"In olden days, in a village peopled by animal creatures, lived Wild Cat (another name for Lynx). He was old and mangy, and he was constantly scratching himself with his cane. From time to time, a young girl who lived in the same cabin would grab the cane, also to scratch herself. In vain Wild Cat kept trying to talk her out of it. One day the young lady found herself pregnant; she gave birth to a boy, Coyote, another inhabitant of the village, became indignant. He talked all of the population into going to live elsewhere and abandoning the old Wild Cat, his wife, and their child to their fate. . . ." So begins the Nez Percé myth that lies at the heart of The Story of Lynx, Claude Lévi-Strauss’s most accessible examination of the rich mythology of American Indians. In this wide-ranging work, the master of structural anthropology considers the many variations in a story that occurs in both North and South America, but especially among the Salish-speaking peoples of the Northwest Coast. He also shows how centuries of contact with Europeans have altered the tales. Lévi-Strauss focuses on the opposition between Wild Cat and Coyote to explore the meaning and uses of gemilarity, or twinning, in Native American culture. The concept of dual organization that these tales exemplify is one of non-equivalence: everything has an opposite or other, with which it coexists in unstable tension. In contrast, Lévi-Strauss argues, European notions of twinning—as in the myth of Castor and Pollux—stress the essential sameness of the twins. This fundamental cultural difference lay behind the fatal clash of European and Native American peoples. The Story of Lynx addresses and clarifies all the major issues that have occupied Lévi-Strauss for decades, and is the only one of his books in which he explicitly connects history and structuralism. The result is a work that will appeal to those interested in American Indian mythology.

I never meant to get stuck in a dark closet, naked, at the holiday gala. Monty As a self-made billionaire and head of my tech company, the last thing I thought would happen was being pranked by my brother at an expensive gala. Instead of mingling among the crowd of potential investors, I was cold and alone with only some holiday string keep me company. But then a Christmas miracle happened... The door opened and a beautiful woman appeared. My savior. Until she stepped inside, the door swinging closed and automatically locking behind her. Now she's trapped with me. All we had was time. Might as well get to know each other. Julia I took the coat check job because I was a paycheck, but then I struck gold... a naked hottie stuck in a closet with me. I may not be one of those "career-minded" women you read about, but I was responsible enough to pay my bills. When my sister told me about an easy coat check job that paid, I was happy to spend one night in a closet. But I swore that fancy, old hotel w gala took place was haunted. Why? Because I heard the rumblings of an unsettled spirit back in the deep recesses of a hidden room next to the coat closet. I went in that room to face the spirit, but then something crazy happened. He wasn't a ghost, but a man. Not just a man but a naked one with a very large, uh, package. All I had to say was, "Thank you, Santa, for bring me exactly what I wished.

John Haines arrived in Alaska, fresh out of the Navy, in 1947, and established a homestead seventy miles southeast of Fairbanks. He stayed there nearly twenty-five years, learning to live off the country: hunting, trapping, fishing, gathering berries, and growing vegetables. Those years formed him as a writer—the interior of Alaska, and especially its boreal forest—marking his poetry and prose and helping him find his unique voice. Placing John Haines, the first book-length study of his work, tells the story of those years, but also of his later, itinerant life, as his success as a writer led him to hold fellowships and teach at universities across the country. James Perrin Warren draws out the contradictions inherent in that biography—that this poet so indelibly associated with place, and authentic belonging, spent decades in motion—and also sets Haines’s work in the context of contemporaries like Robert Bly, Donald Hall, and his close friend Wendell Berry. The resulting portrait shows us a poet who was regularly reinventing himself, and thereby generating creative tension that fueled his unforgettable work. A major study of a sadly neglected master, Placing John Haines puts his achievement in compelling context.

The Lynx and the Telescope challenges the traditional interpretation of a programmatic convergence between the visions of Galileo and Cesi’s Academy, while offering a new interpretation of the dynamics that led to the condemnation of Galileo in 1633.

