Whether it's lively with citrus, or chilled to frosty perfection, nothing beats a perfectly mixed cocktail -- served in the right glass, at the right time, your signature drink can lift any mood. In The Ultimate Book of Cocktails, Dan Jones shows you how to turn out drinks like a pro with 100 of his best-loved concoctions. Loaded with all the essential know-how, including the basic kit for your home bar, and recipes for homemade syrups, sours and infusions, discover how to make classics like an Old Fashioned, Vodka Martini or the perfect Gin & Tonic to more adventurous mixed drinks such as The Rattlesnake, Rhubarb Mojito or the Pomegranate Sour. Featuring all the top spirit bases including gin, rum, vodka, tequila and everything in-between, alongside top tricks of the trade The Ultimate Book of Cocktails is an indispensable guide to making simple, delicious and highly creative cocktails from scratch.

As even a quick glance around a saddler shop or through a tack store catalog will show, the world of horse bits is both enormous and mystifying. The primary means of communicating with and controlling a horse, Western and English bits come in a bewildering assortment of materials, sizes, and shapes. Their descriptions—full-cheek snaffle, hackamore, high port, French link, Tom Thumb, spade, KK Ultra—are no less puzzling, and with new bits and refinements being produced every year, even the most experienced horseman must struggle to keep up with the state of the art. The Ultimate Book of Horse Bits will answer all your questions on the subject . . . and then some. Not only does the author and horsewoman Emily Esterson go into detail about all kinds of equine mouthware and how each is constructed, but she also explains how and why each works in the context of what the rider wants the horse to accomplish. Does your horse have difficulty bending or flexing? Suggestions and solutions to these and myriad other horse-and-rider problems will be found throughout these authoritative yet user-friendly pages. Whether a novice or expert horseman, every rider, trainer, or owner in any equestrian discipline will benefit from this book's wide-ranging and practical information for years to come.

Leading Experts Explain What Works, What Doesn't, and How CBD is Changing the World

The Art of War

Hemp has a rich history throughout many cultures and regions as an effective, natural cure to a variety of ailments that affect mammals and, more specifically, human beings. Clinical research conducted with hemp cannabinoids officially began in the 1940s in the United States, when CBD was first isolated from the molecular structure, despite ongoing international research proving the efficacy well before that time. Scientists and doctors from around the globe are heavily invested in the study of cannabinoids like CBD and their interaction with the human endocannabinoid system. In The Ultimate Book of CBD Remedies, Ryan Lewis has interviewed highly regarded pioneers, developers, and doctors focused on the benefits of CBD and cannabinoids, as well as exploring ancient medicinal practices that reference hemp as a “cure-all”—all the while seeking to re-evaluate and re-define the application to modern disorders. Highlighted are personal experiences of these notables and an easy to understand collection of information showing how CBD works with many chronic conditions, without the risk of significant side effects. Alongside the expected research and analysis, Lewis supplies readers with a solid basis upon which to select the right delivery system for themselves and their families. Whether that be the combination of topicals and tinctures for neurological/chronic pain or an “as needed” softgel regimen to encourage the return to an optimum state of homeostasis, consumers will understand how CBD interacts with their bodies and why immediate and lasting relief is often found with virtually no side effects. The author, Ryan Lewis, is the founder and CEO of Global Cannabinoids, one of the largest wholesale CBD and hemp derived cannabinoid producers, manufacturers, and distributors in the world. Lewis built the very first company to distribute American grown hemp and CBD oil and has been a pioneer in building the global supply chain for hemp cannabinoids that are now found in thousands of CBD branded products worldwide. Whether looking to CBD for debilitating pain, seizures, anxiety, depression and stress, or cancer treatment, The Ultimate Book of CBD Remedies dives into the myriad of health complications we face today and how hemp CBD has improved the lives of men, women, and children across the globe, both by treating conditions once thought to be untreatable with modern medicine and by keeping them away from harmful and dangerous opioids. All profits from The Ultimate Book of CBD Remedies will be donated to Children's Cancer Research, via SavingSophie.org

The Final Book In The Divinity Saga The Earth is breaking open. The wall between the Spirit and Human realm has begun to shatter, allowing darkness to seep in and converge like an epidemic. The End Has Begun... Even after setting everything in motion by attacking Morning Star first, Cam`ael finally has everything that he's ever wanted in his existence; Starling's love and a family. Cam`ael's happiness is short-lived when he's finally given the harsh and inexplicable truth about why Starling has always been such a unique Chosen. A Fiery Will... Shortly after giving birth, Starling begins to realize what must be done in order to save the world and the future of their children. But having made the the promise to Cam`ael of never sacrificing herself for him, how can she risk it? While the Elders and

other warriors see her as a traitor, her friends begin to see her as something more. In every battle and every war there will be sacrifices and betrayals, but if darkness prevails- light will cease to exist.

