

## The Phaidon Atlas Of Contemporary World Architecture Travel Edition

60 stunning works of contemporary architecture, all of which have a special relationship with the natural landscape Elemental Living presents 60 works of architecture from across the 20th and 21st centuries that have a special relationship with the natural world. The book includes a visually breathtaking selection of architect-created houses that have been designed to create unparalleled views of a wide variety of natural landscapes, designed to be almost indistinguishable from the natural landscape, or designed using materials and forms found in the natural landscape. Each house demonstrates a deep concern with the creation of unique living spaces that connect their inhabitants with the forests, mountains, lakes, deserts, and oceans that have attracted humanity for millennia. A detailed history of Katsura, the seventeenth-century Imperial Palace in Kyoto, Japan, a pivotal work of Japanese architecture, often described as the 'quintessence of Japanese taste'. First revealed to the modern architectural world by Bruno Taut, the great German architect, in the early twentieth-century, Katsura stunned and then excited the architectural community of the West. Le Corbusier and Walter Gropius, pillars of the Modernist establishment, were fascinated by Katsura's 'modernity'. This book documents the palace in detail, combining newly commissioned photographs, detailed drawings, archival material, and historical analysis.

This is a comprehensive sourcebook, containing newly commissioned scale drawings of every type of architectural detail taken from 100 of the best contemporary houses. Over 700 detailed drawings of walls, floors, ceilings, doors, windows, and staircases feature keys explaining construction techniques and materials used. Each drawing is cross referenced to other details from the same building. This is an invaluable reference for all architects, showing the best examples of residential detailing from around the world. A bonus DVD includes all of the drawings featured in the book. A brand-new revised and updated edition of Phaidon's accessible, acclaimed A-Z guide to the most important artists of all time Updated for only the third time in its 16-year history, this new edition of the award-winning landmark publication has been refreshed with more than 40 important new artists, including many previously overlooked and marginal practitioners. The new edition spotlights more than 600 great artists from medieval to modern times. Breaking with traditional classifications, it throws together brilliant examples from all periods, schools, visions, and techniques, presenting an unparalleled visual sourcebook and a celebration of our rich, multifaceted culture. Artists featured for the first time in this edition include: Berenice Abbott, Hilma af Klint, El Anatsui, Romare Bearden, Mark Bradford, Cao Fei, Cecily Brown, Judy Chicago, John Currin, Guerrilla Girls, Lee Krasner, Jacob Lawrence, Kerry James Marshall, Joan Mitchell, Zanele Muholi, Takashi Murakami, Louise Nevelson, Clara Peeters, Jenny Saville, Wolfgang Tillmans, and more

Destination Art

Atlas of Brutalist Architecture

The World's Best Architecture

Living by the Ocean

The 20th Century Art Book

*Traces the development of architecture all around the world from the pyramids of ancient Egypt to the National Gallery of Art in Washington, D.C*

*An exhilarating collection of today's most remarkable homes built in awe-inspiring coastal locations around the world White-sand beaches, jaw-droppingly sheer cliff faces, and secret coves are just some of the stunning sites of the architect-designed contemporary houses featured in this celebration of incredible residences that exist in harmony with the extraordinary power of the ocean. With such unique residences as light-houses, homes built into rocky cliffs, and even rooms that are totally underwater, this inspirational collection includes spectacular homes across the globe including prime examples in countries across 6 continents, from Australia, Canada, Chile, Fiji, Japan, Mexico, New Zealand, Sweden, Tanzania, Thailand, to the UK and USA. In glorious color with dazzling images throughout, this book brings together the finest examples of residential coastal architecture from 47 of the world's most revered architects, such as Elemental, Ryue Nishizawa, Pezo von Ellrichshausen, and Fearon Hay as well as a host of lesser-known creative studios. Each home featured is showcased by glorious exterior and interior photography, and each shares a profound connection to the raw and thrilling beauty of the sea and the shore line around it.*

*Architectural detailing is what makes a design unique, and an architect outstanding. Detail in Contemporary Timber Architecture provides analysis of both the technical and the aesthetic importance of details in modern timber architecture. Featuring the work of renowned architects from around the world, this book presents 50 of the most recently completed and influential timber designs for both residential and commercial architecture. Each project is presented with color photographs, site plans and sections and elevations, as well as numerous construction details. There is also a descriptive text, detailed captions and in-depth information for each project, including the location, client, architectural project team, main consultants and contractors. The projects are presented in clear and concise layouts over four pages. All of the drawings are styled consistently and presented at standard architectural scales to allow for easy comparison. There is also a CD-ROM which contains all the drawings as printed in the book, in both EPS and DWG (generic CAD) formats. In addition the book features an index of architects that includes the name, address and all contact details for each architect included. Detail in Contemporary Timber Architecture is an excellent reference work for practising architects as well as architecture and design students.*

