*“Hilarious and inspiring, Anner has made a life filled with fans, love, and Internet fame—reminding us that disability is no match for dreams.”—People (Book of the Week)*

*“Zach Anner is way more than an inspirational figure for anyone who has ever felt impossibly different: he’s also a great f\*\*king writer.”—Lena Dunham*

*Comedian Zach Anner opens his frank and devilishly funny book, *If at Birth You Don't Succeed*, with an admission: he botched his own birth. Two months early, underweight and under-prepared for life, he entered the world with cerebral palsy and an uncertain future. So how did this hairless mole-rat of a boy blossom into a viral internet sensation who's hosted two travel shows, impressed Oprah, driven the Mars Rover, and inspired a John Mayer song? (It wasn't "Your Body is a Wonderland.") Zach lives by the mantra: when life gives you wheelchair, make lemonade. Whether recounting a valiant childhood attempt to woo Cindy Crawford, encounters with zealous faith healers, or the time he crapped his pants mere feet from Dr. Phil, Zach shares his fumbles with unflinching honesty and characteristic charm. By his thirtieth birthday, Zach had grown into an adult with a career in entertainment, millions of fans, a loving family, and friends who would literally carry him up mountains. *If at Birth You Don't Succeed* is a hilariously irreverent and heartfelt memoir about finding your passion and your path even when it's paved with epic misadventure. This is the unlikely but not unlucky story of a man who couldn't safely open a bag of Skittles, but still became a fitness guru with fans around the world. You'll laugh, you'll cry, you'll fall in love with the Olive Garden all over again, and learn why cerebral palsy is, definitively, "the sexiest of the palsies." Praise for Zach Anner “Cerebral palsy couldn't stop Anner from becoming a celeb, traveling the world, and Friending Oprah (for starters).”—Cosmopolitan “Zach makes you want to be a better person, with his humor and his heart and everything he's had to deal with from the time he was born. I've never met anyone like him, and I've met a lot of people.” —Oprah Winfrey “A laugh-a-minute read.... *If At Birth You Don't Succeed* recounts his journey from being what he calls a “crappy baby” [with cerebral palsy to] the host of his own travel show and an improbable workout guru. If there was ever a book that showed the importance of*

“Zach Anner is a truly inspiring and hysterical human being with a warped sense of humor (and body). He’s also an exceptional writer and his memoir is an absolute joy.”—Rainn Wilson  
“A characteristically hilarious and candid book about growing up with cerebral palsy, winning a reality TV contest with Oprah’s OWN channel and becoming an unlikely-yet-inspiring fitness guru and YouTube celebrity with more than 10 million views.”—What’s Trending  
“Zach Anner is the living definition of ‘giving better than he’s gotten.’ Life dealt him a difficult hand but he managed to beat the house with humor, heart, and a fearless punk attitude. Required reading.”—Patton Oswalt  
“I love Zach Anner and I love his memoir. If everyone were a little more like Zach, the world may not be a better place, but it would be funnier place, which is a great step forward.”—Reddit Co-founder Alexis Ohanian  
“He’s a unique, creative kid with a smart, edgy sense of humor.”—Arsenio Hall  
“I think I speak for everybody when I say...I want to see more of Zach.” —John Mayer  
“Wonderful. . . Anner’s comedy is the peppy, uplifting sort you’d expect from someone who Oprah says ‘makes [her] want to be a better person,’ such as his elaborate Olive Garden metaphors for the nature of life. . . . Anner remarks wryly that being expected to act as an ambassador for the disabled ‘is a tightrope walk, which is hard on four wheels.’ Maybe so, but with this book, he makes it look easy.”—Publishers Weekly (starred review)  
“Funny, empowering...An inspirational memoir with a seasoned, infectious sense of humor...[Anner’s book chronicles] his three decades of life (so far) with cerebral palsy, a permanent condition that hasn’t prevented him from living his dream as a comic, a media sensation, and a motivational speaker.”—Kirkus Reviews

An epic and cinematic novel by debut author Nicola Harrison, *Montauk* captures the glamour and extravagance of a summer by the sea with the story of a woman torn between the life she chose and the life she desires. Montauk, Long Island, 1938. For three months, this humble fishing village will serve as the playground for New York City’s wealthy elite. Beatrice Bordeaux was looking forward to a summer of reigniting the passion between her and her husband, Harry. Instead, tasked with furthering his investment interest in Montauk as a resort destination, she learns she’ll be spending twelve weeks sequestered

