

The Sindh Sales Tax Act 2010 Sindh Revenue Board

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United Nations Decade of International Law. During that time, the international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents a collection of essays from legal advisers of States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.

Hinduism has two major roots. The more familiar is the religion brought to South Asia in the second millennium BCE by speakers of Aryan or Indo-Iranian languages, a branch of the Indo-European language family. Another, more enigmatic, root is the Indus civilization of the third millennium BCE, which left behind exquisitely carved seals and thousands of short inscriptions in a long-forgotten pictographic script. Discovered in the valley of the Indus River in the early 1920s, the Indus civilization had a population estimated at one million people, in more than 1000 settlements, several of which were cities of some 50,000 inhabitants. With an area of nearly a million square kilometers, the Indus civilization was more extensive than the contemporaneous urban cultures of Mesopotamia and Egypt. Yet, after almost a century of excavation and research the Indus civilization remains little understood. How might we decipher the Indus inscriptions? What language did the Indus people speak? What deities did they worship? Asko Parpola has spent fifty years researching the roots of Hinduism to answer these fundamental questions, which have been debated with increasing animosity since the rise of Hindu nationalist politics in the 1980s. In this pioneering book, he traces the archaeological route of the Indo-Iranian languages from the Aryan homeland north of the Black Sea to Central, West, and South Asia. His new ideas on the formation of the Vedic literature and rites and the great Hindu epics hinge on the profound impact that the invention of the horse-drawn chariot had on Indo-Aryan religion. Parpola's comprehensive assessment of the Indus language and religion is based on all available textual, linguistic and archaeological evidence, including West Asian sources and the Indus script. The results affirm cultural and religious continuity to the present day and, among many other things, shed new light on the prehistory of the key Hindu goddess Durga and her Tantric cult.

A Systematic Analysis of the Legal Regime and Tax Treatment of Trusts in 21 Jurisdictions

The Economy of Modern Sindh delves into the different aspects of Sindh's economy-from geography, topography, climate, administrative history, and demographics, to the political landscape, education, health, labour force and employment, poverty and inequality, agriculture and water issues, infrastructure, industries, energy resources, and public finances-each is covered in a separate chapter. The book highlights the socioeconomic problems that have beset Sindh, arresting the province's economic potential, and proposes a multi-pronged strategy to address these challenges. It offers an incisive and objective assessment of the various policies enacted and pursued by the Sindh government over the years. It also attempts to identify the particular issues that require reforms at the sectoral and micro level. The analysis on each aspect of Sindh's economy is juxtaposed with the performance analysis at the national level as well as a comparison with Punjab that allows for a relative appraisal of Sindh's socioeconomic standing.

Achieving the Sustainable Development Goals through Finance, Technology and Law Reform Achieving the SDGs requires a fundamental rethink from businesses and governments across the globe. To make the ambitious goals a reality, trillions of dollars need to be harnessed to mobilise finance and accelerate progress towards the SDGs. Bringing together leaders from the World Bank, the financial and business sectors, the startup community and academia, this important, topically relevant volume explains what the SDGs are, how they came about and how they can be accelerated. Real-world case studies and authoritative insights address how to direct investment of existing financial resources and re-align the global financial system to reflect the SDGs. In depth chapters discuss how financial institutions, such as UBS Wealth Management, Manulife Asset Management and Moody's Rating Agency are supporting the SDGs. The opportunities arising from Blockchain, Big Data, Digital Identity and cutting-edge FinTech and RegTech applications are explored, whilst the relevance of sustainable and transparent global supply chains is underscored. Significant attention is paid to law reform which can accelerate progress of the SDGs through SME Financing, Crowdfunding, Peer-to-Peer Lending and tax restructuring. To achieve the 'World We Want', much needs to be done. The recommendations contained within this book are critical for supporting a fundamental shift in thinking from business and governments around the world, and for building a more just and prosperous future for all.