*An alphabetically-arranged selection of 500 artists, each entry consisting of a large colour image of an artwork and a short text about the artist and his/her work. Also includes a glossary of terms, a glossary of artistic movements and a directory of museums and galleries.*

Extraordinary Living

Mid-Century Modern Architecture Travel Guide: West Coast USA

Detail in Contemporary Bathroom Design

20th-Century World Architecture

The World's Best Contemporary Interior Designers

*In the tradition of the bestselling Where Chefs Eat: the definitive global hotel guide by the real experts who know - architects No one appreciates a building quite like an architect - and now, for the first time, more than 250 of the world's leading architects share insider tips on where to stay, revealing everything from renowned destinations to undiscovered gems. With 1,200 listings in more than 100 countries, this unique guide has readers covered, whether planning a business trip or a vacation, a city break or a remote getaway, a wedding or a corporate event. It's the ideal resource, gift, and gateway to design-conscious journeys worldwide.*

*The Phaidon Atlas of 20th Century World Architecture portrays, for the first time in one volume, an overview of the finest built architecture from around the world completed between 1900 and 1999. The unprecedented global scope of this collection of over 750 key buildings juxtaposes architectural icons with regional masterpieces. Divided into six world regions, the collection is the result of a rigorous selection process and the input of more than 150 specialists from around the world. Each building is fully illustrated and described by a short text. In addition, a mass of useful information is provided. This includes details of architects' practices and extensive indexes. Comprehensive world data illustrates the changing economic and political contexts of architectural production throughout the century.*

*A last The credits for one of architecture's most controversial yet popular styles – in a great, new, classic edition The Brutalist aesthetic is enjoying a renaissance – and this book documents Brutalism as never before. In the most wide-ranging investigation ever undertaken into one of architecture's most powerful movements, more than 850 Brutalist buildings -- existing and demolished, classic and contemporary -- are organized geographically into nine continental regions. Much-loved masterpieces in the UK and USA sit alongside lesser-known examples in Europe, Asia, Australia, and beyond -- 102 countries in all, proving that Brutalism was, and continues to be, a truly international architectural phenomenon.*

*A comprehensive survey of international architecture of the late 20th-century.*

Philosophy of Contemporary Art

By Design

The Most Stylish Hotels in the World

*A new reading of the philosophy of contemporary art by the author of The Politics of Time Contemporary art is the object of inflated and widely divergent claims. But what kind of discourse can open it up effectively to critical analysis? Anywhere or Not at All is a major philosophical intervention in art theory that challenges the terms of established positions through a new approach at once philosophical, historical, social and art-critical. Developing the position that "contemporary art is postconceptual art," the book progresses through a dual series of conceptual constructions and interpretations of particular works to assess the art from a number of perspectives: contemporaneity and its global context; art against aesthetic; the Romantic pre-history of conceptual art; the multiplicity of modernisms; transcategorially; conceptual abstraction; photographic ontology; digitalization; and the institutional and existential complexities of art-space and art-time. Anywhere or Not at All maps out the conceptual space for an art that is both critical and contemporary in the era of global capitalism. Winner of the 2014 Annual Book Prize of the Association for the Study of the Arts of the Present (USA)*

*This book examines over 30 bathroom designs from around the world, each one designed by a notable architect and created especially for a specific residence. For each bathroom there is an image of the whole house (placing it in context and providing a flavor of the general design style), images of the bathroom, and a floor plan showing its relation to the other spaces. The pages that follow are entirely devoted to detailed drawings showing the arrangement and construction of the bathroom, in particular sections, elevations, and construction details of all the fitted units and joinery. These drawings are all made to a consistent style and to a set number of scales for easy comparison. Dimensions are also included with the drawings as well as details of fitted units (baths, showers, basins, etc.) The credits for each project include contact details of suppliers so that the exact materials and fixtures can be sourced. The projects are arranged into chapters by type of dominant material: glass, steel and stone. The book will be invaluable for all practicing architects as well as those considering commissioning a high-quality bathroom for their own house.*

*The definitive architecture travel guide that lets you visit 1,000 of today's most must-see contemporary buildings – whether at home or on the road Featuring 1,000 of today's most compelling buildings by the world's finest architects. Destination: Architecture is an unparalleled and comprehensive resource for anyone wanting to get more out of their travels. No journey, from a long weekend to a long-haul trip, would be complete without this expertly curated 'who's who' of the most exciting architecture in the world. Each building is illustrated with a single image and accompanied by a brief description, with addresses, websites, and opening details. It's the best way to find and enjoy contemporary built culture on every continent.*

