

The Norton Anthology Of World Literature 3rd Edition Ebook

"The introductions in this anthology are meant to be just that: a basic overview of what students need to know before they begin reading, with topics that students can research further. An open access literature textbook cannot be a history book at the same time, but history is the great companion of literature: The more history students know, the easier it is for them to interpret literature. In an electronic age, with this text available to anyone with computer access around the world, it has never been more necessary to recognize and understand differences among nationalities and cultures. The literature in this anthology is foundational, in the sense that these works influenced the authors who followed them. A word to the instructor: The texts have been chosen with the idea that they can be compared and contrasted, using common themes. Rather than numerous (and therefore often random) choices of texts from various periods, these selected works are meant to make both teaching and learning easier. While cultural expectations are not universal, many of the themes found in these works are."--Open Textbook Library.

The most-trusted and most-respected text in its field is now brand-new in all the best ways.

"This anthology contains all the substantial surviving works from the golden age of Ancient Egyptian fictional literature (c.1940-1640 B.C.). Composed by an anonymous author in the form of a funerary autobiography, the Tale tells how the courtier Sinuhe flees Egypt at the death of his king. His adventures bring wealth and happiness, but his failure to find meaningful life abroad is only redeemed by the new king's sympathy, and he finally returns to the security of his homeland. Other works from the Middle Kingdom include a poetic dialogue between a man and his soul on the problem of suffering and death, a teaching about the nature of wisdom which is bitterly spoken by the ghost of the assassinated King Amenemhat I, and a series of light-hearted tales of wonder from the court of the builder of the Great Pyramid."--Jacket.

The Language of Thieves: My Family's Obsession with a Secret Code the Nazis Tried to Eliminate

Give Me Liberty! An American History

Optical Theory and Medieval Allegory

The Norton Anthology of American Literature

The Norton Anthology of English Literature

This magisterial Norton Anthology, edited by world-renowned scholars, offers a portable library of more than 1,000 primary texts from the world's major religions. To help readers encounter strikingly unfamiliar texts with pleasure; accessible introductions, headnotes, annotations, pronouncing glossaries, maps, illustrations and chronologies are provided. For readers of any religion or none, The Norton Anthology of World Religions opens new worlds that, as Miles writes, invite us "to see others with a measure of openness, empathy, and good will..."

Unprecedented in scope and approach, The Norton Anthology of World Religions: Christianity brings together over 150 texts from the Apostolic Era to the New Millennium. The volume features Jack Miles's illuminating General Introduction—"How the West Learned to Compare Religions"—as well as Lawrence S. Cunningham's "The Words and the Word Made Flesh," a lively primer on the history and core tenets of Christianity.

The Fifth Edition retains the flexibility and breadth of selection that has defined this classic anthology, while improved and expanded editorial apparatus make it an even more useful teaching tool.

During the later Middle Ages, new optical theories were introduced that located the power of sight not in the seeing subject, but in the passive object of vision. This shift had a powerful impact not only on medieval science but also on theories of knowledge, and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion. In *Seeing through the Veil*, Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision. After a survey on the genre of allegory and an overview of medieval optical theories, Akbari delves into more detailed studies of several medieval literary works, including the Roman de la Rose, Dante's *Vita Nuova*, *Convivio*, and *Commedia*, and Chaucer's dream visions and *Canterbury Tales*. The final chapter, 'Division and Darkness,' centres on the legacy of allegory in the fifteenth century. Offering a new interdisciplinary, synthetic approach to late medieval intellectual history and to major works within the medieval literary canon, *Seeing through the Veil* will be an essential resource to the study of medieval literature and culture, as well as philosophy, history of art, and history of science.

Writing about World Literature

When the Light of the World Was Subdued, Our Songs Came Through

This groundbreaking new Norton Anthology enables the six major, living, international world religions to speak to students in their own words.

A classic, reimaged.

