One day, Norman would grow up and use his knowledge of agriculture to save the lives of two billion people. Two billion! Norman changed the world! Or was it Henry Wallace who changed the world? Or maybe it was George Washington Carver? This engaging story reveals the incredible truth that everything we do matters! Based on The Butterfly Effect, Andy's timeless tale shows children that even the smallest of our actions can affect all of humanity. The book is beautifully illustrated and shares the stories of Nobel Laureate Norman Borlaug, Vice President Henry Wallace, Inventor George Washington Carver, and Farmer Moses Carver. Through the stories of each, a different butterfly will appear. The book will end with a flourish of butterflies and a charge to the child that they, too, can be the boy or girl who changes the world.

With time running out, it's up to David Ponder and a cast of history's best and brightest minds to uncover this solution before it is too late. The catch? Keep walking. This may be the day your Jericho walls come down. We all face them. Strongholds with a strong hold on our lives. Roadblocks to our joy. Obstacles in our marriages. Fortresses of fear blocking us from peace. How can we bring down these walls that keep us from the future God promises? Remember the story of Joshua and the battle of Jericho? Those were some formidable foes and big barriers. Max Lucado says the book of Joshua is in the bible to remind us of one thing: God Fights For Us! We can overcome, because He has already overcome. We were not made to stand in the shadow of our walls and quake. We were made to stand on top of Jericho's rubble and conquer. We win, because God's already won. Need a new battle plan for life? Keep walking, keep believing. These may be your Glory Days. The Remarkable Sequel to *The Traveler's Gift*

Armageddon is coming, and failure isn't an option-these young adults have to find a way to save the lives of billions, rescuing them from a horrific and unanticipated disaster. Ordinary young people with a surprising mission race against time in *The Traveler's Secret*, the first volume in *The Traveler* series, by Dr. L. Jan Eira. Fast-paced, with multiple twists and surprises, this young adult fantasy novel is full of heart and suspense. How do you get away with the murder of 11 million people? The answer is simple—and disturbing. You lie to them. Learn how you can become an informed, passionate citizen who demands honesty and integrity from your leaders in this updated and expanded edition of the original New York Times bestselling book. In this updated and expanded nonpartisan New York Times bestselling book, Andy Andrews emphasizes that seeking and discerning the truth is of critical importance, and that believing lies is the most dangerous thing you can do. You'll be challenged to become a more careful student of the past, seeking accurate, factual accounts of events that illuminate choices our world faces

now. By considering how the Nazi German regime was able to carry out over eleven million institutional killings between 1933 and 1945, Andrews advocates for an informed population that demands honesty and integrity from its leaders and from each other. This thought-provoking book poses questions like: What happens to a society in which truth is absent? How are we supposed to tell the difference between the "good guys" and the "bad guys"? How does the answer to this question affect our country, families, faith, and values? Does it matter that millions of ordinary citizens aren't participating in the decisions that shape the future of our country? Which is more dangerous: politicians with ill intent, or the too-trusting population that allows such people to lead them? This is a wake-up call: we must become informed, passionate citizens or suffer the consequences of our own ignorance and apathy. We can no longer measure a leader's worth by the yardsticks provided by the left or the right. Instead, we must use an unchanging standard: the pure, unvarnished truth.

A surprising, enlightening series of conversations that shed new light on the music and career of "our greatest living composer" (New York Times) Steve Reich is a living legend in the world of contemporary classical music. As a leader of the minimalist movement in the 1960s, his works have become central to the musical landscape worldwide, influencing generations of younger musicians, choreographers and visual artists. He has explored non-Western music and American vernacular music from jazz to rock, as well as

groundbreaking music and video pieces. He toured the world with his own ensemble and his compositions are performed internationally by major orchestras and ensembles. Now Reich sits down with past collaborators, fellow composers, and musicians influenced by his work to reflect on his prolific career as a composer as well as the music that inspired him and that has been inspired by him. *Gabriel and Michael Corrigan are two young men living just beneath the glittering surface of life in Los Angeles. Since childhood, the brothers have been shaped by stories that their father was a Traveler — one of an elite group of prophets able to attain pure enlightenment. The Corrigans, who may have inherited their father’s gifts, have always lived “off the grid” — that is, invisible to the intricate surveillance networks that monitor people in our modern world. Thousands of miles away, Maya is attempting to lead a normal life in London. The attractive twenty-six-year-old designer wants to ignore the fact that she comes from a long lineage of Harlequins — a band of warriors pledged to protect the Travelers at all costs. When Maya is summoned to Prague by her ailing father, she learns that Gabriel*

*and Michael have just been located in California. The brothers may represent the last surviving Travelers, and are in desperate need of protection. Maya is reluctant to be drawn into the solitary, destructive life of her ancestors, but she has been trained to fight since she was a young girl. Also searching for the brothers is Nathan Boone, a disciplined mercenary working for the Tabulas — ruthless men who are determined to inflict order on the world by invisibly controlling its population. Boone and the Tabulas fear the power of the Travelers, and for generations Tabulas have hunted them down. When Maya flies to California in search of Gabriel and Michael Corrigan, a colossal battle looms that will reveal a secret history of our time. In this stunningly suspenseful first novel, reminiscent of George Orwell and Philip Pullman, John Twelve Hawks has created a vividly imagined world that runs parallel to our own. Moving at lightning speed from the back alleys of Prague to the underworld of Los Angeles to a guarded research facility in New York, The Traveler goes beneath the surface to give us new insights on history and our own lives.*