*Following the success of the earlier titles in this series, Detail in Contemporary Glass Architecture provides analysis of both the technical and the aesthetic importance of details in modern glass architecture. Featuring the work of renowned architects from around the world, this book presents 50 of the most recently completed and influential glass designs for residential, public and commercial architecture. Each project is presented with colour photographs, site plans and sections and elevations, as well as numerous construction details. There is also a descriptive text, detailed captions and in-depth information for each project, including the location, client, architectural project team, main consultants and contractors. The projects are presented in clear and concise layouts over four pages. All of the drawings are styled in the same consistent way and presented at standard architectural scales to allow for easy comparison. There is also a CD-ROM which contains all the drawings as printed in the book, in both EPS and DWG (generic CAD) formats. In addition the book features an index of architects that includes the name, address and all contact details for each architect.*

*Detail in Contemporary Glass Architecture is an excellent reference work for practising architects as well as architecture and design students.*

*The abridged paperback edition of The Sourcebook of Contemporary Architecture presents sixty noteworthy case studies that showcase a complete and diverse range of structures worldwide--now in a more portable format. The case studies incorporate every type of architectural project possible--private, commercial and public--making this lushly illustrated, information-rich book a more widely accessible resource that architects and architectural students will turn to again and again. Each case study includes a succinct description of the project at hand, listing its name, client, and location and presenting its unique objectives, challenges, and solutions. Every case study also features numerous full-color photographs and detailed renderings of site and floor plans. Finally, each case study provides a full listing of those involved in the project: the architectural firm and its participating architects; engineers; consultants; and contractors. The book features the work of world-renowned architects such as Gehry Partners, Ateliers Jean Nouvel, Santiago Calatrava, Daniele Claudio Taddai, Skidmore, Owings & Merrill, Philippe Starck, Tod Williams Billie Tsien & Associates, Daniel Claudio Taddai, Diller Scofidio, and others. Well-known projects include New York's Modern Museum of Art redesign and Time Warner Center, England's Selfridges Birmingham, and the MIT Stata Center in Cambridge, MA. This incredible volume is organized into the following categories: Public buildings: Offices, banks, corporate buildings, convention and exhibition centers, research centers, factories, skyscrapers Urban planning and transportation: Airports, train stations, urban transportation centers, bridges, communications towers, urban parks, peripheral spaces, urban monuments and land art Cultural facilities: Museums, art galleries, cultural centers and foundations, schools and universities, Libraries, houses of worship Public buildings: Auditoriums; theaters and cinemas; sports facilities; theme parks and attractions; bars, clubs, and game rooms; shopping malls; stores and showrooms; and restaurants Private homes: Multifamily urban homes, multifamily suburban homes, hotels and residences, semidetached and row houses, single family suburban homes, single family country homes, single family seaside homes. Future architecture: Art galleries, theaters and cinemas, and others.*

*A geographically organized survey of the world's most desirable and iconic residential interiors from the 1940s to today. 'The Atlas of Interior Design' is an unparalleled global tour of more than 400 captivating residential interiors from the past eight decades. From classic to contemporary, minimal to maximal, the homes included illuminate the design tropes unique to their location's context, while others confound preconceived ideas of vernacular design to spectacular effect. Exceptional photography and a descriptive text accompanying each project enrich this thoroughly researched and comprehensive volume.*

*DK's highly regarded, eye-catching, and comprehensive cartography is presented in classic form in this fully updated geographic tome, the second edition of Complete Atlas of the World. All maps enjoy a full double-page spread, maximizing the space for geographic information. The continents are broken down into 330 carefully selected map areas reflecting a meaningful division of the modern world. A section on thought-provoking global topics and an index of 100,000 placenames support the core atlas. This atlas is has been structured into four sections. The first section is a world overview, containing a stimulating series of global thematic maps which explore Earth's place in the universe, its physical forms and processes, the living world, and the human condition. The second section comprises the main atlas, examined in a series of 330 maps, including more than 100 city plans. In section three, all 195 countries of the world are presented along with up-to-date geopolitical facts. In the fourth and final section, a clearly styled index of all 100,000 placenames is provided.*

*A must-have guide to one of the most fertile regions for the development of Mid-Century Modern architecture This handbook - the first ever to focus on the architectural wonders of the West Coast of the USA - provides visitors with an expertly curated list of 250 must-see destinations. Discover the most celebrated Modernist buildings, as well as hidden gems and virtually unknown examples - from the iconic Case Study houses to the glamour of Palm Springs' spectacular Modern desert structures. Much more than a travel guide, this book is a compelling record of one of the USA's most important architectural movements at a time when Mid-Century style has never been more popular. First-hand descriptions and colour photography transport readers into an era of unparalleled style, glamour, and optimism.*

