The Instant New York Times Bestseller! A Good Morning America\* Book Club Pick! "Historical fiction at its best!"\* A remarkable novel about J. P. Morgan's personal librarian, Belle da Costa Greene, the Black American woman who was forced to hide her true identity and pass as white in order to leave a lasting legacy that enriched our nation, from New York Times bestselling authors Marie Benedict and Victoria Christopher Murray. In her twenties, Belle da Costa Greene is hired by J. P. Morgan to curate a collection of rare manuscripts, books, and artwork for his newly built Pierpont Morgan Library. Belle becomes a fixture in New York City society and one of the most powerful people in the art and book world, known for her impeccable taste and shrewd negotiating for critical works as she helps create a world-class collection. But Belle has a secret, one she must protect at all costs. She was born not Belle da Costa Greene but Belle Marion Greener. She is the daughter of Richard Greener, the first Black graduate of Harvard and a well-known advocate for equality. Belle's complexion isn't dark because of her alleged Portuguese heritage that lets her pass as white--her complexion is dark because she is African American. The Personal Librarian tells the story of an extraordinary woman, famous for her intellect, style, and wit, and shares the lengths she must go to--for the protection of her family and her legacy--to preserve her carefully crafted white identity in the racist world in which she lives. #### **The World's Favorite Beverage from 7000 BC to Today's Craft Brewing Revolution**

*A full-color, lushly illustrated graphic novel that recounts the many-layered past and present of beer through dynamic pairings of pictures and meticulously researched insight into the history of the world's favorite brew. Starting from about 7,000 BC, The Comic Book Story of Beer traces beer's influence through world history, encapsulating early man's experiments with fermentation, the rise and fall of Ancient Rome, the (often beer-related) factors that led Europe out of the Dark Ages, the Age of Exploration, the spread of capitalism, the Reformation, and on up to the contemporary explosion of craft brewing. No book has ever told the story of beer in a graphic format as a liberating or emancipating force that improved the life of everyday people. Visually riffing on abstract subjects like pasteurization, "original gravity," and "lagering," artist Aaron McConnell has a flair for cinematic action and demonstrates versatility in depicting characters and episodes from beer's rich history. Hand-drawn in a classic, accessible style, The Comic Book Story of Beer makes a great gift, and will appeal to the most avid comic book geek and those who live for beer.*

***"This book offers a short, spirited defense of rhetoric and the liberal arts as catalysts for precision, invention, and empathy in today's world. The author, a professor of Shakespeare studies at a liberal arts college and a parent of school-age children, argues that high-stakes testing and a culture of assessment have altered how and what students are taught, as courses across the arts, humanities, and sciences increasingly are set aside to make room for joyless, mechanical reading and math instruction. Students have been robbed of a complete education, their imaginations stunted by this myopic focus on bare literacy and numeracy. Education is about thinking, Newstok argues, rather than the mastery of a set of rigidly defined skills, and the seemingly rigid pedagogy of the English Renaissance produced some of the most compelling and influential examples of***

Each of the fourteen chapters explores an essential element of Shakespeare's world and work, aligns it with the ideas of other thinkers and writers in modern times, and suggests opportunities for further reading. Chapters on craft, technology, attention, freedom, and related topics combine past and present ideas about education to build a case for the value of the past, the pleasure of thinking, and the limitations of modern educational practices and prejudices"--***
