Public Opinion and the President's Use of Executive Orders

The complete rankings of our best -- and worst -- presidents, based on C-SPAN's much-cited Historians Surveys of Presidential Leadership. Over a period of decades, C-SPAN has surveyed leading historians on the best and worst of America's presidents across a variety of categories -- their ability to persuade the public, their leadership skills, their moral authority, and more. The crucible of the presidency has forged some of the very best and very worst leaders in our national history, along with everyone in between. Based on interviews conducted over the years with a variety of presidential biographers, this book provides not just a complete ranking of our presidents, but stories and analyses that capture the character of the men who held the office. From Abraham Lincoln's political savvy and rhetorical gifts to James Buchanan's indecisiveness, this book teaches much about what makes a great leader -- and what does not. As America looks ahead to our next election, this book offers perspective and criteria to help us choose our next leader wisely.

Every president has had a unique and complicated relationship with the intelligence community. While some have been coolly distant, even adversarial, others have found their intelligence agencies to be among the most valuable instruments of policy and power. Since John F. Kennedy's presidency, this relationship has been distilled into a personalized daily report: a short summary of what the intelligence apparatus considers the most crucial information for the president to know that day about global threats and opportunities. This top-secret document is known as the President's Daily Brief, or, within national security circles, simply "the Book." Presidents have spent anywhere from a few moments (Richard Nixon) to a healthy part of their day (George W. Bush) consumed by its contents; some (Bill Clinton and George H. W. Bush) consider it far and away the most important document they saw on a regular basis while commander in chief. The details of most PDBs are highly classified, and will remain so for many years. But the process by which the intelligence community develops and presents the Book is a fascinating look into the operation of power at the highest levels. David Priess, a former intelligence officer and daily briefer, has interviewed every living president and vice president as well as more than one hundred others intimately involved with the production and delivery of the president's book of secrets. He offers an unprecedented window into the decision making of every president from Kennedy to Obama, with many character-rich stories revealed here for the first time.

A SWEEPING TALE OF TURN-OF-THE-CENTURY AMERICA AND THE IRRESISTIBLE FORCES THAT BROUGHT TWO MEN TOGETHER ONE FATEFUL DAY In 1901, as America tallied its gains from a period of unprecedented imperial expansion, an assassin's bullet shattered the nation's confidence. The shocking murder of President William McKinley threw into stark relief the emerging new world order of what would come to be known as the American Century. *The President and the Assassin* is the story of the momentous years leading up to that event, and of the very different paths that brought together two of the most compelling figures of the era: President William McKinley and Leon Czolgosz, the anarchist who murdered him. The two men seemed to live in eerily parallel Americas. McKinley was to his contemporaries an enigma, a president whose conflicted feelings about imperialism reflected the country's own. Under its popular Republican commander-in-chief, the United States was undergoing an uneasy transition from a simple agrarian society to an industrial powerhouse spreading its influence overseas by force of arms. Czolgosz was on the losing end of the economic changes taking place—a first-generation Polish immigrant and factory worker sickened by a government that seemed focused solely on making the rich richer. With a deft narrative hand, journalist Scott Miller chronicles how these two men, each pursuing what he considered the right and honorable path, collided in violence at the 1901 Pan-American Exposition in Buffalo, New York. Along the way, readers meet a veritable who's who of turn-of-the-century America: John Hay, McKinley's visionary secretary of state, whose diplomatic efforts paved the way for a half century of Western exploitation of China; Emma Goldman, the radical anarchist whose incendiary rhetoric inspired

Czolgosz to dare the unthinkable; and Theodore Roosevelt, the vainglorious vice president whose 1898 charge up San Juan Hill in Cuba is but one of many thrilling military adventures recounted here. Rich with relevance to our own era, *The President and the Assassin* holds a mirror up to a fascinating period of upheaval when the titans of industry grew fat, speculators sought fortune abroad, and desperate souls turned to terrorism in a vain attempt to thwart the juggernaut of change. Praise for *The President and the Assassin* “[A] panoramic tour de force . . . Miller has a good eye, trained by years of journalism, for telling details and enriching anecdotes.”—*The Washington Independent Review of Books* “Even without the intrinsic draw of the 1901 presidential assassination that shapes its pages, Scott Miller’s *The President and the Assassin* [is] absorbing reading. . . . What makes the book compelling is [that] so many circumstances and events of the earlier time have parallels in our own.”—*The Oregonian* “A marvelous work of history, wonderfully written.”—Fareed Zakaria, author of *The Post-American World* “A real triumph.”—*BookPage* “Fast-moving and richly detailed.”—*The Buffalo News* “[A] compelling read.”—*The Boston Globe* One of *Newsweek*’s 10 Must-Read Summer Books