*with the high society wives at The Montauk Manor—a two-hundred room seaside hotel—while Harry pursues other interests in the city. College educated, but raised a modest country girl in Pennsylvania, Bea has never felt fully comfortable among these privileged women, whose days are devoted not to their children but to leisure activities and charities that seemingly benefit no one but themselves. She longs to be a mother herself, as well as a loving wife, but after five years of marriage she remains childless while Harry is increasingly remote and distracted. Despite lavish parties at the Manor and the Yacht Club, Bea is lost and lonely and befriends the manor's laundress whose work ethic and family life stir memories of who she once was. As she drifts further from the society women and their preoccupations and closer toward Montauk's natural beauty and community spirit, Bea finds herself drawn to a man nothing like her husband —stoic, plain spoken and enigmatic. Inspiring a strength and courage she had almost forgotten, his presence forces her to face a haunting tragedy of her past and question her future. Desperate to embrace moments of happiness, no matter how fleeting, she soon discovers that such moments may be all she has, when fates conspire to tear her world apart...*

This is a remarkable look into the intrigue surrounding the mysterious death of Rudolph Hess and why hundreds of millions of pounds a year were spent to keep him from having any communication with the outside world. This not only includes his association with the Vril flying saucers and Antarctica but other aspects of his legacy that have gone unnoticed. Told in the context of a historical novel, Peter Moon also fills in missing pieces of the Montauk saga by adding time travel to the mix and connecting dots that have previously been overlooked. This includes a look at three notable people who all lived in Egypt at the same time: Noble Drew Ali, Aleister Crowley, and Rudolph Hess. Directed by Tibetan elders, the Germans sought to harness the Vril, an energy so powerful that it can change the very nature of the elements themselves. To succeed, however, a major change was required in the evolutionary development of the human species. A dramatic scenario of events unfolded, however, which not only ensured that this endeavour was sabotaged but included an undertaking designed to prevent humanity from ever discovering its ancient heritage and the secrets of the Vril. It was against this backdrop that two of the most colourful characters of World War II, Rudolph Hess and George S. Patton, became immersed in an age old battle involving the legions of light and darkness. The end of World War II precipitated more intrigue and struggle for power than the war itself. Much of this centred around the secret projects sponsored by Rudolph Hess which included not only the Antarctic project but the construction of Vril flying saucers. Pattons job, as the war came to a close, was to recover the secret technology of the Germans and safeguard it for American use. After accomplishing his mission and compiling a German history of the war, General Patton was killed in a dubious accident, the mystery of which has never been solved and has been magnified by government refusal to declassify the file on the investigation of his death. Far more conspicuous and powerful than Patton was Rudolph Hess, the Deputy Führer of Germany, who flew to England in 1941 as an envoy of peace and was imprisoned for life and suspiciously killed just before his imminent release. The current of intrigue and power which permeated these two individuals and led to their downfall was the same current which led to a repatriation of the U.S. Government and an undermining of a constitutional government that is run by and for the people. Besides technology, much of this intrigue centred around the banking files the Nazis confiscated from the Freemasons. The effort to keep this secret is still a factor in todays politics. It was thus that Patton and Hess wore different uniforms but shared common interests and held within their grasp a force so powerful that, if harnessed, it might raise the ancient civilisation of Atlantis itself. It was for this power that both were killed and so begins our mystery.

Growing up in Montauk was "whats it like out here in the winter? how do you live here? I couldnt do it." Well this is to show everyone what real local living is like during the months they are back home and we have our playground all to ourselves. Chronicles the most amazing and secretive research project in recorded history. Starting with the Philadelphia Experiment of 1943, invisibility experiments were conducted aboard the USS Eldridge that resulted in full-scale teleportation of the ship and crew. Forty years of massive research ensued, culminating in bizarre experiments at Montauk Point that actually manipulated time itself. The controversial lectures by Al Bielek on the Montauk Project and the Philadelphia Experiment are similar to the information in this book. The book includes diagrams and photos of the time-travel devices themselves, plus photocopies of documents and schematic diagrams.

The inspirational story of one woman learning to surf and creating a new life in gritty, eccentric Rockaway Beach Unmoored by a failed marriage and disconnected from her high-octane life in the city, Diane Cardwell finds herself staring at a small group of surfers coasting through mellow waves toward shore—and senses something shift. Rockaway is the riveting, joyful story of one woman's reinvention—beginning with Cardwell taking the A Train to Rockaway, a neglected spit of land dangling off New York City into the Atlantic Ocean. She finds a teacher, buys a tiny bungalow, and throws her not-overly-athletic self headlong into learning the inner workings and rhythms of waves and the muscle development and coordination needed to ride them. As Cardwell begins to find her balance in the water and out, superstorm Sandy hits, sending her into the maelstrom in search of safer ground. In the aftermath, the community comes together and rebuilds, rekindling its bacchanalian spirit as a historic surfing community, one with its own quirky codes and surf culture. And Cardwell's surfing takes off as she finds a true home among her fellow passionate longboarders at the Rockaway Beach Surf Club, living out "the most joyful path through life." Rockaway is a stirring story of inner salvation sought through a challenging physical pursuit—and of learning to accept the idea of a complete reset, no matter when in life it comes.

