Carl's advice is that we cannot remove stress from life - it helps us get things done - but when stress starts to take over it's time to take back control. For example, Carl suggests you should throw away the concept of a work/life balance. Why? Because they are the same thing.

The True Story of a Shocking Double Murder, a Brilliant, Beautiful Virginia Socialite, and a Deadly Psychotic Obsession

Revenge has been the only thing on real estate tycoon Marcus Pearson's mind since his mother's mistreatment at the hands of her upper-crust employer. He worked his way up from the bottom, but the only way he's going to get entry to their exclusive world is by finding a wife already in it. So when the most beautiful woman he's ever seen turns out to be a socialite from "old" money, and needs

his help, he has the perfect proposition--marriage. Pamela Harrington will do anything to save the women's shelter she volunteers at, even agree to a marriage of convenience. She isn't worried about the pretend passion with Marcus turning real, no matter how attractive he is--she's sworn off powerful, driven men who use her for her family's connections. So she'll deny the way her pulse races with one look from his crystalline blue eyes. And he'll ignore the way his body throbs with each kiss from her full lips. Because there's no way he'll lose his blue-collar heart to the blue-blooded

at race and class in America, witnessed

importance of makeup artists, hair stylists, and costumers. With precious few but notable exceptions, creative workers in these fields have received little public recognition, even when their artistry goes on to inspire worldwide fashion trends. From the acclaimed Behind the Silver Screen series, Costume, Makeup, and Hair charts the development of these three crafts in the American film industry from the 1890s to the present. Each chapter examines a different era in film history, revealing how the arts of cinematic costume, makeup, and hair, have continually adapted to new conditions, making the transitions from stage to screen, from monochrome to color, and from analog to digital. Together, the book's contributors give us a remarkable glimpse into how these crafts foster creative collaboration and improvisation, often fashioning striking looks

Costume, Makeup, and Hair not only considers these crafts in relation to a wide range of film genres, from sci-fi spectacles to period dramas, but also examines the role they have played in the larger marketplace for fashion and beauty products. Drawing on rare archival materials and lavish color illustrations, this volume provides readers with both a groundbreaking history of film industry labor and an appreciation of cinematic costume, makeup, and hairstyling as distinct art forms.

If Michelle wanted to speak to her, all she had to do was pull up next to her and? ?So how long are you going to keep running away from me, hon?? Chelsea froze. She turned to the tanned face peering out of the tinted window. ?Surprise!? the woman said, and then giggled. ?Remember me?? How could she forget? Her portrait brightened the homes of countless admirers: from a black laborer's cabin in South Carolina and young Andy Warhol's house in Pittsburgh to FBI Director J. Edgar Hoover's recreation room in Washington, DC, and gangster "Bumpy" Johnson's Harlem apartment. A few years later her smile cheered the secret bedchamber of Anne Frank in Amsterdam as young Anne hid from the Nazis. For four consecutive years Shirley Temple was the world's box-office champion, a record never equaled. By early 1935 her mail was

What distinguished Shirley Temple from every other Hollywood star of the period—and everyone since—was how brilliantly she shone. Amid the deprivation and despair of the Great Depression, Shirley Temple radiated optimism and plucky good cheer that lifted the spirits of millions and shaped their collective character for generations to come. Tap-dancing across racial boundaries with Bill "Bojangles" Robinson, foiling villains, and mending the hearts and troubles of the deserving, Shirley Temple personified the hopes and dreams of Americans. To do so, she worked virtually every day of her childhood, transforming her own family as well as the lives of her fans.

When her socialite sister is abducted at a party thrown in his honor, instead of telling her parents what's happened, Mattie sets off on a journey of her own, accompanied by her loving and devoted brother Franklin to find their stolen sister. Dylan Sullivan and his business partner, Luke Turner, are just trying to find the money to start their own magazine for men, espousing all the wonderful traits of men while exploring why the female of the species is so inept. Dylan and Luke join Mattie and Franklin in the search for Lauren, at time confused to be dealing with bandits that seem to change their plans frequently – if they have plans at all. Dylan suspects they are making things up as they go along, with no real end in sight. Will he and Mattie rescue Lauren without coming up against each other in conflicts of their beliefs? Or will love win the day, creating a different world for everyone involved?