In addition to data on the thirty-five Presidents, and fact summaries of their administrations, the set includes brief biographies of many other famous Americans.

An entertaining exploration into the varied ways we remember and memorialize the American presidents.

Politics Home: Parliamentarians’ Top Books for Christmas 2021 ‘A must read for political geeks’ - Saqib Bhatti There was a huge upsurge of global interest in US politics during the Trump presidency, culminating in the November 2020 election, the victory of the Democrat candidate Joe Biden and the subsequent, horrifying response in the storming of the US capitol. American politics is likely to remain deeply divided during the coming years, and also the focus of global attention - with Trump mobilising his base for 2024. But the transatlantic fascination with the role and office of the US President isn’t new at all, and in fact reaches all the way back to the birth of the United States itself. *The Presidents* features essays, written by a range of academics, historians, political journalists and serving politicians, on all 46 American Presidents who have held the office over the last 250 years - from George Washington to Joe Biden. Each contributor has been carefully chosen based on expert knowledge of their subjects and personal connections, providing analysis of their subject’s successes, failures and influence. Any hagiographical writing is shunned in favour of a ‘warts and all’ perspective on each President and the impact they’ve had on US politics - past, present and future.

Facts about the Presidents

Covering the Second Term of Woodrow Wilson, March 4, 1917, to March 4, 1921

250 Years of American Political Leadership

*All the Presidents is the latest book of portraits by the artist BoingBoing hails as “the greatest portrait artist of our time.” All the Presidents is indeed what the title indicates, portraits of all 44 United States Presidents, from George Washington to Donald Trump and everyone in between, all rendered in Friedman’s celebrated in-your-face style of portraiture. The portraits will be accompanied by vital statistics on each subject (political affiliation as well as height and weight, etc.), as well as fascinating presidential factoids. Friedman’s two page comic strip introduction “Drawn to Presidents” opens the book, specifically detailing his fasciation with drawing many US presidents throughout his life, from childhood scrawlings of Richard Nixon to illustrations of Ronald Reagan, George H.W. Bush and Bill Clinton for *Spy* and eventually creating the famed Barack Obama/George Washington mashup inauguration cover for *The New Yorker* in 2009. The book also features a foreword by NPR’s Studio 360 host, Kurt Andersen.*

A New York Times Bestseller! The story of the Civil War’s record number of living former and current presidents, and how the ex-Presidents’ Club--for and against Abraham Lincoln (but mostly against)--maneuvered, seceded, plotted, advised, and aided during the Civil War while Lincoln navigated the minefield they created

WE THE PRESIDENTS explores how today’s political and economic issues were shaped over the last century by American presidents from Warren G. Harding through Donald J. Trump. Most presidential biographies portray a single president, often focusing on the give and take of politics, issues irrelevant to a modern reader. In contrast, WE THE PRESIDENTS provides a sweep of American presidential history from 1920 through 2020 discussing presidential decisions and policies—including immigration, healthcare, income inequality, taxation and the tension between personal liberty and public responsibility—which affect every American today.