"Recipes include: triple-chocolate glazed donuts; rosemary and fig focaccia; lemon-lavendar shortbreads; pumpkin pie with oat-nut crust; and much more!"--Page 4 of cover.

The ultimate book of authentic lunar ceremonies, spells, mythos, and science, The Enchanted Moon will transform and inspire you. "With so many books out there on lunar lore written by people having questionable experience or authenticity, it is refreshing to see a book by someone who has actually practiced what she is preaching for decades. Thank you, Stacey, for keeping it real."

--David Garland, founder of Pagan Awareness Network Bestselling author Stacey Demarco reveals the alchemy of lunar science to show you how moon cycles work for magic, balance, health, and self-realization and how ancient and modern rituals will help you get the most power from those cycles. The Enchanted Moon includes authentic meditations or spells for every one of the 28 phases of the moon, crystal suggestions for each moon phase, gardening by the moon guidelines, and a handy 15-year chart of full, dark, and new moons for easy reference. Let the beliefs of the goddesses, gods, and sacred animals of the moon guide you toward a better life. This book also serves as a complementary reference book to the Queen of the Moon Oracle.

[Note: The most complete version of the big picture that eluded Einstein in his attempts to unveil a unified field theory can be found in the book, The Gravity Cycle, by the same author as this book. This book, Einstein Was Wrong!, was one of many approaches to the ideas that will shake the very foundations of physical science upon which we presently stand.] Modern Physics is built on an erroneous foundation. If we are to take physics to a new level where gravity can be explained from an atomic/quantum perspective, then someone must boldly say, "Einstein was wrong, but so was Newton." Because they both started with the same wrong premise, their theories of gravity were destined to fall short in any attempt to connect them to atomic/quantum processes. And the same false premise that stifled Einstein in his ability to connect "the movement of planets and stars with the tiniest subatomic particles" prevents modern physicists from explaining the fourth and final force from an atomic/quantum perspective. Alas, "...when one starts with a wrong premise, no amount of patching can right the problem." But all is not lost. By correcting Newton's mistake (the wrong premise), a new foundation for understanding the role of the atom in the momentum, relativity, and gravity of masses emerges in the form of two new theories: The Atomic Model of Motion (AMM) and The Galaxy Gravity Cycle (GGC). These two theories combine to paint the big picture of how atomic/quantum processes are involved in holding a galaxy together, keeping planets orbiting stars, and preventing people from floating off into space. This book is dedicated to Occam's razor.

The Art of War is the earliest known treatise on war and military strategy in the world. It is a systematic guide to strategy and tactics for common men, business leaders, rulers and commanders. It is regarded as one of the most influential philosophical works of Ancient China. Sun Tzu's teachings are brief yet elegant, simple yet philosophical and exceedingly pragmatic. The book has recently been endlessly reinterpreted, reinvented, and imitated. Sun Tzu was a Chinese military strategist, Taoist philosopher and general in the 6th century BCE. His insistence on the close relationship between political considerations and military policy greatly influenced many modern leaders and strategists, including Henry Kissinger. This deluxe edition covers The Art of War in three parts. Part 1 presents the best selling and most authentic translation of Sun Tzu so far, the translation of Lionel Giles. Part 2 includes an extensive introduction to the book written by Giles which focuses, among others, on the historical context of Sun Tzu's text, Sun Tzu's life and work, contemporary scholarship on Sun Tzu, and Sun Tzu's thoughts on war and violence. Part 3 includes summaries of all 13 chapters of the book, a brief history of ancient Chinese military before and after Sun Tzu, review questions for learners, a recommended bibliography of modern critical appreciations for further reading.

An ultimate guide to real-world manners by a respected etiquette coach incorporates guidelines that address the unique needs of today's world, including privacy, personal interaction with diverse cultures and using electronic devices during meals.

One mistake can shatter dreams and shape the future. Alexis knows this first hand. Even though her memory of that day is hazy, she has spent the last ten years trying to put it behind her. Armed with the knowledge that her career will be her only legacy, Alexis works night and day to prove that she is more than just her last name. It's not only that she doesn't have time for love. She doesn't have the heart for it. After all, there's no point in starting something you can't finish. When she meets Adam, she's drawn to him in a way even she can't deny. The film student is dark and brooding and strangely charming. He's the perfect distraction from her mundane life. And, as if fate is pushing them together, he seems to be around every corner. It's enough to almost make her entirely forget about her past and take a

chance. But Adam can recall every detail that she's forgotten. What she doesn't remember, he can't forget.