The Past and Future of Britain’s Lost Mammals

From Timothy Zahn, Hugo Award winner and New York Times bestselling author of two landmark Star Wars® series, comes an original new tale featuring a renegade space pilot, his unusual alien partner, and an unknown cargo that can change the course of galactic history. Jordan McKell has a problem with authority. Unfortunately for him, the iron-fisted authority of the powerful Pathhaunuth controls virtually every aspect of galactic shipping. In order to survive, Jordan ekes out a living dabbling in interstellar smuggling for outlaw concerns that represent the last vestiges of free trade in the galaxy. So when Jordan and his partner, Ixii—an alien with two ferret-like “outhunters” linked to his neural system—are hired by a mysterious gentleman to fly a ship and its special cargo to Earth, they jump at the job. Caution has never been one of Jordan’s strong suits. But this time he may have taken on more than even he can handle. The ship, Icarus, turns out to be a ramshackle hulk, the ragtag crew literally picked up off the street, and the cargo so secret, it’s sealed in a special container that takes up most of the cramped and ill-designed ship. As if that weren’t bad enough, it looks like the authorities already suspect something is afoot, there’s a saboteur aboard, and the Icarus appears to be shaking apart at the seams. It doesn’t seem as if things could get any worse. That is, until a beautiful crew member helps McKell uncover the true nature of the cargo he’s carrying. With his enemies closing in on the lumbering Icarus, the unknown saboteur still aboard, and authorities on Earth pressured to turn them in, McKell and Ixii become fugitives. Their only chance is to stay one step ahead of their pursuers as they try to make it home. A bold and epic novel filled with unrelenting action and a good dose of humor, The Icarus Hunt is a wild hyperspace romp through the galaxy.

Britain’s lynx are missing, and they have been for more than a thousand years. Why have they gone? And might they come back? Britain was a very different place 15,000 years ago - home to lions, lynx, bears, wolves, bison and many more megafauna. But as its climate changed and human populations expanded, most of early Britain’s largest mammals disappeared. Will advances in science and technology mean that we can one day bring these mammals back? And should we? In The Missing Lynx, palaeontologist Ross Barnett uses case studies, new fossil discoveries and biomolecular evidence to paint a picture of these lost species and to explore the ecological significance of their disappearance. He discusses how the Britons these animals shared their lives with might have viewed them and investigates why some species survived while others vanished. Barnett also looks in detail at the realistic potential of reintroductions, rewilding and even of resurrection in Britain and overseas, from the successful return of beavers in Argyl’ to the revolutionary Pleistocene Park in Siberia, which has already seen progress in the revival of ‘mammoth steppe’ grassland. As widespread habitat destruction, climate change and an ever-growing human population lead us inexorably towards the sixth extinction, this timely book explores the spaces that extinction has left unfilled. And by helping us to understand why some of our most charismatic animals are gone, Ross Barnett encourages us to look to a brighter future, one that might see these missing beasts returned to the land on which they once lived and died.

Lynx and the rest of the Cards are heading south. There’s money in their pockets, beer in their hands and a simple job ahead - sun, sea and not getting shot at much. Throw in the prospect of a bar fight and it’s almost a holiday. But the volatile Mage Islands are a powder-kag, one just waiting for a spark. A bloody-handed exile perhaps, or the agent of a foreign power preparing for war. Maybe even a bunch of trigger-happy drunks who’ve upset the balance of magic across the Riven Kingdom. Or all three together, that’d definitely work. .

Former agent Frank Compton races across the galaxy to prevent an evil group mind from acquiring powerful alien artifacts in the action-packed second installment of the Quadrail series from Hugo Award–winning author Timothy Zahn Frank Compton saved the universe once—and for that he must die. Having temporarily stalled the Modhri, a sinister alien group intelligence, in its evil schemes for universal domination, the former Western Alliance operative just wants to relax in first class with his stunning, half-human partner, Bayta, aboard the world-linking intra-galactic transportation system, the Quadrail. But when their peace is disturbed by an annoying human passenger spinning wild tales of alien art objects, and the pest is discovered dead soon after, Compton and Bayta realize there can be no rest. The galaxy remains in grave danger. Now on a mission to find ancient sculptures, relics of a long-extinct alien civilization, Compton must elude a relentless special agent who believes him to be a murderer. But that’s only the tip of the iceberg, for everything ties into the Modhri’s secret war against all the planets along the Quadrail lines—and the enemy’s unique ability to enslave the minds of every creature it comes into contact with means an assassin could be anywhere. . . or anyone.

Frank Compton must join forces with his most feared enemies to defeat an ancient civilizations-devouring malevolence in the final installment of Hugo Award-winning author Timothy Zahn’s Quadrail series A dozen sentient species occupy the galaxy, and the Quadrail connects them all. Arriving at Proteus Station under a cloud of suspicion, ex-government agent Frank Compton finds he must answer for the death of six members of the Filly elite, a crime for which he has been falsely accused. Filiellan captivity, however, is the least of Compton’s worries, for his horse-faced alien accusers are guarding a terrible secret that dates back centuries: the Shonk’a-raa, a race of super-soldiers believed to be extinct. Invincible fighters bred for conquest and dedicated to the destruction of the Quadrail, as well as the annihilation of the unsuspecting billions who oppose them, the Shonk’a-raa must be stopped at all cost. But to do so, Compton and his beautiful, enigmatic half-human partner, Bayta, will have to ally themselves with the insidious, mind-enslaving Mohdri, the malevolent group intelligence they have sworn to destroy. Hugo Award winner Timothy Zahn concludes his sensational Quadrail series with a riveting futuristic adventure that combines the best of three popular genres—hard science fiction, mystery, and espionage thriller. Judgment at Proteus is a breathtaking tale of deception, murder, and desperat maneuverings in a secret war that threatens the survival of every living being in the galaxy.