*“Like taking a tour of the White House with a gifted storyteller at your side!” Why, in the minutes before John F. Kennedy was murdered, was a blood-red carpet installed in the Oval Office? If Abraham Lincoln never slept in the Lincoln Bedroom, where did he sleep? Why was one president nearly killed in the White House on inauguration day—and another secretly sworn in? What really happened in the Situation Room on September 11, 2001? History leaps off the page in this “riveting,” “fast-moving” and “highly entertaining” book on the presidency and White House in *Under This Roof*, from award-winning White House-based journalist Paul Brandus. Reporting from the West Wing briefing room since 2008, Brandus—the most followed White House journalist on Twitter (@WestWingReport)—weaves together stories of the presidents, their families, the events of their time—and an oft-ignored major character, the White House itself. From George Washington—who selected the winning design for the White House—to the current occupant, Barack Obama—the story of the White House is the story of America itself, Brandus writes. You’ll: Walk with John Adams through the still-unfinished mansion, and watch Thomas Jefferson plot to buy the Louisiana Territory Feel the fear and panic as British invaders approach the mansion in 1814—and Dolley Madison frantically saves a painting of Washington Gaze out the window with Abraham Lincoln as Confederate flags flutter in the breeze on the other side of the Potomac Be in the room as one president is secretly sworn in, and another gambles away the White House china in*

a card game Stand by the presidential bed as one First Lady—covering up her husband's illness from the nation—secretly makes decisions on his behalf Learn how telephones, movies, radio, TV changed the presidency—and the nation itself Through triumph and tragedy, boom and bust, secrets and scandals, Brandus takes you to the presidential bedroom, movie theater, Situation Room, Oval Office and more. Under This Roof is a "sensuous account of the history of both the home of the President, and the men and women who designed, inhabited, and decorated it. Paul Brandus captivates with surprising, gloriously raw observations."

A Compilation of Biographical and Historical Data

An Infographic Look at the American Presidency

The Smithsonian Book of Presidential Trivia

Jeffrey E. Cohen asks why US presidents send to Congress the legislative proposals that they do and what Congress does with those proposals. His study covers nearly the entire history of the presidency, from 1789 to 2002. The long historical scope allows Cohen to engage competing perspectives on how the presidency has developed over time. He asks what accounts for the short- and long-term trends in presidential requests to Congress, what substantive policies and issues recommendations are concerned with, and what factors affect the presidential decision to submit a recommendation on a particular issue. The President's Legislative Policy Agenda, 1789–2002 argues that presidents often anticipate the Congressional reaction to their legislative proposals and modify their agendas accordingly.

The Presidents Fact Book is a compendium of all things presidential and a sweeping survey of American history through the biography of every president from George Washington to Donald Trump. Organized chronologically by president, each entry covers the major accomplishments and events of the presidential term; cabinet members, election results, groundbreaking legislation, and Supreme Court appointments; personality and personal habits; career before the presidency; a behind-the-scenes look at the wives, families, friends, and foes; and much more, including hobbies, odd behaviors, and outlandish penchants. Major primary documents from each administration -- from the Bill of Rights to Barack Obama's speech on race in America -- provide a glimpse into the crucial moments of America's storied past in the words of those who led the nation. Perfect for students, history buffs, and political junkies, The President's Fact Book is at once an expansive collage of our nation's 45 individual presidents and a comprehensive view of American history.

"One of the best books on the American presidency to appear in recent years" (The Wall Street Journal) and based on a decade of research and reporting—a delightful new window into the public and private lives America's presidents as authors. Most Americans are familiar with Abraham Lincoln's famous words in the Gettysburg Address and the Emancipation Proclamation. Yet few can name the work that helped him win the presidency: his published collection of speeches entitled Political Debates between Hon. Abraham Lincoln and Hon. Stephen A. Douglas. Lincoln labored in secret to get his book ready for the 1860 election, tracking down newspaper transcripts, editing them carefully for fairness, and hunting for a printer who would meet his specifications. Political Debates sold fifty thousand copies—the rough equivalent of half a million books in today's market—and it reveals something about Lincoln's presidential ambitions. But it also reveals something about his heart and mind. When voters asked about his beliefs, Lincoln liked to point them to his book. In Craig Fehrman's "original, illuminating, and entertaining" (Jon Meacham) work of history, the story of America's presidents and their books opens a rich new window into presidential biography. From volumes lost to history—Calvin Coolidge's Autobiography, which was one of the most widely discussed titles of 1929—to ones we know and love—Barack Obama's Dreams from My Father, which was very nearly never published—Fehrman unearths countless insights about the presidents through their literary works. Presidential books have made an enormous impact on American history, catapulting their authors to the national stage and even turning key elections. Beginning with Thomas Jefferson's Notes on the State of Virginia, the first presidential book to influence a campaign, and John Adams's Autobiography, the first score-settling presidential memoir, Author in Chief draws on newly uncovered information—including never-before-published letters from Andrew Jackson, John F. Kennedy, and Ronald Reagan—to cast fresh light on the private drives and self-doubts that fueled our nation's leaders. We see Teddy Roosevelt as a vulnerable first-time author, struggling to write the book that would become a classic of American history. We see Reagan painstakingly revising Where's the Rest of Me?, and Donald Trump negotiating the deal for The Art of the Deal, the volume that made him synonymous with business savvy. Alongside each of these authors, we also glimpse the everyday Americans who read them. "If you're a history buff, a presidential trivia aficionado, or just a lover of American literary history, this book will transfix you, inform you, and surprise you" (The Seattle Review of Books).