For the first time from both sides of the border, a collection of Sindhi Partition narratives If Partition changed the lives of Sindhi Hindus who suffered the loss of home, language and culture, and felt unwanted in their new homeland, it also changed things for Sindhi Muslims. The Muslims had to grapple with a nation that had suddenly become unrecognizable and where they found themselves to be second-class citizens. Not used to the Urdu, the mosques and the new avatars of domination, they were bewildered by the new Islamic state of Pakistan. Sindh as a nation had simultaneously become elusive for both communities. In Unbordered Memories we witness Sindhis from India and Pakistan making imaginative entries into each other's worlds. Many stories in this volume testify to the Sindhi Muslims' empathy for the world inhabited by the Hindus, and the Indian Sindhis' solidarity with the turbulence experienced by Pakistani Sindhis. These writings from both sides of the border fiercely 'critique the abuse of human dignity in the name of religion and national borders. They mock the absurdity of containing subcontinental identities within the confines of nations and of equating nations with religions. And they continually generate a shared, unbordered space for all Sindhis-Hindus and Muslims.

The 2010 staff report for the Fourth Review Under the Stand-By Arrangement addresses economic challenges faced by Pakistan. The implementation of the structural agenda faced delays but politically difficult reforms were assured to be executed. The resulting fiscal pressures had been expected to be largely offset by restraining nonpriority current spending. The authorities have shown their determination to pursue difficult, but necessary, reforms to implement the program despite lower-than-promised external assistance. IMF staff supported the requested rephasing of access and modifications to the performance criteria.

CCH's State Tax Handbook is the perfect quick-answer tool for tax practitioners and business professionals who work with multiple state tax jurisdictions. This handy and affordable reference provides readers with an overview of the taxation scheme of each state and the District of Columbia, as well as multistate charts on income taxes (personal and corporate), sales and use taxes and tax administration. It is a time saving resource for tax professionals by providing a single source of key state tax information instead of having to consult multiple sources. This book brings together important tax information for each state tax system and adds value to the practice of multistate tax advisors and those advising multistate businesses. The book is set out in four parts, which together deliver an overall picture of the states' levies, bases and rates of each tax, principal payment and return dates, and other important information on major state taxes. The State Tax Handbook provides a comprehensive Taxes by State section, which helpfully summarizes in one place the tax rules for each state, including key information such as tax rates and filing/payment dates. It details the taxing authorities for each jurisdiction, including addresses, phone numbers, websites and taxes governed by each office. This helpful section also includes a discussion on collection of out-of-state taxes. The major features of each state's revenue system are outlined in uniform arrangement which makes reference from state to state easy. At-a-glance multistate charts detail important issues to assist state tax compliance and planning. More than 120 charts are provided, covering discrete topics such as income tax rates, state corporate and personal income tax reporting requirements, filing extensions, state taxation of pass-through entities; allocation and apportionment, AMT on preference items, manufacturing exemptions, sales for resale, consolidated returns, and estimated tax requirements. The 2020 Edition reflects all state legislative activities affecting corporate and personal income taxes and sales and use taxes through printing in early December 2019 to give practitioners up-to-date state tax information entering tax season. There will no longer be a print version available of the Multistate Corporate Tax Course.

Sindhi nationalism is one of the oldest yet least studied cases of identity politics in Pakistan. Ethnic discontent appeared in Sindh in opposition to the rule of the Bombay presidency; to the onslaught of Punjabi settlers in the wake of canal irrigation; and, most decisively, to the arrival of millions of Muhajirs (Urdu-speaking migrants) after Partition. Under Zulfikar Ali Bhutto, Benazir Bhutto and Asif Zardari, the Pakistan Peoples Party has upheld the Sindhi nationalist cause, even while playing the game of federalist politics. On the other side for half a century have been hardcore Sindhi nationalist groups, led by Marxists, provincial autonomists, landlord pirs and liberal intelligentsia in pursuit of ethnic outbidding. This book narrates the story of the Bhutto dynasty, the Muhajir factor, nationalist ideologues, factional feuds amongst landed elites, and the role of violence as a maker and shaper of Sindhi nationalism. Moreover, it examines the role of the PPP as an ethnic entrepreneur through an analysis of its politics within the electoral arena and beyond. Bringing together extensive fieldwork and comparative studies of ethno-nationalism, both within and outside Pakistan, Asma Falz uncovers the fascinating world of Sindhi nationalism.
