Stanley the Stinkbug is upset: he isn't invited to the Ugly Bug Ball because of his stench! Garden meanie Prissy Pray refuses to let Stanley attend the party, and that makes Stanley feel really bad about himself. Will his friends help him see how important every part of him is? Will he let Prissy Pray bully him into not going to the ball? Or will he gather his courage and overcome his fears? The actor covers his life after leaving the television series "Star Trek: the Next Generation," describing the pitfalls associated with being a former child star and his decision to launch his weblog in 2001.

When Ms. Ruhl was a little girl on her beloved island of Aruba, her father built a compost pit behind the garage. Many bugs worked hard to turn the coffee grounds, orange peels, and egg shells into rich soil for use in his flower garden. Ms. Ruhl's favorite bugs were the rollie pollies or pill bugs because when she tickled their tummies they curled up into little balls. Scorpions turned up in shoes at camp. They were not cute at all! She hopes you will find a favorite bug to care for. Maybe you will be a bee keeper or raise caterpillars into beautiful butterflies.

A blazingly funny, heartfelt memoir from the daughter of the larger-than-life woman who ran Sticky Fingers Brownies, an underground bakery that distributed thousands of marijuana brownies per month and helped provide medical marijuana to AIDS patients in San Francisco--for fans of Armistead Maupin and Patricia Lockwood During the '70s in San Francisco, Alia's mother ran the underground Sticky Fingers Brownies, delivering upwards of 10,000 illegal marijuana edibles per month throughout the circus-like atmosphere of a city in the throes of major change. She exchanged psychic readings with Alia's future father, and thereafter had a partner in business and life. Decades before cannabusiness went mainstream, when marijuana was as illicit as heroin, they ingeniously hid themselves in plain sight, parading through town--and through the scenes and upheavals of the day, from Gay Liberation to the tragedy of the Peoples Temple--in bright and elaborate outfits, the goods wrapped in hand-designed packaging and tucked into Alia's stroller. But the stars were not aligned forever and, after leaving the city and a shoulda-seen-it-coming divorce, Alia and her mom returned to San Francisco in the mid-80s, this time using Sticky Fingers' distribution channels to provide medical marijuana to friends and former customers now suffering the depredations of AIDS. Exhilarating, laugh-out-loud funny, and heartbreaking, Home Baked celebrates an eccentric and remarkable extended family, taking us through love, loss, and finding home. Music in film is often dismissed as having little cultural significance. While Hammer Film Productions is famous for such classic films as Dracula and The Curse of Frankenstein, few observers have noted the innovative music that Hammer distinctively incorporated into its horror films. This book tells how Hammer commissioned composers at the cutting edge of European musical modernism to write their movie scores, introducing the avant-garde into popular culture via the enormously successful venue of horror film. Each chapter addresses a specific category of the avant-garde musical movement. According to these categories, chapters elaborate upon the visionary composers who made the horror film soundtrack a melting pot of opposing musical cultures. Someone's playing both sides and now they have a score to settle... When the family business is crime, you can never be sure who to trust. And when three of their businesses are hit in one night, the notorious Glass family close ranks. Either someone is sending them a message or a war is coming... With trouble coming from all sides, the heads of the Glass family have more than enough to deal with, but all bets are off when a stranger from the past enters the game, causing division and mistrust. Crooked cops, rival gangs and old enemies are bad enough, but when the trouble comes from the inside, loyalties are tested, with deadly consequences. Page-turning, gripping, gritty, Insider is perfect for fans of Martina Cole, Kimberley Chambers and Mandasue Heller. What readers say about Owen Mullen: 'Owen Mullen knows how to ramp up the action just when it's needed... he never fails to give you hard-hitting thrillers that have moments that will stay with you forever...' 'One of the very best thriller writers I have ever read.' 'Owen Mullen writes a good story, he really brings his characters to life and the endings are hard to guess and never what you expected.' In the future, the world is in peril. Global warming has taken its toll, deforestation has wiped out too many forests and there's worse yet to come. Earth is on its last legs, and the Cloud Watchers of old have disappeared into legacy.