Relates the author's experience of alien abduction and government manipulation as he discovered his role in a time-travel experiment called the Montauk Project

An "extraordinary" debut memoir of first love, identity, and self-discovery among a group of friends who became family in a Montauk summer house (Andrew Solomon, National Book Award winner). They call Montauk the end of the world, a spit of land jutting into the Atlantic. The house was a ramshackle split-level set on a hill, and each summer thirty-one people would sleep between its thin walls and shag

carpets. Against the moonlight the house's octagonal roof resembled a bee's nest. It was dubbed The Hive. In 2013, John Glynn joined the share house. Packing his duffel for that first Memorial Day Weekend, he prayed for clarity. At twenty-seven, he was crippled by an all-encompassing loneliness, a feeling he had carried in his heart for as long as he could remember. John didn't understand the loneliness. He just knew it was there. Like the moon gone dark. Out East is the portrait of a summer, of The Hive and the people who lived in it, and John's own reckoning with a half-formed sense of self. From Memorial Day to Labor Day, The Hive was a center of gravity, a port of call, a home. Friendships, conflicts, secrets and epiphanies blossomed within this tightly woven friend group and came to define how they would live out the rest of their twenties and beyond. Blending the sand-strewn milieu of George Howe Colt's The Big House with the radiant aching of Olivia Liang's The Lonely City, Out East is a keenly wrought story of love and transformation, longing and escape in our own contemporary moment. "An unforgettable story told with feeling and humor and above all with the razor-sharp skill of a delicate and highly gifted writer." -- André Aciman, New York Times bestselling author of Call Me by Your Name "Out East is full of intimacy and hope and frustration and joy, an extraordinary tale of emotional awakening and lacerating ambivalence, a confession of self-doubt that becomes self-knowledge." -- Andrew Solomon, National Book Award winner An Entertainment Weekly Best Book of May 2019A Time magazine Best Book of May 2019Cosmopolitan Best Book of May 2019An O, the Oprah Magazine Best LGBTQ Book of 2019 Hosts of the podcast Stuff They Don't Want You to Know, Ben Bowlin, Matthew Frederick, & Noel Brown discern conspiracy fact from fiction regarding "stuff" the government doesn't want you to know. Conspiracies didn't always seem so clear and present. It used to be that people with tin-foil hats who were convinced of secret messages coming through the radio were easily disregarded as kooks and looney tunes. But these days, conspiracies feel alive and well. From internet rumors to lying politicians to the tinderbox that is social media, it's become remarkably clear that a vast swath of people believe really bonkers things. Why is that? How did these theories proliferate? Is there a kernel of truth to it or are they fully fiction? Ben Bowlin, Matt Frederick, and Noel Brown are the hosts of the popular iHeart podcast that seeks to answer these questions. With cool heads and extensive research, they regularly break down the wildest conspiracy theories: from chemtrails and biological testing to the secrets of lobbying and why the Kennedy assassination is of perennial interest. Written in smart, witty, and conversational style, and with amazing illustrations, Stuff They Don't Want You to Know is a vital book in helping to understand the

unexplainable and use truth as a powerful weapon against ignorance, misinformation, and lies.

The first and most authoritative history of wood type in the United States is now reissued in paperback. This book tells the complete story of wood type, beginning with the history of wood as a printing material, the development of decorated letters and large letters, and the invention of machinery for mass-producing wood letters. The 19th-century heyday of wood type is explored in great detail, including all aspects of design, manufacture, and marketing, and the evolution of styles. Many related trades interacted with wood type production; the book examines the influence of lithography, letterpress, metal-plate and wood engraving, sign painting and calligraphy, poster printing, and type-founding. Long out of print, the book is still regarded by scholars and designers as an invaluable resource for a rich legacy of typographic art. More than 600 specimens of wood type are classified and annotated, as are more than 100 specimens of complete fonts. This reissue includes a new foreword by David Shields, Design Curator of the Rob Roy Kelly Wood Type Collection at the University of Texas at Austin, discussing the renewed interest in the subject since the mid-1990s as well as ongoing research into the history of wood type.