Tracking an underground language and the outcasts who depended on it for their survival. Centuries ago in middle Europe, a coded language appeared, scrawled in graffiti and spoken only by people who were "wiz" (in the know). This hybrid language, dubbed Rotwelsch, facilitated survival for people in

flight—whether escaping persecution or just down on their luck. It was a language of the road associated with vagabonds, travelers, Jews, and thieves that blended words from Yiddish, Hebrew, German, Romani, Czech, and other European languages and was rich in expressions for police, jail, or experiencing trouble, such as "being in a pickle." This renegade language unsettled those in power, who responded by trying to stamp it out, none more vehemently than the Nazis. As a boy, Martin Puchner learned this secret language from his father and uncle. Only as an adult did he discover, through a poisonous 1930s tract on Jewish names buried in the archives of Harvard's Widener Library, that his own grandfather had been a committed Nazi who despised this "language of thieves." Interweaving family memoir with an adventurous foray into the mysteries of language, Puchner crafts an entirely original narrative. In a language born of migration and survival, he discovers a witty and resourceful spirit of tolerance that remains essential in our volatile present.

The best-selling Seagull Edition is also available in full color for the first time.

"The story of literature in sixteen acts, from Alexander the Great and the Iliad to ebooks and Harry Potter, this engaging book brings together remarkable people and surprising events to show how writing shaped cultures, religions, and the history of the world"--

An anthology of poetry, prose, and stories written from 100 through 1500 by various authors from regions around the world.

The Pain Tree

Norton Anthology of World Religions

Compact Anthology of World Literature

A West African Epic of the Mande Peoples

The Major Authors

A collection of poetry, prose, drama, and fiction written from the sixteenth century through the twentieth century by various writers from around the world.

An incomparable resource, an unmatched value

The Pain Tree tells stories that speak to all aspects of Jamaican life. Among the characters we hear from are: poor folk making the best of past hardships ("Coal"); rich folk plotting future selfishness ("The Goodness of My Heart"); an old man, familiar with darkness, who discovers in foreign capitalism a force even he cannot control ("Boxed-In"); a young girl, uprooted to a new country, forced to shoulder her mother's unspoken burdens in addition to her own ("Lollipop"). Bookending these are two powerful stories about the inextricability of home and history: in "The Pain Tree," the protagonist comes to realize the love she has abandoned, and the pain she has left behind; in "Flying," the lead character, searching for that which has been missing most of his life, comes home for good. Senior navigates the hills and valleys of narrative with natural ease, interweaving thick strands of emotion and insight yet never losing sight of a story's ebb and flow. Her Pain Tree is an engaging, thought-provoking read that transports readers fully to another place, where the unfamiliar and exciting clash and commingle with the universal.

Islam

Twelfth Edition

A selection of Western literature containing only works written originally in the ancient and modern foreign languages.

A pillar of the West African oral tradition for centuries, this epic traces the adventures and achievements of the Mande hero, Sunjata, as he liberates his people from Sumaworo Kanté, the sorcerer king of Soso, and establishes the great medieval empire of Mali. David Conrad conveys the strong narrative thrust of the Sunjata epic in his presentation of substantial excerpts from his translation of a performance by Djanka Tassej Condé. Readers approaching the epic for the first time will appreciate the translation's highly readable, poetic English as well as Conrad's informative Introduction and notes. Scholars will find the familiar heroes and heroines taking on new dimensions, secondary characters gaining increased prominence, and previously unknown figures emerging from obscurity. "Thanks to his careful editing and translating of Condé's narrative, Conrad offers a highly readable version of the epic that is about a third of its original length. The translation communicates not only the poetic qualities and the essential events of the Sunjata legend but also the master bard's performance values. Thus, this rendering will fascinate those who already know the story and culture and those coming to the epic for the first time. Conrad provides an excellent introduction to Mande oral tradition, the role of the griot, and the Manding belief system. Though he makes no claim for this as the complete scholarly edition, he does provide helpful scholarly notes, a glossary, and a good bibliography. . . . Summing up: Highly recommended." --L. W. Yoder, CHOICE

Read by millions of students over seven editions, The Norton Anthology of English Literature remains the most trusted undergraduate survey of English literature available and one of the most successful college texts ever published.

Structure, Sound and Sense