Alli-Kar, a white-hole portal from another universe, rains meteoroids onto the surface of the planet Kelanni. But the so-called "lodestones" behave according to different physical laws, transforming Kelanni's society. With the aid of the fearsome Keltar in their flying cloaks, the Kelanni are being put to forced labor to mine the lodestones. Shann, an orphan with a fiery disposition, witnesses a battle between a Keltar and a stranger bearing a similar flying cloak. She tracks down the stranger, learning of the technology behind the Keltars' power and joining him on a mission to free the slaves and cut off their supply of lodestones. Meanwhile Keris, a Keltar, is sent on a mission to track down the rebels. She is attacked by a flying creature and saved by the enigmatic Chandara. At their Great Tree, she learns that a mysterious "Prophet" is out to destroy the Kelanni people. Their only hope is a powerful instrument hidden in the distant past. Pursued by Keltar, the party will encounter bizarre creatures, ancient technologies and terrifying dangers. Finally, they must seek to cross a massive storm barrier in order to reach the other side of their world, where a world-shaking revelation awaits.

They'll learn: How to connect with their grandchild-online and off How to contribute to their grandchild's emotional development and boost their IQ The secret hidden stresses of being a grandparent- and how to deal with them The three things they should never say to their son- or daughter-in-laws And more!

In the future, the past will never be the same... By the end of the 25th Century few had as storied a career as Doctor J. Burke. An historian who used quantum superluminal teleportation to mingle among her forebears through twenty different decades making discoveries and recovering lost artifacts, she was the last of the Historical Archive Collection's 'big three' antiquinants. The physical effects of the profession had grounded jovial Ike Chernovich in old San Francisco, companion Braham Lilienthal had vanished without a trace three years before, and the indifference of the Minders from the future, who were best positioned to help, left Burke with a weary cynicism. Only the promise of a special mission, the brainchild of rookie archivist Nathan Rialto, brought her back again. It was Burke's specialty, the recovery of a glamorous old airliner from 1951 using a revolutionary new teleport, and in California as well. She would gather her trusty team of specialists, teach the rookie the ropes and perhaps contemplate a different kind of future afterward with Ike. From the moment it began it felt as if the whole mission had been created just for her...and that was only the beginning of her problems!

Puts the fun back into the fundamentals of being a modern man. This sleek guide combines the wit of Glenn O'Brien's How To Be a Man with the style and tone of cult fashion magazine Fantastic Man. With tips on everything from dating to careers, it will appeal equally to the twenty-something hipster as the established career man who has his sights set on that corner office. Combining quirky two-color illustrations with tips, facts, and famous quotes, The Modern Man Guide delivers serious advice in a witty, cheeky tone—more like talking to your cool best friend than listening to a lecture from your dad. Divided into six key areas of style, grooming, food and drink, work, leisure, and dating, it's a cheat sheet to everything the modern man needs to be his best. Topics like fashion, career advice, or choosing the right wine are often dry and boring. While other men's guides take themselves too seriously and end up turning the reader off, this book engages with its cheeky, irreverent voice.

Artists looking to build their skills and produce accomplished artworks will find this comprehensive drawing reference invaluable. Barrington Barber looks at the key areas "still life, figures, landscape, and portraits" and demonstrates the specific skills needed for each type of subject matter. His easy-to-follow approach makes him an ideal tutor for beginners as well as those who can already draw competently. Starting with the basics of drawing, the book moves on to deal with more challenging areas such as figures in action, symbolism in portraits, and imaginary landscapes.

Having survived the worst effects of the Civil War, the city of Memphis, battered but unbowed, finds itself facing a far more dangerous foe. It is invisible, lethal, and unstoppable: a

plague of yellow fever. It is the story of JP Mahoney, 14-year-old farm boy who dreams of escape from tedious chores and farmlife routine. It is the story of a courageous young woman, Ginnie Moon, onetime Confederate spy, who now operates a boarding house for men who have survived the war. And it is the story of Kevin O'Boyle, an embittered riverfront laborer, who blames the world for his troubles, and finds the crippled city his perfect prey. Several characters in the novel are actual historical figures, most notably Ginnie Moon, Judge "Pappy" Hadden, and Cap'n Jim Lee. Their actions, and those of the other characters, are entirely fictional. The plague, one of several to hit the city in the years following the war, was all too real.
