The seductive elegance of classical finance theory is powerful, yet value investing requires that we reject both the precepts of modern portfolio theory (MPT) and pretty much all of its tools and techniques. In this important new book, the highly respected and controversial value investor and behavioural analyst, James Montier explains how value investing is the only tried and tested method of delivering sustainable long-term returns. James shows you why everything you learnt at business

school is wrong; how to think properly about valuation and risk; how to avoid the dangers of growth investing; how to be a contrarian; how to short stocks; how to avoid value traps; how to hedge ignorance using cheap insurance. Crucially he also gives real time examples of the principles outlined in the context of the 2008/09 financial crisis. In this book James shares his tried and tested techniques and provides the latest and most cutting edge tools you will need to deploy the value approach successfully. It provides you with the tools to start thinking in a different fashion about the way in which you invest, introducing the ways of over-riding the emotional distractions that will bedevil the pursuit of a value approach and ultimately think and act differently from the herd.

\$1,285,000. Similarly, a \$10,000 investment made in Microsoft in 1986 would be valued at more than \$1,800,000 today. How do you get in on those deals -- especially if you're not a Silicon Valley insider? How do you buy the high-tech winners and avoid the losers? How do you find the Microsofts and Ciscos of tomorrow? The answers are here, in *The Gorilla Game*. All you have to do is learn the rules. *The Gorilla Game* reveals the dynamics driving the market for high-tech stocks and outlines the forces that catapult a select number of companies to "gorilla" status -- dominating the markets they serve in the way that Microsoft dominates software operating systems and Cisco dominates hardware for data networks. Follow the rules of *The Gorilla Game* and you will learn how to identify and invest in the "gorilla candidates" early on -- while they are fighting for dominance in

their markets and while their stock is still cheap. When the dust clears and one company clearly attains leadership in its product category, you'll reap the enormous returns that foresighted investors in high-tech companies deserve. The Gorilla Game is the latest from bestselling author Geoffrey A. Moore, one of the world's leading consultants in high-tech marketing strategy. Here you'll find the ground-breaking ideas about technology markets that made his previous books bestsellers, combined with the work of Paul Johnson, a top Wall Street technology analyst, and Tom Kippola, a high-tech consultant and highly successful private investor. Together they have discovered and played the gorilla game and now give their readers the real rules for winning in the world of high-tech investing. Step by step you'll learn how to spot a high-tech market that is about to

value investors, and his client memos brim with insightful commentary and a time-tested, fundamental philosophy. Now for the first time, all readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and the pitfalls that can destroy capital or ruin a career. Utilizing passages from his memos to illustrate his ideas, Marks teaches by example, detailing the development of an investment philosophy that fully acknowledges the complexities of investing and the perils of the financial world. Brilliantly applying insight to today's volatile markets, Marks offers a volume that is part memoir, part creed, with a number of broad takeaways. Marks expounds on such concepts as "second-

level thinking," the price/value relationship, patient opportunism, and defensive investing. Frankly and honestly assessing his own decisions--and occasional missteps--he provides valuable lessons for critical thinking, risk assessment, and investment strategy. Encouraging investors to be "contrarian," Marks wisely judges market cycles and achieves returns through aggressive yet measured action. Which element is the most essential? Successful investing requires thoughtful attention to many separate aspects, and each of Marks's subjects proves to be the most important thing.

well beyond the financial realm. The most successful investors are mavericks and iconoclasts who question conventional wisdom and profit vastly from their ability to think more rationally, rigorously, and objectively. They are master game players who consciously maximize their odds of long-term success in markets and life, while also minimizing any risk of catastrophe. They draw powerful insights from many different fields, are remarkably intuitive about trends, practice fanatical discipline, and have developed a high tolerance for pain. As Green explains, the best investors can teach us not only how to become rich, but how to improve the way we think, reach decisions, assess risk, avoid costly errors, build resilience,

and turn uncertainty to our advantage. Green ushers us into the lives of more than forty super-investors, visiting them in their offices, homes, and even their places of worship—all to share what they have to teach us. Richer, Wiser, Happier brings together the thinking of many of the greatest investment minds, from Sir John Templeton to Charlie Munger, Jack Bogle to Ed Thorp, Will Danoff to Mohnish Pabrai, Bill Miller to Laura Geritz, Joel Greenblatt to Howard Marks. In explaining how they think and why they win, this landmark book provides gems of insight that will enrich you not only financially but also professionally and personally.