Entries are judged by more than 400 luminaries from ?elds as diverse as fashion, publishing, product design, real-estate development, and technology, and voted on by the public, culminating in a collection of the world's finest buildings. Each year, winners are honored in this fully illustrated compendium, and on Architizer.com, the largest online architecture community on the planet. Featuring select A+Award winners, this is the definitive guide to the year's best buildings and spaces.*

*In 196 Bruce Barnet was commissioned to create a collection of photographs for an eminent private collector. After years of searching at galleries, art fairs and auction houses, he settled on one hundred images that 'truly stimulated and satisfied' him. This extraordinary and timeless selection offers an unusual insight into photography. It also demonstrates Bruce Bernard's love and respect for the medium and his exceptional ability to identify pictures that are imbued with sensitivity, humanity and intelligence.*

*Cook around the country with this geographical collection of authentic recipes from each of the USA's 50 states, plus three territories, and the nation's capital Following the success of America: The Cookbook, author (and mother) Gabrielle Langholtz has curated 54 child-friendly recipes - one for each state, plus Washington D.C. and three U.S. territories (Guam, Puerto Rico, and the U.S. Virgin Islands). From Pennsylvania Dutch pretzels to Louisianan gumbo, Oklahoma fry bread to Virginia peanut soup, each recipe is made simple by a step-by-step format and a full-color photograph of the finished dish. A full-spread introduction to each state/territory features background about its culinary culture, brought to life with illustrated food facts and maps. Informative and delicious recipe for kids and their families! Ages 7-10*

*An awe-inspiring collection of contemporary homes designed to foster a connection with the essential elements of landscape Living in Nature showcases a selection of architect-designed houses that have something fundamental in common: a special relationship with the natural world. Each of the book's 50 homes is carefully chosen for its stunning location, whether cocooned within the earth itself or soaring high amongst treetops, surrounded by cooling waters, or resisting the desert heat. With a wealth of photographs showcasing each house inside and out, Living in Nature offers inspiration -- and tranquility.*

*Contemporary Houses in the Mountains*

*The Sourcebook of Contemporary Architecture*

*Phaidon Atlas of 21st Century World Architecture*

*Detail in Contemporary Landscape Architecture*

*Sean Godsell*

*One Hundred Photographs*

*Contains, in a single volume, over 1,000 of the most outstanding works of architecture built since 2000. Features the work of internationally acclaimed architects alongside that of the next generation of emerging architectural stars, and those unknown outside their own countries.*

*Featuring many of the world's most highly acclaimed landscape architects, this book presents 40 of the most recently completed and influential landscape designs. Each project is presented with color photographs, site plans and sections as well as numerous consistently styled construction details. Intended for architects, engineers and landscape architects, the book will also be invaluable for architecture, garden and landscape design students, for whom it will be a resource not only for understanding the work of the best contemporary landscape architects, but also as a tool for their own design work.*

*The world's most innovative and influential architect-designed houses created since the early 20th century Throughout history, houses have presented architects the world over with infinite opportunities to experiment with new methods and materials for domestic living. Houses: Extraordinary Living celebrates the incredible diversity and beauty of the house as never before, from Modernist icons to feats of technological, material, and spatial innovation in the 21st century. Explore the creative imaginations of hundreds of internationally renowned architects past and present, as well as dozens of awe-inspiring houses by lesser-known and emerging talents. Robots build! At their Program in Architecture and Digital Production at the Eidgenössische Technische Hochschule (ETH) Zürich (Swiss Federal Institute of Technology in Zurich), the architects Gramazio & Kohler have installed a research facility that is unique in the world. It is based on a computer-controlled industrial robot that produces construction elements directly from design data. The robot works flexibly with a tremendous range of tools and materials. In this way Gramazio & Kohler probe the exciting potential of digital design, construction, and manufacturing techniques for architecture. Gramazio & Kohler attracted widespread attention with the SWISH Pavilion at the Swiss National Exposition Expo 02 and the new Christmas lighting display on Zurich's Bahnhofstrasse. In their projects they incorporate insights and discoveries from the field of computer-aided production into the architectonic design process, using computers to develop innovative construction techniques and architecture. First structures using robots have already been built. Thus, the much noted Gantenbein vineyard in Fläsch employs facades with individually laid bricks for the first time. This publication places explosive insights, theses, and conclusions from the dialectic between physically experienceable architecture and digital processes up for debate.*
