Success is measured
not by the size of your
brain, but rather by
the size of your

intrigues a lot of

products of our

thinking that goes
within and around us.

There is an
environment around
us that exerts all sorts

thinking; some will
push you up the
ladder while others
will pull you down. We
have been told many
times that

Leaving your fate in

For over fifty years,
Charles Handy has
set the tone for
leadership thinking. In
this business classic,
he lays out one of his

the four types of

as exemplified by the
Greek Gods. Culture
is central to a
company's efficiency

and success, whether it is shaped by a Zeus-like central power or the task-oriented focus of Athena, by Apollo's hierarchical assignment of roles or the person-centred preference of Dionysus. Successful leaders know their own styles, and cultivate these qualities to create

teams that are top of

Why do some
businesses thrive
while many more
struggle? In this age
of disruption, a key
reason is the failure of

enterprise, including
