovation. Is It Ours? takes a fresh look at issues of artistic expression and creative protection as they relate to contemporary law. Exploring intellectual property, particularly copyrights, Martha Buskirk draws connections between current challenges and early debates about how something intangible could be defined as property. She examines bonds between artist and artwork, including the ways that artists or their heirs retain control over time. The text engages with fundamental questions about the interplay between authorship and ownership and the degree to which all expressions and inventions develop in response to innovations by others. Most importantly, this book argues for the necessity of sustaining a vital cultural commons.*

"Forms of Persuasion is the first book-length history of corporate art patronage in the 1960s. After the decline of artist-illustrated advertising but before the rise of museum sponsorship, this decade saw artists and businesses exploring new ways to use art for commercial gain. Where many art historical accounts of the sixties privilege radical artistic practices that seem to oppose the dominant values of capitalism, Alex J. Taylor instead reveals an art world deeply immersed in the imperatives of big business. These projects unfolded in Madison Avenue meeting rooms and MoMA galleries, but as the most creative and competitive corporations sought growth through global expansion, they also reached markets all around the world. From Andy Warhol's commissions for packaged goods manufacturers to Richard Serra's work with the steel industry, Taylor demonstrates how major artists of the period provided brands with "forms of persuasion" that bolstered corporate power, prestige, and profit. Drawing on extensive original research conducted in artist, gallery, and corporate archives, Taylor recovers a flourishing field of promotional initiatives that saw artists, advertising creatives, and executives working around the same tables. As museums continue to grapple with the ethical dilemmas posed by funding from oil companies, military suppliers, and drug manufacturers, *Forms of Persuasion* returns to these earlier relations between artists

and multinational corporations to examine the complex aesthetic and ideological terms of their enduring entanglements"--

A journey from Burning Man to the Akashic Field that suggest how 5-MeO-DMT triggers the human capacity for higher knowledge through direct contact with the zero-point field • Examines Bufo alvarius toad venom, which contains the potent natural psychedelic 5-MeO-DMT, and explores its entheogenic use • Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The venom from Bufo alvarius, an unusual toad found in the Sonoran desert, contains 5-MeO-DMT, a potent natural chemical similar in effect to the more common entheogen DMT. The venom can be dried into a powder,

which some researchers speculate was used ceremonially by Amerindian shamans. When smoked it prompts an instantaneous break with the physical world that causes out-of-body experiences completely removed from the conventional dimensions of reality. In Tryptamine Palace, James Oroc shares his personal experiences with 5-MeODMT, which led to a complete transformation of his understanding of himself and of the very fabric of reality. Driven to comprehend the transformational properties of this substance, Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man. He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero-point field of modern physics, known to the ancients as the Akashic Field. In the quantum world of nonlocal interactions, the line between the physical and the mental dissolves. 5-MeO-DMT, Oroc argues, can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to

Western civilization.

The first major biography of the pathbreaking, perpetually influential surrealist artist and iconoclast whose inspiration can be seen in everyone from Jasper Johns to Beyoncé—by the celebrated biographer of Cézanne and Braque In this thought-provoking life of René Magritte (1898-1967), Alex Danchev makes a compelling case for Magritte as the single most significant purveyor of images to the modern world. Magritte's surreal sensibility, deadpan melodrama, and fine-tuned outrageousness have become an inescapable part of our visual landscape, through such legendary works as *The Treachery of Images* (*Ceci n'est pas une pipe*) and his celebrated iterations of *Man in a Bowler Hat*. Danchev explores the path of this highly unconventional artist from his middle-class Belgian beginnings to the years during which he led a small, brilliant band of surrealists (and

famously clashed with André Breton) to his first major retrospective, which traveled to the United States in 1965 and gave rise to his international reputation. Using 50 color images and more than 160 black-and-white illustrations, Danchev delves deeply into Magritte's artistic development and the profound questions he raised in his work about the very nature of authenticity. This is a vital biography for our time that plumbs the mystery of an iconoclast whose influence can be seen in everyone from Jasper Johns to Beyoncé.

His connections with the art of his own time were largely unexplored, until now. In *Distant Early Warning*, art historian Alex Kitnick delves into these rich connections and argues both that McLuhan was influenced by art and artists and, more surprisingly, that McLuhan's work directly influenced the art and artists of his time. Kitnick builds the story of McLuhan's*

The illuminating result sheds light on new aspects of McLuhan, showing him not just as a theorist, or an influencer, but as a richly multifaceted figure who, among his many other accolades, affected multiple generations of artists and their works. The book finishes with Kitnick overlaying McLuhan's ethos onto the state of contemporary and post-internet art. This final channeling of McLuhan is a swift and beautiful analysis, with a personal touch, of art's recent transgressions and what its future may hold.*
