There once may have been 250,000 miles of stone walls in America's Northeast, stretching farther than the distance to the moon. They took three billion man-hours to build. And even though most are crumbling today, they contain a magnificent scientific and cultural story—about the geothermal forces that formed their stones, the tectonic movements that brought them to the surface, the glacial tide that broke them apart, the earth that held them for so long, and about the humans who built them. Stone walls

layer time like Russian dolls, their smallest elements reflecting the longest spans, and Thorson urges us to study them, for each stone has its own story. Linking geological history to the early American experience, Stone by Stone presents a fascinating picture of the land the Pilgrims settled, allowing us to see and understand it with new eyes.

When their normal lifestyle is threatened by their business, a senseless tragedy and a shady ex-lover, Ramsey and Keilah Stone, the owners of the Stone-Chase Protection Agency, must make some difficult decisions to protect their family. Original.

Lin Feng was just a mediocre worker in a glass factory, yet he unexpectedly acquired the supernatural ability of the "Nine Heavens" after obtaining it. Since then, his life had undergone a tremendous change. A conspiracy? Wealth? Woman? All sorts of beautiful women surrounded him. Whether it was the president of the association, Bi Yun'er, or a woman who was his nemesis, Shi Mulan was destined to tangle with him. Let's see how he becomes the master of that

mysterious group. Let's see how he becomes the leader of those Adepts.

A Viking tale of myth and magic. All is not well at the Viking court of Jelling. Home to the mysterious Yelling Stones (three witches turned into stone), it's always been a place of power and a haven for 'the old ways'. But troubling news has reached King Gorm's court - not that fourteen-year-old princess Astrid is concerned that. She's far more worried that her family prefers her inside sewing, or planning her marriage, rather than letting her explore the forest or ride her beautiful snow-white horse, Hestur. But Astrid is about to find herself at the heart of a battle that will change her life forever. Leif, an ambitious and talented young poet, arrives at King Gorm's court with unsettling news. Leif announces he has been sent visions from the witches of the Yelling Stones, saying a dangerous and powerful force is coming - one that will change the face of Denmark - and only Astrid and Leif can stop it. But with danger all around them, including trolls, witches and a terrifying creature called 'The Beast', can they tell who the real enemy is in time to stop them?