Ever since our nation's founding, after a nearly decade-long struggle with Great Britain, America has found itself almost continuously at war. And at the forefront of every struggle—large or small, foreign or domestic, celebrated or forgotten—has been the president, who as commander-in-chief of the armed forces has to make the impossible choice of when to hazard American lives. Michael Beschloss is a lauded historian and one of the keenest observers of the White House. In Presidents of War, he offers an authoritative portrait of our major wartime presidents in action, from the War of 1812 to the Vietnam War. Whether examining Lincoln's controversial military leadership, Wilson's idealistic and authoritarian approach to World War I, or LBJ sinking into the quagmire of Vietnam, Beschloss employs deep research and unsurpassed storytelling to bring these presidents to life in moments of public oratory and private doubt. He also charts their relationships with the public, which has consigned them to fame or infamy, and with Congress, which has continually struggled to define and redefine the president's wartime powers. Provocative and illuminating, Presidents of War is a definitive work of presidential history and an invaluable guide to leadership and decision-making in times of crisis.

The Complete Book of US Presidents: Fourth Edition

A Compilation of the Messages and Papers of the Presidents, Prepared Under the Joint Committee on Printing of the House and Senate, Pursuant to an Act of the Fifty-second Congress of the United States (with Additions and Encyclopedic Index by Private Enterprise)

The president has been the figurehead of the United States since the time when our country was a small band of thirteen fledgling colonies until its current position as a world superpower. The forty-four leaders of our nation have had fascinating, exciting, and sometimes scandalous lives. The Big Book of Presidents illustrates each president's journey to the White House through facts, anecdotes, illustrations, photographs, inspirational quotes, and more! Find out which president had a faithful dog named Fala, who was the only unmarried president, and which president's daughter carried around her pet snake in the White House in this fun and fascinating overview of our country's leaders. Bestselling author Nancy J. Hajeski not only provides engaging information about each president, but also includes timelines of US and world events that place each president's term in office in a historical context. She also provides useful facts about the White House, Congress, the Supreme Court, presidential assassinations, the first ladies, the vice presidents, and more to help broaden kids' understanding of our government and the president's role within in. With updated information on President Barack Obama, this is the perfect introduction to the lives and characters of the US presidents.

Defining the Chief Executive via flash powder and selfie sticks Lincoln's somber portraits. Lyndon Johnson's swearing in. George W. Bush's reaction to learning about the 9/11 attacks. Photography plays an indelible role in how we remember and define American presidents. Throughout history, presidents have actively participated in all aspects of photography, not only by sitting for photos but by taking and consuming them. Cara A. Finnegan ventures from a newly-discovered daguerreotype of John Quincy Adams to Barack Obama's selfies to tell the stories of how presidents have participated in the medium's transformative moments. As she shows, technological developments not only changed photography, but introduced new visual values that influence how we judge an image. At the same time, presidential photographs—as representations of leaders who symbolized the nation—sparked public debate on these values and their implications. An original journey through political history, Photographic Presidents reveals the intertwined evolution of an American institution and a medium that continues to define it.