From Norman Wisdom to Eurovision and everything in between, a lively and entertaining memoir from one of Ireland's best-loved personalities. Throughout the highs and lows of a 30-year career as one of Ireland's best-loved radio and television personalities, Marty Whelan has always remained upbeat, with a determination for survival and an enthusiasm for life. In this warm and witty memoir, Marty takes inspiration from the songs that have had meaning in his life as he explores some big themes - love, heroes, family, friendship, music, childhood and spirituality - by way of Bruce Springsteen, David Bowie, Glen Campbell, Paul McCartney, The Three Degrees, Frank Sinatra and Madama Butterfly. Although he is one of Ireland's national treasures, Marty has never stopped being a fan himself. That's Life describes his many wonderful adventures, up close and personal with his own heroes: getting to bring his beloved mum to tea with her idol Norman Wisdom, forgetting how to speak on coming face-to-face with Al Pacino, entertaining Spike Milligan and dancing in the dark with Bruce Springsteen. And yet at the heart of the book is the story of the man himself, from growing up as an only child to his brief spell in a band (that couldn't write any songs), from dating in Dublin in the seventies to leaving his insurance job during lunch hour for his first broadcasting gigs on pirate radio, and on to the many family highs and occasional heartaches. A great man for the tangent - you'll find you have to stop off a few times for the odd joke - Marty will take you on a whirlwind journey through a life fully lived, but most of all a life filled with love, laughter, family and friendship. The gunning down of her mother in a Richmond street sets young Helen Stockton Defoe on a journey of self-discovery. A physical feature she had first noticed when she was nine years old has made her feel apart and she has quietly capitalized on the privilege, never mind the aura, which surrounds her. She lives in her head and fills her thoughts – and days – with science, horses and art. The more intently she begins to observe her remote, detached father, the more she learns about her place within the rarefied world she inhabits. Just when it appears she is at last becoming closer to him, it all falls apart as he coldly undermines her abiding passions, which causes her to question the identity she has created. Her rebellion leads her to Europe on a disturbing path dominated by chance and an evolving self-realization. As a result of these experiences she gains an ability to feel deeply, something from which she had always felt somehow excluded. This most unusual coming-of-age novel with its impressive characterization, humor and vivid sense of place takes its clever, if barely street-wise and increasingly obsessive, teenaged narrator on a physical as well as psychological journey towards an astute, hard fought, and deserved, maturity.

**Order now to read the long-awaited debut book from the huge TikTok sensation Evie Meg | This Trippy Hippie!* Hey guys, you might know me already from one of my social media channels where I talk about the highs and lows of living with Tourette's Syndrome. I've loved sharing those times with you and - as there are lots of things I can't fit into a 60 second video - I've decided to write a book! It's the full story of how I came to be diagnosed and how having Tourette's has changed my life. Writing it has given me an opportunity to talk about things I haven't felt ready to share before - for some reason it's easier to put down private things in written words than in a video! I talk about the many other illnesses I've been through and the dreams that it's affected - about my school days, relationships and my very lowest points - but I also talk about what I've managed to achieve in spite of all the obstacles. I hope it'll make you laugh and make you think, and empower you to realise that no matter what you're facing in life, there are always ways to deal with the challenges. It's also so important to me that people understand what life is like with a disability, so we can be compassionate towards each other. I've bared my soul in this book to hopefully help others to do this. I'm so excited (and just a little bit nervous) for you to read it! Evie Meg xxx*

All over Canada, from coast to coast, there is new life in the Christian church. In spite of declining numbers, every Christian tradition has stories to tell of new ministries, fledgling Christian communities, and fresh expressions of church springing up, sometimes in unlikely places. Here, seventeen authors with experience in areas such as church revitalization, innovative ministry, evangelism, and church planting, reflect on what they are seeing and how the lessons they have learned can guide us into ways of health and vitality. They tell us about immigrant churches and indigenous ministries, about youth research and environmental concerns, about churches in the city and churches in the country, about leadership and spirituality. Scattered throughout the book are ten exciting stories of new ministries and new churches, from different traditions and different parts of the country, all seeking to engage their communities with the Gospel. Does the church in Canada have a future? The answer these authors give is a resounding yes--green shoots can grow out of dry ground--if we are prepared to rise to the challenge and follow where the Spirit of God leads. This book is timely, comprehensive, challenging, and deeply encouraging.

Songs written for Disney productions over the decades have become a potent part of American popular culture. Since most Americans first discovered these songs in their youth, they hold a special place in one's consciousness. The Disney Song Encyclopedia describes and discusses hundreds of famous and not-so-famous songs from Disney films, television, Broadway, and theme parks from the 1930s to the present day. Over 900 songs are given individual entries and presented in alphabetical order. The songwriters and original singers are identified, as well as the source of the song and other venues in which it might have been used over the years. Notable recordings of the song are also listed. But most important, the song is described and what makes it memorable is discussed. This is not a reference list but a true encyclopedia of Disney songs. The book also contains a preface describing the criteria for selecting the songs, a glossary of song terms, a list of all the Disney songs and their sources, a songwriter's directory in which every song by each composer/lyricist is listed, a bibliography, a guide to recordings and DVDs of Disney productions, and an index of people and titles.