*With Rio Noir, the Akashic Noir Series delves for the first time into South America.*

*This paper advances the literature on the sustainability of retirement income by making consumption a stochastic variable instead of a constant real value, as previous papers have done. The paper continues to make the rate of return and date of death stochastic variables, as*

*Milevsky and Robinson (2000, 2005) do. The sustainability of retirement income depends on the nature of the lifestyle that the retiree chooses. The difference in shortfall probabilities or risk of ruin between the variable cases and the fixed consumption case is significant, and so the planner needs to take this into account. The difference in shortfall probabilities between making consumption a non-constant but deterministic amount, and making it also stochastic, is not as important, because it doesn't reduce risk enough to make more aggressive consumption rates secure. Finally, making consumption correlated with the rate of return,*

*which implies the family adjusts consumption as its wealth changes, reduces shortfall probabilities to a moderate extent. In general, an initial consumption of more than 4% of initial wealth is not sustainable for any likely set of conditions. In the very best case, an initial consumption rate of 6% is sustainable, but we think that case will fit very few people.*

'The River' is the first offering of 'The Blood Brother Chronicles', a dramatic series loosely based on family folklore that has been passed down through countless generations in the author's family. Many of these legends, reaching as far back as 1919, are about two (2) half brothers born in and around the turn of the century, 'Slick' and 'Skeeter'. Not much is known about the two brothers that were said to have disappeared either in New York City or on their way up North in 1927, except that they were contract killers with kind hearts that helped the poor. After an extensive two (2) year family history search, speaking with several older relatives, the author was inspired to write 'The River'. Slick and Benjamin

(Skeeter) are half brothers, one white, the other creole, both growing up poor on a tobacco plantation in the late 1800's. Now grown men in the Roaring 1920's, the brothers work as contract killers for the highest bidder, often the first option for wealthy white men, the last option for the poor. Always with ears to the underworld, the boys soon learn of white and black lynchings, bullying, land grabbing and resource stealing by big corporation. Usually killing bigots and hate-mongers for sport, stakes are raised when large multinational companies stomp into South Carolina with steel toed boots and not much of a care whom they step on, intimidating poor white, black and native American farmers for their hard earned land. Coming up with a small well thought out plan after finally locating the legal documents, Slick and Benjamin discover that the parchments have been burned in

This only deepens the men's suspicions as well as the mystery of whom what owns vast amounts of land all around the Carolinas, land certain well heeled men are willing to kill whole families for. As the men travel through the dark under belly of corrupt South and North Carolina local government and the highest echelons of wealth and society, their investigation is complicated when twelve (12) young prostitutes are discovered dismembered, their body parts discovered in several Carolina rivers. Each dead girl had one thing in common; they all once worked for the infamous Madame Lolly, owner of the most exclusive 'skin-hustling' business in all of the Deep South. Rustling up clues and discovering the truth behind an investigation that will eventually take them all over the world, the killers-turn- investigators call

upon a complicated cast of characters, many of which lie as easy as they tell truths, protecting wealth, heritage, family and their own lives. Slick and Benjamin have embarked on a journey they could have never imagined in darkest, wildest dreams; supernatural gods and powers, vast wealth, dark international brother hoods, all while trying to stay safe as their enemies grow more and more powerful.

?Why do some women exude confidence and look great in their clothes and others never feel good about how they look, no matter what they wear? And why do we claim we have “nothing to wear” when our closets are bursting with choices? Clothing and dress anxiety — what Tracy McWilliams calls closet trauma — occurs because we lack a clear sense of self and we have not defined the image we wish to express.