Go Behind the Scenes at the White House to Uncover Intriguing (Sometimes Startling) Facts About the U.S. Presidents -- Facts Few Others Know Not just another book about the presidents! THE PRESIDENT DID WHAT? is structured as a trivia quiz (multiple choice) to make it interactive and keep you guessing. But that's not all. Turn the page to check your answer. Each answer page is fully illustrated and provides additional information about the president in question. (Every president is covered, from George Washington to Barack Obama.) Plus, there's a complete list of the presidents and their vice-presidents for easy reference. THE PRESIDENT DID WHAT? is really two books in one: (1) an entertaining quiz book of surprising, sometimes quirky, facts about the U.S. presidents; and (2) an illustrated, informative guide that helps you gain an insight into what each president was like, his personality, and why he deserves to be remembered (or not). No more drawing a blank at the mention of such presidents as Franklin Pierce, Millard Fillmore, or Benjamin Harrison. Thanks to THE PRESIDENT DID WHAT? you'll know details about even the "forgotten presidents," details history buffs may be unaware of. For example, see the sample questions below. What president . . . ? worked as a model in college and was on the cover of "Cosmopolitan"? invented "Baked Alaska" and "Chicken a la King"? made all his own suits and a suit for the governor of Kentucky? was so cheap he served White House guests ice water in paper cups? allowed his son's two pet alligators to roam loose in the White House? Who should read this book? U.S. history buffs ... trivia buffs ... students ... teachers ... those looking for a fun, informative read, and those who enjoy an intellectual challenge. Is this book suitable for children? Yes, for those in the middle grades and higher. As one teacher commented: "This book of presidential trivia was fun to read and would make an excellent addition to a history teacher's bookshelf or to an elementary teacher's supplemental material." What's more . . . THE PRESIDENT DID WHAT? is a great party book. It's a rich source of cocktail-party openers. It's an ideal book for the coffee table ... bedroom ... bathroom. It's the perfect book to take on a trip. And ... it makes a great gift!

Discover the history and personal stories of 45 US Presidents in this beautifully illustrated volume. From the first president, George Washington, to the forty-fifth, Donald Trump, the United States has seen a host of extraordinary men take office. Their stories are all included in this fourth edition of The Complete Book of US Presidents by journalist and historian Bill Yenne. This book features short, biographical essays about the lives of 45 presidents, jam-packed with unusual details and commentary on the significant roles each commander-in-chief played in the shaping of the United States and its relations with the world. Lavishly illustrated, including each president's official White House portrait, sidebars about each and every vice president and First Lady, and intriguing anecdotes, this book is accessible to a broad audience and will captivate any history lover. The Complete Book of US Presidents: Fourth Edition is an expansive collection that reflects on America's rich presidential history, telling the story of a nation through the biographies of some of its greatest political leaders.

Presidents Fact Book Revised and Updated!

Dead Presidents

We the People and the President

The President's Legislative Policy Agenda, 1789 – 2002

In this sweepingly ambitious volume, the nation's foremost experts on the American presidency and the U.S. Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution. Each occupant of the office—the first president to the forty-fourth—has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive. By examining presidential history through the lens of constitutional conflicts and challenges, The Presidents and the Constitution offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents. It delves into key moments in American history, from Washington's early battles with Congress to the advent of the national security presidency under George W. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal

experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. The book brings to the fore the overarching constitutional themes that span this country's history and ties together presidencies in a way never before accomplished. Exhaustively researched and compellingly presented, *The Presidents and the Constitution* shines new light on America's brilliant constitutional and presidential history.