The eighth novel in Cherry’s Foreigner space opera series, a groundbreaking tale of first contact and its consequences... Exhausted from a two-year rescue mission in space, the crew of the starship Phoenix return home to find disaster: civil war has broken out, the powerful Western Association has been overthrown, and Tabini-aijji, its forceful leader, is missing. In a desperate move, paidhi Bren Cameron and Tabini’s grandmother Ilisidi, the aiji-dowager, along with with Cajeiri, Tabini’s eight-year-old heir, make planetfall and succeed in reaching the mainland. The brilliant and forceful Ilisidi seeks refuge at the estate of an old ally, and Tabini-aiji arrives at the door. As word of Tabini’s whereabouts circulates, clans allied with Tabini descend upon the estate, providing a huge civilian presence that everyone involved hopes will deter impending attacks by the usurpers. But as more and more supporting clans arrive, Bren finds himself increasingly isolated, and it becomes clear that both his extremely important report of alien contact in space, and even his life, rest on the shoulders of only two allies: Ilisidi and Cajeiri. Can one elderly ateva and eight-year-old boy-himself a prime target for assassination–protect Bren, a lone human involved in a civil war that most atevi believe he caused? The long-running Foreigner series can also be enjoyed by more casual genre readers in sub-trilogy installments. Pretender is the 8th Foreigner novel, and the 2nd book in the third subtrilogy.

Lynx is a mercenary with a sense of honour; a dying breed in the Riven Kingdom. Failed by the nation he served and weary of the skirmishes that plague the continent’s principalities, he walks the land in search of purpose. He wants for little so bodyguard work keeps his belly full and his mage-gun loaded. It might never bring a man fame or wealth, but he’s not forced to rely on others or kill without cause. Little could compel Lynx to join a mercenary company, but he won’t turn his back on a kidnapped girl. At least the job seems simple enough; the mercenaries less stupid and more than most he’s known over the years. So long as there are no surprises or hidden agendas along the way, it should work out fine.

Entreated by a gun-wielding woman to rescue her ten-year-old sister from a New Tigris abductor, former government agent Frank Compton turns the woman down only to be implicated in her subsequent murder, a situation that prompts his investigation into the sister’s disappearance.

Ex-government agent Frank Compton must halt a murderous plague that threatens to turn the galaxy-spanning Quadrail into a ghost train in the fourth instalment of Hugo Award-winning author Timothy Zahn’s acclaimed Quadrail series The Chahwyn created the Spiders to keep their intra-galactic transportation system, the Quadrail, safe and running smoothly, and contracted ex-security agent Frank Compton to protect its integrity. So far, Compton and his half-human, half-Chahwyn partner, Bayta, have had their hands full keeping this essential link between occupied worlds open and preventing the evil collective intelligence called the Modhri from using it to spread their mind-controlling infection. But now a new threat has boarded, one that troubles even the Modhri. While the Quadrail is en route to the farthest edge of the galaxy, a murder by poison occurs—then another and another—dark happenings that are not only disturbing but also technically impossible. The system Compton and Bayta have been charged with protecting is in grave danger of derailment, and unless they can get to the deep roots of a sinister conspiracy, chaos will come to the ordered universe. This tour de force from Hugo Award winner Timothy Zahn rockets the acclaimed Quadrail series to breathtaking new heights. The Domino Pattern is an ingenious amalgam of hard science fiction and locked-room murder mystery that would leave even the great Hercule Poirot bedazzled.

The fur trade has been an important building block in Canada’s history. While much is known about the Hudson’s Bay Company, information about the North West Company in the Slave Lake and Mackenzie River Districts has been scattered in various archives. In North of Athabasca Lloyd Keith provides the first detailed, document-based history of this pioneering company.

My real life began the day I decided to die. After being captured and tortured by the Farungal Queen, I vowed that I wouldn't let her win, even if it meant my death. But when I jumped from her battlements, taking my own life instead of allowing her to turn me into a monster, I caught the attention of a goddess, a group of magical beasts, and a fae warrior. Thorne Callenaer, the Lynx Lord, was so moved by my sacrifice that he saved my life by giving me a piece of his soul. Now, we're bound by magic and drawn together by the beauty we glimpsed in each other's souls. But up until the moment he saved me, Thorne had never desired another man. While the war with the monstrous Farungal rages on, I'm left to fight a different kind of battle, one of lust and love and pride. To survive, I'll need the soul of a lynx and the strength to win the heart of the Lynx Lord.