An award-winning presidential historian offers an authoritative account of American presidents' attacks on our freedom of the press—including a new foreword chronicling the end of the Trump presidency. "The FAKE NEWS media," Donald Trump has tweeted, "is not my enemy, it is the enemy of the American People!" Has our free press ever faced as great a threat? Perhaps not—but the tension between presidents and journalists is as old as the republic itself. Every president has been convinced of his own honesty and transparency; every reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger. Our first president, George Washington, was also the first to grouse about his treatment in the newspapers, although he kept his complaints private. Subsequent chiefs like John Adams, Abraham Lincoln, Woodrow Wilson, and Barack Obama were not so reticent, going so far as to wield executive power to overturn press freedoms, and even to prosecute journalists. Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him, doling out information, steering coverage, and squashing stories that interfered with his agenda. It was a strategy that galvanized TR's public support, but the lesson was lost on Woodrow Wilson, who never accepted reporters into his inner circle. Franklin Roosevelt transformed media relations forever, holding more than a thousand presidential press conferences and harnessing the new power of radio, at times bypassing the press altogether. John F. Kennedy excelled on television and charmed reporters to hide his personal life, while Richard Nixon was the first to cast the press as a public enemy. From the days of newsprint and pamphlets to the rise of Facebook and Twitter, each president has harnessed the media, whether intentional or not, to imprint his own character on the office. In this remarkable new history, acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it. From Washington to Trump, he chronicles the disputes and distrust between these core institutions that define the United States of America, revealing that the essence of their confrontation is built into the fabric of the nation.

Houses of the Presidents offers a unique tour of the houses and day-to-day lives of America's presidents, from George Washington's time to the present. Author Hugh Howard weaves together personal, presidential, and architectural histories to shed light on the way our chief executives lived. Original photography by Roger Straus III brings the houses and furnishings beautifully to life. From Jefferson's Monticello to Reagan's Rancho del Cielo, with fascinating and surprising stops between and beyond, *Houses of the Presidents* presents a fascinating alternative history of the American presidency.

How American Presidents Shaped the Last Century

Presidential approval ratings are a political resource that presidents and their advisors hope to influence through strategic action in order to achieve their policy goals (McAvoy 2008, 284). Through 1999, scholarly literature had largely ignored the president's use of unilateral powers. Since Moe and Howell (1999a, 1999b), however, the literature on the unilateral presidency has expanded rapidly. Despite the rapid growth of literature examining the unilateral presidency, and 45 years of presidential approval ratings literature, literature examining the link between the president's use of unilateral powers and subsequent presidential approval ratings is virtually nonexistent. Existing research has not statistically examined what effect, if any, the president's issuing executive orders has on subsequent job approval ratings. This thesis seeks to address that research gap. By modeling aggregate and individual-level presidential approval ratings, using fixed-effect models, OLS regression, and binary logistic regression, this thesis finds evidence indicating the president's issuing of executive orders has a negative impact on the subsequent presidential job approval ratings that individuals report. If an executive order is salient to the public, presidents receive lower presidential approval ratings from persons of all political parties; however, if the executive order is non-salient then presidents only receive lower presidential approval ratings from members of their own political party. Members of the opposition party report higher presidential approval ratings when the president issued non-salient executive orders. Thus, this thesis concludes that the president's issuing of executive orders has significant effects on subsequent presidential job approval ratings, and future research should be conducted to explore this relationship further. An All-New Edition! *The Presidents Fact Book* is a complete compendium of all things presidential and a sweeping survey of American history through the biographical lens of every president from George Washington through Donald Trump. Organized chronologically by president, each entry covers the major accomplishments and events of the presidential term; cabinet members, election results, groundbreaking legislation, and Supreme Court appointments; personality and personal habits; career before the presidency; a behind-the-scenes look at the wives, families, friends, and foes; and much more, including

The President Did What?

The New York Times bestselling history of the private relationships among the last thirteen presidents—the partnerships, private deals, rescue missions, and rivalries of those select men who served as commander in chief. The Presidents Club, established at Dwight Eisenhower's inauguration by Harry Truman and Herbert Hoover, is a complicated place: its members are bound forever by the experience of the Oval Office and yet are eternal rivals for history's favor. Among their secrets: How Jack Kennedy tried to blame Ike for the Bay of Pigs. How Ike quietly helped Reagan win his first race in 1966. How Richard Nixon conspired with Lyndon Johnson to get elected and then betrayed him. How Jerry Ford and Jimmy Carter turned a deep enmity into an alliance. The unspoken pact between a father and son named Bush. And the roots of the rivalry between Clinton and Barack Obama. Time magazine editors and presidential historians Nancy Gibbs and Michael Duffy offer a new and revealing lens on the American presidency, exploring the club as a hidden instrument of power that has changed the course of history.
